CHAIRMAN'S MESSAGE

Dear Shareholders,

The real estate industry contributes about 7.8% to India's GDP and is the second-largest employment generator after the IT industry, and is slated to grow at 30 per cent over the next decade. The Indian real estate market is expected to touch US\$ 180 billion by 2020. The housing sector alone contributes 5-6 per cent to the country's Gross Domestic Product (GDP). Real Estate as a matter of fact has always been an attractive investment option and with the additional support of the new rules and regulations by the government, it has resulted in significant growth in the residential and commercial Real Estate. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban accommodations.

GST - A seminal development

Putting together my thoughts for this message has coincided with a very positive development - the goods and services tax (GST) has been recently cleared by the Rajya Sabha. This is expected to benefit the real estate industry, though the impact will depend on the final GST rate. I do feel the enactment of this law will single-handedly solve many of the challenges faced by the real estate sector and help in pulling the sector out of its long slumber. While it is still too early to definitively predict the bill's impact on the real estate sector, we can expect the sector to benefit in the long term on account of rationalisation in tax-related compliance and slated gains in related sectors such as cement, steel, IT and BFSI (banking, financial services and insurance). Under GST, developers would see lesser burden of tax on input items like cement and steel, as tax credits would be available for set off at various stages. This can lead to lower construction costs for developers across all asset classes, which could likely be passed on to property buyers.

Mr. Sameer Gehlaut
Founder & Chairman

Our optimism stems from our commitment and belief

Although real estate has been through a difficult time; and the market is soft, yet it is a great time for players like us, who have the holding power. Notwithstanding the cyclical hiccups that the sector is going through, the way ahead for your company is only upwards. It's testament to my commitment to your company's long term future, and my strong conviction in its intrinsic strength and growth story that your company has, through its wholly owned step down subsidiary, Grapene Ltd, increased its stake in Indiabulls Properties Investment Trust Ltd (IPIT) from 47.51% to 54.95%. IPIT has bouquet of marquee commercial and residential properties underneath it, viz, One Indiabulls Centre, Indiabulls Finance Centre, and Sky range of residential projects at Mumbai. Accordingly, IPIT has become a majority owned subsidiary of the Company, and the financials of IPIT will be consolidated with financials of the Company from Q1 of the current financial year.

Outlook

Keeping in mind the factors like rising income level of people, people of all age group interested in Real Estate as an investment, predicted growth in the manufacturing and the service sectors, affordable housing taking pace etc., we at Indiabulls believe that the year of 2017 will revive the lost confidence and have a positive impact on the business environment of Real Estate. With the lowering down of the rentals and the increased foreign investments in India, we are already witnessing a hike in interest in commercial spaces in 2016.

With the government taking initiatives to re-build the trust in the consumers mind and ensuring that their investments are not misused, the Real Estate (Regulation & Development) Bill, will ensure that the developers avoid delays in the completion of the projects and may focus on the completion of the on-going projects before launching new ones.

CHAIRMAN'S MESSAGE (Contd.)

We can also expect to see a shift in the Real Estate sector on the backdrop of technological advancement. Technology is pushing change in space use, locations and demand levels at an accelerated pace. But it is now the norm to anticipate, strategize, and respond to new technologies before they are in mainstream. I am happy today that your company is ahead of the curve in embracing in new technology.

Performance overview

Given the overall slowdown in the sector for the last couple of years, your company too has not remained totally insulated from the current sentiment in the real estate market, but still braving the indifference surrounding the sector, and unnerved by the slowdown, we are aiming high with a perfect blend of caution, diligence and evaluation of all the potential opportunities. We have maintained our focus on speedy execution, maintaining a moderate level of debt, and keeping costs under control.

Key highlights: sustaining growth

The current economic environment is extremely challenging; competitive intensity remains high and is likely to increase. However, we remain committed to drive the business towards delivering consistent, competitive, profitable and responsible growth. I am happy to share some of the key highlights as follows:

- Total Revenues of ₹ 2,786 Crores in FY-16 vs. ₹ 2,737 Crores in FY-15
- Profit after Tax (PAT) ₹ 341 Crores in FY-16 vs. ₹ 273 Crores in FY-15
- Earnings per share (EPS) increased to ₹ 6.77 in FY-16 vs. EPS of ₹ 5.84 in FY- 15.
- Credit rating of AA-, highest amongst its real estate developer peers
- Gross Development Value of ongoing and planned projects is ₹ 40,015 Crores at the end of Q1 FY-17 (excluding IPIT's Suites & Forest – 7,711 cr).

