Forward-looking statement

In this Annual Report, we have disclosed forward looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised, although we believe we have been prudent in our assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward looking statement, whether as a result of new information, future events or otherwise.

VALUE THROUGH VISION

We have an interesting story to share with our readers.

The story of what we can achieve, despite external challenges.

In a year marked by subdued global growth and sub-optimal economic performance at the domestic front, we continued to create greater stakeholder value through the power of our vision.

We have enhanced capacities, secured raw material sources, reinforced quality focus and satisfied discerning global customers with a competitive price-value proposition during the year.

The result is a sterling business performance and an encouraging road ahead. Our vision has enabled us to emerge as one of the holistic Lead players in the secondary market globally.

We are
co-creating value
through vision.

Vision pushes our boundaries further

At Gravita India, we are a dynamic and diversified organization engaged in secondary Lead manufacturing and Poly Propylene Plastic products.

We have an enriched product portfolio and wide customer base in multi-fold segments like Lead acid battery, PVC stabilizers, Pigments, Radiation Protection applications and Constructions.

We aspire to be the preferred Lead supplier to discerning global customers. We focus on manufacturing Lead through competitive price-value propositions and customised products. The increasing demand of Lead as a metal in several downstream sectors has enabled us to emerge as one of the leading secondary manufacturers of Lead, nationally and internationally.

We have nine manufacturing plants located in India, Sri Lanka and African zone with a total installed capacity of 78,800 MTPA. We endeavour to achieve top-tier product quality standard by perfecting the science of manufacturing.

Chairman's communiqué

Dear Shareholders,

I am happy to share my thoughts with you at a time, when the global economy is on the mend and the Indian economy is likely to see better days, with a committed and decisive government at the Centre. Although the general business landscape was not very encouraging in FY 2013-14, Gravita India continued to create stakeholder value through eco-friendly, quality-driven, cost-competitive and innovative business practices. Such an approach has enabled us to emerge as one of the fastest growing secondary Lead manufacturers in India.

The demand for Lead scrap recycling has gone up owing to the requirement of downstream industries.

I am pleased to report that in FY 2013-14, we have successfully transitioned ourselves as a holistic Lead player with business interests ranging from Lead manufacturing to turnkey projects and technology solutions to trading.

Industry scenario

The FY 2013-14 was a tough year for the Lead metal market. The demand growth of the metal was below the industry expectation. In addition, challenges of the automobile industry and emergence of alternative battery technologies further weakened the demand. The global Lead metal mining industry is expected to grow by 4-5%, with the developing economies being the primary contributors, with a 6-7% growth prospect, going forward.

India's Lead battery demand is expected to remain strong in the next five years. The country's battery market is experiencing demand from various downstream sectors, thereby providing immense opportunities to manufacturers. The steadily growing automobile sector and the increasing need for back-up power are driving the lead-acid battery market.

Secondary Lead market

The demand for Lead scrap recycling has gone up owing to the requirement of downstream industries. The Ministry of Environment and Forests

has issued the Battery (Management and Handling) Rules, 2001 in order to organise and streamline the collection and recycling of scrap Lead batteries in an eco-friendly manner. Across the world many countries have framed similar rules/legislations to ensure a cleaner environment. Producing Lead through this route requires around one-third of the energy needed to extract it from its ores.

Milestones

Gravita crossed many milestones during FY2013-14 and that has enhanced our confidence to push our boundaries further. The highlight of the year was the commercialization of our Gujarat plant from August 2013, which contributed an additional production of 4188 MTPA. The result was encouraging by any measure: our overall revenues surged by 29%, reaching ₹ 517.18-crore turnover, including 16% increase contributed by Gujarat unit (against ₹ 399.58 crore in 2012-13). Our net profit also scaled up at ₹ 21.32 crore (against ₹ 19.04 crore in 2012-13).

While the Gujarat plant added to our topline, it also made a significant contribution to our bottomline by providing logistical advantage for both exports and imports. This was possible owing to the plant's proximity to the port. It is pertinent to mention,

in this context, that our exports in the total revenue pie increased to 49%, compared to 19% five years ago. We are now exporting to 37 countries globally. Our Gujarat plant enhanced export revenue significantly.

Strategic initiatives

Today Gravita is one of the leading secondary Lead manufacturers in the country, with several competitive advantages. We have undertaken several strategic measures to create stakeholder value for the long term. First, the license to import scrap batteries gives us easy accessibility to raw material. While we sourced scrap batteries as raw material from domestic sources earlier, we now avail scrap from more than 15 countries globally. Second, sourcing of raw material through import gives us cost benefit, as international prices are cheaper than domestic sources. Finally, the Gujarat plant entails savings (around 80%) in logistical cost, with proximity to port being a critical contributor to the bottomline.

but also reduced our operational cost structure. Besides, we are continuously expanding our product portfolio across business segments to address diverse customer needs. This enriched product portfolio and enhanced capacities will significantly bolster our revenues, going forward. We have a revenue visibility of around 1 billion dollar in the next five to seven years.

As we take confident strides in our journey towards achieving our objective, we will require support of our entire team, management, Board of Directors and the wider community of stakeholders.