With new project launches planned in the current year, the outlook for the ensuing year looks much brighter.

Land Bank: key to future profitability

The Company has fully paid land bank of 1,017 acres in key cities across India, of which more than 95% of the Land Bank is in high value super-metro cities – Mumbai (MMR), National Capital Region (NCR) and Chennai, and which is sufficient for proposed development over the next 7 years. In addition to the said land bank of 1,017 acres, the Company also possesses 2,588 acres of SEZ land in Nashik, Maharashtra.

Ongoing projects gained momentum

Undeterred by the current slowdown, your company has been steadily expanding its presence in Tier I and Tier II cities. Presently, your company is developing both residential and commercial projects mainly concentrating in metros and Tier I cities. Company's ongoing projects have 35.5 million square feet saleable area with a gross development value of approximately ₹ 33,919 Cr. Each project bears a stamp of thoughtful solutions, highest quality and an optimum mix of different categories and is a testimony of Company's diversified portfolio across price segments.

During the year under review, our various existing projects gained momentum, while we deferred any new launches given the tepid market conditions. Almost entire Phase 1 of our integrated housing project at Panvel, called 'Indiabulls Greens' has been sold out, with very little inventory left out of the existing stock. 'Golf', Savroli, positioned as a weekend second home for the life style oriented, is also generating enthusiastic response. With civil construction almost over for most buildings in phase 1, work on golf course has started. 'Blu', the most sought after project in Mumbai, is creating new benchmark in the city. A very high-end sales lounge and a show flat have been built at the site, which reflect the experience buyers will enjoy on possession. The project has been steadily appreciating in terms of price realization for all incremental sales. 'Chennai Greens', our flagship project down south, is an integrated township of over 50 acres. While Phase 1 of the project was delivered in May 2013, the long awaited CMDA approval for 2.5 FSI was received last year. This would permit the company to construct the 19 storey towers in Phase 2 of the project. We hope to start delivery of Phase 2 from mid 2017 and complete by late 2018.

CHAIRMAN'S MESSAGE (Contd.)

Besides the above, your company is also in the process of launching 22 Hanover Square, London, a unique luxury & residential project with total saleable area of 0.11 million sq ft with gross development value of approx. ₹ 5,720 Cr. While we have obtained the planning permission for this project, its formal launch is due next year.

Thrust on execution and expansion

I am glad to inform that your Company has completed its first residential project in the high end luxury segment in Mumbai. We have received Occupation Certificate for our “Sky” project in Lower Parel, Mumbai and handover process has started. Your company has recently entered into a Joint venture (JV) with Oricon Properties Pvt Ltd for development of 1.93 acres land parcel next to our Indiabulls “BLU” project in Worli. With this, Indiabulls “BLU” also gets direct access from Dr. E Moses Road, adjacent to Four Seasons Hotel, which greatly enhances the aesthetic appeal of this be-spoke residential complex in the ultra-luxury segment. Further, as per proposed DP Regulations 2034 released by Municipal Corporation of Greater Mumbai (MCGM), Base FSI for residential projects gets enhanced from 1.33 to 2.00. This will result in incremental value in projects such as BLU.

Our Credit rating – A reflection of sound financials

After the upgrade in its long term credit rating to AA-, from A+ last year, the Company has maintained its long term credit rating of AA-, amongst the highest rated listed companies in the Indian real estate industry peer group. The Company has also retained A1+ (A One Plus) rating for its short-term debt, which is the highest rating that can be assigned for short-term debt. The company reduced its net debt by 16% during FY16 and is one of the least levered companies amongst its real estate peers in the country, with a net gearing of 0.58.

Before I conclude, I wish to place on record the sincere dedication and hard work of our employees, which has enabled your company to hold its head high even in these challenging times. I am also grateful to our bankers, business associates and shareholders for their support and cooperation.