Outlook

Going ahead, we plan to expand our capacity from 78,800 MTPA to 91,000 MTPA by the end of current fiscal. This targeted expansion will be achieved by setting up greenfield capacities as well as acquiring companies that match our business profile. Our vision to create more capacities is backed by the increasing demand from international markets. While our exports have increased at a CAGR of 36% in the last five years, it today stands at ₹ 250.90 crore as on 31st March, 2014.

With greater availability of raw materials from across the world, we have felt the need to enhance our capacity from 35,400 MTPA in 2010 to 78,800 MTPA. This has not only improved our efficiency,

Meeting new customers

We have always been close to high-growth markets, catering to changing aspirations of customers. Our level-next strategy is to strengthen our position in markets where we already exist, and to expand our presence further to emerging pockets of growth.

We are globally recognised for our customer-first approach and industry-leading innovations.

From the setting up of manufacturing facilities in locations where raw material is readily available to selling our products in markets with high demand, we are leveraging opportunities and creating more value for customers.

Futuristic products

Over the years, we have been offering products and solutions that fulfil our customer aspirations and also help address environmental concerns. Our eco-friendliness is reflected in our primary business objective of recycling Lead products, which saves energy and helps conserve finite mining resources.

Customised offerings

Our product profile comprises over 42 products, which address the expectations of discerning customers and help strengthen their trust. This element of trust has strengthened our brand recall globally in the secondary Lead market.

Manufacturing division

The primary business segment of Gravita, the manufacturing vertical is involved in manufacturing Lead through secondary methods. With more than 9 plants (In India and abroad) (2 new plants are in process of being established) and operations spanning in 5 countries, we have maintained our leadership in terms of market share as well as quality. Our manufacturing processes include making Lead through Lead smelting (99.97% purity), Lead refining and other innovative processes. With the primary plant located in Jaipur, we have subsidiaries in India located at Jammu, Kathua, both in the State of J & K, Gandhidham (Gujarat), a Unit at Mahindra SEZ (Jaipur) and another in Phagi (Jaipur). Abroad we have manufacturing plants at Ghana, Mozambique, Senegal and Sri Lanka.

Our international presence is strengthened by Gravita Netherlands B.V. in Netherlands, Gravita Global Pte Ltd in Singapore, Gravita Nicaragua S.A. in Nicaragua, Gravita Trinidad and Tobago Limited in Port of Spain, Trinidad and Tobago. In Nicaragua and Port of Spain the setting up of manufacturing plants is in process. We also have a joint venture agreement with the Best Group of Saudi Arabia for setting up a manufacturing unit of Lead and Lead Alloys in Saudi Arabia.

Value through vision

Holistic business philosophy

At Gravita, we are strengthening a multi-line business with cross synergies to create long-term value. This holistic approach has made us a respected brand in the secondary Lead market.

Quality and operational excellence

Over the years, we have been recognized for quality and customization in our products and services. The focus on quality and operations has been a fundamental driver to our leadership and growth. While we possess top-tier domestic and international quality certifications, our eco-friendly operations vindicate our capability of being a responsible manufacturer. We recycle Lead products to manufacture Lead, helping conserve a precious natural resource.

Leverage capabilities globally

In each of our three business segments, we have stepped up investments to enhance capacities and capabilities. Catering to critical downstream customers for various industries, our enhanced scale in terms of production capacity and product spectrum will support our long-term growth objective.

Focus on key clients

Our client-focused business approach forms a strong foundation to our sustained leadership. Over the years, we have developed a long-term relationship with many national and international customers, who appreciate our value-added products and services. We follow this practice across our three business verticals – manufacturing, turnkey projects and trading.

Turnkey Projects

We are among the few Indian companies to facilitate and fabricate Lead recycling plants, which include smelting and refining plants. Our ability to construct and establish refining plants, pollution control equipment and battery-breaking systems in an environmentally sustainable manner, makes us a distinguished player in our space. Having set up eco-friendly smelting, refining and alloying solutions for niche global customers, we are recognized for our:

- High asset uptime
- High conversion efficiency
- Low manufacturing cost
- Customised solutions
- Globally benchmarked quality control

Trading

At Gravita, we leverage our knowledge, experience, expertise and global presence to trade in Lead, Lead products, metals, chemicals, ferrous scrap and minerals. With our dedicated business-to-business (B2B) portal, we provide a reliable platform to customers from across the world to buy or sell commodities.

Management Discussion and Analysis

Overview of the global economy

The financial year 2013-14 witnessed a gradual recovery of the global economy, although the pace has tended to be uneven and prone to uncertainties. At the same time, there has been a distinct change in the pattern of the recovery. While earlier it was fuelled by the emerging markets and developing economies, the impetus to growth has come from the developed economies this year. The US economy has performed encouragingly as evidenced by upbeat housing and employment related data, although the Euro region showed signs of subdued recovery. On the other hand, emerging markets like Brazil and India witnessed a

slowdown in economic growth. China, on the other hand, is focusing on a more balanced growth strategy, which will augur well for the country, going forward.

Overall, however, the growth in advanced economies is likely to result in greater export oriented opportunities for emerging ones, thereby leading to a more balanced scenario. The global economy is estimated to grow at an average rate of 3.7% in 2014 compared to the 3% growth rate recorded in 2013. At the same time, emerging economies like China and India are also expected to grow owing to structural policies supporting investments in those regions.

Overview of the Indian economy

Although the Indian economy progressed at a breakneck speed till a few years ago, the pace of growth has been considerably slackened in recent years. In fact, the country witnessed sub-5 percent growth during the last two years owing to declining infrastructure and corporate investments, weak consumer sentiments, persistent inflation and policy uncertainty. The situation was further complicated by the withdrawal of the US Quantitative Easing programme that led to significant rupee depreciation and widening of the country's current account deficit. In fact, the economy has experienced a consistent decline in GDP growth rate over the last two years, leading to an alarming volatility in the inflow of foreign investments.

The current state of the economy makes it essential for the government to implement a robust and feasible plan of action for its revival. The fact that India is one of the largest emerging economies in the world and has demonstrated the ability to grow rapidly in the past is largely expected to work in its favour. The country is likely to register a 5%

growth rate in the GDP during FY 2015 compared to the current 4.7% growth witnessed in FY 2014, subject to a normal monsoon and positive policy reforms.

The formation of a new government at the centre is likely to result in a host of measures to boost the economy, with a specific focus on power, infrastructure and education sectors. The new government is expected to adhere to the path of fiscal consolidation and strengthen the economic fundamentals in the process. To boost the growth of the manufacturing sector, the government has proposed setting up mega industrial zones in different parts of the country. The National Manufacturing Policy aims to increase the share of the manufacturing sector within the national GDP from the current 16% to 25-26% by 2025 (Source: VDMA Newsletter, Indian, Ausgabe, April 2014).

Industry Snapshot

Global overview

The global demand for refined Lead metal is slated to increase by 4.4% in 2014 to 11.73 million tons. In fact,

The formation of a new government at the centre is likely to result in a host of measures to boost the economy, with a specific focus on power, infrastructure and education sectors

the International Lead and Zinc Study Group forecasts demand to exceed supply in the global markets for Lead in 2014. This growth is basically expected to be driven by China where usage is forecasted to increase by 7.4% in 2014. In 2013, China accounted for 45.2% of total global Lead usage.

Following a rise of 7.5% in 2013, global Lead mine production is expected to increase by a further 5.2% to 5.66 million tons in 2014 – the result of higher output in Australia and China. In 2014, world production of refined Lead metal is forecasted to rise by 4.3% to 11.68 million tons (Source: ILZSG, April, 2014).

Lead in the global market is traded as soft Lead, animated Lead, Lead alloys and copper-base scrap (Source: Commodity online, December 2013). However, the global Lead industry is confronting numerous challenges that include smelter shutdowns in various regions. This can be attributed to a number of reasons such as tougher environmental regulations, the struggling automotive sector and the emergence of alternative battery technologies.

Indian overview

India has witnessed a steady increase in the production and demand for Lead. According to data from the World Bureau of Metal Statistics, refined Lead production and consumption in India rose by 6.7% and 6%, respectively, in 2013 (Source: World Bureau of Metal Statistics).

The domestic demand for Lead is largely driven by the consumption of Lead acid batteries in various sectors, especially the automotive, telecom and the newly expanding solar power sectors. Moreover, the likely improvement of the Indian economic scenario later this year should boost the prospects of certain segments, including the automotive sector. This should translate into improved demand for Lead (that is a primary component of automobile batteries) and a subsequent increase in prices during the latter half of 2014 (Source: Business Line).

The country's Lead production is estimated to be around 0.75 million MT, with more than 85% of it being attributable to secondary sources. However, the lack of any major Lead ore deposit is the main constraint for enhancing domestic Lead production. This has also been the reason why India imports nearly 25% of its Lead requirement every year. The domestic Lead industry is characterised by the presence of only a few players in the primary market segment.

Industry Drivers

Lead battery market in India

The Lead acid battery industry in India that comprises automobile, sealed maintenance free (SMF), tubular and Lead acid batteries, has been registering an annual growth rate of 25% on a year-on-year basis. While China still remains the world's largest battery market, India is expected to register the strongest growth in sales in 2014. Indian manufacturers are now gearing up to meet the increased global demand for locally made batteries, which will subsequently Lead to enhanced demand for Lead.

Solar industry

The solar energy potential in India is immense due to the country's convenient location near the Equator. India receives nearly 3000 hours of sunshine every year, which is equivalent to 5000 trillion kWh of energy. Rajasthan and Gujarat are the regions with maximum solar energy potential. This, coupled with the availability of barren land, increases the feasibility of setting up solar energy systems in these regions. Considering India's solar potential, the government has rolled out various policies and subsidy schemes to encourage growth of the industry.

The solar industry is one of the major demand drivers for the increase in Lead demand in India. The application of Lead acid batteries as power storage device creates demand for Lead in this sector.

Telecom industry

The telecom sector in India experienced rapid growth over the past decade on account of the country's liberalisation policies, structural reforms and market competition. Much of this growth can, however, be attributed to the unprecedented growth in mobile telephony as the number of domestic mobile subscribers grew at an astounding rate. At the same time, the telecom industry has immense growth potential, given that the teledensity in the country is just half of the average teledensity recorded in developed nations.

The growth in the telecom sector comprises welcome news for the domestic Lead industry as the application of Lead acid batteries as power storage device leads to enhanced demand for Lead. This is primarily due to the fact that every telecom tower is associated with the Lead acid battery bank to ensure uninterrupted power supply.