Thank you!

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

ECONOMIC AND INDUSTRY REVIEW

The macro economic conditions in the country have improved during the last year. The government has taken a number of initiatives aimed at ramping up the growth momentum that is starting to build and further enhance India's position as the bright spot in the global economy. Central Government along with Reserve Bank of India (RBI) has announced several legislative and policy reforms, which have resulted in improvements on the macro-economic front, reflecting in acceleration of India's GDP growth last year. The Government has taken various measures and initiatives to revive the economy by reforming policy environment, improving the ease of doing business, accelerating the project related approvals, easing FDI policies, pushing hard for infrastructure, spending and creating smart cities. RBI's monetary policy has also reflected accommodative stance, having lowered the interest rates through the last year and also taken various steps to improve liquidity in the economy.

Last year also turned out to be favourable, with positive factors such as moderating inflation, strengthening fiscal situation and improving external current balance. All this has helped India to emerge as the world's fastest growing economy, and is expected to remain so in the medium term.

The real estate sector in India assumed greater prominence with the liberalization and growth of the economy. At present, the real estate

construction and infrastructure sectors are playing a crucial role in the overall development of India's core infrastructure and is one of the most globally recognized sectors. The Indian real estate market has become one of the most preferred destinations in the Asia Pacific. The real estate sector comprises four sub sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth of the corporate environment and the demand for office space as well as urban and semi-urban dwelling units. It is also expected that this sector will incur more non-resident Indian (NRI) investments in both the short to medium term and the long term.

While India's real estate sector has witnessed a slowdown in the last couple of years, and the sector continued to face a challenging environment due to lackluster demand scenario especially for residential properties, there are some positive signs, with improving sales and also reversal in the interest rate cycle towards lower effective interest rates on home loans for customers. The government has already indicated its desire to revive the investment cycle and to empower the bureaucracy to ensure successful execution of its plans, like "Housing for all by 2022", "Affordable Housing", and "100 Smart Cities Plan". These initiatives are likely to create tremendous demand in Real Estate, Infrastructure sector, and specifically in residential development. The Government of India has also relaxed the norms to allow Foreign Direct Investment (FDI) in the construction development sector. This move should boost affordable housing projects and smart cities across the country. With all these government initiatives the real estate sector is expected to be improved rapidly.

Further The Securities and Exchange Board of India (SEBI) has notified the regulations that will govern real estate investment trusts (REITs) and infrastructure investment trusts (InvITs). This move will enable easier access to funds for cash-strapped developers and create a new investment avenue for institutions and high net worth individuals, and eventually ordinary investors.

In a significant development for the sector, the much awaited Real Estate (Regulation and Development) Act has been notified. It will provide a uniform regulatory platform in the real estate sector which is currently mired in black money, red tapism and cartelization. The regulator, to be set up in every state, will ensure that private developers get all their projects registered with it before sale commencement and only after obtaining all necessary clearances/approvals. There is also the requirement to mandatorily escrow 70% of the project collections towards its construction. The Act will definitely impact some developers, however it is likely to be a positive differentiator for the organized players, like Indiabulls Real Estate Limited, who already have financial discipline institutionalized, launch projects only after all requisite approvals in place and have a track record of timely completion of projects.

Real Estate has always been an attractive investment option in India and with the additional support of the new rules and regulations by the government, it is bound to result in significant growth in the residential and commercial Real

MANAGEMENT DISCUSSION AND ANALYSIS REPORT (Contd.)

Estate. Increase in business opportunities and labor migration has led to rising demand for commercial and housing space. Demand for commercial property is being driven by the country's economic growth whereas urbanization and growing household income is driving demand for residential real estate.

OUTLOOK

The Indian real estate market is expected to touch US\$ 180 billion by 2020. The housing sector alone contributes 5-6 per cent to the country's Gross Domestic Product (GDP). In the period FY08-20, the market size of this sector is expected to increase at a Compound Annual Growth Rate (CAGR) of 11.2 per cent. Retail, hospitality and commercial real estate are also growing significantly, providing the much-needed infrastructure for India's growing needs.

With the government initiatives to re-build the trust in the consumers by regulating the real estate sector with the Real Estate (Regulation & Development) Act, it will be a great time for the Company, which has the execution capabilities and track record of delivery.