II. Technology Absorption

FORM B

1. Research & Development (R & D)

(i) Specific Areas in which R&D was carried out by the Company

The company is having an ongoing process of research and development where regular studies and exploration is carried out for introduction of new products and minimisation of by- production of waste during various processes. Our Company has taken another step ahead by developing new technology on process equipment to get the maximum efficiency from the machine and to reduce the processing cost.

The company has developed in-house specific machines for the development of the projects. Some of them are:

- **Fully Automatic Ingot Machine:** The Company has implemented Fully Automatic Ingot Machine which has helped in deriving following benefits:

(a) **Increase in the production capacity** of the machine by way of increasing the number of moulds in the machine which in turn reduces the Lead discharge time and material holding time from the pot. These reductions help us in saving energy and its effects can be remarkably seen in our process cost of material and quality of Products.

(b) **Reduction of manpower cost and increase in the symmetric quality product**, by introducing the automatic arrangement of punching/markings on the ingots along with hammering on the ingots at the discharging end of the machine which ultimately saves time and labour cost.

- **Terminal Removing Machine:**

This machine is introduced for the first time in our Group. By using this machine we can remove battery terminals from battery cover which

enables the company in avoiding manual work on the battery cover. This makes the process of separation of the terminal lugs easy and fast, resulting in saving of manpower cost while ensuring safe & environment friendly process.

(ii) **Benefits of the Developments:**

- (a) Reduce the processing cost
- (b) Improve in the quality with symmetric products
- (c) Reduce the time of production
- (d) Increase the production
- (e) Lucrative for the buyers and new partners

(iii) **Future Action Plans:**

- (a) **Automatic Stack-strapping Machine:-** This machine gets ingot from Ingot casting machine and collect it to the stacking place and strap it automatically, which reduces the manpower cost.
- (b) **Automatic Dross Removing Machine:-** This machine helps in refining and alloying furnace for removing of dross automatically which is another step towards safety direction and it also increases our productivity in respect of time and energy in addition to saving in process time.

(iv) **Expenditure on R&D: Nil**

2. Technology Absorption, Adaption and Innovation

(i) **Efforts made & benefits Derived towards improvement in technology of machines and equipment's**

The Company has adopted following new technology during the year under review:

- **Lead Shot Plant:** The Company has imported a plant for manufacturing of Lead shots. Lead shot are used for specific steel products, sports applications and nuclear or atomic energy sector.
- **Lead Sheet and Lead Powder Plant:** During the year under review, the Company has through its in-house research and development designed two new plants for production of Lead Sheets and Lead Powder. Lead Sheets and Lead Powder are value added products to cater to the needs of niche market segments such as market of Nuclear, Health Care, Aerospace, Oil and Gas, Ship Building. Lead being a dense material enables it to be most suitable for being used as radiation protection applications.

Lead powder is also used for Radio logical Medical protection products, Industrial X-ray shielding and for Pigment Industries.

Independent Auditors' Report

To The Members Of
Gravita India Limited

Report on the Financial Statements

We have audited the accompanying financial statements of **GRAVITA INDIA LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2014, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards notified under the Companies Act, 1956 ("the Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs) and in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material mis-statement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material mis-statement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid

financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2014;
- (b) in the case of the Statement of Profit and Loss, of the profit of the Company for the year ended on that date; and
- (c) in the case of the Cash Flow Statement, of the cash flows of the Company for the year ended on that date.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government in terms of Section 227(4A) of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
- 2. As required by Section 227(3) of the Act, we report that:
 - (a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement comply with the Accounting Standards notified under the Act (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 in terms of General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs).
 - (e) On the basis of the written representations received from the directors as on March 31, 2014 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2014 from being appointed as a director in terms of Section 274(1)(g) of the Act.

Annexure to the Independent Auditors' Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Having regard to the nature of the Company's business / activities / results during the year, clauses (x), (xiii), (xiv), (xviii), (xix) and (xx) of paragraph 4 of the Order are not applicable to the Company.

(i) In respect of its fixed assets:

- (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The fixed assets were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanation given to us, no material discrepancies were noticed on such verification.
- (c) The fixed assets disposed off during the year, in our opinion, do not constitute a substantial part of the fixed assets of the Company and such disposal has, in our opinion, not affected the going concern status of the Company.

(ii) In respect of its inventories:

- (a) As explained to us, the inventories were physically verified during the year by the Management at reasonable intervals.
- (b) In our opinion and according to the information and explanations given to us, the procedures of physical verification of inventories followed by the Management were reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) In our opinion and according to the information and explanations given to us, the Company has maintained proper records of its inventories and no material discrepancies were noticed on physical verification.

(iii) In respect of loans, secured or unsecured, granted by the Company to companies, firms or other parties covered in the Register maintained under Section 301 of the Companies Act 1956, according to the information and explanations given to us:

(A) The Company has granted the following loans :

(₹ in Lacs)

Name	Relationship	Loan granted during the year	Maximum amount outstanding during the year	Amount as at 31st March 2014
Gravita Ghana Limited	Subsidiary	Nil	724.74	488.31

Corporate Information

Gravita India Limited ('the Company') is a public company incorporated under the provisions of the Companies Act, 1956. Its business operations currently encompass three business areas – Lead processing, International Trade and dealings in Lead and Turn-key Lead Recycling projects. The Company carry out Smelting of Lead Battery Scrap / Lead Concentrate to produce Secondary Lead Metal, which is further transformed into Pure Lead, Specific Lead Alloy, Lead Oxides (Lead Sub-Oxide, Red Lead, and Litharge) and Lead products like Lead Sheets, Lead Powder, Lead Shot, etc. The Company has Lead processing unit at Jaipur (Rajasthan) and Bhuj (Gujarat) and Turn-key Lead Recycling unit at SEZ, Jaipur (Rajasthan).