Some of the new projects envisaged to be launched in coming years, mainly –Indiabulls Mint, Indiabulls Thane, Indiabulls Imperial, Sector 106, Gurgaon; and 22 Hanover Square, London, will generate significant cash flows for the Company.

Consolidation of land bank - building momentum to the growth

With the continued acquisition of quality land in preferred locations at competitive prices, the Company has sufficient land to meet its development plans. The Company acquires land adjoining existing land parcels which would build momentum for the growth of its existing successful projects. The Company is also acquiring new low cost land parcels with good future potential.

Unsold inventory of existing projects renders visibility on future cash-flows and revenue

Significant inventory of existing projects, including the freshly launched new phases in some of the large projects, has been sold. These projects are generating very good response. Focus on execution and timely delivery

On time delivery is our key driver for success of all our projects. The Company has a track record of timely and fast delivery, subject of course to constraints of external factors like delay in approvals and uncertainty in state government's policies.

Focus on results

The Company believes that in following this strategy, it will be able to maximize its earnings per share and return on capital.

Monetize non-core assets

The Company shall monetize its small non-core land assets as and when opportunity arises at good market value and the Company believes that in following this strategy, it will be able to maximize its earnings per share and return on capital.

Focus on super metros

More than 95% of the Company's portfolio is in Super-Metro Cities i.e. Mumbai Metro Region, National Capital Region and Chennai. Both the residential and the commercial projects are located in the areas of high growth with regards to infrastructure, connectivity and have high future potential. The Company will continue to focus on the areas which have high demand for both the residential and commercial.

Acquisition of clear title lands for clear title projects

The Company focuses on acquisition of clear title lands, which allows timely execution and speedy delivery of its project. The speedy and efficient execution of our projects remains a key priority. \$900 million worth lands were acquired through government auctions. While the Company currently has sufficient, fully paid for, land bank for the next 5-7 years of development, we will continue to look for any strategic opportunity to acquire such clear title lands in future also to retain customers'/investors' confidence on our timely delivery without any delay.

Annexure A to the Independent Auditor's Report of even date to the members of Indiabulls Real Estate Limited, on the consolidated financial statements for the year ended March 31, 2016.

1. In conjunction with our audit of the consolidated financial statements of the Indiabulls Real Estate Limited ("the Holding Company") and its subsidiaries, (the Holding Company and its subsidiaries together referred to as "the Group") and its associate as of and for the year ended March 31 2016, we have audited the internal financial controls over financial reporting (IFCoFR) of the Holding Company, its subsidiary companies and its associate company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary companies and its associate company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the respective company's business, including adherence to the respective company's policies, the safeguarding of the respective company's assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the IFCoFR of the Holding Company, its subsidiary companies and its associate company as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the

assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the IFCoFR of the Holding Company, its subsidiary companies and its associate company as aforesaid.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company, its subsidiary companies and its associate company, which are companies incorporated in India, have, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

9. We did not audit the IFCoFR insofar as it relates to certain subsidiary companies, which are companies incorporated in India, whose financial statements reflect total assets (after eliminating intra-group transactions) of ₹60,617,981,185 as at March 31, 2016, total revenues (after eliminating intra-group transactions) of ₹7,526,262,217 and net cash flows amounting to ₹266,646,683 for the year ended on that date; and associate company, which is a company incorporated in India, in respect of which, the Group's share of net loss of ₹11,408,540 for the year ended March 31, 2016 has been considered in the consolidated financial statements. Our report on the adequacy and operating effectiveness of the IFCoFR for the Holding Company, its subsidiary companies and its associate company, which are

companies incorporated in India, under Section 143(3)(i) of the Act insofar as it relates to the aforesaid subsidiaries, and associate, which are companies incorporated in India, is solely based on the corresponding reports of the auditors of such companies. Our opinion is not modified in respect of the above matter with respect to our reliance on the work done by and the reports of the other auditors.

The accounting policies have been consistently applied by the Group and its associate companies. Subsidiary companies acquired and held by the parent or its subsidiaries for disposal in the near future are excluded from the consolidated financial statements.

The consolidated financial statements are combined on a line-by-line basis by adding together the book values of items of assets, liabilities, income and expenses, after eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses in accordance with Accounting Standard 21 (AS 21) 'Consolidated Financial Statements' as specified under section 133 of Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

For this purpose, the share in net assets is determined on the basis of the latest financial statements of such subsidiaries, prior to the acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Goodwill and capital reserve are presented on net basis in financial statements.

The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its net assets as of the date of disposal is recognised in the consolidated statement of profit and loss being the profit or loss on disposal of investment in subsidiary.

(v) Minority interests

Minority interest represents the amount of net assets attributable to minority shareholders at the date on which investment in a subsidiary is made and its share of movements in net assets since that date. Any excess consideration received from minority shareholders of subsidiaries over the amount of net assets attributable to the minority shareholders on the date of investment is reflected under reserves and surplus.

The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the exchange rate between the reporting currency and the foreign currency at the date of the transaction to the foreign currency amount.

Conversion

Foreign currency monetary items are converted to reporting currency using the closing rate. Non-monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise except those arising from investments in non-integral operations.

Exchange differences arising on monetary items that in substance forms part of the net investment in a non-integral foreign operation are accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognized in the statement of profit and loss.

The items in the statement of profit and loss are translated at the average exchange rate (that approximates the actual exchange rates) during the year. The differences arising out of the translation are accumulated as foreign currency translation reserve, in the balance sheet until the disposal of the net investments at which time they are recognised as income or as expenses.

xii) Income taxes

Current tax

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations.

Minimum alternate tax ('MAT') credit entitlement is recognised as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Deferred tax

Deferred tax resulting from timing differences between taxable income and accounting income is accounted for at the current rate of tax or substantively enacted tax rates as at reporting date, to the extent that the timing differences are expected to crystallize.

"Deferred tax assets are recognized where realization is reasonably certain whereas in case of carried forward losses or unabsorbed depreciation, deferred tax assets are recognized only if there is a virtual certainty supported by convincing evidence that such deferred tax assets will be realized. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date.

xiii) Provisions and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made. Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Group or;
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

xiv) Preliminary expenses

Preliminary expenses are adjusted against securities premium account (net of tax) to the extent of balance available and thereafter, the balance portion is charged off to the statement of profit and loss, as incurred.

xv) Share issue/buyback expenses

Share issue/buyback expenses are adjusted against securities premium account to the extent of balance available and thereafter, the balance portion is charged off to statement of profit and loss, as incurred.

xvi) Unbilled receivables

Unbilled receivables represents revenue recognised based on percentage of completion method as per policy on revenue, over and above the amount due as per the payment plans agreed with the customers.

xvii) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Annexure B

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the financial statements of Indiabulls Real Estate Limited ("the Company") as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting (IFCoFR) of the Company as of that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have

obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

ii Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities, if any, on the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's knowledge of current events and actions, actual results could differ from those estimates and revisions, if any, are recognized in the current and future periods.

3 Significant accounting policies

a Fixed assets

Recognition and measurement

Tangible assets are stated at cost; net of tax or duty credits availed, less accumulated depreciation and impairment losses, if any. Cost includes original cost of acquisition, including incidental expenses related to such acquisition and installation.

Intangible assets are stated at cost, net of tax or duty credits availed, less accumulated amortization and impairment losses, if any. Cost includes original cost of acquisition, including incidental expenses related to such acquisition.

Depreciation and amortization

Till the year ended March 31, 2014, depreciation rates prescribed under Schedule XIV of Companies Act, 1956 were used for charging depreciation. From the year ended March 31, 2015, schedule XIV has been replaced by Schedule II of Companies Act, 2013. Schedule II of Companies Act, 2013 prescribed the useful lives of fixed asset which, in many cases, are different from lives prescribed under Schedule XIV.

Depreciation on fixed assets is provided on the straight-line method, computed on the basis of useful life prescribed in Schedule II to the Companies Act, 2013, on a pro-rata basis from the date the asset is ready to put to use subject to adjustments arising out of transitional provisions of Schedule II.