Note 1 : Significant Accounting Policies

a) Basis of Accounting and Preparation of Financial Statements

The Financial Statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards notified under Section 211(3C) of the Companies Act, 1956 ("the 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("the 2013 Act") in terms of General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act/ 2013 Act, as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

b) Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

c) Inventories

Inventories are valued at the lower of cost (moving weighted average basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges

in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and where applicable, Excise Duty.

d) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

e) Cash and Cash Equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

f) Fixed Assets (Tangible / Intangible)

Fixed assets are carried at cost less accumulated depreciation / amortisation and impairment losses, if any. The cost of fixed assets comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use.

Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately under other current assets.

Capital work-in-progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

g) Depreciation and Amortisation

Depreciation on the fixed assets is provided under straight-line method as per the rates prescribed in Schedule XIV to the Companies Act, 1956 except on the following categories of assets:

Notes forming part of the Financial Statements (Contd.)

for the year ended 31st March 2014

- (i) Assets costing up to ₹ 5,000/- are fully depreciated in the year of acquisition.
- (ii) Leasehold land and leasehold improvements are amortised over the primary period of lease.
- (iii) Intangible assets are amortised over their useful life of 5 years.

h) Revenue Recognition

Revenue from Operations:

- Sale and operating income includes sale of products, services, profit from partnership firms, income from job work services, export incentives, etc.
- Sale of goods are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer. Sales include excise duty but exclude sales tax and value added tax.
- Sale of services are recognised when services are rendered and related costs are incurred.
- Profit from partnership firms which are in the same line of operation is considered as operating Income.
- Revenue from job work services is recognised based on the services rendered in accordance with the terms of contracts.
- Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Other income:

- Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable.
- Dividend income is recognised when right to receive is established.
- Rent income is booked as per terms of contracts.

i) Foreign Currency Transactions and Translations Initial Recognition:

Foreign currency transactions are recorded at the rates of exchange prevailing on the date of the transactions.

Translations:

Monetary Items denominated in foreign currencies at the year end are restated at year end rates. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date

of the transactions; and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

Treatment of Exchange Differences:

Exchange differences arising on the settlement of monetary items or on re-statement of the company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or expense in the Statement of Profit and Loss.

j) Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

k) Employee Benefits

Employee benefits include Provident Fund, Employee State Insurance Scheme, Gratuity Fund and compensated absences.

Defined Contribution Plans

The Company's contribution to Provident Fund and Employee State Insurance Scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined Benefit Plans

For defined benefit plans in the form of Gratuity Fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Notes forming part of the Financial Statements (Contd.)

for the year ended 31st March 2014

Short-Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-Term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled.

l) Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis.

m) Earnings Per Share

Basic earnings per share is computed by dividing the Profit After Tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share. Potential dilutive equity shares are deemed to be converted as at the beginning of the

period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

n) Employee Share Based Payments

Equity settled stock options granted under "Gravita Employee Stock Option Scheme" are accounted for under the intrinsic value method as per the accounting treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines, 1999, issued by Securities and Exchange Board of India and the Guidance Note on Employee Share based Payments issued by the Institute of Chartered Accountants of India.

o) Borrowing Costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

p) Taxes on Income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Notes forming part of the Financial Statements (Contd.)

for the year ended 31st March 2014

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

q) Impairment of assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or

may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss.

r) Provisions and Contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

s) Derivatives and Commodity Hedging Transactions

In order to hedge its exposure to foreign exchange and commodity price risks, the Company enters into forward, option, and other derivative financial instruments. The Company neither holds nor issues any derivative financial instruments for speculative purposes.

Derivative financial instruments are initially recorded at their fair value on the date of the derivative transaction and are re-measured at their fair value at subsequent balance sheet dates.

t) Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Defined Benefit Plan

The employees' gratuity fund scheme managed by a Trust namely 'Gravita India Limited Employees Gratuity Trust' is a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognised in the same manner as gratuity.

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary.

The expected rate of return on plan assets is determined considering several applicable factors, mainly the composition of plan assets held, assessed risks, historical results of return on plan assets and the Company's policy for plan assets management.

Note 44 :

During the year, the Excise Department, under the provisions of Section 12F of Central Excise Act, 1944, has seized past books and records of the Company as well as current period upto 10th February 2014 on account of non-payment of an insignificant amount towards alleged inventory shortage during a search at Company's plant situated at Phagi, Jaipur. In this regard, no show cause notice has been received by the Company till date. The management is confident that the matter will get resolved in due course and no material liability would arise on resolution of this matter.

Note 45 :

The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under sections 92-92F of the Income Tax Act, 1961. Since the law requires such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation of domestic and international transactions with the associated enterprises during the financial year and expects such records to be in existence latest by 30th November 2014. The Management is of the opinion that its international and domestic transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

Note 46 :

Previous year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classification / disclosure.

Independent Auditors' Report

To

The Board of Directors of

GRAVITA INDIA LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **GRAVITA INDIA LIMITED** (the "Company"), its subsidiaries and partnership firms (the Company, its subsidiaries and partnership firms constitute "the Group") and its share of the profit of its associate for the year ended March 31, 2014, which comprise the Consolidated Balance Sheet as at March 31, 2014, the Consolidated Statement of Profit and Loss and the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

The Company's Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material mis-statement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material mis-statement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material mis-statement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditors' Report

Opinion

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of the reports of the other auditors on the financial statements of the subsidiaries and unaudited financial statements of an associate referred to below in the Other Matter paragraph, the aforesaid consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) in the case of the Consolidated Balance Sheet, of the state of affairs of the Group as at March 31, 2014;
- (b) in the case of the Consolidated Statement of Profit and Loss, of the profit of the Group for the year ended on that date; and
- (c) in the case of the Consolidated Cash Flow Statement, of the cash flows of the Group for the year ended on that date.

Other Matters

We did not audit the financial statements of subsidiaries, Gravita Exim Limited, Gravita Ghana Limited., Gravita Global Pte. Limited, Gravita Mozambique LDA, Noble Build Estate Private Limited, Gravita Energy Limited, Gravita Infra Private Limited, Navam Lanka Limited and partnership firms, M/s. Gravita Metals, M/s. Gravita Metal Inc., M/s. Gravita Infotech (formerly known as M/s Gravita Technomech) and M/s. Gravita Technomech LLP (dissolved w.e.f. August 8, 2013), whose financial statements reflect Total Assets (net) of ₹

9,117.60 Lacs as at March 31, 2014, Total Revenues (net) of ₹ 23,230.74 Lacs and Net Cash Inflows (net) amounting to ₹ 13.64 Lacs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and partnership firms, is based solely on the reports of the other auditors.

The consolidated financial statements also include the Group's share of net profit of ₹ 1.77 Lacs for the year ended March 31, 2014, in respect of an associate Pearl Landcon Private Limited, whose financial statements have not been audited by their auditors and in so far as it relates to the amounts and disclosures included in respect of this, is based solely on the basis of unaudited financial statements prepared by the management of associate company for the preparation of the consolidated financial statements of the Company.

Our opinion is not qualified in respect of this matter.

Notes forming part of the Consolidated Financial Statements

for the year ended 31st March 2014

Corporate Information

Gravita India Limited ('the Company') is a public company incorporated under the provisions of the Companies Act, 1956. The consolidated financial statements relate to the Company, its subsidiary companies, subsidiary partnership firms and Group's share of profit / loss in its associate (together 'the Group'). Its business operations currently encompass three business areas – Lead processing, International Trade and dealings in Lead and Turn-key Lead recycling projects. The Group carry out smelting of Lead battery Scrap / Lead Concentrate to produce Secondary Lead Metal, which is further transformed into Pure Lead, Specific Lead Alloy, Lead Oxides (Lead Sub-Oxide, Red Lead, and Litharge) and Lead products like Lead Sheets, Lead Powder, Lead Shot, etc. The Group has Lead processing Units in India and abroad.

Note 1 : Significant Accounting Policies

a) Basis of Accounting and Preparation of Consolidated Financial Statements

The Consolidated Financial Statements of the group have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards notified under Section 211(3C) of the Companies Act, 1956 ("the 1956 Act") (which continue to be applicable in respect of Section 133 of the Companies Act, 2013 ("the 2013 Act") in terms of General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs) and the relevant provisions of the 1956 Act / 2013 Act, as applicable. The consolidated financial statements have been prepared on accrual basis under the historical cost. The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the previous year except for change in the accounting policy for translation of foreign operations from non-integral to integral foreign operations as more fully described in Note 39.

b) Principles of Consolidation

The consolidated financial statements have been prepared on the following basis:

- (i) The financial statements of the subsidiary companies and associates used in the consolidation are drawn upto the same reporting date as that of the Company i.e., 31st March 2014. These have been consolidated based on latest available financial statements.
- (ii) The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group

transactions and resulting unrealised profits or losses, unless cost cannot be recovered.

- (iii) The consolidated financial statements include the share of profit / loss of the associate company which have been accounted for using equity method as per Accounting Standard 23 "Accounting for Investments in Associates in Consolidated Financial Statements". Accordingly, the share of profit/ loss of the associate company (the loss being restricted to the cost of investment) has been added to / deducted from the cost of investments.
- (iv) The excess of cost to the Group of its investments in the subsidiary companies over its share of equity of the subsidiary companies, at the dates on which the investments in the subsidiary companies were made, is recognised as 'Goodwill' being an asset in the consolidated financial statements and is tested for impairment on annual basis. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investments of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Reserves & Surplus', in the consolidated financial statements.
- (v) Goodwill arising on the acquisition of a foreign entity is translated at the closing rate in case of non-integral operations and by using the exchange rate at the date of the investment in case of integral operations. Capital reserve is translated at the exchange rate on the date of investment and should not be restated as at the year end, even if the operations are non-integral.
- (vi) Minority Interest in the net assets of the consolidated subsidiaries consist of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movements in their share in the equity, subsequent to the dates of investments. Net profit / loss for the year of the subsidiaries attributable to minority interest is identified and adjusted against the profit after tax of the Group in order to arrive at the income attributable to shareholders of the Company.
- (vii) The difference between the cost of investment in the associate and the share of net assets at the time of acquisition of shares in the associate is identified in the consolidated financial statements as Goodwill or Capital reserve as the case may be.
- (viii) Goodwill arising on consolidation is not amortised but tested for impairment.