Intangible assets are amortized over the expected useful life from the date the assets are available for use, as mentioned below:

Description of asset : Computer softwares

Estimated life : 4 years

Capital work-in-progress

Fixed assets under construction are disclosed under capital work-in-progress. Advances paid towards acquisition or construction of fixed assets are included as capital advances under long-term loans and advances.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED MARCH 31, 2016 (contd.)

b Inventories

Land other than that transferred to real estate projects under development is valued at lower of cost or net realizable value.

Real estate project under development includes cost of land under development, internal and external development costs, construction costs, and development/construction materials, borrowing costs and related overhead costs and is valued at lower of cost or net realizable value.

c Investments

Investments are classified as non-current or current investments, based on management's intention. Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments.

Current investments are stated at lower of cost and fair value determined on an individual investment basis. Non-current investments are stated at cost less provision for diminution in their value, other than temporary, if made in the financial statements.

d Revenue recognition

- i) Income from real estate projects advisory services is recognized on accrual basis. Marketing and lease management income are accounted for when the underline contracts are duly executed, on accrual basis when the services are completed, except in cases where ultimate collection is considered doubtful.
- ii) Interest income is recognized on time proportion basis taking into account the amount outstanding and rate applicable.
- iii) Dividend income is recognized when the right to receive payment is established, at the balance sheet date.
- iv) Profit/(loss) on sale of investment is recognized on the date of its sale and is computed as excess of sale proceeds over its carrying amount as at the date of sale.
- v) Revenue from real estate projects under development is computed on the percentage of completion method. Revenue is recognised in the financial year in which the agreement to sell or application forms (containing salient terms of agreement to sell) is executed, on the percentage of completion method which is applied on a cumulative basis in each accounting year to the current estimate of contract revenue and related project costs, when the stage of completion of each project reaches a significant level which is estimated to be at least 25% of the total estimated construction cost of the respective projects. Revenue from real estate projects under development for all projects commenced on or after April 1, 2012 or project where the revenue is recognized for the first time on or after the above date, is recognized in accordance with the Revised Guidance Note issued by the Institute of Chartered Accountants of India ('ICAI') on "Accounting for Real Estate Transactions (Revised 2012)."

The estimates of the saleable area and costs are reviewed periodically and effect of any changes in such estimates is recognized in the period such changes are determined. However, when the total project cost is estimated to exceed total revenues from the project, the loss is recognized immediately.

e Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets in accordance with notified Accounting Standard 16 "Borrowing costs". A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss as incurred.

f Impairment of assets

At each reporting date, the Company assesses whether there is any indication that an asset may be impaired, based on internal or external factors. If any such indication exists, the Company estimates the recoverable amount of the asset or the cash generating unit. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss. If, at the reporting date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

j Foreign currency transactions

Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the exchange rate between the reporting currency and the foreign currency at the date of the transaction to the foreign currency amount.

Conversion

Foreign currency monetary items are converted to reporting currency using the closing rate. Non monetary items denominated in a foreign currency which are carried at historical cost are reported using the exchange rate at the date of the transaction; and non-monetary items which are carried at fair value or any other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Exchange differences

Exchange differences arising on monetary items on settlement, or restatement as at reporting date, at rates different from those at which they were initially recorded, are recognized in the statement of profit and loss in the year in which they arise except those arising from investments in non-integral operations.

Exchange differences arising on monetary items that in substance forms part of the Company's net investment in a non-integral foreign operation are accumulated in a foreign currency translation reserve in the financial statements until the disposal of the net investment, at which time they are recognized in the statement of profit and loss.

In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that the Company will pay normal income tax during the specified period.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED MARCH 31, 2016 (contd.)

Deferred tax

Deferred tax resulting from timing differences between taxable income and accounting income is accounted for at the current rate of tax or substantively enacted tax rates as at reporting date, to the extent that the timing differences are expected to crystallize.

Deferred tax assets are recognized where realization is reasonably certain whereas in case of carried forward losses or unabsorbed depreciation, deferred tax assets are recognized only if there is a virtual certainty supported by convincing evidence that such deferred tax assets will be realized. Deferred tax assets are reviewed for the appropriateness of their respective carrying values at each reporting date.

l Provisions, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made. Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or,
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

m Earnings per equity share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.