Notes forming part of the Consolidated Financial Statements

- (x) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's separate financial statements.

c) Use of Estimates

The preparation of the consolidated financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the consolidated financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

d) Inventories

Inventories are valued at the lower of cost (moving weighted average basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges

in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and where applicable, excise duty,

e) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated based on the available information.

f) Cash and Cash Equivalents (for Purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

g) Fixed Assets (Tangible / Intangible)

Fixed assets are carried at cost less accumulated depreciation / amortisation and impairment losses, if

Notes forming part of the Consolidated Financial Statements

any. The cost of fixed assets comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Gains or losses arising from de-recognition of fixed assets are measured as the difference between net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of Profit and Loss when the asset is derecognised.

Fixed assets retired from active use and held for sale are stated at the lower of their net book value and net realisable value and are disclosed separately under other current assets.

Capital work-in-progress:

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

h) Depreciation and Amortisation

Depreciation on the fixed assets is provided under straight-line method as per the rates prescribed in Schedule XIV to the Companies Act, 1956 or at rates permissible under applicable local laws so as to charge off the cost of assets to the Statement of Profit and Loss over their estimated useful life, except on the following categories of assets:

- (i) Assets costing up to ₹5,000/- are fully depreciated in the year of acquisition.
- (ii) Leasehold land and leasehold improvements are amortised over the primary period of lease.
- (iii) Intangible assets are amortised over their useful life of 5 years.

i) Revenue Recognition

Revenue from Operations:

- Sale and operating income includes sale of products, services, profit from partnership firms, income from job work services, export incentives, etc.
- Sale of goods are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer. Sales include excise duty but exclude sales tax and value added tax.

- Sale of services are recognised when services are rendered and related costs are incurred.
- Profit from partnership firms which are in the same line of operation is considered as operating income.
- Revenue from job work services is recognised based on the services rendered in accordance with the terms of contracts.
- Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Company: Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Consolidated Statement of Profit and Loss.

Integral foreign operations: Exchange differences arising on settlement / restatement of short-term foreign currency monetary assets and liabilities of the Company's integral foreign operations are recognised as income or expense in the Consolidated Statement of Profit and Loss.

Non-integral foreign operations: The exchange differences relating to non-integral foreign operations are accumulated in a "Foreign currency translation reserve" until disposal of the operation, in which case the accumulated balance in "Foreign currency translation reserve" is recognised as income / expense in the same period in which the gain or loss on disposal is recognised.

k. Investments

Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

l. Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund and compensated absences.

Defined Contribution Plans

The group's contribution to provident fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined Benefit Plans

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Consolidated Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits

are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Short-Term Employee Benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-Term Employee Benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date less the fair value of the plan assets out of which the obligations are expected to be settled.

m. Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the consolidated statement of Profit and Loss on a straight-line basis.

n. Earnings Per Share

Basic earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit

Notes forming part of the Consolidated Financial Statements

for the year ended 31st March 2014 (Contd.)

after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

o. Employee Share Based Payments

Equity settled stock options granted under "Gravita Employee Stock Option Scheme" are accounted for under the intrinsic value method as per the accounting treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines, 1999, issued by Securities and Exchange Board of India and the Guidance Note on Employee Share based Payments issued by the Institute of Chartered Accountants of India.

p. Borrowing Costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the consolidated statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction of the qualifying asset upto the date of capitalisation of such asset are added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the consolidated statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

q. Segment Reporting

The Group identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Group. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Inter-segment revenue is accounted on the basis of transactions which are primarily determined based on market / fair value factors.

Revenue, expenses, assets and liabilities which relate to the Group as a whole and are not allocable to segments on reasonable basis have been included under 'unallocated revenue / expenses / assets / liabilities.'

r. Taxes on Income

Current tax is determined on the basis of taxable income and tax credits computed for each of the entities in the Group in accordance with the provisions of applicable tax laws of the respective jurisdictions where the entities are located.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the entity will pay normal income tax. Accordingly, MAT is recognised as an asset in the Consolidated Balance Sheet when it is probable that future economic benefit associated with it will flow to the entity.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred

Notes forming part of the Consolidated Financial Statements

for the year ended 31st March 2014 (Contd.)

tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the entity has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

The Group offsets deferred tax assets and deferred tax liabilities, and advance income tax and provision for tax, if it has a legally enforceable right and these relate to taxes on income levied by the same governing taxation laws.

s. Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the consolidated statement of Profit and Loss.

t. Provisions and Contingencies

A provision is recognised when group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the consolidated financial statements.

u. Derivatives and Commodity Hedging Transactions

In order to hedge its exposure to foreign exchange and commodity price risks, the group enters into forward, option, and other derivative financial instruments. The group neither holds nor issues any derivative financial instruments for speculative purposes.

Derivative financial instruments are initially recorded at their fair value on the date of the derivative transaction and are re-measured at their fair value at subsequent balance sheet dates.

v. Operating Cycle

Based on the nature of products / activities of the group and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

Defined Benefit Plan

Within the Group, the employees' gratuity fund scheme of the parent company is funded and managed by a Trust namely 'Gravita India Limited Employees Gratuity Trust' and gratuity scheme of its subsidiaries is not funded. The scheme is defined as a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation for leave encashment is recognised in the same manner as gratuity.

Expected rate of return on plan assets (per annum) ###	8.00%	8.00%	N/A	N/A

The discount rate is based on the prevailing market yields of Government of India securities as at the balance sheet date for the estimated term of the obligations.

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the actuary.

The expected rate of return on plan assets is determined considering several applicable factors, mainly the composition of plan assets held, assessed risks, historical results of return on plan assets and the Company's policy for plan assets management.

Note 38:

During the year, the Excise Department, under the provisions of Section 12F of Central Excise Act, 1944, has seized past books and records of the Company as well as current period upto 10th February 2014 on account of non-payment of an insignificant amount towards alleged inventory shortage during a search at Company's plant situated at Phagi, Jaipur. In this regard, no show cause notice has been received by the Company till date. The management is confident that the matter will get resolved in due course and no material liability would arise on resolution of this matter.

Note 39:

Hitherto the Company was considering its subsidiaries as 'Non-Integral Operations' for the purpose of consolidation. However, on a review thereof, the Management is of the view that all its subsidiaries (other than Navam Lanka Limited, Srilanka) since inception are in the nature of 'Integral Operations' in terms of the criteria specified in Accounting Standard 11 'Effect of Changes in Foreign Exchange Rates'. On giving effect thereof, the impact of necessary adjustments amounting to ₹ 312.29 Lacs has been disclosed as 'Prior-Period Adjustment' in the Consolidated Statement of Profit and Loss.

Note 40:

Previous year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classification / disclosure.

ANNEXURE TO THE NOTICE

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

The following Explanatory Statement sets out all the material facts relating of the Special Business mentioned in the accompanying Notice:

ITEM NO. 5

Taking into account the future finance requirements for growth plans and expansion programmes being contemplated and undertaken by the Company and to cater to the Working Capital needs, a fresh resolution is proposed providing that, in addition to the Company's existing borrowings, the Directors may, for and on behalf of and for the purpose of the Company, borrow further sums of money amounting in the aggregate to a sum not exceeding ₹ 200 crores.

In terms of provisions of Section 180(1) (c) of the Companies Act, 2013, the Board of Directors of the Company cannot, except with the consent of the Company in a general meeting, borrow moneys apart from temporary loans obtained from the Company's bankers in the ordinary course of business, in excess of the aggregate of the paid-up capital and its free reserves. The members at their Extraordinary General Meeting held on 29th February 2009 had accorded their consent under Section 293(1)(d) of the Companies Act, 1956 as applicable at that time, to the Directors for borrowing moneys up to a limit of ₹ 100 crores (apart from temporary loans obtained from the Company's bankers in the ordinary course of business).

Hence the members are requested to accord their approval for revising the borrowing power limit of the Board from ₹ 100 crores to ₹ 200 crores.

The Directors, recommend passing of the relevant Special Resolution as mentioned at item No 5 of the Notice.

None of the Directors, Key Managerial Persons of the Company and their relatives may be deemed concerned or interested in the resolution.

ITEM NO. 6, 7 and 8

The Company had, pursuant to the provisions of Clause 49 of the Listing Agreement entered with the Stock Exchanges, appointed Mr. Yogesh Mohan Kharbanda, Mr. Dinesh Kumar Govil and Mr.

Arun Kumar Gupta as Independent Directors at various times, in compliance with the requirements of the clause.

Pursuant to the provisions of section 149 of the Act, which came in to effect from April 1, 2014, every listed public company is required to have at least one-third of the total number of directors as Independent Directors, who are not liable to retire by rotation.

The Nomination and Remuneration Committee has recommended the appointment of these directors as Independent Directors for a period of 5 years from the date of this Annual General Meeting i.e. from 2nd August, 2014 up to 1st August, 2019. A notice under section 160 of the Companies Act, 2013 has been received from a member proposing them as a candidate for the office of Director of the Company.

Mr. Yogesh Mohan Kharbanda, Mr. Dinesh Kumar Govil and Mr. Arun Kumar Gupta, non-executive directors of the Company, have given a declaration to the Board that they meet the criteria of independence as provided under section 149(6) of the Act. In the opinion of the Board, each of these directors fulfil the conditions specified in the Act and the Rules framed thereunder for appointment as Independent Director and they are independent of the management.

In compliance with the provisions of Section 149 read with Schedule IV of the Act, the appointment of these directors as Independent Directors is now being placed before the Members for their approval.

The terms and conditions of appointment of the above Directors shall be open for inspection by the Members at the Corporate

Office of the Company during normal business hours on any working day.

None of the Directors, Key Managerial Persons of the Company, and their relatives except Mr. Yogesh Mohan Kharbanda, Mr. Dinesh Kumar Govil and Mr. Arun Kumar Gupta and their relatives may be deemed concerned or interested in the resolution.

ITEM NO. 9

The provisions of Section 188 of Companies Act, 2013 governs the following Related Party Transactions which requires prior approval of Board of Directors and in case the Paid-up Share Capital of the Company is ₹ 10 crores or more, the prior approval of Shareholders by way of Special Resolution:
