EXPLANATORY STATEMENT

(Pursuant to Section 102(1) of the Companies Act 2013)

The following statement sets out the material facts relating to the special business mentioned in the Notice.

Item no. 4

As per Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the appointment of Cost Auditor shall be made by the Board of Directors on such remuneration as may be ratified by the Shareholders. Under the Companies (Audit and Auditors) Rules, 2014, the Board while appointing the cost auditor is required to approve the remuneration payable to them and the remuneration so approved by the Board shall be ratified by the Shareholders.

Accordingly, as recommended by the Audit Committee, the Board of Directors has appointed M/s R.M. Bansal & Co., Cost Accountants (Firm Registration Number 000022), as Cost Auditor of the Company for the FY 2025-26 at a remuneration of ₹62,000/- (Rupees Sixty Two Thousand Only) (Inclusive of out of pocket expenses) plus applicable taxes.

The ratification of the shareholders is sought by passing an ordinary resolution as set out at item no. 4 in the notice.

The Board of Directors recommends the passing of the Resolution contained in this **Item no.4** of the accompanying Notice.

None of the Directors or Key Managerial Personnel or their relatives have any concern or interest, financial or otherwise, in passing of the said resolution, other than the extent of their holding in the securities of the Company, if any.

Item no. 5

In accordance with the provisions of Section 204 and other applicable provisions of the Companies Act, 2013, read with Rule 9 of the Companies (Appointment & Remuneration of Managerial Personnel) Rules, 2014 (including any statutory modification(s) or re-enactment(s) thereof, for the time being in force) (**"the Act"**), every listed company and certain other class of companies as prescribed under the Act, is required to annex a Secretarial Audit Report, issued by a Practicing Company Secretary, to their Board's report, prepared under Section 134(3) of the Act.

Furthermore, pursuant to recent amendments to Regulation 24A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 (**"SEBI (LODR) Regulations"**), every listed entity shall undertake a Secretarial Audit by a Secretarial Auditor who shall be peer reviewed company secretary and be appointed/re-appointed with the approval of the shareholders in its AGM, on the recommendation of the Board of Directors. The appointment of Secretarial Auditor in case of Secretarial Audit firm cannot be more two terms of 5(Five) consecutive years.

Accordingly, the Board of Directors of the Company at its meeting held on May 20, 2025 has recommended to appoint M/s P.C. Jain & Company, Company Secretaries, (Peer Reviewed Firm bearing FRN P2016HR051300), who has been selected through open tender floated on GeM Portal on Quality & Cost Based Selection (QCBS) basis, as Secretarial Auditor of the Company to conduct the secretarial audit of the Company at annual professional fees of Rs. 41,999/- plus applicable taxes (Rupees Forty One Thousand Nine Hundred and Ninety Nine Only) for a period of 5 (Five) consecutive years, commencing from the financial year 2025-26 till 2029-30. M/s P C Jain & Co. Company Secretaries is a well-established & recognized firm (FRN: P2016HR051300) of Company Secretaries in Delhi NCR. The firm is having experience of more than 25 years in the professional services of Company Secretaries. The firm has experience in conducting the secretarial audit of listed CPSE and private sector companies.

M/s P.C. Jain & Company, Company Secretaries, has provided its consent to act as the Secretarial Auditors of the Company and has confirmed that the proposed appointment, if made, will be in compliance with the provisions of the Act and the SEBI (LODR) Regulations.

The Board of Directors recommends the passing of the Resolution contained in this **Item no.5** of the accompanying Notice.

None of the Directors or Key Managerial Personnel or their relatives have any concern or interest, financial or otherwise, in passing of the said resolution, other than the extent of their holding in the securities of the Company, if any.

Except Dr. Jaganath Chennakeshava Murthy Jodidhar, none of the Directors or Key Managerial Personnel or their relatives have any concern or interest, financial or otherwise, in passing of the said Resolution other than the extent of their holding in the securities of the Company, if any.

The Board of Directors recommends the passing of the Resolution contained in this **Item no.7** of the accompanying Notice as a Special Resolution.

Item no. 8

Being NBFC, your Company borrow/raises funds through both domestic and international sources to meet its fund requirement for on-lending towards the Renewable Energy & Energy Efficiency projects and other corporate purpose. As on March 31, 2025, the total loan portfolio of the Company is ₹ 76,281.65 Crore and total outstanding borrowings from various domestic and international sources is ₹ 64,740.31 Crore.

Section 180(1)(c) of the Companies Act, 2013 read with the Companies (Management and Administration) Rules, 2014, provides that the Board of Directors of the Company shall not borrow money (apart from temporary loans obtained or to be obtained from the Company's bankers in the ordinary course of business) in excess of the paid-up capital and free reserves of the Company without the approval of the shareholders of the Company. In this regard, the Members of the Company in its 15th Extra-ordinary General Meeting held on July 31, 2017 had granted powers to the Board of Directors of the Company for the borrowing subject to the limit that the total amount so borrowed by the Board shall not at any time exceed 15 times of IREDA's net worth.

The Board of Directors of the Company in its meeting held on May 20, 2025 has accorded approval to modify/increase the overall borrowing limit of the Company for an amount of up to ₹1,50,000 Crore, subject to the approval of the Shareholders.

The Board of Directors recommends the passing of the Resolution contained in this **Item no.8** of the accompanying Notice as a Special Resolution.

None of the Directors or Key Managerial Personnel or their relatives have any concern or interest, financial or otherwise, in passing of the said resolution, other than the extent of their holding in the securities of the Company, if any.

Item no. 9

In terms of the provisions of Section 180(1)(a) read with Section 110 of the Companies Act, 2013 and Rules made thereunder, a company cannot sell, lease or otherwise dispose off the whole or substantially the whole of the undertaking or undertakings of the company without the consent of the Shareholders of the Company by way of a Special Resolution through Postal Ballot. However, in terms of MCA Notification dated February 9, 2018, any item of business required to be transacted by means of postal ballot, may be transacted at a general meeting by a company which is required to provide the facility to members to vote by electronic means. In terms of the provisions of Companies Act, 2013 and SEBI (LODR) Regulations, 2015, your Company is providing the facility to its members to enable them to vote on resolutions at the general meeting, by electronic means. Accordingly, the Special Resolution for creation of mortgage and/or charge on all or any of the movable and/or immovable properties of the Company, is proposed to be passed in this AGM.

In order to facilitate securing the borrowing made by the Company, it would be necessary to create charge hypothecation, mortgage on any movable and/or immovable properties/assets of the Company wheresoever situated, both present and future and on the whole or substantially the whole of the undertaking or the undertakings of the Company in favour of any banks, financial institutions, hire purchase/lease companies, body corporate or any other persons.

The Board of Directors of the Company in its meeting held on May 20, 2025 approved the above proposal and recommends the passing of the Resolution contained in this **Item no.9** of the accompanying Notice as a Special Resolution.

None of the Directors or Key Managerial Personnel or their relatives have any concern or interest, financial or otherwise, in passing of the said resolution, other than the extent of their holding in the securities of the Company, if any.

GUIDELINES FOR INSTITUTIONAL SHAREHOLDERS (“CUSTODIAN / CORPORATE BODY/ MUTUAL FUND”)

STEP 1 – Custodian / Corporate Body/ Mutual Fund Registration

- Visit URL: <https://instavote.linkintime.co.in>
- Click on “Sign Up” under “Custodian / Corporate Body/ Mutual Fund”.
- Fill up your entity details and submit the form.
- A declaration form and organization ID is generated and sent to the Primary contact person email ID (which is filled at the time of sign up). The said form is to be signed by the Authorised Signatory/ Director/ Company Secretary of the entity & stamped and sent to insta.vote@linkintime.co.in.
- Thereafter, Login credentials (User ID; Organisation ID; Password) is sent to Primary contact person’s email ID. (You have now registered on InstaVote).

STEP 2 – Investor Mapping

- Visit URL: <https://instavote.linkintime.co.in> and login with InstaVote Login credentials.
- Click on “Investor Mapping” tab under the Menu Section.
- Map the Investor with the following details:
 - ‘Investor ID’ –
 - NSDL demat account – User ID is 8 Character DP ID followed by 8 Digit Client ID i.e., IN00000012345678
 - CDSL demat account – User ID is 16 Digit Beneficiary ID.
 - ‘Investor’s Name - Enter Investor’s Name as updated with DP.
 - ‘Investor PAN’ - Enter your 10-digit PAN.
 - ‘Power of Attorney’ - Attach Board resolution or Power of Attorney.*

*File Name for the Board resolution/ Power of Attorney shall be – DP ID and Client ID or 16 Digit Beneficiary ID. Further, Custodians and Mutual Funds shall also upload specimen signatures.
- Click on Submit button. (The investor is now mapped with the Custodian / Corporate Body/ Mutual Fund Entity). The same can be viewed under the “Report Section”.

STEP 3 – Voting through remote e-voting

Voting can be done by any of the following methods, during the remote e-voting period:

Method 1 - Votes Entry

Visit URL: <https://instavote.linkintime.co.in> and login with InstaVote Login credentials.

- Click on “Votes Entry” tab under the Menu section.
 - Enter the “Event No.” for which you want to cast vote.
- Event No. can be viewed on the home page of InstaVote under “On-going Events”.

- c) Enter “16-digit Demat Account No.” for which you want to cast vote.
- d) Refer the Resolution description and cast your vote by selecting your desired option ‘Favour / Against’ (If you wish to view the entire Resolution details, click on the ‘View Resolution’ file link).
- e) After selecting the desired option i.e. Favour / Against, click on ‘Submit’.

A confirmation box will be displayed. If you wish to confirm your vote, click on ‘Yes’, else to change your vote, click on ‘No’ and accordingly modify your vote.

OR

Method 2 - Votes Upload

- a) Visit URL: <https://instavote.linkintime.co.in> and login with InstaVote Login credentials.
- b) After successful login, you will be able to see the “Notification for e-voting”.
- c) Select “View” icon for “Company’s Name / Event number”.
- d) E-voting page will appear.
- e) Download sample vote file from “Download Sample Vote File” tab.
- f) Cast your vote by selecting your desired option ‘Favour / Against’ in the sample vote file and upload the same under “Upload Vote File” option.
- g) Click on ‘Submit’. ‘Data uploaded successfully’ message will be displayed.

(Once you cast your vote on the resolution, you will not be allowed to modify or change it subsequently).

Letter from the Chairman & Managing Director

Dear Stakeholders,

Amidst a world rapidly pivoting toward sustainability, your Company stands at the forefront—navigating change, seizing momentum, and shaping the future of green finance.

As we unveil the **38th Annual Report**, we do more than recount a year of strong financial performance; we spotlight a journey driven by a deep-rooted mission to empower renewable energy and clean technology. To truly grasp the significance of our progress, we must first view it through the lens of global transformation—where shifting climate priorities, policy evolution, and technological leaps are redrawing the contours of our industry.

GLOBAL GREEN FINANCING SCENARIO

Global investment in low-carbon energy transition reached an unprecedented \$2.1 trillion in 2024, marking an 11% increase over 2023 as per Bloomberg. This milestone reflects a growing consensus on accelerating the transition to low-carbon energy. Electrified transport led the way with \$757 billion, followed closely by renewable power projects at \$728 billion, highlighting a broader shift in focus beyond generation assets. Solar PV remained the largest magnet for capital, supported by strong policy mandates and falling technology costs, while wind, battery storage, and green hydrogen emerged as fast-growing segments in the investment mix.

This capital deployment translated into record on-ground progress. The International Renewable Energy Agency (IRENA) reported the **addition of 585 GW of renewable energy capacity globally in 2024**—the largest single-year increase in history. This brought total installed renewable capacity to 4,448 GW by year-end. Solar PV accounted for more than three-fourth of the incremental capacity, with major growth in Asia, particularly China and India, as well as the United States. Wind and hydropower followed, helping reinforce a more resilient and diversified global power system.

Several key enablers supported this acceleration. Technology costs continued to decline, and supportive policies, including tax credits, market reforms, and auction schemes, expanded across regions. Green finance instruments—from sovereign green bonds to ESG-linked loans and blended finance platforms—helped mobilize capital at scale.

India's Presidency of the International Solar Alliance (ISA) in 2024 was a key milestone in advancing global solar cooperation. Under its leadership, the ISA sharpened its focus on solar deployment in developing countries, with an emphasis on concessional finance, technical assistance, and de-risked project pipelines. Initiatives like the Global Solar Facility gained traction, reinforcing India's role as a key driver of solar-led climate action.

At the COP29, held in Baku, Azerbaijan in November 2024, India reiterated its position as a strong voice for equity and affordability in climate finance. Key takeaways from the summit included:

- Renewed calls for replenishment of the Green Climate Fund
- Finalization of a New Collective Quantified Goal on climate finance beyond \$100 billion annually
- Momentum toward tripling global renewable capacity by 2030 and phasing down unabated fossil fuels
- Consensus on developing a global carbon market framework, where India advocated safeguards for developing economies

The global landscape is shifting amid geopolitical tensions, trade restrictions and evolving climate finance negotiations. These disruptions have impacted renewable energy supply chains and increased market volatility. Yet, momentum in multilateral climate finance continues to build. Countries have pledged to nearly triple annual climate funding for developing nations to \$300 billion by 2035, with a broader goal of mobilizing \$1.3 trillion per year by 2035 from public and private sources.

In this environment, your Company is strategically expanding its global positioning - engaging with multilateral institutions, leveraging GIFT City for foreign currency financing, and aligning with international climate finance frameworks. These efforts enhance resilience, attract cross-border capital, and reinforce your Company's role as a key driver of cooperation in the international clean energy space.

While 2024 marked historic gains, the path ahead demands an even greater scale. **According to IEA and BNEF estimates, annual global investment in energy transition must rise to ~\$4.5 trillion- ~\$4.8 trillion per year by 2030 to align with Net-Zero targets.** Green financing institutions such as your Company will play a central role in ensuring these flows reach the most impactful areas—emerging technologies and inclusive energy access thereby ensuring the green energy transition is not only fast, but also fair and future-ready.

INDIA GREEN FINANCING SCENARIO

India ranks 4th globally in total installed renewable energy capacity, 4th in terms of installed wind power capacity and 3rd in terms of installed solar power capacity (up from 5th in 2023) as per International Renewable Energy Agency (IRENA) 2024 global rankings.

India is undertaking one of the most ambitious energy transitions globally, setting a target of 500 GW of non-fossil fuel installed capacity by 2030 and committing to Net-Zero emissions by 2070. This shift represents not only a critical response to climate imperatives but also a strategic realignment of India's energy economy-positioning the country as a global leader in clean energy innovation, resilience, and sustainable growth.

At close of FY25, India exceeded 220 GW of installed renewable capacity, with more than 100 GW of installed solar capacity. Further, in a major achievement, India added a record 29.5 GW (including large hydro of 0.8 GW) of renewable energy capacity in FY24-25, marking the highest-ever annual addition to date and reflecting a ~59% year-on-year increase, as per CEA installed capacity report. This strong growth is the result of sustained policy momentum, accelerated project execution, and enhanced investor confidence.

FY24-25 also witnessed a series of significant policy and sectoral milestones across India's renewable energy ecosystem:

- **Union Budget Allocation:** A record ₹26,549 Crore was allocated to the Ministry of New and Renewable Energy (MNRE) in Union Budget 2025-26, representing a 53% increase over the previous year and targeting priority sectors like solar, wind, bio-energy, green hydrogen, green energy corridor, energy storage, and manufacturing-linked incentives.
- **Atmanirbhar Bharat:** Between March 2024 and March 2025, solar module production capacity nearly doubled—from 38 GW to 74 GW—while solar PV cell capacity more than tripled, rising from 9 GW to 25 GW, supported by the landmark investments of ₹41,000 Crore under Production Linked Incentive (PLI) Scheme for High-Efficiency Solar PV Modules. FY 24-25 also saw a landmark development: the commissioning of the nation's first ingot-to-wafer manufacturing facility (2 GW), marking a crucial step toward vertical integration.
- **Democratizing clean energy access:**
 - o **The PM Surya Ghar: Muft Bijli Yojana** has rapidly scaled up benefitting over 11 Lakh households—the initiative is not only accelerating rooftop solar adoption but also directly reducing household energy costs—making the energy transition inclusive, people-centric, and equity-driven. The strong grassroots uptake can be seen with subsidies of ₹5,437.20 crore disbursed as Central Financial Assistance to 6.98 lakh beneficiaries as of March 31, 2025.

- o **The PM-KUSUM Scheme** accelerated to unprecedented levels in FY24–25, redefining clean energy adoption in India's agrarian landscape. Under Component B, 4.4 lakh standalone solar pumps were deployed—a 4.2-fold increase over the previous year—while Component C saw a staggering 2.6 lakh grid-connected pumps solarized, marking a 25-fold annual jump. With over 10 lakh pumps now installed or solarized under the scheme, PM-KUSUM is emerging as a cornerstone of India's effort to decarbonize agriculture, enhance farmer resilience, and drive decentralized energy access at scale.
- **Scaling Green Hydrogen & derivatives adoption:** India's Green Hydrogen ecosystem is shifting from vision to execution, marking a pivotal step toward industrial decarbonization and energy independence. Under the National Green Hydrogen Mission, incentives totaling ₹2,220 Crore have been sanctioned to establish 1,500 MW per annum of electrolyzer manufacturing capacity, while ₹2,239 Crore supports the production of 4.5 lakh TPA of Green Hydrogen—laying the groundwork for a robust domestic market. Strategic pilots are also underway, including ₹454 Crore for decarbonizing the steel sector and ₹208 Crore for introducing hydrogen-powered vehicles and refueling stations—positioning India as an emerging leader in the global green hydrogen economy.

Thus, India's green energy ecosystem is scaling rapidly signaling India's emergence as a global leader in clean energy transition, industrial decarbonization, and inclusive energy access.

HIGHLIGHTS OF IREDA's FINANCIAL & OPERATIONAL PERFORMANCE

Robust business growth and profitability

In FY25, your Company achieved the highest ever annual loan book, sanction, disbursement, profit, and net worth. The snapshot below highlights this exceptional performance:

- **Gross loan book: ₹76,282 Crore in FY25** as against ₹59,698 Crore in FY24 (up by 28%)

- **Net worth: ₹10,266 Crore in FY25** as against ₹8,559 Crore in FY24 (up by 20%)

As of 31st March 2025, your Company has **cumulatively sanctioned ~₹2,37,916 Crore & has cumulatively disbursed ~ ₹1,56,085 Crore with**

- ~89% of cumulative disbursements and ~87% of cumulative sanctions achieved since FY15, and;
- ~60% of cumulative disbursements and ~59% of cumulative sanctions achieved since FY21

Key Performance Highlights

Beyond delivering strong financial results, your Company achieved several strategic and operational milestones in FY25. The highlights below reflect its continued leadership in advancing India's green energy transition and supporting national climate goals.

Awarded the prestigious 'Navratna' status from Schedule 'A' CPSE by the Department of Public Enterprises

Your Company was recognized as a Navratna CPSE on 26th April 2024, reflecting our financial strength, operational excellence, and strategic vision. This status confers significant autonomy to your Company in shaping its business targets and ambition which in turn will translate into responsive support to the renewable energy sector.

Recognized as one of the top 5 value creators in the Country by Economic times in Dec 2024 basis market capitalization

Your Company was recognized by Economic Times as India's 2nd highest value creator stock- with impressive 215% year on year shareholder return between November 2023 and November 2024. Notably, your Company was the only Public Sector Enterprise to feature in this esteemed list, underscoring its exceptional performance and commitment to shareholder value.

Fastest publication of Audited Annual & Quarterly Financial Results amongst NSE and BSE listed Banks & NBFCs with market cap exceeding ₹50 Crore

Your Company has set a new benchmark by publishing its Annual Audited Financial Results (FY25) within just 15 days and publishing its Quarterly Audited Financial Results within 9 days (Q3 FY25). This is the fastest publication of Audited Annual Results amongst both NSE and BSE listed Banks & NBFCs in India with a market capitalization

exceeding ₹50 Crore as of 31st March, 2025. The reduction in time to publish the results to 15 days in FY25 from 60 days in FY19 reflects your Company's emphasis on process efficiency, Corporate Governance and transparency.

Opening of office in GIFT City, Gandhinagar for Foreign currency denominated debt financing

In FY 25, your Company received final registration from IFSCA for its subsidiary in IFSC GIFT City (Gujarat), which will specialize in providing foreign currency debt, facilitating natural hedging and significantly reducing financing cost for Renewable Energy Sector including Green Hydrogen & its derivatives as well as for Renewable Energy Equipment Manufacturing projects (Modules, Cells, Wafers, Turbines, Electrolyzers, etc.). This strategic initiative will play a pivotal role in advancing the nation's commitment towards sustainable development.

Conferral of International Credit Rating by S&P Global and AAA (stable) ratings by domestic agencies

In FY 25, your Company achieved a significant milestone by securing an international credit rating of BBB- with a Stable outlook from S&P Global Ratings. This rating aligns closely with India's sovereign rating, underscoring your Company's robust financial health and its pivotal role in advancing the nation's renewable energy objectives.

Further, your Company's creditworthiness was recognized through an **upgrade in its domestic credit rating to AAA (Stable) by CARE Ratings**. Additionally, your Company continued to maintain its AAA (Stable) ratings from leading domestic credit agencies, including ICRA, India Ratings & Research, Acuité Ratings & Research, and Brickwork Ratings. These top-tier ratings reflect your Company's consistent performance, strategic importance in the renewable energy sector, and unwavering commitment to financial excellence.

"Excellent" rating under MoU with MNRE

Your Company has signed a Memorandum of Understanding (MoU) with the Ministry of New and Renewable Energy (MNRE) setting financial and operational targets on an annual basis. Your Company received an 'Excellent' rating under its MoU with MNRE for FY24- the 4th consecutive year, reaffirming its consistent high performance and steadfast commitment to advancing government-led renewable energy initiatives. Further, your Company expects to achieve an "Excellent" rating, based on its FY25 results, subject to assessment by the Govt. of India

Recognition at the CBIP Awards, PSE Excellence Awards & by MNRE

In FY 25, your Company was honoured with the prestigious **CBIP Award 2024 by the Central Board of Irrigation and Power (CBIP)** in recognition of its **outstanding contribution to the development of renewable energy** in the Country. CMD IREDA was also conferred the **CBIP Individual Award 2024** for his exemplary leadership in driving renewable energy development.

Further, your Company was recognized for its exemplary performance at the **14th PSE Excellence Awards**, winning Gold position in the categories of **Corporate Governance** and **CSR & Sustainability**, and Silver for **Operational Performance Excellence**—a testament to its strong institutional integrity, social responsibility, and operational leadership.

Your Company was also honored by the Ministry of New & Renewable Energy for its **significant contribution to India's achievement of the 200 GW non-fossil installed capacity milestone**, as the largest NBFC in the sector, at RE-Invest 2024 on 16th September 2024.

Key operational initiatives launched

Catalytic leadership for emerging RE sectors

Your Company operates as a dynamic enabler of India's clean energy future—constantly evolving its policies and product offerings to stay ahead of the rapidly transforming renewable energy landscape. By offering **end-to-end financial solutions**—from project ideation to post-commissioning—your Company ensures seamless capital access across both established and next-generation sectors.

In FY25, your Company reiterated its commitment to providing catalytic leadership to emerging green technologies by offering **first-to-market support** for Ethanol, Green Ammonia, Pumped Storage Hydropower, Smart Meter, Solar equipment manufacturing projects, as well as de-centralized generation projects under Solar Rooftop and PM KUSUM.

Further, at the **RE Invest 2024 Conclave**, your Company pledged **₹5 Lakh Crore in debt financing by 2030** to support the rapid growth of India's renewable energy sector.

Implementation support provided for key MNRE Schemes

Your Company has been closely involved in the development and implementation of various policies pertaining to

the renewable energy sector. Further, your Company is serving as the implementing agency for the following key MNRE schemes:

- National Programme on High Efficiency **Solar PV Modules** under Production Linked Incentive, Tranche-I
- **Central Public Sector Undertaking Scheme Phase II** for setting up **grid-connected Solar PV** projects under Tranche III
- Programme on Energy from **Urban, Industrial & Agricultural Wastes/Residues** as part of the National Bioenergy Programme, Phase I
- **Solar & Wind Generation Based Incentive (GBI) Schemes**

Initiatives to improve borrower experience

Your Company has maintained its emphasis on customer-first approach by institutionalizing quarterly stakeholder engagements and streamlining the borrower experience. With a fully digital, paperless loan ecosystem—from application to disbursement—your Company has redefined ease of doing business in green finance, earning consistent appreciation for its speed, transparency, and responsiveness.

Initiatives to develop human resources

Your Company has undertaken various initiatives to augment and develop its employee base.

- **Expansion:** Aligned with its strong growth trajectory, your Company has steadily scaled its workforce with further plans to induct over 60 personnel in FY26. As of 31st March 2025, your Company's total employee strength stood at 166, excluding Board-level executives.
- **Development:** Given the rapidly evolving renewable energy sector, your Company places an emphasis on **continuous learning and development**. Over FY 25, the organization facilitated ~1,523 man-days of training for its employees, focusing on emerging technologies and innovative financing solutions.
- **Well-being & motivation:** Your Company has consistently prioritized employee wellbeing by organizing **daily meditation and yoga** sessions, along with **regular wellness camps**.
- **Diversity & Inclusion:** Your Company has a strong commitment to diversity & inclusion- **Women comprise 28.3% of your Company's workforce – ~3x of the average 9.5% women employees in CPSEs** as per the PE Survey Report for 2023-24. Further, your Company remains firmly committed to social equity, actively implementing Government of India directives to ensure fair representation and opportunity for SC/ST/OBC employees. Through inclusive talent strategies—from recruitment to career development—your Company fosters a workplace culture that is diverse, respectful, and rooted in equal opportunity for all.

Driving Excellence Through Corporate Governance

Your Company upholds a governance framework rooted in **integrity, transparency, and accountability**—ensuring ethical conduct and operational efficiency at every level. **Fully compliant** with the Companies Act, SEBI LODR Regulations, DPE Guidelines, Secretarial Standards, and other relevant guidelines, your Company consistently aligns with the highest benchmarks for Public Sector Enterprises.

Demonstrating leadership in disclosure and transparency, your Company set a new industry standard by publishing its **Annual Audited Financial Results within just 15 days**—far ahead of SEBI's 60-day requirement—making **it the fastest amongst NSE and BSE listed Banking & NBFC companies** with market cap exceeding ₹50 crore. This achievement underscores your Company's commitment to governance excellence, powered by robust internal systems and digital agility.

Championing Impactful Corporate Social Responsibility for a Sustainable Future

Rooted in its green financing mission, your Company approaches Corporate Social Responsibility as a catalyst for inclusive and sustainable development. In alignment with national priorities, your Company's FY25 CSR initiatives focused on high-impact areas such as **healthcare and nutrition, education & youth, and renewable energy & sustainability**—amplifying the social value of its clean energy mandate.

During FY 25, your Company undertook a diverse portfolio of CSR initiatives aligned with its commitment to inclusive and sustainable development. Key projects included support for **mobile medical vans** serving children with disabilities in Himachal Pradesh, procurement of **ICU-equipped ambulances** in Rajasthan, and the provision of **medical equipment** to hospitals and educational institutions.

In the realm of education and youth empowerment, your Company supported the development of a **Sainik School in Silvassa and sponsored 50 interns under the Prime Minister's Internship Scheme.**

Furthering its commitment to inclusive green mobility, the Company extended **financial assistance** to the **Shri Jagannath Temple in Puri** for **operation and maintenance of 10 battery-operated vehicles** previously donated by the Company and additionally donated **4 battery-operated vehicles** to **Guru Gobind Singh Indraprastha University, New Delhi** for the benefit of **differently-abled individuals, senior citizens, and campus visitors.**

Reinforcing its core focus on renewable energy and sustainability, your Company funded the installation of **solar power systems in Uttar Pradesh's Anganwadi centers and health facilities.**

During FY 25, your Company sanctioned a total amount of ₹24.36 Crore (including administration expenses) for 13 projects and disbursed a total amount of ₹7.82 Crore, including disbursements from unspent accounts for previous years and administrative expenses for FY 25.

Initiatives for offsetting carbon footprint of operations

In addition to supporting the country's decarbonization goals, your Company strives towards achieving carbon neutrality in its operations. Your Company owns and operates a 50 MW Solar plant at Kasaragod, Kerala which produced ~70,539 MWh of renewable energy resulting in reduction of ~59,958 Tonnes of CO₂ in FY25.

FUTURE OUTLOOK FOR INDIA'S GREEN SECTOR DEVELOPMENT

India's green financing landscape continued to strengthen in FY25, driven by bold policy interventions, increased budgetary allocations, and sector-specific incentives designed to support the country's transition toward a low-carbon economy. With the **renewable energy investment requirement (excluding e-mobility) projected to cross ₹30 lakh Crore by 2030**, the year witnessed concerted efforts to de-risk capital flows and accelerate clean energy deployment.

Key policy measures introduced or scaled up in FY24-25 include:

- **Utility-Scale Solar & Wind:** The government reaffirmed its annual bidding target of 50 GW for solar and wind power in FY2025, with auctions conducted through central agencies including SECI, NTPC, NHPC, and SJVN. To ensure timely evacuation of the awarded capacity, the Green Energy Corridor Phase-II and Inter-State Transmission System (ISTS) expansion were fast-tracked. Additionally, a new policy mandate requires that all clean energy projects commissioned from June 2026 onwards must utilize domestically manufactured solar PV cells and modules, reinforcing India's push for self-reliance in renewable energy manufacturing.
- **Rooftop & Decentralized Solar:** The PM-KUSUM scheme was extended until March 2026, with a revised target to install or solarize 49 lakh pumps, alongside simplified procedures for vendor empanelment and land aggregation. Additionally, the Rooftop Solar Programme (Phase II) was extended to March 2026, continuing capital subsidies and performance-based incentives for residential and institutional segments.
- **Manufacturing & Domestic Value Chains:** India's domestic manufacturing ecosystem saw significant growth in FY2025. Under PLI Scheme Tranche-II, the government awarded 39.6 GW of solar module capacity with ₹19,500 Crore in financial support, while the Advanced Chemistry Cell (ACC) battery storage program allocated 10 GWh of new capacity, raising the total awarded under the ₹18,100 Crore scheme to 40 GWh. These efforts, alongside import duties and the reinstatement of the ALMM policy, helped push India's solar manufacturing capacity past 74 GW, strengthening self-reliance in clean energy supply chains.
- **Green Hydrogen & Electrolyzer Manufacturing:** Under the National Green Hydrogen Mission (NGHM), India launched its first bids for green hydrogen production and electrolyzer manufacturing in FY25. The government awarded incentives for 3,000 MW of electrolyzer capacity and 862,000 TPA of hydrogen production, as part of a broader vision to mobilize ₹8 lakh Crore in investments and generate 6 lakh jobs by 2030.
- **Energy Storage & Transmission:** India advanced its grid integration and storage infrastructure in FY2025 with key policy and investment moves. The government scaled up the Viability Gap Funding (VGF) scheme for Battery Energy Storage Systems (BESS) to 13.2 GWh, retaining the existing ₹9,400 Crore outlay to support large-scale deployment.

In parallel, the National Electricity Plan (Transmission) laid out a roadmap for adding 191,000 circuit-km of new transmission lines and 1,274 GVA of substation capacity by 2032. A major milestone was the approval of a ₹20,774 Crore HVDC transmission corridor between Ladakh and Haryana, with 40% central funding, to evacuate 13 GW of renewable energy from the region.

- **Wind, Hydro, and Bioenergy Support:** The Repowering Policy 2023 was operationalized to replace aging wind turbines with modern, higher-capacity units, targeting up to 25 GW of additional wind capacity. In hydropower, tariff rationalization, partial ISTS waivers, and streamlined approval processes supported project viability, including 25.5 GW of new pumped storage proposals. In bioenergy, the government sustained fiscal and offtake incentives under the SATAT initiative for biogas and waste-to-energy plants, while ethanol blending in petrol reached ~19% by early 2025—on track to meet the 20% target by year-end.
- **E-Mobility & Smart Infrastructure:** The government launched the PM E-Drive scheme with an outlay of ₹10,900 Crore to support the deployment of electric two- and three-wheelers and e-buses, while the Electric Mobility Promotion Program 2024 allocated ₹500 Crore to additionally subsidize e-vehicles. On the grid side, deployment under the Revamped Distribution Sector Scheme (RDSS) accelerated, with ~2.64 Crore smart meters installed by March 2025. Plans are underway to extend RDSS through FY27–28 to meet nationwide metering targets.

HOLISTIC STRATEGY FOR IREDA

As India's foremost pure-play green financing institution, your Company is charting a bold, future-ready strategy to accelerate the nation's clean energy transformation. By offering customized financial solutions, competitive lending, and deep sectoral expertise, your Company continues to empower both proven and emerging technologies critical to achieving India's 500 GW non-fossil fuel target by 2030 and its broader net-zero vision.

- **Fueling Momentum Across the Renewable Energy Spectrum**

Your Company continues to lead the charge in mainstream sectors such as solar, wind, hydropower, biomass, and biofuels—key pillars in achieving the Government of India's 500 GW non-fossil fuel target by 2030. Through tailored financial instruments, competitive rates, and innovative products, your Company is not just financing projects—it's accelerating India's clean energy deployment at scale.

- **Backing the Technologies of Tomorrow**

Beyond mature markets, your Company is strategically expanding into emerging solutions that are shaping the future of energy: green hydrogen and its derivatives, offshore wind, battery storage, pumped hydro, rooftop solar, smart metering, green mobility, and green energy corridors. A dedicated team is actively evaluating and financing these projects, while internal capacity-building ensures our people are prepared to lead in these evolving sectors.

- **Expanding Global Reach Through GIFT City**

With the establishment of its office at GIFT City, Gandhinagar, your Company now offers foreign currency-denominated debt, enabling natural hedging for globally linked industries such as renewable manufacturing and green hydrogen exports. This platform positions your Company to reduce financing costs and enhance competitiveness in international clean energy markets.

- **Building a Smarter, More Resilient Capital Strategy**

To optimize cost of funds, your Company is refining its capital mix through diversified domestic and global sources—including bonds, multilateral agencies, and strategic partnerships. Backed by strong credit ratings and institutional credibility, this approach enhances both profitability and capital availability for borrowers.

- **Accelerating Digital-First Growth**

Recognizing the role of technology in scaling impact, your Company is undergoing a digital transformation. This includes digitizing core lending functions and enabling workflows across Treasury, Legal, Risk, Recovery, Audit, and Compliance. Your Company's fully paperless Business Center at NBCC, New Delhi, embodies this shift—supporting operational agility, transparency, and seamless stakeholder engagement.

- **Upholding Portfolio Resilience**

Recognizing the importance of financial prudence and asset quality, your Company has adopted a proactive and structured approach for managing stressed assets. Further, your Company has instituted systematic account monitoring and early warning frameworks to detect stress indicators at an incipient stage. Through prompt corrective actions and effective resolution strategies, your Company ensures minimal impact on asset quality and operational stability. This disciplined approach reinforces portfolio resilience and strengthens the trust of investors, lenders, and business partners.

- **Unified in Purpose, Bold in Action**

Every initiative-whether in finance, technology, or talent-is driven by one ambition: to democratize access to green finance and build an energy future that is inclusive, innovative, and anchored in national and global climate goals. With a 360-degree growth strategy, your Company is not just adapting to India's clean energy transition-it is shaping it.

ACKNOWLEDGEMENTS

It is with deep gratitude that I acknowledge the unwavering support of the Government of India particularly the Ministry of New & Renewable Energy (MNRE) and the Department of Public Enterprises (DPE) for their vital role in enabling our continued growth. I also extend sincere appreciation to other key Government bodies, including the NITI Aayog, Ministry of Finance, Ministry of Power, Ministry of Corporate Affairs, Department of Investment and Public Asset Management and various other ministries and departments, whose guidance and collaboration continue to support our mission.

We are equally grateful to the Office of the Comptroller & Auditor General of India, the Reserve Bank of India, the Securities and Exchange Board of India, the National Stock Exchange of India Ltd., the Bombay Stock Exchange Ltd., and other regulatory authorities for their oversight and constructive engagement.

A special word of thanks to our Statutory Auditors, Secretarial Auditors, Cost Auditors, and Internal Auditors for their consistent contributions toward upholding and enhancing the standards of governance and accountability.

We appreciate the consistent support and objective assessments provided by our credit rating partners-S&P Global, ICRA, CARE Ratings, India Ratings and Research, Acuité Ratings & Research, and Brickwork Ratings-which continue to reinforce our financial standing and stakeholder trust.

To our valued customers, lenders, shareholders, and investors-including state governments, power utilities, private sector partners, and our domestic and international financial collaborators-thank you for your enduring trust and partnership. Your confidence in us remains our greatest source of motivation.

I am also profoundly grateful to my esteemed colleagues on the Board for their strategic insights and continued commitment to steering the Company toward excellence. Most importantly, I wish to recognize the relentless dedication of our employees, whose professionalism and passion continue to drive the Company's success and define its culture of excellence.

In conclusion, I respectfully place before you the Directors' Report, the Audited Financial Results, and the Auditors' Report for the financial year 2024-25, and seek your kind approval for the same.

Thank you
With warm regards,

With better process management, your Company maintains quality, consistency and customer satisfaction in its business operations.

ISO 27001:2022 Certificate has been awarded by IQCS Certifications Private Limited for Information Security Management System. The compliance of various security measures as required under the above standards has ensured a robust secured network for data processing and information flow.

12. RISK MANAGEMENT POLICY OVERVIEW

Your Company has established a comprehensive policy framework for management of risks. The Risk Management Framework encompasses credit risk, market risk as well as operational risk management. The Risk Management Policy, evolved under the guidance of the Risk Management Committee (RMC) and duly approved by the Board of Directors, is refined periodically based on emerging market trends and own experience. The Risk Management Committee is headed by an Independent Director.

IREDA's comprehensive risk management is overseen by the Board of Directors. The Risk Management Committee is a Board-level Committee that guides the development of policies, procedures, and systems for our evolving business landscape. The independent Risk Management function is headed by the Chief Risk Officer (CRO), who maintains regular communication with the Committee members. The Risk Management function is independent from business and reports directly to the Chairman and Managing Director. Our structured risk framework through the Internal Capital Adequacy Assessment Process (ICAAP), identifies, assesses, and manages risks that could impact on our business, financial position, or capital adequacy.

Your Company has an Internal Audit Department for assessing the adequacy and effectiveness of all internal controls, risk management practices, governance systems, and processes.

The Prudent Risk Management policies are ratified by the Board of Directors to ensure compliance with RBI guidelines and SEBI (LODR) Regulations, 2015, forming the regulatory framework for all business activities. The Risk Management Committee also considers the matters which are specifically referred to it by the Board of Directors, besides considering the mandatory requirements of the Regulation 21 read with Part D of Schedule II of SEBI (LODR) Regulations, 2015, issued from time to time. The Board has the overall responsibility of risk management which takes care of managing all aspects of risk in the organization.

Your Company's risk management framework is built on clear understanding of various risks, disciplined assessment and measurement, continuous monitoring, and a commitment to ongoing improvement.

Credit Risk Management

Your Company's core business is lending, which exposes it to various types of credit risk especially diminution in the credit quality of borrowers or counterparties, losses stemming from outright default, and/or reduction in portfolio value. Your Company is adhering to RBI mandated prudential norms, ensuring portfolio diversification, following stringent credit approval processes, and conducting regular monitoring and timely remedial measures.

During FY 25, focused efforts were made to resolve the stressed assets portfolio and sustain asset quality through institutionalized processes.

Operational Risk Management

Operational risks refer to potential losses arising from inadequate or failed internal processes, people, and systems or from external events. Your Company has established an Operational Risk Management Committee, which is a functional-level Committee to identify, review and manage operational risks. Your Company is strengthening Operational Risk Management Framework, which follows the 'three lines of defense' model for systematic risk control. Your Company's operational control framework covers the system of internal controls and monitoring procedures with functional heads regularly assessing and preparing for emerging risks. By implementing robust risk management procedures, your Company strives to minimize operational disruptions and enhance customer satisfaction.

Liquidity Risk Management

Liquidity Risk is the risk that a Company may not be able to raise funds, meet its financial obligation due to an asset liability mismatch or interest rate fluctuation or lack of sufficient cash. Your Company's liquidity and interest rate risk management framework is well defined in the Board approved Asset Liability Management Policy.

The exposures arising from borrowings and other liabilities, along with related risks from existing and future lending and borrowing activities including the availability of committed credit lines and borrowing facilities are managed by a dedicated ALM group. These are periodically reviewed by the Asset-Liability Committee (ALCO) in alignment with management objectives and the Board-approved Risk Appetite Framework.

Market Risk

Market risk is defined as the risk of loss arising from movements in market prices or rates away from the rates or prices set out in a transaction or agreement. Market Risk Management of a financial institution involves the management of interest rate risk, foreign exchange risk, and security price risk. Interest rate risk is the potential loss arising from fluctuations in market interest rates.

Your Company periodically reviews interest rates based on market conditions, borrowing costs, yield, and spread. To mitigate interest rate risk, lending rates and both weighted average and incremental borrowing costs are regularly assessed against prevailing market rates. The ALM Division conducts risk measurement through cash flow forecasting, sensitivity analysis, concentration limits, and, where applicable, derivative contracts or hedging.

The Asset-Liability Committee (ALCO) reviews liquidity gap reports, Liquidity Coverage Ratio (LCR), Stock ratios, and High-Quality Liquid Assets (HQLA) to ensure sound liquidity and interest rate risk management.

Foreign Currency Risk

Our Company has a Board approved Foreign Exchange and Derivatives Risk Management Policy which, inter-alia, covers the management of foreign exchange risk emanating from existing and future foreign currency loans. The objective of the policy is to serve as a guideline for transactions to be undertaken for hedging foreign exchange-related risks including but not limited to interest rate risk and currency risk.

Foreign currency exchange rate movements may adversely impact the value of foreign currency borrowing outstanding of ₹8,527.61 Crore, which accounts for 13.17% of the total borrowing of your Company of ₹64,740.31 Crore, as on 31st March 2025. The overall foreign currency borrowing has reduced from ₹9,298.67 Crore (18.71% of the total borrowings) as on 31st March 2024 to ₹8,527.61 Crore (13.17% of the total borrowings) as on 31st March 2025. The total foreign currency borrowing outstanding of ₹8,527.61 Crore comprises of USD 540.10 million (equivalent to ₹4,622.24 Crore), JPY 51,923.38 million (equivalent to ₹2,946.65 Crore) and EUR 103.84 million (equivalent to ₹958.72 Crore) as on 31st March 2025.

Your Company can undertake derivative products (generic and/or structured instruments) as per the RBI guidelines to lower/mitigate the risks as per the Foreign Exchange and Derivatives Risk Management Policy.

As on March 31, 2025, out of the total foreign currency borrowing, 72.32% is hedged i.e. ₹6,166.90 Crore, comprising USD 513.85 million (equivalent to ₹4,397.58 Crore), JPY 20,420.10 million (equivalent to ₹1,158.84 Crore) and EUR 66.12 million (equivalent to ₹610.48 Crore). Your Company had an open foreign currency exposure of ₹2,360.71 Crore including part hedged foreign currency loans of EUR 30.38 million (equivalent to ₹280.52 Crore) and JPY 2,371.50 million (equivalent to ₹134.58 Crore) which is 27.68% of the total foreign currency borrowing outstanding. The open foreign currency exposure as on March 31, 2025, is within the prudential limit prescribed under the Board approved Foreign Exchange and Derivatives Risk Management Policy.

Your Company as per its overall strategy, uses derivative products to hedge its risks associated with foreign currency borrowings. Your Company does not use derivative contracts for speculative purposes.

Asset Liability Management

Your Company has put in place a comprehensive Board approved Asset Liability Management (ALM) Policy formulated in line with the RBI guidelines. The objectives of ALM policy are to align management of various risks with overall strategic objectives while ensuring maintenance of sufficient liquidity, to withstand a range of stress events.

Your Company has an Asset Liability Management Committee (ALCO) with the CMD, Whole-time Director and Senior Officials as its members, which meets regularly for review of liquidity and interest rate risks. Liquidity risk is assessed and monitored by analyzing cash inflows and outflows which are spread over time buckets. Adequate credit facilities and liquid assets are ensured to mitigate liquidity risk.

Your Company has a well-laid out reporting system for ALM, pursuant to which requisite remedial measures are taken. By adhering to the ALM policy, your Company ensures prudent management of its assets and liabilities.

Information and Cyber Security Risk Management

Your Company has in place an IT Strategy Committee, Information Security Committee, and IT Steering Committee in compliance with the RBI Master Direction on Information Technology Governance, Risk, Controls and Assurance Practices. These Committees review the IT strategies including IT Security in sync with the Corporate Strategy & Board policies, and monitors the IT Risks, Controls, Cyber Security arrangements and other matters related to IT Governance ensuring an effective and robust IT system in place.

In line with the RBI Master Direction on Information Technology Governance, Risk, Controls and Assurance Practices, your Company has implemented various IT Security policies including but not limited to Change Management, Information Security, Business Continuity Management, Access Control, Information Asset Management and Cyber Security etc.

13. SOLAR POWER PROJECT

Your Company has fully commissioned 50 MW solar power project located in Kasargod, Kerala. The plant is

running at full capacity, generating renewable energy that is supplied to the Kerala State Electricity Board (KSEB) under a long-term Power Purchase Agreement (PPA).

The electricity generated from this project is billed at a tariff of ₹3.83 per unit, in accordance with the order issued by the Kerala State Electricity Regulatory Commission (KSERC).

Beyond contributing to India's clean energy transition, this project plays a key role in your Company's commitment to sustainability and carbon neutrality. During FY 25, the 50 MW solar power plant generated 70.53 million units, contributing to a reduction of 59,958 tons of CO₂ emissions, supporting the broader national decarbonization goals.

14. INFORMATION TECHNOLOGY INITIATIVES

To facilitate the transition to a paperless environment and increase operational efficiency in internal decision making, your Company had already adopted an E-Office system on Cloud. During FY 25, the E-Office was migrated to its latest version to enhance data security by introducing controls such as Captcha Authentication and disaster recovery capabilities, ensuring the integrity and availability of critical documents and information stored in E-Office. The use of E-Office has empowered your Company with a modern, scalable, and secure digital workspace that supports seamless collaboration and boosts productivity which resulted in efficient and timely processing of files.

Your Company has been continuously reviewing and monitoring the security posture of the IT Infrastructure and significant steps have been taken to enhance its IT Infrastructure Security. This includes implementation of security controls such as Multifactor Authentication, Zero Trust Network Access, regular conduct of IT Security Audits, closure of observations to ensure the effectiveness and robustness of our security measures.

To improve transparency and reduce manual intervention, your Company has been proactively automating its business processes. As part of this initiative, your Company has successfully transitioned its ERP solution to the latest cloud-based version. This migration has significantly enhanced the automation and integration of business workflows while introducing new features and improvements. Additionally, this shift has transformed the lending process by eliminating paper usage, fostering greater transparency, accountability, and more efficient monitoring. Through the adoption of digital platforms, productivity has been notably increased.

Your Company also launched an enhanced Customer Portal, providing a two-way interactive platform for seamless communication between customers/applicants and the Company. This advancement has resulted in enhanced customer experience and improved operational efficiency. The real-time information exchange and the online document repository will further streamline processes and reduce turnaround time, benefiting both your Company and its customers.

15. CUSTOMER RELATIONS

Your Company has established a dedicated team for Business Development which gathers market intelligence and reaches out to potential clients. In particular our business development team plays a crucial role in onboarding players across new and emerging technologies such as Green Hydrogen, Electric Mobility, Smart Metering Infrastructure etc. To maintain its position as a premier financial institution in the renewable energy sector, your Company actively engages with the borrowers and other stakeholders to gather their feedback. This input is instrumental in reviewing and refining both policies and operational processes, with a focus on enhancing the ease of doing business. During FY 25, your Company organized 4 (Four) 'Borrower's Meets', which were attended by both existing and prospective borrowers.

Your Company has created a digital interface for its stakeholders enabling virtual interaction for lending and various other services, without need for physical meetings. An Online Customer Portal is available on the website of your Company, whereby the new borrowers can submit an online loan application and obtain real-time information on their application status and other relevant details.

For continual brand building, traditional media presence and social media platforms are being effectively used by your Company for information dissemination on various important events.

Dear Members,

We, P.C. Jain & Co, Company Secretaries, the Secretarial Auditors of **Indian Renewable Energy Development Agency Limited** having **CIN: L65100DL1987GOI027265** ("the Company") have examined the compliance of conditions of Corporate Governance by the Company for the year ended March 31, 2025 as prescribed in Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (collectively referred to as "SEBI Listing Regulations/ SEBI (LODR) Regulations 2015"), and applicable on the Company.

Management's Responsibility

The compliance with the conditions of Corporate Governance is also the responsibility of the management and Board of Directors of the Company as stipulated in the SEBI Listing Regulations, issued by the Securities and Exchange Board of India.

The preparation of the Corporate Governance Report and maintenance of all relevant supporting records and documents are the responsibility of the Management of the Company. This responsibility also includes the design, implementation, and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report.

Auditor's Responsibility

Our responsibility is limited to examining the procedures and implementation thereof, adopted by the company to ensure compliance with the conditions of corporate governance.

We have carried out an examination of the relevant records of the company in accordance with the Guidance Note on Corporate Governance Certificate issued by the Institute of Company Secretaries of India (ICSI). We have complied with the relevant applicable requirements of the Standard on Quality.

OPINION

The procedures include examining evidence supporting the particulars in the Corporate Governance Report on a test basis. Further, our scope of work under this report did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

Based on our examination of the relevant records and to the best of our information and according to explanations given to us and the representations made by the company, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations 17 to 27 and clauses (b) to (i) of sub-

regulation [2] of regulation 46 and para C and D of schedule V of SEBI Listing Regulations during the financial year ended March 31, 2025.

We further state that such compliance is neither our assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the management has conducted the affairs of the Company.

❖ Number of Board Meetings held during the FY 25.

The meetings of the Board of Directors are convened by giving appropriate advance notices. The meeting dates are usually finalized in consultation with all the directors well in advance, to ensure their full presence and maximum participation of all concerned. To address any urgent needs, sometimes Board meetings are also called at a shorter notice subject to observance of statutory provisions. In case of urgency, resolutions are also passed through circulation, in accordance with the statute. Detailed agenda notes, reports, and other explanatory statements are normally circulated at least a week before the Board meeting with the Board members to facilitate meaningful, informed, and focused discussions in the meeting. The agenda papers for the Board are circulated electronically, by uploading relevant papers on a secured web-based online application, thereby eliminating circulation of printed agenda papers. To keep pace with the changing environment, your Company continues to endeavour towards digitization of processes besides video-conferencing facilities for Board/Committee meetings in accordance with the provisions of the Companies Act 2013 & Secretarial Standards issued by the Institute of Company Secretaries of India. Meetings of the Board & Committees are generally held at the registered office. During the meetings, senior management officials are also called, if required, to make presentation or provide additional inputs on any agenda items. There is a post-meeting follow-up system of Action Taken Report (ATR), where action taken on earlier decisions / deliberations of the Board or Committees thereof, are submitted for review in the subsequent meetings.

During the FY 25, 23 (Twenty Three) Board Meetings were held viz. on 10.04.2024, 19.04.2024, 29.04.2024, 24.05.2024, 10.06.2024, 25.06.2024, 12.07.2024, 16.07.2024, 14.08.2024, 29.08.2024, 20.09.2024, 05.10.2024, 10.10.2024, 25.10.2024, 20.11.2024, 12.12.2024, 27.12.2024, 09.01.2025, 23.01.2025, 01.02.2025, 20.02.2025, 17.03.2025 & 25.03.2025.

These MoUs outline key performance indicators finalized in consultation with MNRE, against which the Company’s performance is assessed. For FY 2023–24, the Company’s performance against these MoU parameters has been rated as “Excellent”. Similarly, the MoU rating for FY 2022–23 was also “Excellent”, indicating that the Company has successfully met its key commitments and performance targets. There were no deviations requiring remedial action.								
Governance, leadership, and oversight										
7	Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets, and achievements (listed entity has flexibility regarding the placement of this disclosure) The Company strives to be a leader in the expansion and transition of renewable energy towards affordability, scalability, and the establishment of sustainability in the country. We are a pioneering, participant-friendly, and competitive institution for financing and promoting self-sustaining investments in energy generation from renewable sources, energy efficiency, and environmental technologies for sustainable development. The Company provides financial support to specific projects and schemes for generating electricity and/ or energy through new and renewable sources, as well as for conserving energy through energy efficiency. The Company strives to offer efficient and effective financing for renewable energy and energy efficiency/ conservation projects. As India’s largest pure-play green financing NBFC, our Company has expanded its scope of operations to support new and emerging technologies such as green transmission, energy storage, e-mobility, energy efficiency, smart metering, ethanol, and compressed biogas production, among others. As a key player in the RE sector and a responsible financial institution, the Company has adopted a comprehensive Environmental and Social Management System (“ESMS”) to identify and mitigate any potential impacts of the projects we fund on the environment and society at large. The Company carries out environmental and social screening of eligible projects and categorizes them based on the severity of the impact, in parallel with our loan appraisal process. During this screening process, the Company works proactively in partnership with energy ecosystem stakeholders to develop and deepen their focus on environmental and social issues. The Company is committed to complying with global standards for our ESMS, as sustainability is at the core of our operations. Further, the Company owns a 50 MW Solar PV Plant that generates clean energy, which leads to avoidance of approx. ~67060.22 metric tonnes of CO2 for FY 2024–25.									

S. No.	Disclosure Questions	P1	P2	P3	P4	P5	P6	P7	P8	P9	
	Additionally, the Company’s loan appraisal process ensures that the required pollution and environmental clearances are obtained by its borrowers. The Company ensures compliance with all statutory and regulatory requirements, with timely reporting and filings in this regard, without any lapse. The Company follows a well-defined procurement policy for the procurement of goods and services. The IT infrastructure security and management systems are well deployed, including disaster recovery plans. The HR policies of the Company ensure holistic employee well-being and benefits, career progression, adequate training, safety, encouragement for women employees, and a well-defined grievance redressal mechanism, ensuring proper governance. These achievements exemplify your Company’s dedication to integrating ESG principles into its operations and fostering a more sustainable future.

4. **Does the entity have an anti-corruption or anti-bribery policy? If yes, provide details in brief and if available, provide a web-link to the policy.**

Yes, IREDA has an anti-corruption and anti-bribery policy. It aligns with laws such as the Prevention of Corruption Act, 1988, Bhartiya Nyaya Sanhita, 2023 and the Prevention of Money Laundering Act, 2002, among others.

The company strictly prohibits all forms of bribery, corruption, and money laundering in both the public and private sectors. The policy applies to all directors, employees, trainees, vendors, consultants, suppliers, and third-party associates. It addresses risks related to gifts, hospitality, facilitation payments, improper recruitment practices, sponsorships, and political or charitable contributions.

The Chief Vigilance Officer (CVO), appointed by the Government of India, serves as the designated Compliance/ Nodal Officer responsible for monitoring adherence to the policy. Strong financial and operational controls are in place, supported by regular audits and monitoring to prevent violations. Any breach may lead to disciplinary, administrative, civil, or criminal action.

Stakeholders can report violations through the company website or directly to the Nodal Officer. In addition to the above, the company has also adopted a whistle blower policy. The anti-corruption and anti-bribery policy can be accessed at:

10. Health and safety management system:

- a. **Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?**

No, the Company has not implemented a formal Occupational Health and Safety Management System (OHSMS) for its internal operations, as its primary functions are office-based and do not

involve industrial or manufacturing activities. However, the Company owns a 50 MW solar power plant, the operation and maintenance of which are fully outsourced to a third-party contractor. The contractor is responsible for implementing and maintaining occupational health and safety measures in accordance with applicable standards. The plant is operated in line with the requirements of ISO 45001:2018 (Occupational Health and Safety Management System – OHSAS), and the Company ensures compliance through regular oversight and periodic performance evaluations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company's core operations are office-based and generally considered low-risk with respect to occupational hazards. For its outsourced solar power plant operations, the third-party contractor is responsible for identifying work-related hazards and conducting both routine and non-routine risk assessments in accordance with industry standards, including the requirements of ISO 45001:2018 (Occupational Health and Safety Management System – OHSAS). The Company ensures the contractor's adherence to these safety protocols.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, such processes are in place through the third-party contractor managing the solar power plant. The contractor follows standard safety protocols, including mechanisms for workers to report hazards and withdraw from unsafe work conditions. While these operations are outsourced, the Company ensures that these safety processes are part of the contractual requirements and are reviewed periodically.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

The Company offers comprehensive non-occupational medical and healthcare services aimed at promoting the overall well-being of its employees. These include the daily presence of an in-house doctor, regular health check-ups, free medical camps, Ayurveda therapies, and wellness facilities such as a fully equipped gym, as well as yoga and meditation sessions. Doctor availability is further supported through part-time visiting medical consultants across various disciplines, including Allopathic, Homeopathic, Ayurveda/Naturopathy, and Yoga instruction. For hospitalization needs, employees and their dependent family members can avail cashless treatment at empanelled hospitals, while medical bills from non-empanelled hospitals are reimbursed. The Company also extends these healthcare benefits to retired employees through a post-retirement medical scheme, allowing inpatient care at empanelled hospitals and reimbursement for treatment at non-empanelled ones.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category	FY 2024-25	FY 2023-24

	Workers	0	0
No. of fatalities (safety incident)	Employees	0	0
	Workers	0	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

The Company is committed to maintaining a safe, healthy, and supportive workplace environment. Various proactive wellness and safety measures are in place, including in-house medical facilities with daily doctor availability, regular health check-ups, free medical camps, and Ayurveda therapies. The Company also engages part-time visiting medical consultants across multiple disciplines such as Allopathy, Homeopathy, Ayurveda/Naturopathy, and Yoga instruction to enhance the range of medical support available to employees. Employees have access to a fully equipped gym, with daily yoga and meditation sessions conducted to support physical and mental well-being.

To ensure physical safety, sufficient fire extinguishers are installed and air purifiers are placed across the premises to maintain indoor air quality. In cases of hospitalization, arrangements with empanelled hospitals

facilitate smooth cashless treatment for employees and their dependent family members, while treatment at non-empanelled hospitals is reimbursed upon submission of medical bills. Furthermore, a post-retirement medical scheme enables retired employees to avail inpatient treatment at empanelled hospitals, with a reimbursement option for care received at non-empanelled hospitals. These comprehensive initiatives collectively ensure a healthy, secure, and supportive work environment for all employees.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

The Company has not received any health and safety-related complaints, and no formal assessments were conducted during the year. However, as a proactive measure, a healthy and safe work environment is maintained through the installation of a sufficient number of air purifiers to ensure indoor air quality, and fire extinguishers are adequately placed across the Corporate Office and Business Centre to address any potential fire-related incidents. These actions reflect the Company's ongoing commitment to employee well-being and workplace safety.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

Employees	Yes
Workers	Yes

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

Not Applicable

3. Provide the number of employees / workers having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

	Total no. of affected employees/workers		No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment

Health and safety practices	Nil
Working Conditions	

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

Not Applicable, as assessment of health and safety practices and working conditions of value chain partners has not been conducted.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders.**Essential Indicators****1. Describe the processes for identifying key stakeholder groups of the entity.**

The Company has identified its key stakeholders through a structured stakeholder mapping exercise, primarily involving inputs from senior management across departments. Internal stakeholders include employees and management personnel, while external stakeholders comprise equity shareholders, bondholders, lenders, customers (both public and private sector borrowers), government authorities, and regulatory bodies such as the Reserve Bank of India, Securities and Exchange Board of India, Ministry of Corporate Affairs, Stock Exchanges, and State Governments.

A Stakeholders Relationship Committee, constituted in line with the provisions of the Companies Act, 2013, oversees stakeholder engagement. Additionally, the Company conducts regular physical and virtual meetings with stakeholders, enabling direct interactions with senior leadership to discuss and address concerns transparently and proactively.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Others	Frequency of engagement (Annually/Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement
Employees	No	Email, Intranet, Meetings, Training, Wellness sessions, Suggestion boxes	Routine	Business updates, ESG aspects, health, safety, grievance redressal, employee development.
Government Bodies (MNRE, etc.)	No	Email, Phone calls, Meetings, Online portal, MOUs, Filings	Need-Based	Compliance, Policy alignment, MOUs, Regulatory clarifications
Regulatory Authorities (SEBI, RBI, etc.)	No	Regulatory filings, Reports, Emails, Phone calls, Meetings, Online Portal	Annual, Quarterly, Need-Based	Compliance with regulations, inspections, inquiries, regulatory updates
Investors and Shareholders	No	Email, SMS, Website, Annual Reports, Presentations, Letters, Newspapers	Need-Based	Financial updates, strategic discussions, grievance redressal, feedback and suggestions

Stakeholder Group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Others	Frequency of engagement (Annually/Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement
Customers	No	Email, SMS, Website, Letters, Telephone, Customer meets, Feedback channels	Quarterly, Need-Based	Understand financing needs, service quality, grievance resolution, funding clarity
Vendors	No	Email, SMS, Meetings, GeM Portal, CPP Portal, Letters, Telephone	Need-Based	Procurement, compliance with policies, dispute resolution
Local Communities	No	CSR initiatives, Surveys, Field Visits, Personal Interactions, Community meetings	Need-Based	Socio-economic development, community feedback, CSR project monitoring
Industry Associations (CII, IBA, etc.)	No	Seminars, Conferences, Meetings	Need-Based	Sharing best practices, renewable energy sector promotion

All the stakeholder group as mentioned above are not Vulnerable and Marginalized but there is section of the people in the stakeholder groups which are considered as vulnerable & marginalized like Economically Weaker Sections, Lower Income Groups, MSME enterprises owned by SC/ST and women entrepreneurs etc.

Leadership Indicators

- 1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

A customer meet is conducted every quarter with the Key Managerial Personnel (KMPs), including two members from the Board of Directors. During these meetings, customer suggestions on economic, environmental, and social matters are discussed. These inputs are then shared with the rest of the Board, and if deemed appropriate, they are gradually incorporated into the entity's policies and activities over time.

- 2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

Yes. ESMS was finalized by taking inputs from various Multilateral Development Banks (MDBs), also a detailed workshop was conducted to familiarize the borrowers on the workings of the ESMS.

- 3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

The Company remains committed to supporting vulnerable and marginalized groups, particularly Micro and Small Enterprises (MSEs) and women entrepreneurs. It is registered on various Government of India platforms including GeM (Government e-Marketplace), Sambandh, Samadhan, and TReDS (Trade Receivables Discounting System), and ensures effective utilization of these platforms across all its offices, including regional offices.

The Company has embedded preferential procurement practices to encourage participation from MSEs and women-owned enterprises, providing them with certain facilitative measures in its procurement processes. During the reporting year, there were no grievances or complaints registered against the Company related

to delays in payments or procurement issues by any MSE vendor on the Government's Samadhan portal, reflecting the Company's proactive and timely engagement with this stakeholder group.

PRINCIPLE 5: Businesses should respect and promote human rights.

Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	0*	0
Complaints on POSH as a % of female employees / workers	0	0
Complaints on POSH upheld	0	0

*Note- Entity has functional POSH committee and quarterly meetings are conducted.

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Company has implemented a robust Vigil Mechanism through its Whistle Blower Policy to ensure that individuals reporting instances of discrimination, harassment, or any unethical behaviour are protected from retaliation or adverse consequences. The policy provides all stakeholders—including employees, directors, and associates—with a secure and confidential platform to raise concerns in good faith.

The identity of the whistleblower is kept confidential to the extent possible, and the policy explicitly prohibits any form of victimization. In exceptional cases, the complainant may directly approach the Chairperson of the Audit Committee to report the matter. The Competent Authority is entrusted with conducting impartial investigations and ensuring that complainants are not subject to any form of reprisal.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes. Human rights requirements are embedded in the Company's business agreements and contractual frameworks.

10. Assessments for the year:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (No)

*Note- The solar power plant at Kasaragod has its panels installed directly on soil, enabling a portion of the cleaning water to naturally percolate into the ground. The rest of the runoff flows into designated recharge pits, facilitated by the land's intentional slope, thereby contributing to groundwater replenishment over time.

**Note- The discharged wastewater is handed over to local municipal bodies responsible for sewage management, such as DJB or NDMC in Delhi. These authorities manage and treat the wastewater after it exits the office building.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Not Applicable. The Company's core operations are office-based and do not involve significant water usage requiring Zero Liquid Discharge (ZLD). The 50 MW solar PV power plant owned by the Company is operated and maintained by a third-party contractor. However, the plant does not involve water-intensive processes or generate liquid effluents, and therefore a ZLD mechanism is not applicable. Water is used minimally, primarily for periodic panel cleaning, and appropriate water management practices are followed at the site.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Please specify unit	FY 2024-25	FY 2023-24
NOx	µg/m3	NA	NA
SOx	µg/m3		
Particulate matter (PM-2.5)	µg/m3		
Particulate matter (PM-10)	µg/m3		
Persistent organic pollutants (POP)	-		
Volatile organic compounds (VOC)	-		
Hazardous air pollutants (HAP)	-		
Others – Carbon Monoxide	mg/m3		

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (No)

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	MTCO ₂ e	21.74	25.61
Total Scope 2 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	MTCO ₂ e	541.18	404.62
Total Scope 1 and Scope 2 emission intensity per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	MTCO ₂ e Eq./ Rs.	0.0000000083	0.0000000087
Total Scope 1 and Scope 2 emission intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total Scope 1 and Scope 2 GHG emission / Revenue from operations adjusted for PPP)	MTCO ₂ e Eq./ \$	0.00000017	0.00000018
Total Scope 1 and Scope 2 emission intensity in terms of physical output	MTCO ₂ e / Metric Tonnes	NA	NA
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity		NA	NA

Note: The emission factor used for calculating Scope 1 emissions is sourced from the IPCC, while the factor for Scope 2 emissions is based on guidance from the Central Electricity Authority.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (No)

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Yes, the Company owns a 50 MW Solar PV Plant that generates clean energy, which leads to avoidance of approx. ~67060.22 metric tonnes of CO₂ for FY 2024-25.

9. Provide details related to waste management by the entity, in the following format:

Parameter	FY 2024-25	FY 2023-24
Total Waste generated (in metric tonnes)		
Plastic waste* (A)	-	-
E-waste (B)	-	1.558

(ii) Landfilling	-	-
(iii) Other disposal operations	-	1.558**
Total	-	-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (No)

*Note- All waste generated from the entity offices is responsibly handed over to the Municipal Corporations of the respective city for proper disposal. Given the minimal quantity of waste and the non-manufacturing nature of the entity's operations, in house sorting and segregation are currently not undertaken; however, the entity remains committed to complying with the waste management norms as applicable.

**Note- This e-waste was disposed of by "Pro e-waste" at their R2-certified facility.

- 10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

As a NBFC, IREDA primarily generates office-related waste such as paper, plastic, and other non-hazardous materials. During the reporting financial year, no e-waste was generated. The waste generated was handed over to the Municipal Corporation of Delhi (MCD) for appropriate disposal.

In previous financial year, disposal of old, un-serviceable & obsolete IT equipment, identified as e-waste, is done through registered recyclers (Pro e-waste) under Central Pollution Control Board, Government of India and State Pollution Control Committee/ Board.

- 11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:**

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
Not Applicable			

- 12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:**

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain. (Yes / No)	Relevant Web link
Nil					

IREDA's minimum average CSR obligation crossed the threshold value of Rs. 10 crores for the preceding 3 financial years (FY 2021-22, FY 2022-23 and FY 2023-24) post the given effective date 22nd January, 2021 (as per the MCA General Circular No. 14 /2021 dated 25th August 2021). Accordingly, the Expression of Interest (Eoi) for Empanelment of Agencies to conduct Impact Assessment of CSR projects is under process.

- 13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N).**

Not Applicable, As an NBFC, the Company's primary operations are office-based and do not involve any polluting processes. The Company also owns a 50 MW solar power plant, which is inherently clean in nature. While the plant is operated and maintained by a third-party contractor, the Company, as the asset owner, ensures that the operations remain in compliance with applicable environmental norms. No fines, penalties, or regulatory actions have been imposed on the Company during the reporting period.

If not, provide details of all such non-compliances, in the following format:

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
Not Applicable

5.	Confederation of Indian Industries	National

2. Provide details of corrective action taken or underway on any issues related to anti-competitive conduct by the entity, based on adverse orders from regulatory authorities.

No adverse orders were passed from regulatory authorities.

Leadership Indicators

1. Details of public policy positions advocated by the entity.

S. No.	Public policy advocated	Method resorted for such advocacy	Whether information available in public domain? (Yes/No)	Frequency of Review by Board (Annually/ Half yearly/ Quarterly / Others – please specify)	Web Link, if available
1.	Nil	NA	No	Other-NA	NA

No, the Company does not advocate public policy positions. However, it functions as a nodal agency for various schemes of the Ministry of New and Renewable Energy (MNRE), including the Central Public Sector

Undertaking (CPSU) Scheme, Phase-II (Government Producer Scheme), the National Bioenergy Programme, the National Programme on High Efficiency Solar PV Modules under the PLI Scheme, Tranche-I, and the Generation-Based Incentive (GBI) Scheme.

PRINCIPLE 8: Businesses should promote inclusive growth and equitable development.

Essential Indicators

1. **Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.**

Name and brief details of project	SIA Notification No.	Date of notification	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
Not Applicable					

Not Applicable, as the Company is not directly involved in land acquisition activities. In the case of the Company's 50 MW Kasaragod Solar Project, the entire land used is government-owned.

2. **Provide information on project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:**

S. No.	Name of Project for which R&R is ongoing	State	District	No. of Project Affected Families (PAFs)	% of PAFs covered by R&R	Amount paid to PAFs in the FY (In INR)
Not Applicable						

Not Applicable, as the Company is not directly involved in land acquisition activities. In the case of the Company's 50 MW Kasaragod Solar Project, the entire land used is government-owned.

3. **Describe the mechanisms to receive and redress grievances of the community.**

Citizens/Consumers have the right to approach the relevant officers through email and CPGRAM portal to address any grievances they may have. A senior officer has been designated as the Director (Grievance). All grievances received will be properly recorded, registered, and acknowledged by the Director (Grievance), IREDA, immediately or within 3 working days from the date of receipt. A grievance reference number and date will be provided. The Director (Grievance) will inform the aggrieved party about the progress within 15 working days. Additionally, the Director (Grievance) will offer a personal hearing to any client wishing to present their grievance in person and will aim to resolve the issue within 30 working days from the receipt of the grievance. If the aggrieved party does not receive a response within 15 days of filing the grievance, they may escalate the matter by writing to the Chairman & Managing Director (CMD). Grievance redressal mechanism is available at, <https://www.ireda.in/citizen-charter>.

4. **Percentage of input material (inputs to total inputs by value) sourced from suppliers:**

	FY 2024-25	FY 2023-24
Directly sourced from MSEs	12.25% from MSE vendors	39.88% from MSE vendors
Directly from within India	100% All items are procured from within India using the GeM Portal, as per the Procurement Guidelines	

5. **Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost.**

Location	FY 2024-25	FY 2023-24

Semi – Urban	Nil	Nil
Urban	Nil	Nil
Metropolitan	0.13%	10.03%*

(Place to be categorized as per RBI Classification System - rural / semi-urban / urban / metropolitan)

*Note: The computation is updated. Earlier the reported figure was 8% based on different interpretation.

Leadership Indicators

1. **Provide details of actions taken to mitigate any negative social impacts identified in the Social Impact Assessments (Reference: Question 1 of Essential Indicators above):**

Details of negative social impact identified	Corrective action taken
NA	

The Company is not directly engaged in land acquisition activities. For its 50 MW Kasaragod Solar Project, the entire land utilized is government-owned; therefore, no Social Impact Assessment (SIA) was conducted by the Company.

2. **Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:**

S. No.	State	Aspirational District	Amount spent in Lakhs (INR)
1.	Uttar Pradesh	Chandauli	5,04,56,000
2.	Uttar Pradesh	Siddharthnagar	31,36,767
3.	Bihar	Muzaffarpur	10,25,00,398

In addition to the CSR allocation/sanction in designated Aspirational District (as per the request of District Administration), the Company has also allocated/sanctioned financial assistance of Rs. 10,25,00,398 in the aspirational district of Muzaffarpur, Bihar and Rs. 31,36,767 in Aspirational district of Siddharthnagar, UP.

3. **(a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalized /vulnerable groups? (Yes/No)**

Yes. The Company adheres to the Government's procurement policy, which mandates preference to Micro and Small Enterprises (MSEs), including 25% from MSEs, 4% from SC/ST-owned MSEs, and 3% from women-owned MSEs. The Company actively strives to meet these targets in all its procurement activities. However, since vendors self-declare their category at the time of bid submission, the Company can only select from the pool of bids received. In such cases, the Company has no control over the representation of specific categories and must choose from the eligible bids submitted.

(b) From which marginalized /vulnerable groups do you procure?

The Company procures from MSEs owned by Scheduled Castes (SC), Scheduled Tribes (ST), and women entrepreneurs as per Government policy. Procurement classification is based on vendor declarations.

(c) What percentage of total procurement (by value) does it constitute?

During the reporting period, procurement from MSEs constituted 12.25%, from SC/ST MSEs 0.06%, and from women-owned MSEs 3.30% of the total value of goods and services procured. These figures are based on vendor claims, which the Company does not control.

4. **Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge:**

S. No.	Intellectual Property based on traditional knowledge	Owned/ Acquired (Yes/ No)	Benefits shared. (Yes/No)	Basis of calculating benefits share
NA				

Not Applicable, as the Company does not own or hold any intellectual property during the current financial year.

5. **Details of corrective actions taken or underway, based on any adverse order in intellectual property related disputes wherein usage of traditional knowledge is involved.**

Name of authority	Brief of the Case	Corrective action taken

*Note- The marked projects were not completed by March 2025 and are considered ongoing projects for the following year.

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner.

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The grievance redressal process for customers is structured in three stages. In Stage I, customers may lodge an oral complaint with the Director (Grievance), which will be addressed within 30 working days. If the issue remains unresolved, Stage II allows customers to submit a written complaint to the Grievance Redressal Committee (GRC), which will deliver a decision within 30 working days. Should dissatisfaction persist, Stage III permits an appeal to the Managing Director/ Chairman and Managing Director (MD/CMD), who will provide a final decision within 45 working days. All complaints are acknowledged within seven days of receipt, and if no response is provided within 15 days, the grievance may be escalated to the MD/CMD. The GRC, appointed by the MD/CMD for a term of two years, meets monthly to review grievances and ensures resolution within two months of receipt. Additionally, the grievance redressal status is reported monthly to the MD/CMD and a consolidated report is submitted to the Board on a half-yearly basis.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100

Not applicable, as no issues have been reported.

7. Provide the following information relating to data breaches:

a. Number of instances of data breaches

Nil

b. Percentage of data breaches involving personally identifiable information of customers

Nil

c. Impact, if any, of the data breaches

Not Applicable as no breach reported

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

The Company is a NBFC offering various financial products and services to promote renewable energy projects in India.

Information on products and services of the entity is available on the Company's website

<https://www.ireda.in/detailed-financing-norms>.

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

As a leading financial institution in the renewable energy sector, the Company undertakes several initiatives to promote safe and responsible usage of its financial products and services. A key step in this direction is the adoption of a comprehensive Environmental and Social Management System (ESMS), which enables the Company to identify, assess, and mitigate potential environmental and social impacts of the projects it finances.

As part of the loan appraisal process, the Company conducts thorough environmental and social screening of eligible projects and categorizes them based on the severity of potential impacts. This ensures that borrowers are well-informed and guided on the responsible implementation and management of their projects.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

The Company has a Business Continuity Management Policy that provides a structured framework to respond to internal and external threats, with the objective of preventing and managing any disruptions that may impact the Company's business operations, objectives, or infrastructure. This policy is grounded in Risk Assessment and Business Impact Analysis, and also addresses the continuity of Information Security in line with the Company's requirements.

The policy aims to protect the interests of both the Company and its stakeholders by ensuring the ability to detect, prevent, minimize, and manage the effects of disruptive events or anticipated risks.

Additionally, the Company has a system in place where borrowers can submit feedback via a form available on the Company's website, covering areas such as service suitability, loan processing timelines, and issue resolution.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief.

Yes. The Company, being a NBFC, offers various financial products and services to support renewable energy projects in India. While it is not engaged in manufacturing physical products, the Company ensures that adequate disclosures related to its financial products are provided to borrowers, customers, and investors through its corporate website www.ireda.in. The website also contains information on various Government schemes, going beyond what is mandated under local regulations.

5. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Yes. The Company has a system in place where borrowers can submit feedback through a customer feedback form available on its website. This form covers key areas such as the suitability of services, time taken for loan sanction and execution, and the resolution of customer issues. Additionally, IREDA regularly organizes Borrower Meets and interaction programs to gather direct feedback from borrowers. This feedback is systematically analysed, reviewed, and necessary corrective actions are taken wherever required.

Assurance Methodology

As part of the assurance process, we have relied upon the following:

Frameworks-:

- SEBI BRSR Core Assurance Circular
- Industry Standards on Reporting of BRSR Core issued by SEBI vide Circular No. SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated December 20, 2024
- Greenhouse Gas Protocol methodology
- Central Ground Water Board (Central) Guidelines
- International Standard on Assurance Engagement (“ISEA”) 3000- Assurance Engagements Other than Audits or Reviews of Historical Financial Information

Methodology-:

As part of the assurance process, we have undertaken the following steps:

- Reviewed the disclosures under BRSR (9) Core Attributes, encompassing the framework for assurance consisting of a set of Key Performance Indicators (KPIs) under (9) ESG attributes.

- ii. Reviewed the data, documents, and other information basis which calculation and reporting have been made.
- iii. We Interviewed relevant personnel of management responsible for Sustainability, Environmental Social Governance (ESG) and the consultant and their team for understanding the process of collecting, collating, and reporting the data.
- iv. Checked the consolidation for various offices to ensure the completeness of data being reported.
- v. Conducted on-site audits for data testing and to assess the uniformity in reporting processes. This included assessing records and performing testing including recalculation of sample data.
- vi. Assessed the appropriateness of various assumptions, estimations and materiality thresholds used by the Company.
- vii. Wherever required, we have performed a sample-based review of data and information.

Our Opinion

Based on the information and documents provided to us, procedures we have performed and the evidence we have obtained, we are of the view that the BRSR Core Attributes, as disclosed in the Company's BRSR for FY 2024-25 have been reported in accordance with the requirements outlined in the SEBI BRSR Core Assurance Circular.

Statement of Independence

As per the SEBI BRSR Core Assurance Circular, we hereby confirm that neither we nor any of our associates have provided any non-audit / non-assurance related service(s), including consulting services, to the Company or its group entities during the FY 2024-25, which would lead to a conflict of interest.

Restriction on use or distribution

This assurance statement, including the conclusion, has been prepared solely at the request of the Company to meet the statutory obligations in respect to disclosures made in the BRSR for FY 2024-25. Our report should not be used for any other purpose or by any other person other than the addressee without our prior written consent. We neither accept nor assume any duty of care or liability for any other purpose or to any other party to whom our report is shown or into whose hands it may come without our prior consent in writing.

Limitations

Our performance under this assurance engagement is subject to the following limitations:

- i. Based on the agreed scope with the Company, the boundary of reasonable assurance covers the operations of the Company and its subsidiaries across all offices. Further, the assurance is being made only for the disclosures made under BRSR Core Attributes for FY 2024-25.
- ii. During the assurance engagement, we have relied on the data and information provided by the Company. We have assumed that the Company has provided us with complete and authentic data and other information necessary for the performance of the assurance. In some cases, the Company has relied on third-party data sources, we have not verified the authenticity of that data source.
- iii. The absence of a significant body of established standards on which to evaluate and measure non-financial information allows for different but acceptable measurement techniques, which can affect comparability between entities.
- iv. Preparation of BRSR is the responsibility of the Company. We have not been involved in evaluating or assessing any financial data/performance of the Company. We have solely relied upon the Company's audited financial reports for the correctness of the financial data.
- v. The assurance considers an uncertainty of $\pm 5\%$ based on the materiality threshold for estimation/measurement errors and omissions pursuant to the GHG Protocol.
- vi. The assurance does not cover the Company's statements that express opinions, claims, beliefs, aspirations, expectations, aims, or future intentions of any kind, if any.
- vii. The assurance does not include a review of legal compliance regarding the disclosures made with respect to the BRSR Core Attribute.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management is pleased to present an overview of the industry landscape along with a review of the Company's performance for the financial year 2024-25 (FY 25)

1. GLOBAL BUSINESS OUTLOOK AND RE MARKET

Overall Economic Outlook

Global economic activity in FY 25 continued to expand at a modest pace, with growth in advanced economies slowing while emerging markets maintained relatively higher momentum.

The IMF's latest outlook projects global GDP growth at 3.3% for both 2025 and 2026, indicating a stable yet modest expansion.

Source: IMF

Inflation pressures are gradually easing worldwide – global inflation is expected to decline from about 6.8% in 2023 to around 4.2% in 2025, bringing many advanced economies closer to their target ranges.

After aggressive monetary tightening through 2023, major central banks are now cautiously moving toward easing, as price stability improves. This shift is fostering a more supportive global financial environment, although downside risks such as geopolitical tensions, financial market volatility continue to warrant vigilance.

Source: TradingEconomics

Investor appetite for green assets remains strong. In 2024, global investment in the low-carbon energy transition reached a record \$2.1

trillion in 2024 – an 11% year-on-year increase with electrified transport and renewable power projects attracting the bulk of capital.

Source: BloombergNEF

Notably, renewable energy investment alone reached - approximately \$728 billion in 2024, despite higher interest rates. This underscores a growing global shift toward sustainable investments – a trend that is likely to accelerate further if borrowing costs decline.

Overview of Global RE Market

The global renewable energy market - experienced unprecedented expansion in 2024, reinforcing its pivotal role in the global energy transition. According to IRENA, a record-breaking 585 GW of new renewable power capacity was added globally in 2024, accounting for over 90% of total capacity addition. This surge brought the total installed renewable energy capacity to approximately 4,448 GW worldwide.

Source: IRENA

Growth has been broad-based across regions, although Asia continues to dominate – accounting for nearly two-thirds of the new capacity additions, with China alone contributing the lion's share. Other regions expanded at a steadier pace – for instance, Europe and North America saw significant growth driven by strong policy support, while Africa and Latin America, though showing improvement – continue to lag behind in comparative terms.

Source: IRENA

The International Energy Agency (IEA) projects notes that global renewable energy capacity is on track to reach approximately 2.7 times its 2022 level by 2030. While this falls slightly short of the COP28 goal of tripling capacity, it nonetheless represents a remarkable trajectory. The levelized cost of renewable electricity has continued to decline or remained highly competitive, fortifying the economic case for clean energy.

Governments across major economies have enacted robust policies to accelerate deployment. Notably, the European Union and the United States are poised to roughly double the pace of renewable capacity growth in the second half of this decade, spurred by initiatives such as the European Green Deal and the U.S. Inflation Reduction Act.

However, the IEA cautions that high financing costs in many developing regions are restraining renewable energy development, particularly in sub-Saharan Africa and Southeast Asia. To address this, international cooperation is intensifying to de-risk investments – through mechanism such as green finance initiatives and development bank funding – which could unlock greater renewable deployment in emerging markets.

A major step towards closing the climate finance gap

is the Baku Climate Unity Pact, which aims to mobilize \$300 billion annually by 2035 with an overarching target of \$1.3 trillion from public and private sources. Another significant development is the approval of global carbon market rules, which has led to creation of a UN-regulated system for carbon trading – a move expected to enhance transparency and stimulate cross-border climate investments.

2. INDIA BUSINESS OUTLOOK AND RE MARKET

India Economic Outlook

India's macroeconomic outlook for FY 25-26 remains robust. As of April 2025, the Reserve Bank of India (RBI) projects GDP growth at 6.5%, signaling continued momentum in domestic demand and investment activity. The National Statistics Office (NSO), in its February 2025 release, also estimated real GDP growth at 6.5% for FY 2024-25, indicating alignment in institutional forecasts and sustained economic resilience.

Source: World Bank, Trading Economics

Similarly, RBI has revised its growth forecast to approximately 6.4% for FY 2024-25, citing global headwinds and base effects. Despite this moderation, India's growth rate continues to outpace that of many other major economies, underscoring its resilience and strong domestic demand.

Source: TradingEconomics

The central bank reported a decline in headline inflation and projects it to moderate to around 4.8% in FY 2024-25. Considering this trajectory, the RBI has shifted towards a neutral-to-accommodative policy stance.

In February 2025, the RBI enacted its first policy rate cut in nearly five years, lowering the benchmark repo rate by 25 bps to 6.25% to support growth. Subsequently in April 2025, the RBI further revised the benchmark repo rate again to 6%. This measured easing, while keeping a close watch on price stability, reflects confidence that inflation will remain under control, with the forecast for the coming year at ~4.1%.

Fiscal policy and budgetary measures for FY 26 are likewise geared toward sustaining growth and enabling the structural transition to a greener economy.

The Union Budget for FY 25-26 has announced a substantial increase in capital expenditure outlays, continuing the government's infrastructure push in sectors such as transport, logistics, and energy. Notably, the budget allocation for the Ministry of New and Renewable Energy (MNRE) was raised to ₹26,549 Crore, marking a 53% year-on-year increase reflecting a strong focus on clean energy investment.

Of the FY 26 total MNRE budget allocation of ₹ 26,549 Crore, key areas of funding are:

- 75% towards PM Suryaghar Muft Bijli Yojana (₹ 20,000 Crore)
- 10% towards PM KUSUM (₹ 2,600 Crore)
- 6% towards Grid based Solar (₹ 1,500 Crore)
- 2% towards National Green Hydrogen Mission (₹ 600 Crore)
- 2% towards Green Energy Corridor (₹ 600 Crore)

Overview of Indian Renewable Energy Market & Development

As of 31.03.2025, India's total installed renewable energy capacity, including large hydro, has surpassed 220 GW, reflecting an impressive ~15% year on year growth. FY 25 saw record-breaking new installations, with approximately 24 GW of Solar PV and 4.1 GW of wind capacity added, marking the highest annual additions on record.

Source: CEA

Over the last decade, Solar power has been the

primary driver of India's renewable energy growth, now constituting nearly 48% of total RE capacity. While these gains are impressive, the pace of expansion must continue to accelerate, as the government has set a target of 50 GW of renewable additions per year for the next five years to meet the ambitious 2030 target. Achieving this scale of expansion is estimated to require an investment of around ₹33 trillion (\$400 billion) in investments over the next decade, necessitating the mobilization of both public and private finance.

India's policy and regulatory environment remains highly supportive of renewable energy sector, with several notable initiatives launched in FY 25. The National Green Hydrogen Mission, with a budget allocation of ₹19,744 Crore, has moved into implementation phase. This initiative provides incentives for electrolyzer manufacturing and green hydrogen production, aiming to build 5 MTPA of green hydrogen capacity by 2030.

In the solar and wind domain, the Ministry of New and Renewable Energy (MNRE) has introduced policies facilitating hybrid renewable projects (solar-wind-storage combinations) and is collaborating with states to resolve land acquisition and permitting bottlenecks.

The Union Budget's massive boost to the MNRE budget is funding programs such as the PLI scheme for Solar PV manufacturing scheme and grid infrastructure to support renewable energy integration. Revamped Distribution Sector Scheme (RDSS) is pushing upgrades in the power grid, with an aim to address renewable

integration and distribution challenges. Under RDSS, the rollout of smart meters has accelerated to about 2.64 Crore installations, helping reduce Aggregate Technical and Commercial (AT&C) losses.

Additionally, new rules to facilitate open access procurement of green power and updated Renewable Purchase Obligations for state utilities are stimulating demand for clean energy. These comprehensive policy measures – from production to consumption – are creating a cohesive framework that encourages growth across the entire renewable energy value chain.

From a financing perspective, significant capital is being mobilized to support India's energy transition. Public sector banks have pledged around ₹10 Lakh Crore (roughly one-third of the required investment) to renewable energy projects in the coming years. Additionally, private investors, including private equity funds, global pension funds, sovereign wealth funds and climate funds, are increasingly active in the space. The issuance of green bonds by Indian entities is on the rise, reflecting both domestic and international appetite for clean energy financing.

However, a key risk to the sector is the planned phase-out of the ISTS waiver from 2025, which currently exempts green hydrogen projects from inter-state transmission charges. Power producers have urged the government to extend the waiver until 2030 to support the broader adoption of clean energy. There are concerns that removing the waiver, could raise costs and negatively impact project viability—especially for projects sourcing renewable power across state lines.

3. SECTOR WISE OUTLOOK ON RENEWABLE AND NEW ENERGY LANDSCAPE IN INDIA

Key announcements for overall RE sector in India:

- The Union Budget 2025–26 allocated a record ₹26,549 Crore to the Ministry of New and Renewable

Energy (MNRE), marking a 53% increase over the previous year. This allocation supports solar, wind, green hydrogen, battery storage, and manufacturing-linked initiatives.

- In a major move to strengthen the domestic value chain, the government announced that from 1st June 2026, all Solar PV projects must use domestically manufactured solar cells, reinforcing the 'Make in India' push and reducing reliance on imports.
- The Green Energy Corridor Phase-II and Inter-State Transmission System (ISTS) expansion are being fast-tracked to accommodate the government's target of 50 GW of annual RE bidding and ensure seamless grid integration of intermittent renewable power.
- To scale up green finance, the government is issuing new tranches of sovereign green bonds, while public sector lenders have pledged over ₹10 Lakh Crore in renewable energy financing over the next decade. The Green Credit Programme framework has also been finalized to support carbon markets and incentivize low-carbon development.
- Draft rules for solar panel and battery recycling have been released, in alignment with India's circular economy and sustainability agenda. Additionally, digital RE portals are now streamlining project clearance systems and compliance tracking reduce delays and enhance transparency.

Traditional and Stabilized Segments in Clean Energy

Solar Power

India's solar energy sector continued its rapid expansion, achieving a cumulative installed capacity of ~ 105 GW as of the end of FY 25. The year witnessed record addition of ~24 GW of new solar capacity, marking over a 60% increase compared to FY 2023-24. This surge was primarily driven by large-scale project deployments in states such as Rajasthan and Gujarat.

Rooftop and distributed solar also registered steady growth, supported by net metering and subsidy programs.

Solar energy now accounts for nearly half of India's total installed renewable energy capacity. With an ambitious 2030 target of ~280 GW of solar capacity, India is steadily advancing, with a robust project pipeline of ~84 GW currently under implementation.

Key Government policies driving growth:

- Production Linked Incentive (PLI) Scheme** - Expanded to incentivize local manufacturing for Solar PV. Under Tranche-II, around 39.6 GW of

solar module manufacturing capacity was awarded to manufacturers, backed by a government outlay of ₹19,500 Crore.

- **PM-KUSUM Scheme** – Extended upto March 2026, the Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan (PM-KUSUM) program, targets 34.8 GW of decentralized solar capacity, with ₹34,422 Crore in central financial support. It provides subsidies for farmers to install solar pumps and small grid-connected renewable systems.
- **Rooftop Solar Program (Phase II) and PM Surya Ghar: Muft Bijli Yojana** – Extended upto March 2026, this program continues to provide capital subsidies for residential and institutional solar systems, along with performance-based incentives for DISCOMs to accelerate rooftop solar adoption. The program has now been subsumed under the PM Surya Ghar: Muft Bijli Yojana, which aims to increase the share of solar rooftop capacity and empower residential households to generate their own electricity. With an outlay of ₹ 75,021 Crore, the scheme provides a subsidy of 60% of the solar unit cost for systems upto 2 kW capacity, and 40% of additional system cost for systems between 2 to 3 kW capacity.
- **Revamped Distribution Sector Scheme (RDSS):** Launched with an outlay of ₹3.03 Lakh Crore for FY 2022-26, this scheme aims to modernize power distribution infrastructure, reduce AT&C losses, and strengthen DISCOM finances – a critical enabler for reliable renewable integration into the grid.

Onshore Wind

India's onshore wind energy sector showed encouraging signs of revival in FY 25, following a period of subdued activity. During the year, India added 4.15 GW of new wind capacity, bringing the cumulative installed wind power capacity of about 50 GW as of the end of FY 25.

Installations were primarily concentrated in wind-rich states such as Tamil Nadu, Gujarat, and Karnataka, supported by growing momentum for wind-solar hybrid projects and rising corporate Power Purchase Agreements (PPAs) for renewable energy.

Despite these positive developments, annual wind additions remain below the pace required to meet the Government's target of ~140 GW onshore wind capacity by 2030. This has led to renewed focus on repowering of old wind farms with modern turbines and on optimizing high wind potential sites through centralized auctions.

Key Government policies driving growth:

- **Wind RPO Trajectory** – Govt. of India introduced

a specific Renewable Purchase Obligation (RPO) for wind power to stimulate demand. Obligated entities – including DISCOMs and large consumers – must source an increasing minimum share from new wind projects – 0.81% of consumption in FY 2022-23, rising to 3.36% by FY 2025-26 and 6.94% by FY 2029-30. Importantly, this wind RPO is exclusive to wind projects commissioned after March 2022, ensuring that it drives new capacity additions rather than legacy compliance.

- **National Repowering & Life Extension Policy for Wind Power Projects** – Announced in December 2023, this policy provides a framework to repower aging wind farms – especially those with turbines below 2 MW capacity – by replacing them with modern, higher capacity turbines. This policy aims to unlock ~25 GW of additional wind capacity, with incentives for developers and facilitative measures for grid and land-use permissions.

Hydro Power

Hydropower remains a crucial component of India's clean energy mix, providing valuable peaking power and grid stability, making it indispensable for managing the variability of wind and solar resources. As of 31st March, 2025, India's total installed hydropower capacity (including large hydro) stood at approximately 53 GW, constituting for around 10% of India's electricity generation.

While capacity additions in FY 25 were modest, the sector witnessed growth through – partial commissioning of large-scale projects (e.g. Subansiri Lower in the Northeast) and incremental growth in small hydropower, which has now reached 5.1 GW.

Given the long gestation periods and environmental sensitivities associated with large dam projects, the current policy and investment focus has shifted to leveraging hydro for energy storage, particularly Pumped Storage Projects (PSPs). There is a major push for PSPs, as evident from the concurrence of ~25.5 GW of new Pumped Storage Projects in 25 by the Central Electricity Authority (CEA), recognizing their essential role in absorbing surplus renewable power and delivering dispatchable power.

Key Government policies driving growth:

- **Hydropower Purchase Obligation (HPO)** – The government has carved out a Hydro-specific RPO to incentivize new large hydropower. It mandates Discoms and Obligated Entities to procure a certain percentage of power from large hydro projects commissioned after 2019 i.e. 0.35% of consumption in FY 2022-23, which rises to 1.48% by FY 2025-26 and reaches to 2.82% by FY 2029-30. This dedicated HPO ensures that new

hydro projects are integrated into India's broader renewable energy trajectory.

- **Renewable Energy Classification for Large Hydro** – Since March 2019, all hydroelectric projects above 25 MW have been classified as renewable energy. This policy allows large hydro to contribute toward RPO targets and benefits from renewable-linked incentives. It was accompanied by measures like tariff rationalization for hydropower to improve competitiveness, financial assistance for supporting infrastructure (e.g., access roads, bridges) and access to budgetary support for hydropower.
- **Pumped Storage Promotion** – Recognizing the need for storage, the Ministry of Power issued guidelines to promote Pumped Storage Projects (PSPs). Key initiatives include – simplified and fast-tracked approval processes by CEA, support through concessional climate finance, budgetary support for enabling infrastructure etc.

Bio Energy

As of March 31, 2025, India's total installed bioenergy-based power capacity reached around 11.58 GW, reflecting moderate growth. While the sector added 0.64 GW during FY 25, its pace remains slower relative to solar and wind. The majority of the capacity stems from bagasse-based cogeneration in sugar mills and biomass power plants utilizing crop residues. Municipal Solid Waste-to-Energy (WtE) plants are also being set up in urban areas to tackle waste while generating power.

Bioenergy offers the advantage of dispatchable, firm power – increasingly important as a balancing resource. Coal power stations have begun co-firing biomass pellets to cut emissions, and initiatives like SATAT are promoting compressed biogas (CBG) production from agricultural and organic waste. The government's push for biofuels has also seen India's ethanol blending in petrol reach ~10–12% in 2022 and on track for 20% by 2025, which complements the bioenergy ecosystem by utilizing surplus biomass for transport energy.

Key Government policies driving growth:

- **National Bioenergy Programme** – Launched in 2022, this umbrella initiative consolidated earlier biomass and biogas schemes under one platform with a budgetary outlay of ₹858 Crore. The program supports a wide range of bioenergy projects through the below three sub-programs:
 - o Programme on Energy from Urban, Industrial and Agricultural Wastes/Residues;
 - o Scheme to Support Manufacturing of Briquettes and Pellets and Promotion of

Biomass (non-bagasse) based co-generation in Industries; and

- o Bio-gas programme.

- **Ethanol Blending & Biofuel Policy** – India's National Policy on Biofuels (2018, amended 2022) set an ambitious target of 20% ethanol blending in petrol by 2025. Backed by this policy, ethanol production capacity has expanded with fiscal incentives and purchase guarantees. As of early 2025 the blending rate has reached ~19%, on the cusp of the 20% target. Higher ethanol blending not only offers renewable fuel for transport but also energizes the sugar/distillery sector and farmers (through demand for feedstock like molasses, maize, rice). The policy includes plans for second-generation ethanol (from crop stubble) via the Pradhan Mantri JI-VAN Yojana, fostering advanced biofuel refineries.

- **SATAT and Biogas Initiatives** – Under the Sustainable Alternative Towards Affordable Transportation (SATAT) initiative, public-sector oil companies are inviting entrepreneurs to set up compressed biogas (CBG) plants and sell CBG to them at fixed prices. The program targets 5,000 CBG plants by 2025, converting agricultural residues, cattle dung and organic waste into bio-CNG for use as automotive fuel. Complementing this, schemes like GOBAR-Dhan (Galvanizing Organic Bio-Agro Resources) provide support for rural bio-gas plants, aiming to improve sanitation and produce biogas/organic manure. These initiatives continued in FY 25, with fiscal incentives (e.g. guaranteed offtake, capital subsidies) to ramp up biogas production across the Country.

- **Biomass Co-firing in Coal Plants** – To utilize agro-residues at scale and reduce stubble burning, the Ministry of Power mandated biomass co-firing in coal-based thermal power plants. Initially set at 5% blend, with provisions to increase to 7-10%, this policy -launched in late 2021 – has seen gradual implementation.

By 2024, around 47 coal-based power plants (totaling 55 GW capacity) had begun co-firing biomass pellets to some extent. The government estimates that 5–7% biomass co-firing across India's coal fleet can avoid ~38 million tons of CO₂ emissions annually. In FY 25, efforts were ongoing to scale up co-firing (e.g. securing reliable pellet supply chains and encouraging power producers via Renewable Energy Certificates for biomass use), making thermal power generation cleaner and creating an additional market for biomass waste.

Emerging segments in green financing gaining momentum

Solar PV Module and Cell Manufacturing capacity

India's solar manufacturing ecosystem is rapidly scaling to meet ambitious domestic renewable energy targets. As of March 2025, the Country's Solar PV Module manufacturing capacity has surged past 74 GW. This aligns with the country's target to meet rising domestic demand of 40-50 GW annually and reduce reliance on imports.

In tandem, solar cell manufacturing capacity has increased to 25 GW, while ingot manufacturing capacity – crucial for upstream integration – has increased to 2 GW, with several leading players commissioning integrated fabs spanning across the entire value chain.

Key Government policies driving growth:

- **Production-Linked Incentive (PLI)** program for high-efficiency solar modules (₹4,500 Crore in Tranche-I, expanded by ₹19,500 Crore in Tranche-II) has enabled the development of 48.3 GW of new domestic capacity.
- **Customs Duties and Cess** - India earlier levied a 40% Basic Customs Duty on imported solar modules and 25% on solar cells to encourage domestic manufacturing. In Union Budget 2025, these were later revised to 20%.
- **Approved List of Models & Manufacturers (ALMM)** – Reinstated in April 2024 after a temporary exemption, this policy mandates the use of approved, domestically manufactured solar modules in government supported projects, reinforcing the Make in India initiative.

Electric Vehicles (EV)

FY 25 sustained India's EV momentum with over 1.95 million units sold in CY 2024, driven predominantly by the two-wheeler (2W) and three-wheeler (3W) segments. EVs now constitute ~3.6% of overall vehicle sales, aided by cost parity, growing awareness and increased availability of models.

Looking ahead, this momentum is expected to continue for FY 26, even with the FAME (Faster Adoption and Manufacturing of Electric Vehicles)-II (2019-2024) scheme concluding as new programs have been rolled out to maintain the policy push and charging infrastructure is expanding steadily across states.

With the FAME-II scheme concluding, India's e-mobility ecosystem is now shifting toward long-term scale and localization.

Key Government policies driving growth:

- **PM E-Drive Initiative (Post-FAME support)** -

Approved with an outlay of ₹10,900 Crore, this program targets deployment of ~2.8 million electric two-wheelers (e-2W) and three-wheelers (e-3W) and 14,000 e-buses in the coming years. This is complemented by the PM-bus Sewa scheme (₹3,435 Crore), which aims to procure 38,000+ electric buses from FY 2024-25 to FY 2028-29, with payment security support for transit agencies.

- **Electric Mobility Promotion Program, 2024** – Launched by the Ministry of Heavy Industries for the April-September period, with a budget of ₹769.65 Crore, this short-term scheme targets subsidizing ~5.6 lakhs of e-2W and e-3W, helping sustain demand post FAME-II. These measures, alongside state-level EV policies and GST cuts (EVs taxed at 5%) are reinforcing the national push for electric mobility.

Green Transmission

In October 2024, India unveiled the National Electricity Plan (Transmission), setting-out a roadmap for scaling up grid infrastructure to match the Country's clean energy ambitions. The plan outlines the addition of ~191,000 circuit-km of transmission lines and 1,270 GVA of transformation capacity (at 220 kV and above voltage level) over the decade from 2022-23 to 2031-32. This expansion is essential for evacuating the targeted 500 GW of non-fossil capacity by 2030. The plan also incorporates 47 GW of battery storage and 31 GW of pumped hydro storage, ensuring grid flexibility and reliability as renewable energy penetration increases.

Specific projects are progressing for example – a dedicated Ladakh-Haryana HVDC transmission line project of 713 km involving 480 km of HVDC transmission, is being built to transmit 13 km of solar and wind power from the remote Ladakh region to Haryana, with commissioning targeted by 2029-30. The project is backed by Central Finance Assistance (CFA) of upto 40% of the Project Cost.

Similarly, the Green Energy Corridor intra-state networks are being developed across renewable-rich states to handle an additional 20 GW of solar and wind power generation. These efforts in FY25 are critical enablers for India's energy transition.

Key Government policies driving growth:

- **Green Energy Corridor (GEC) Program** – GEC Phase-I (intrastate, near completion) and GEC Phase-II aims to strengthen transmission infrastructure. GEC Phase-II (InSTS) spans 7 states, targeting ~10,750 km of new lines and 27,500 MVA of substations and is backed by ₹12,000 crore investment (including 33% central subsidy) and aimed to evacuate 20 GW of renewable energy

by 2026.

- **Transmission Incentives for Renewables** - Interstate transmission charges for renewable energy are waived for 25 years for projects commissioned by 30th June 2025 and 31st December 2032 for offshore wind.
- **Grid Operations Reforms** - Through green energy open access rules, scheduling reforms and digital load dispatch centers, grid operations are being strengthened. In FY 25, transmission planning has been integrated with renewable and green hydrogen hubs, reflecting a holistic approach to building a “green grid” for India’s future.

New and Evolving Segments

Energy Storage

Energy storage is emerging as a vital enabler of India’s clean energy transition, especially as renewable energy penetration increases. Grid-connected energy storage technologies such as Battery Energy Storage Systems (BESS) and Pumped Storage Projects (PSPs) are now at the forefront of infrastructure development to ensure Round-the-Clock (RTC) renewable power and grid stability.

➤ **Battery Energy Storage Systems (BESS) -**

FY 25 marked a significant shift with the launch of India’s first large-scale utility BESS tenders - SECI tender for 1,000 MW/2,000 MWh and multiple 500 MW/1,000 MWh projects by national and state utilities.

Though operational BESS capacity remains limited, the project pipeline is growing rapidly, and costs are declining steadily, improving commercial viability. In line with these trends, the government upgraded its initial BESS target from 4 GWh to ~13.2 GWh by FY 27-28 while staying within the approved budgetary allocation of ₹3,760 Crore under the VGF scheme.

➤ **Pumped Storage Projects (PSPs) -**

While ~4.7 GW of operational PSP capacity in India, states are reviving pumped hydro storage projects to ensure RTC clean power. During FY 25, CEA (Central Electricity Authority) concurred DPRs of 6 Hydro PSPs of about 7.5 GW and aims to concur minimum 13 PSPs of about 22 GW during FY 2025-26.

Key Government policies driving growth:

- **Validity Gap Funding (VGF) scheme for BESS** - Launched in September 2023, this scheme offers upto 40% of VGF for battery storage projects, through providing ₹9,400 Crore to support 4,000

MWh of battery storage by FY2026. Falling battery prices have since prompted a scale-up, as now the VGF program will facilitate 13,200 MWh of BESS (with the same budget) by FY 2027-28.

- **Energy storage obligations (ESO)** - It mandates DISCOMs and other obligated entities to meet their renewable energy consumption through solar/wind energy along with/ through storage (on energy basis) as 1% by FY24, rising to 4% by FY30, with an annual increase of 0.5%.
- **Policy Incentives for PSPs** - Under the Guidelines to promote development of PSPs, Govt. of India has offered incentives such as waiver of transmission charges for new pumped storage projects and inclusion of such storage in the ESO framework.

Battery Manufacturing

India is laying the groundwork for a domestic storage cell and battery manufacturing ecosystem, crucial for both EVs and stationary storage. While most storage cells are still imported, several cell and battery manufacturing facilities are now under development, marking a pivotal shift toward self-reliance.

To accelerate the transition, the Government has launched strategic initiatives to localize the entire value chain – from cell production to R&D and supply chain development.

Key Government policies driving growth:

- **National Programme on Advanced Chemistry Cell (ACC) Battery Storage** – Launched in 2021, this flagship policy initiative, targets to establish 50 GWh of domestic cell capacity across multiple chemistries, with a total budgetary outlay of ₹18,100 Crore in the form of Performance Linked Incentives (PLI). The first round of PLI was concluded in March 2022 wherein 30 GWh of cell production capacity was allocated. Subsequently 10 GWh of capacity was allocated in September 2024. The remaining 10 GWh is expected to be allocated in future rounds, ensuring phased market expansion and technology adoption.

Beyond the PLI beneficiaries, other firms are also venturing out into domestic cell and battery manufacturing to tap the growing market of energy storage.

- **Other supportive measures** include customs duty exemptions on certain cell components, R&D support for novel chemistries (e.g. metal-air, solid-state batteries), and state-level incentives (land, tax breaks) for gigafactory investments. Together, these policies in FY 26 aim to build a complete domestic supply chain for battery technology in India.

Green Hydrogen and Electrolyzer Manufacturing

Green hydrogen has gained significant traction in FY 25 as India seeks to decarbonize hard-to-abate sectors. The National Green Hydrogen Mission (NGHM), approved in January 2023, set a target of producing at least 5 MMT (million metric tons) of green hydrogen annually by 2030, with an associated RE capacity addition of 125 GW. During FY 25, the Government of India allocated ₹600 Crore to kick-start mission programs, and public-sector undertakings (e.g. refineries, fertilizer plants) have started pilot projects to use green hydrogen in their processes.

On the manufacturing side, India conducted its first auction for domestic electrolyzer production capacity under the mission's incentives: 1,500 MW/year of electrolyzer capacity was awarded in Tranche-I of the SIGHT program. This was followed by Tranche-II, which also awarded 1,500 MW/year of electrolyzer manufacturing capacity across various technology categories, further boosting domestic production under the National Green Hydrogen Mission.

Key Government policies driving growth:

The National Green Hydrogen Mission (NGHM) is the overarching policy driver, with a total outlay of ₹19,744 Crore and the objective of making India a global hub for green hydrogen. The mission expects to mobilize ₹8 trillion in investments and create about 6 Lakh (600,000) jobs by 2030. Key components of the mission include:

1. Strategic Interventions for Green Hydrogen Transition (SIGHT) – a two-pronged production-linked incentive scheme for domestic electrolyzer manufacturing and for green hydrogen production,
2. Funding for pilot projects in sectors like steel, long-range transport, shipping, and energy storage to demonstrate hydrogen use;
3. Development of green hydrogen hubs (regions with clustered production and end-use);
4. Support for infrastructure such as pipelines, and regulations for open access renewable power for hydrogen
5. R&D and skill-building programs.

In addition, policies to enable the industry include waivers of interstate transmission charges for renewable electricity used to produce green hydrogen (for projects commissioned before 2030), mandates for oil & fertilizer companies to purchase green hydrogen (gradual hydrogen purchase obligations), and standards for hydrogen fuel quality and safety.

Off-shore Wind

India is in the early stages of developing offshore wind

energy, a new frontier to expand renewable power. While no offshore wind farms have been commissioned as of FY 25, the potential is substantial and policy momentum is accelerating. Studies indicate about 36 GW of wind potential off the coast of Gujarat alone and nearly 35 GW of offshore wind energy potential exists off the Tamil Nadu coast. Combined, these zones offer a potential of 70+ GW offshore wind which is critical for meeting long-term decarbonization targets.

To capitalize on this potential, the Government of India has laid out an ambitious trajectory to install 37 GW of offshore wind capacity by 2030. FY 25 marked a turning point with several concrete actions to lay the groundwork, as the government approved a ₹7453 Crore (~US\$900 million) Viability Gap Funding (VGF) scheme to develop India's first offshore wind project, which will support 1 GW of offshore wind development off the coasts of Gujarat and Tamil Nadu. Further, during the year, SECI (Solar Energy Corporation of India) invited the bids for development of 4 GW offshore wind energy off Tamil Nadu coast, divided into 4 blocks of 1 GW each. Moreover, central agencies are planning pilot projects of 5 GW each off Gujarat and Tamil Nadu in the coming years. Also, efforts are also underway to build transmission links from sea to grid – planning is completed for evacuating the first 10 GW.

This commitment to offshore wind is expected to bring infrastructure synergies, supply chain development and policy learnings that could indirectly benefit the onshore wind ecosystem as well.

Key Government policies driving growth:

- **Offshore Wind Energy Rules (2023)** - Under the same, the developers are allowed to secure seabed leases for up to 35 years, providing long-term certainty and investment confidence.
- **Transmission Waivers and Open Access Incentives** - To improve project economics, a 25-year waiver of inter-state transmission charges was announced for offshore wind projects commissioned by December 2032. Likewise, these projects will pay no additional open access surcharges for power delivered to commercial consumers by 2032, making offshore wind power more competitive.
- **Viability Gap Funding (VGF) Scheme** - Recognizing the high upfront costs, the government outlined a viability gap funding (VGF) scheme for an amount of ₹7,453 Crore to provide financial support (likely through grants or accelerated depreciation benefits) to early offshore wind projects and for port upgrades to support logistics for these projects.

- **Auction Roadmap (2023-2030)** - An auction roadmap for 2023–2030 was released to provide visibility on upcoming tenders, covering auction models such as Build-Own-Operate (BOO) and Open Access Sale, ensuring market development and private sector participation.
- **Global Collaborations** - India is partnering with offshore wind energy leaders such as Denmark and Germany to gain technical expertise, de-risk early stage development, and co-develop supply chains and port infrastructure.

Smart Metering

The Government of India (GoI) is taking various initiatives to boost the adoption of Advanced Metering Infrastructure (AMI)/ Smart meters in the Country. It has launched initiatives such as Smart Meter National Programme that aims to replace 25 Crore (250 million) conventional meters with smart meters in India. To drive this vision, the Government of India launched the Revamped Distribution Sector Scheme (RDSS), which is a reform based and result linked scheme aiming to improve the reliability and quality of power supply, operational efficiencies, and financial sustainability of electricity distribution sector.

Under RDSS, AMI shall be implemented under TOTEX mode, in which agency will be contracted for supplying, maintaining and operating the metering infrastructure for the purpose of meter related data and services to the DISCOM. It will make both capital and operational expenditure under DBFOOT (Design Build Fund Own Operate & Transfer) or similar modes and will be paid for a portion of its capital expenditure initially on installation and commissioning of smart meter and the remaining payment over the O&M period.

Key Government policies driving growth:

- **Revamped Distribution Sector Scheme (RDSS)** - Launched in mid-2021, RDSS is the flagship policy for smart metering and distribution reforms. With a massive outlay of ₹3.03 Lakh Crore (₹3 trillion) and ₹97,631 Crore of central budget support, RDSS aims to overhaul distribution infrastructure and reduce aggregate technical & commercial (AT&C) losses to 12-15% while eliminating the revenue gap (ACS-ARR). However, on account of challenges in tendering, lack of awareness at utility and consumer levels, difficulties in establishing direct debit facilities etc., the rollout of smart meters under the RDSS in India is experiencing delays. To address the same, the Power Ministry has sought to extend RDSS till FY2027-28, giving DISCOMs extra time to meet targets without penalty.

- Offers a wide range of financial products and schemes such as Project Specific Funding, Guarantee Scheme, Credit Enhancement Guarantee Scheme etc.

Weaknesses

- As a Non-Deposit taking Systemically Important (ND-SI) NBFC, your Company is not permitted to accept deposits from retail investors, which poses challenges in accessing low-cost funds and lending at competitive rates.
- Owing to limited capital base, your Company is required to access capital markets from time to time to meet the growing financing requirements of the sector.

Opportunities

- Huge renewable energy and associated green energy sectors investment pipeline in India: Over ₹46 Lakh Crore estimated by 2030.
- Government-backed push for 50 GW annual bidding and 500 GW non-fossil capacity by 2030.
- New funding avenues via GIFT City and ESG-linked instruments like green bonds.
- Growing demand for green hydrogen, battery storage, offshore wind, smart metering infrastructure and electric mobility provides long-term lending opportunities.

Threats, Risks and Concerns

- The growth of the RE sector is strongly linked to favorable government policies and financial incentives. Any reduction or withdrawal of these benefits could adversely affect the sector and your Company.
- Your Company faces stiff competition, especially in traditional RE sectors, from other deposit-taking financial institutions that might have lower costs of funds or better access to capital.

6. RISK MANAGEMENT FRAMEWORK

Your Company's comprehensive risk management is overseen by the Board of Directors. The Risk Management Committee (RMC), a Board-level Committee chaired by an Independent Director, is responsible for supervising the implementation of the risk strategy and developing policies and procedures in line with Reserve Bank of India guidelines. The Board holds ultimate responsibility for managing overall organizational risk.

The RMC ensures independent risk oversight and a focused risk management process. It also reviews enterprise-wide risk frameworks such as the Risk Appetite Framework (RAF), Internal Capital Adequacy Assessment Process (ICAAP), and the Stress Testing Framework.

Given the evolving nature of risk taxonomies, maintaining a prudent risk management approach

requires periodic revision of the charters for the Board and its sub-committees, all under the umbrella of astute Board oversight.

Your Company's principal risks include credit, liquidity, operational, cybersecurity, and technology risks. To address these, the Company have implemented a comprehensive Risk Appetite Framework. An Internal Audit Department assesses the adequacy and effectiveness of internal controls, risk management practices, governance systems, and related processes in line with the Regulatory guidelines.

7. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company has adequate system of internal control systems commensurate with size, scale and complexity of its operations to ensure accurate and timely reporting of various transactions, efficiency of operations and compliance with applicable laws, regulations, guidelines and Company's policies.

Review of the Internal Financial Controls for ensuring accuracy and completeness of the accounting record, safeguarding of assets, the prevention and detection of frauds and errors and timely preparation of reliable financial information is conducted by an experienced firm of Chartered Accountants in close co-ordination with the Company's various departments.

The Internal Audit is carried out by Company's Internal Audit Department, with the help of external professional audit firm M/s Ravi Rajan & Company, LLP, Chartered Accountants, appointed as internal auditor, for FY 25. The Audit Committee periodically reviews the significant findings of the audits, as prescribed by the Companies Act, 2013, SEBI (LODR) Regulations, 2015 and applicable RBI Guidelines. Further, Company has implemented Board-approved Risk Based Internal Audit (RBIA) Policy in compliance with the RBI guidelines.

Independent Auditor's Report

To the Members of

Indian Renewable Energy Development Agency Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Indian Renewable Energy Development Agency Limited** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025, and the Standalone Statement of Profit and Loss (including Other Comprehensive income), Standalone Statement of Changes in Equity and Standalone Statement of Cash Flows for the year then ended, and Notes to the Standalone Financial Statements, including a summary of material accounting policies and Other Explanatory information prepared in accordance with the requirement of the Companies Act 2013 (as amended) ("the Act") (hereinafter referred to as "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and profit including comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act ("SAs"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Emphasis of Matter

We draw your attention to the following matters:

1. As described in Note 38 (40) to the Standalone Financial Statements, the company has classified certain Loans given aggregating to ₹ 1,202.21 crore required to be classified as stage III /Non-Performing Assets (NPA) as stage II / Standard in terms of interim order of Hon'ble High Court of Andhra Pradesh and Hon'ble High Court of Delhi. The statutory disclosures have been made accordingly. However, as a matter of prudence, interest income on such accounts becoming NPA in terms of prudential norms of RBI has been recognized on collection basis and allowance for impairment loss has been made in accounts accordingly.
2. As described in Note 48 (B)(a) to the Standalone Financial Statements, As of 31 March 2024, the reported CRAR of the Company was 20.11% .This calculation was based on a 50% risk weight assigned to commissioned renewable energy infrastructure project assets financed by the Company that had reached their commercial operations date (COD) and had been operational for over a year. However as per 31 March 2025, the company has applied a 100% risk weight to these assets. Accordingly, CRAR of corresponding period as at 31 March 2024 has been restated to 15.51%.

Our opinion is not modified in respect of the above matters.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements for the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have considered the matters described below to be the Key Audit Matters for incorporation in our Report.

Sr. No.	Key Audit Matters	Auditor's Response
1.	Impairment of Loan Assets – Expected Credit loss Financing is principal business of the Company and disclosure of Loan assets at fair value after considering the provision for loss due to impairment is most significant. The Company follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain criterion / framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. The measurement of an expected credit loss allowance (ECL) for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., likelihood of customers defaulting and resulting losses) to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models and assumptions are key driver to measure Impairment loss. The Company makes significant judgments while assessing ECL and the assumptions underlying the ECL are monitored and reviewed on periodically basis. The proper application of such assumptions is material for statement of the Loan Assets. In view of the materiality of the amount of loan assets in the Standalone Financial Statements, the loss due to impairment of loan assets has been considered as Key Audit Matter in our audit. Refer Note no. 38 (19) (A) (ii) (a) to the Standalone Financial Statements read with material accounting policy No.3(xx)- 'Financial Instruments')	Our Audit procedures based on which we arrived at the conclusion regarding reasonableness of the disclosures and accounting for Impairment of Loan Assets -Expected Credit loss includes the following: We have obtained an understanding of the guidelines as specified in Ind AS 109 "Financial Instruments", various regulatory updates, guidance of ICAI and internal instructions and procedures of the Company in respect of the ECL and adopted the following audit procedures: Evaluation and testing of the key internal control mechanisms with respect to the loan assets monitoring, assessment of the loan impairment including testing of relevant data quality, and review of the real data entered. Recoveries in the loan assets are verified to ascertain level of stress thereon and impact on impairment allowance in Standalone Financial Statements. Verification / review of the documentation, operations / performance, valuation of available securities and monitoring of the loan assets, especially large and stressed loan assets, to ascertain any overdue, unsatisfactory conduct or weakness in any loan asset account. The company avails services of third party for evaluation of ECL Components. The calculations in the study for impairment allowance carried out by third party are relied upon by us and test checks are carried out for the same. The data shared with the third party is verified by us for correctness of material components being submitted. Our audit procedure in the same are limited in view of not sharing software access used for study of such data considering the confidentiality by such third party. We also compared ECL with the provisioning as required by the applicable directions of the Reserve Bank of India and ensured adequacy of impairment allowance accordingly.

2	Fair valuation of Derivative Financial Instruments To mitigate the Company's exposure to foreign currency risk and interest rate, non-Rupee cash flows are monitored and derivative contracts are entered for hedging purpose. The derivatives are measured at fair value as per Ind AS 109. To qualify for hedge accounting, the hedging relationship must meet certain specified requirements as per Ind AS. Hedge accounting results in significant impact on Standalone Financial Statements together with complexity of its accounting/assumptions and numerous parameters therein for establishing hedge relationship. Gain/Loss on these derivatives is recognised in other comprehensive income or profit and loss as provided by Ind AS. The magnitude of such transactions is significant as per the operations of the company. In view of facts of the matter we have identified it as a key audit matter. (Refer Note No. 38 (29) to the Standalone Financial Statement read with material accounting policy No. 3(xx).	Our Audit procedures based on which we arrived at conclusion regarding reasonableness of the disclosures and accounting for derivatives include the following: -Verification of fair value of derivative in terms of Ind AS 109, testing the accuracy and completeness of derivative transactions. -Evaluation of management's key internal controls over classification, valuation, and valuation models of derivative instruments. -Obtaining details of various financial derivatives contracts as outstanding/pending for settlement as on 31st March, 2025. -Discussing and understanding management's perception and studying policy of the company for risk management. -Verification of Mark To Market valuation report for outstanding derivatives deal as on 31st March 2025 obtained by the company from external valuer. -Verification of underlying assumptions in estimating the fair valuation arrived at for those financial derivative contracts. -Appropriateness of the valuation methodologies applied and testing the same on sample basis for the derivative instruments. Additionally, we verified the accounting of gain/loss on derivatives in the other comprehensive income or Profit & Loss Account. Reviewed the appropriateness and adequacy of disclosures by the management as required in terms of Ind AS 109.
3	Liability for Taxation The company has material uncertain tax demands in respect of matters under dispute which involves significant judgement to determine the possible outcome of these disputes. Service Tax and Goods & Service Tax (GST) Authorities have raised certain issues and raised demands for several past periods, which are being contested by company at various forums. Income Tax cases for FY 2013-14 and FY 2019-20 are pending before the CIT (Appeals). Appropriate provision and disclosure of consequential liabilities is material to the presentation of Standalone Financial Statements.	Our Audit procedures based on which we arrived at conclusion regarding reasonableness of the disclosures and accounting for Liability for Taxation include the following: Our audit procedure includes review of various orders passed by Assessing Officer on the subject matter in dispute with Department of Income Tax. We undertook procedure to evaluate management position on these uncertain tax positions. For other tax matters, the facts and the legal pronouncements were analyzed and reviewed. We reviewed the appropriateness and adequacy of disclosures by the management as required in terms of Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets".

Sr. No.	Key Audit Matters	Auditor's Response
	Possible outcome of these demands may be substantial. In view of this we have identified it as a key audit matter. Refer note 38 (16) (a) of the Standalone Financial Statements.	

Information Other than the Ind AS Standalone Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Directors' Report, Management Discussion and Analysis Report, but does not include the Standalone Financial Statements and our auditors' report thereon. The other information as stated above is expected to be made available to us after the date of this auditors' report.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available, and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. When we read the other information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the state of affairs (financial position), Profit or Loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors of the company is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to Standalone Financial Statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, make it probable that economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance of the Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- As per past practice, in respect of loan assets, the Company has provided Expected Credit Loss (ECL) as required under Ind AS 109 based on the ECL report submitted by an independent expert appointed by the Company, which inter alia includes assumptions based on technical parameters / certain aspects.

Annexure-C to the Independent Auditor's Report

Report on the Internal Financial Controls Over Financial Reporting under Clause (1) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (the Act)

We have audited the internal financial controls over financial reporting of Indian Renewable Energy Development Agency Limited, (the Company) as March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting record, and timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the 'Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note")' and the 'Standards on Auditing', both issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note required that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial report, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an internal financial controls system over financial reporting and such financial controls system over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI. Further, certain areas of accounting records for instance Effective Interest Rate calculation, Asset Liability Management (ALM) are in process of automation for better control.

Our opinion is not modified in respect of above matters.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6) (b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF INDIAN RENEWABLE ENERGY DEVELOPMENT AGENCY FOR THE YEAR ENDED 31 MARCH 2025.

The preparation of financial statements of Indian Renewable Energy Development Agency for the year ended 31 March 2025 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139 (5) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their **Audit Report dated 15th April 2025.**

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the financial statements of **Indian Renewable Energy Development Agency** for the year ended 31 March 2025 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

Note 1 : Material Accounting Policies Forming Part of Standalone Financial Statement

1) Corporate Information

Indian Renewable Energy Development Agency Limited ("IREDA" or the "Company") (CIN : L65100DL1987GOI027265) was incorporated in India in the year 1987. The Company is a Public Limited Company, domiciled in India and is limited by shares having its registered office and principal place of business at 1st Floor, India Habitat Centre, East Court, Core- 4A, Lodhi Road, New Delhi - 110003. In addition to the registered office of the Company, the Company also has branch offices and also owns a 50 MW Solar project situated at Kasargod in the state of Kerala.

The Company also has a wholly owned subsidiary Company named as "IREDA Global Green Energy Finance IFSC Ltd" in IFSC (International Financial Services Centre)-GIFT City (Gujarat International Finance Tec-City).

The Company is a Government of India [Navratna] enterprise under the administrative control of Ministry of New and Renewable Energy (MNRE) and is engaged in promoting, developing and extending financial assistance for setting up projects relating to new and renewable sources of energy, energy efficiency & conservation with the motto: "ENERGY FOR EVER".

The Company is a systemically important non-deposit taking non-banking financing Company (NBFC- NDSI) / NBFC Middle Layer (ML) registered as an Infrastructure Finance Company (IFC) with the Reserve Bank of India. Being a NBFC, the Company is regulated by the Reserve Bank of India.

Equity shares and debt securities of the Company are listed on National Stock Exchange of India Limited (NSE) and BSE Ltd.

2) Basis of Preparation

(i) Statement of Compliance with Ind AS

The financial statements of the Company have been prepared in accordance with the Sec. 133 of the Companies Act 2013 and in compliance with the Indian Accounting Standards (Ind AS) issued by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 and as further amended.

The financial statements are prepared on a going concern basis and on accrual basis of accounting. The Company has adopted historical cost convention except for certain items which have been measured on a different basis and such basis is disclosed in the relevant accounting policy.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Use of estimates

The preparation of the Company's financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Management believes that the estimates used in the preparation of financial statement are prudent and reasonable. Future result could differ from these estimates. Any revision to accounting estimate is recognized prospectively in current and future period.

Significant management judgment in applying accounting policies and estimation of uncertainty

(A) Significant management judgments

Recognition of deferred tax assets/ liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Company Management has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income tax Act, 1961 and thus, the special reserve created and maintained is not capable of being reversed. Hence, the Company does not create any deferred tax liability on the said reserve.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of the recoverable amount of the assets.

Non recognition of Interest Income on Credit Impaired Loans - Interest income on credit-impaired loan assets is not being recognised as a matter of prudence, pending the outcome of resolutions of stressed assets.

Materiality of Prior Period item

Prior period items which are not material are not corrected retrospectively through restatement of comparative amounts and are accounted for in current year.

Omissions or misstatements of items are material if they could, individually or collectively, influence the economic decisions that users make on the basis of the financial statements. Materiality depends on the size and nature of the omission or misstatement judged in the surrounding circumstances. The combination of size and nature of the items are the determining factor.

(B) Significant estimates

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Company uses market observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss ('ECL') – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g., likelihood of customers defaulting and resulting losses). The Company makes significant judgments about the following while assessing expected credit loss to estimate ECL:

- Determining criteria for a significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/ market and the associated ECL;
- Establishing groups of similar financial assets to measure ECL; and
- Estimating the probability of default and loss given default (estimates of recoverable amounts in case of default).

Provisions: The timing of recognition and quantification of the liability (including litigations) requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

(iii) Functional and Presentation currency

The financial statements are presented in Indian Rupee ('INR') which is the functional currency of the Company .

3) MATERIAL ACCOUNTING POLICIES

(i) Property, Plant and Equipment (PPE)

Tangible Assets (PPE)

The PPE (Tangible assets) is initially recognized at cost.

The cost of an item of Property, Plant and Equipment comprises of its purchase price, including import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use. Stores and spares which meet the recognition criteria of Property, Plant and Equipment are capitalized and added in the carrying amount of the underlying asset.

The Company has adopted the cost model of subsequent recognition to measure the Property, Plant and Equipment. Consequently, all Property, Plant and Equipment are carried at its cost less accumulated depreciation and accumulated impairment losses, if any.

De-recognition

An item of PPE is derecognized on disposal, or when no future economic benefits are expected from use. Gains or losses arising from de-recognition of a PPE measured as the difference between the net disposal proceeds and the Carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use. Advances paid for the acquisition/ construction of PPE which are outstanding at the balance sheet date are classified under 'Capital Advances.'

(ii) Intangible Assets and Amortisation

Intangible assets are initially measured at cost. The cost comprises purchase price, import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the condition necessary for it to be ready for its intended use. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Company.

All intangible assets with finite useful life are subsequently recognized at cost model. These intangible assets are carried subsequently at its cost less accumulated amortization and accumulated impairment loss if any.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

Derecognition

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss when the asset is derecognized.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

(iii) Depreciation and Amortization

Depreciation on Tangible PPE is provided in accordance with the manner and useful life as specified in Schedule –II of the Companies Act 2013, on Written Down Basis (WDV) except for the assets mentioned as below:

- Depreciation on Library books is provided @ 100% in the year of purchase.
- Depreciation on PPE of Solar Power Project is provided on Straight Line Method at rates/methodology prescribed under the relevant Central Electricity Regulatory Commission (CERC) and relevant state Commission Tariff Orders.
- Depreciation is provided @100% in the financial year of purchase in respect of assets of ₹5,000/- or less.
- Amortization of intangible assets is being provided on straight line basis.
- Useful lives for all PPE & Intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates.

• Useful life of assets as per Schedule II:

Asset Description	Estimated Useful Life	Residual Value as a %age of original cost
Building	60 years	5%
Computers and Data Processing Units		
-Laptops / Computers	3 years	5%
-Servers	6 years	5%
Office Equipment's	5 years	5%
Furniture and Fixtures	10 years	5%
Vehicles	8 years	5%
Intangible Assets	5 years	0%

• Useful life of assets as per CERC order

Asset Description	Estimated Useful Life	Residual Value as a
%age of original cost		
Solar Plant	25 years	10%

(iv) Government and Other Grants / Assistance

The Company may receive government grants that require compliance with certain conditions related to the Company's operating activities or are provided to the Company by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Company will be able to comply with the conditions attached to them. These grants are classified as grants relating to assets and revenue based on the nature of the grant.

Government grants with a condition to purchase, construct or otherwise acquire long term assets are initially recognized as deferred income. Once recognized as deferred income, such grants are recognised in the statement of profit and loss on a systematic basis over the useful life of the asset. Changes in estimates are recognized prospectively over the remaining life of the asset.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

Grant related to subsidy are deferred and recognised in the statement of profit and loss over the period that the related costs, for which it is intended to compensate, are expensed.

Grant-in-aid for financing projects in specified sectors of New and Renewable Sources of Energy (NRSE) is treated and accounted as deferred income.

The expenditure incurred under Technical Assistance Programme (TAP) is accounted for as recoverable and shown under the head 'Other Financial Assets'. The assistance reimbursed from Multilateral/Bilateral Agencies is credited to the said account.

(v) Leases

❖ As a lessee

The Company assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- i. The contract involves the use of an identified asset;
- ii. The Company has substantially all of the economic benefits from use of the asset through the period of the lease, and
- iii. The Company has the right to direct the use of the asset.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the estimated useful life of the assets.

ii) Lease liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. The incremental borrowing rate is the SBI MCLR rate for the period of the loan if the loan is up to 3 years. For a period, greater than 3 years, SBI MCLR rate for 3 years may be taken.

iii) Short-term leases and leases of low-value assets

Lease payments on short-term leases (which has a lease term of up to 12 months) and leases of low value assets (asset value up to ₹ 10,00,000/-) are recognised as expense over the lease term. Lease term is determined by taking non-cancellable period of a lease, together with both:

- a) Periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and
- b) Periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

❖ As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all the risk and rewards incidental to the ownership of the underlying asset. If this is the case, then the lease is a finance lease, if not, then it is an operating lease. As part of the assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 "Revenue from contract with customers" to allocate the consideration in the contract. The Company recognizes lease payments received under operating lease as income on a straight-line basis over the lease term as part of "Revenue from operations".

(vi) Investments in Subsidiary, Associates and Joint Venture

- The Company accounts investment in subsidiary, joint ventures, and associates at cost. An entity controlled by the Company is considered as a subsidiary of the Company. Investments in subsidiary Company outside India are translated at the rate of exchange prevailing on the date of acquisition.
- Investments where the Company has significant influence are classified as associates. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.
- A joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement is classified as a joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

❖ Impairment Loss on Investment in Associate or joint Venture

If there is an indication of impairment in respect of entity's investment in associate or joint venture, the carrying value of the investment is tested for impairment by comparing the recoverable amount with its carrying value and any resulting impairment loss is charged against the carrying value of investment in associate or joint venture.

(vii) Impairment of Non-Financial Asset

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating units (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

(viii) Cash and cash equivalents

Cash comprises of cash in hand, cash at bank including debit balance in bank overdraft, if any, demand deposits with banks, commercial papers and foreign currency deposits. Cash equivalents are short term deposits (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

(ix) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalized up-to the date when the asset is ready for its intended use after netting off any income earned on temporary investment of such funds.

To the extent that the Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset.

Other borrowing costs are expensed in the period in which they are incurred.

(x) Foreign currency transactions

Transactions in currencies other than the functional currency are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Statement of Profit and Loss.

Foreign Currency Monetary Item Translation Reserve Account (FCMITR) represents unamortized foreign exchange gain/loss on Long-term Foreign Currency Borrowings that are amortized over the tenure of the respective borrowings. IREDA had adopted exemption of para D13AA of Ind AS 101, according to which it may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognized in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, all transactions in foreign currency are recorded at the exchange rate prevailing at the date of the transaction. The exchange differences arising on reporting of long-term foreign currency monetary items outstanding as on March 31, 2018, at rate prevailing at the end of each reporting period, different from those at which they were initially recorded during the period, or reported in previous financial statements, are accumulated in FCMITR Account, and amortized over the balance period of such long-term monetary item, by recognition as income or expense in each of such period. Long-term foreign currency monetary items are those which have a term of twelve months or more at the date of origination.

Short-term foreign currency monetary items (having a term of less than twelve months at the date of origination) are translated at rate prevailing at the end of each reporting period. The resultant exchange fluctuation is recognized as income or expense in each of such periods.

As per Para 27 of Ind AS 21, exchange difference on monetary items that qualify as hedging instruments in cash flow hedge are recognized in other comprehensive income to the extent hedge is effective. Accordingly, Company recognize the exchange difference due to translation of foreign currency loans at the exchange rate prevailing on reporting date in cash flow hedge reserve.

(xi) Earnings per Share

The basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares outstanding during the year. The number of equity shares and potentially dilutive equity shares are adjusted for share splits /reverse share splits and bonus shares, as appropriate.

(xii) Provisions

A provision is recognized when the Company has a present obligation (Legal or Constructive) as a result of past event, and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

(xiii) Contingent liabilities

Contingent liabilities are not recognized but disclosed in Notes when the Company has possible obligation due to past events and existence of the obligation depends upon occurrence or non- occurrence of future events not wholly within the control of the Company and Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent liabilities are assessed continuously to determine whether outflow of Economic resources have become probable. If the outflow becomes probable, then relative provision is recognized in the financial statements.

(xiv) Contingent Assets

Contingent Assets are not recognized but disclosed in Notes which usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits.

Contingent assets are assessed continuously to determine whether inflow of economic benefits becomes virtually certain, then such assets and the relative income will be recognised in the financial statements.

(xv) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chairman and Managing Director (CMD) of the Company have been identified as the Chief Operating Decision Maker (CODM).

(xvi) Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated unless it is impracticable, in which case, the comparative information is adjusted to apply the accounting policy prospectively from the earliest date practicable.

(xvii) Taxation

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss /other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax is recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current tax is also recognized in other comprehensive income or directly in equity respectively. Where current tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding amounts used for taxation purpose.

Deferred tax liabilities are generally recognized for all taxable temporary differences.

Deferred tax assets are generally recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

(xviii) Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use.

After initial recognition, the Company measures investment property by using cost model.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss in the period in which the property is derecognized.

Investment properties are depreciated in accordance to the class of asset that it belongs and the life of the asset shall be as conceived for the same class of asset at the Company.

Though investment property is measured using cost model, the fair value of investment property is disclosed in the notes.

(xix) Employee Benefits

a) Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

b) Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

(i) Defined contribution plan

A defined contribution plan is a plan under which the Company pays fixed contributions in respect of the employees into a separate fund. The Company has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Company towards defined contribution plans are charged to the statement of profit and loss in the period to which the contributions relate.

(ii) Defined benefit plan

The Company has an obligation towards gratuity, Post-Retirement Medical Benefit (PRMB) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Company, even if plan assets for funding the defined benefit plan have been set aside.

The Company's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

The liability for retirement benefits of employees in respect of provident fund, benevolent fund, superannuation fund and Gratuity is funded with separate trusts.

The Company's contribution to Provident Fund / Superannuation Fund is remitted to separate trusts established for this purpose based on a fixed percentage of the eligible employee's salary and debited to Statement of Profit and Loss.

c) Other long-term employee benefits:

Liability in respect of compensated absences becoming due or expected to be availed more than one- year after the balance sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to statement of profit and loss in the period in which such gains or losses are determined.

(xx) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)
- Financial assets at fair value through other comprehensive income (FVOCI)

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

❖ **Loan at Amortised Cost**

Loans (financial asset) are measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- a) The financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

❖ **Financial assets at Fair Value through Profit or Loss (FVTPL)**

Financial assets at FVTPL include all derivative financial instruments except for those designated and effective as hedging instruments, for which the hedge accounting requirements are being applied. Assets in this category are measured at fair value with gains or losses recognized in the statement of profit and loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

❖ Financial assets at Fair Value through Other Comprehensive Income (FVOCI)

Financial assets at FVOCI comprise of equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Statement of Profit & Loss, even on the derecognition of the investment. However, the Company may transfer the same within equity.

De-recognition of financial assets

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e., removed from the Company's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Company also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for de-recognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for derivative financial liabilities which are carried at FVTPL, subsequently at fair value with gains or losses recognized in the statement of profit and loss. (FVTPL). All host contracts which are in nature of a financial liability and separated from embedded derivative are measured at amortized cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Derivative financial instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets and liabilities. The Company limits the effect of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives.

The Company use Derivative instrument includes principal swap, Cross Currency & Interest Rate Swap (CCIRS), forwards, interest rate swaps, currency and cross currency options, structured product, etc. to hedge foreign currency assets and liabilities.

Derivatives are recognized and measured at fair value (MTM). Attributable transaction costs are recognized in statement of profit and loss as cost.

De-recognition of Financial asset:

Financial assets are derecognized when the contractual right to receive cash flows from the financial assets expires or transfers the contractual rights to receive the cash flows from the asset.

Hedge Accounting

Derivative financial instruments are accounted for at fair value through profit and loss (FVTPL) except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument
- the effect of credit risk does not dominate the value changes that result from that economic relationship

Notes to Standalone Financial Statements

For the year ended March 31, 2025

- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

The Company has designated mostly derivative contracts as hedging instruments in cash flow hedge relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising against which debt instruments denominated in foreign currency.

- Cash Flow hedging is done to protect cash flow positions of the Company from changes in exchange rate fluctuations and to bring variability in cash flow to fixed ones.
- The Company enters into hedging instruments in accordance with policies as approved by the Board of Directors; provide written principles which are consistent with the risk management strategy/policies of the Company.
- All derivative financial instruments used for hedge accounting are recognised initially at fair value and reported subsequently at fair value in the balance sheet.

The hedge instruments are designated and documented as hedges at the inception of the contract. The effectiveness of hedge instruments is assessed and measured at inception and on an on-going basis. The effective portion of change in the fair value as assessed based on MTM valuation provided by respective banks/third party valuation of the designated hedging instrument is recognized in the "Other Comprehensive Income" as "Cash Flow Hedge Reserve". The ineffective portion is recognized immediately in the Statement of Profit and Loss as and when occurs.

At the time the hedged item affects profit or loss, any gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income.

If the hedging relationship no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in Cash Flow Hedge Reserve remains in Cash Flow Hedge Reserve till the period the hedge was effective. The cumulative gain or loss previously recognized in the Cash Flow Hedge Reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction.

Impairment

Impairment of financial assets

❖ **Loan assets**

The Company follows a 'three-stage' model for impairment of loan asset carried at amortized cost based on changes in credit quality since initial recognition as summarized below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12 months PD), or over the remaining lifetime (Lifetime PD) of the obligation.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

Loss Given Default (LGD) – LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type, and preference of claim and availability of collateral or other credit support.

Exposure at Default (EAD) – EAD is based on the amount of outstanding exposure as on the assessment date on which ECL is computed.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an on-going basis.

❖ Financial Instruments other than Loans consist of :-

- Financial assets include cash and cash equivalents, trade receivables, unbilled revenues, finance lease receivables, employee and other advances.
- Financial liabilities include borrowings, bank overdrafts, trade payables.

Non derivative financial instruments other than loans are recognized initially at fair value including any directly attributable transaction costs. Financial assets are derecognized when substantial risks and rewards of ownership of the financial asset have been transferred. In cases where substantial risks and rewards of ownership of the financial assets are neither transferred nor retained, financial assets are derecognized only when the Company has not retained control over the financial asset.

Subsequent to initial recognition, they are measured as prescribed below:

a) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents include cash in hand, at bank, demand deposits with banks, cash credit, fixed deposits and foreign currency deposits, net of outstanding bank overdrafts that are repayable on demand and are considered part of the Company's cash management system. In the statement of financial position, bank overdrafts are presented under borrowings.

b) Trade Receivable

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company determines impairment loss allowance based on individual assessment of receivables, historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates.

c) Other payables

Other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short-term maturity of these instruments.

(xxi) Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the Board of Directors and in the shareholders' meeting respectively.

(xxii) Fair Value Measurement & Disclosure

The Company measures financial instruments, such as derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements regularly, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(xxiii) Revenue Recognition

❖ Interest Income

Interest income is accounted on all financial assets (except Company is not recognizing interest income on credit impaired financial assets) measured at amortized cost. Interest income is recognized using the Effective Interest Rate (EIR) method in line with Ind AS 109, Financial Instruments. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition. The EIR is calculated by taking into account transactions costs and fees that are an integral part of the EIR in line with Ind AS 109. Interest income on credit impaired assets is recognized on receipt basis.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of the entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Unless otherwise specified, the recoveries from the borrowers are appropriated in the order of (i) incidental charges (ii) penal interest (iii) overdue interest and (iv) repayment of principal; the oldest being adjusted first. The recovery under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings is appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

❖ Other Revenue

- Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) are recognised as per Ind AS 115 - Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers. The Company recognizes revenue from contracts with customers based on the principle laid down in Ind AS 115 - Revenue from contracts with customers.
- Revenue from contract with customers is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably. Revenue is measured at the transaction price agreed under the Contract. Transaction Price excludes amounts collected on behalf of third parties (e.g., taxes collected on behalf of government) and includes/adjusted for variable consideration like rebates, discounts, only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

❖ Revenue from solar plant

Income from solar plant is recognised when the performance obligation are satisfied over time. Rebate given is disclosed as a deduction from the amount of gross revenue.

❖ Revenue from Fees and Commission

- Revenue from Fee & Commission

Fees and commission are recognised on a point in time basis when probability of collecting such fees is established.

- Revenue from Implementation of Government Schemes & Projects

The Company besides its own activities also acts as implementing agency on behalf of various Government / Non-Government Organizations on the basis of Memorandum of Understanding (MoU) entered into between the Company and such organization. The details of such activities are disclosed by the way of Notes to the Financial Statements.

Wherever any funds are received under trust on the basis of such MoUs entered, the same is not included in Cash and Cash Equivalents and any income including interest income generated out of such funds belonging to such organizations is not accounted as revenue of the Company.

Service charges earned from such schemes implemented by the Company are recognised at a point in time basis when certainty of collecting such service charges is established.

(xxiv)Expense

Expenses are accounted for on accrual basis. Prepaid expenses upto ₹ 5,00,000/- per item are charged to Statement of Profit & Loss as and when incurred/adjusted/received.

(xxv) Expenditure on issue of shares

Expenditure on issue of shares, if any, is charged to the securities premium account.

- i) Foreign currency borrowings from various multilateral / bilateral agencies viz. ADB, World Bank , KfW, AFD, JICA and EIB have been converted into rupee and hedging of the same is done by undertaking plain vanilla swap transaction /currency interest rate swap / principal only swap/forward contracts etc. with various banks with whom Company has signed International Swaps and Derivative Association (ISDA) Master Agreement. These derivative transactions have been entered into with the participating bank for a maturity period which may be shorter than the maturity period of the loan. The hedging of the foreign currency loan has been carried out at various intervals and in multiple Tranches based on the drawl under the lines of credit and also rollover. In addition to the interest cost and other financial charges, due to hedging of foreign currency loans, these loans carry hedging/ derivative cost, which is Tranche wise as per the drawl under the line of credit, thus the applicable rate of interest on these lines of credit has not been disclosed above.
- ii) Rupee Borrowing as on 31-03-2025 mentioned in Note No. 20 were raised at respective Banks/Financial Institutions benchmark rate plus spread ranging from 0 bps to 155 bps.
- iii) The Company raises funds through various instruments including bonds. During the year, the Company has not defaulted in servicing of any of its debt service obligations whether for principal or interest .
- iv) Funds raised during the year have been utilised for the stated objects in the offer document/information memorandum/facility agreement.
- v) The Company has not been declared as a wilful defaulter by any bank or financial institution or other lenders .
- vi) The statements of book debts filed by the Company with banks/ financial institutions are in agreement with the books of accounts.
- vii) None of the borrowings have been guaranteed by Directors.
- viii) There were no instances of breach of covenants of loans availed by the Company.

1 Nature and purpose of Reserves

1.1 Special Reserve:

Special reserve has been created to avail income tax deduction under section 36(1)(viii) of Income-Tax Act, 1961 @ 20% of the profit before tax arrived from the business of providing long term finance. Accordingly, a sum of ₹ 362.00 Crores has been provided for the year ended 31.03.2025 (previous year: ₹ 264.00 Crores).

1.2 Debenture Redemption Reserve:

In terms of Rule 18 (7)(b)(ii) of the Companies Act 2013, the Company is required to create a Debenture Redemption Reserve (DRR) upto 25% of the bonds issued through public issue. The Company has made a provision for DRR, so as to achieve the required amount over the respective tenure of the Tax-Free Bonds. Accordingly, a sum of ₹ 41.26 Crores has been provided for the year ended 31.03.2025 (previous year : ₹ 45.03 Crores).

1.3 General Reserve:

General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes, as the same is created by transfer from one component of equity to another.

1.4 Foreign Currency Monetary Item Translation Reserve:

Foreign Currency Monetary Item Translation Difference Account represents unamortized foreign exchange gain/loss on Long-term Foreign Currency Borrowings that are amortized over the tenure of the respective borrowings. The Company has adopted exemption of para D13AA of Ind AS 101, according to which a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognized in the financial statements for the year ending immediately before the beginning of the first Ind AS financial year as per the previous GAAP. Accordingly, all transactions in foreign currency are recorded at the exchange rate prevailing at the date of the transaction. The exchange differences arising on reporting of long-term foreign currency monetary items outstanding as on March 31, 2018, at rate prevailing at the end of each year, different from those at which they were initially recorded during the year, or reported in previous financial statements, are accumulated in a "Foreign Currency Monetary Item Translation Reserve Account" and amortized over the balance year of such long term monetary item, by recognition as income or expense in each of such years. Long-term foreign currency monetary items are those which have a term of twelve months or more at the date of origination. Movement of FCMITR has been shown in the table above.

1.5 NBFC Reserve:

In terms of RBI circular no. DNBR (PD)CC.No.092/03.10.001/2017-18 dated May 31, 2018, the Company is required to create NBFC reserve under Section 45-IC of RBI Act, 1934 @ 20% of post-tax profit. Accordingly, for the year ended 31.03.2025, an amount of ₹ 340 Crores has been appropriated (previous year: ₹ 251.00 Crores) towards NBFC reserve.

1.6 Securities Premium:

Securities premium is used to record the premium on issue of shares. The reserve can be utilized only for limited purposes in accordance with the provisions of the Companies Act, 2013. Expenditure on issue of shares is charged to the securities premium account.

Notes to Standalone Financial Statements

For the year ended March 31, 2025

1.7 Retained Earnings:

Retained earnings represent profits and items of other comprehensive income recognized directly in retained earnings earned by the Company less dividend distributions and transfer to and from other reserves.

1.8 Cash Flow Hedge Reserve:

The Company uses derivative instruments in pursuance of managing its foreign currency risk and interest rate risk associated on borrowings. For hedging foreign currency and interest rate risk, the Company uses foreign currency forward contracts, cross currency swaps and interest rate swaps. To the extent the derivative contracts designated under the hedge accounting are effective hedges, the change in fair value of the hedging instrument is recognized in 'Effective Portion of Cash Flow Hedges'. Amounts recognized in such reserve are reclassified to the Standalone Statement of Profit or Loss when the hedged item affects profit or loss. Movement of Cash Flow Hedge Reserve has been shown in the table above.

4. Undisclosed income

There were no transactions not recorded in the books of accounts that has been surrendered or disclosed as income during the current and previous year in the tax assessments under the Income Tax Act, 1961. Thus, no further accounting in the books of accounts is required.

5. Disclosure in respect of Indian Accounting Standard (Ind AS)-16 “Property, Plant and Equipment”

Decommissioning liabilities included in the cost of property, plant and equipment

As per Ind AS 16 Property, Plant and Equipment, Appendix A “Changes in Existing Decommissioning, Restoration and Similar Liabilities”, specified changes in decommissioning, restoration or similar liability needs to be added to or deducted from the cost of the asset to which it relates; the adjusted depreciable amount of the asset is then depreciated prospectively over its remaining useful life.

As per para 55 of Ind AS 16, the depreciable amount of an asset is determined after deducting its residual value. The amount of decommissioning liability and residual value related to solar plant is not reliably ascertainable. Hence, decommissioning liability related to the solar plant and the residual value have not been considered. Further, the management is of the opinion that the decommissioning cost (net of residual value of the solar plant), shall not be material.

15. Disclosure in respect of Indian Accounting Standard (Ind AS)-36 "Impairment of Assets"

The Company, at each balance sheet date, assesses whether there is any indication of impairment of any asset and/or cash generating unit. If such indication exists, assets are impaired by comparing carrying amount of each asset and/or cash generating unit to the recoverable amount being higher of the net selling price or value in use. Value in use is determined from the present value of the estimated future cash flows from the continuing use of the assets. The Company has no impairment loss during the current and previous year.

¹Income Tax

This pertains to Income Tax cases for AY 2014-15 and AY 2020-21 which are pending before the CIT(Appeals), while case for AY 2022-23 has been moved for rectification under Section 154 of the Income Tax Act. The Company is hopeful of a favourable outcome in respect of the various issues covered under the appeal and thus except for the issues decided against the Company in other years, for which reasonable provision has been made, no further provision has been considered as necessary.

For the Income Tax Cases of AY 2010-11 and AY 2012-13 to AY 2018-19 (except AY 2014-15, which is pending before CIT(A)), the order for appeal effect of CIT(A) is still awaited. However, during FY 2023-24 the Company has provided ₹ 14.80 crores for matters not allowed in the favour of the Company and the tax impact on the remaining matters, although not finally determined, is not considered as a contingent liability as no outflow is considered probable for the items allowed. Any adjustment shall be accounted for upon receipt of the respective orders. Further, the Company has filed appeal with the ITAT for matters not allowed.

For the Income Tax Cases of earlier years (AY 1998-99 – AY 2009-10), the Hon'ble High Court of Delhi decided the WRIT petition in favour of the Company vide order dated 08 December, 2023 and pronounced that the assessment proceedings concerning from AY 1998-99 to AY 2009-10, pursuant to the orders of the Tribunal dated 21 November 2014 and 29 May 2015, have become time-barred and thus directed the A.O. to accept the returned income and pass the consequential orders. Such consequential orders are awaited, and any adjustments shall be accounted for upon receipt of the respective orders.

²Service Tax and Goods & Service Tax (GST) cases

The Company had received a Notice of Demand/Order from the Commissioner, Adjudication, Central Tax, GST Delhi East dated 15 March 2022 creating demands on the Company amounting to ₹ 117.09 crores (excluding applicable interest) for financial year 2012-13 to 2015-16. Although the Company contends that entire demand is barred by limitation, it has provided for ₹ 13.22 crores (previous year: ₹ 12.48 crores) including interest on conservative basis. Based on law and facts in the matter, Service Tax demand (including interest) of ₹ 244.94 crores (previous year : ₹ 229.95 crores) has been disclosed as contingent liability. Further, since the Company is a government enterprise, no mala fide intention can be attributed to it and thus, extended period of limitation ought not to be invoked based on certain decisions of Hon'ble Supreme Court in such cases and hence the penalty has not been considered for disclosure as a contingent liability. The Company has filed an appeal with CESTAT, New Delhi on 15 June 2022 in the matter and the same is pending.

The Company had received order dated 25 March 2022 from the office of Additional Director General (Adjudication) on recovery of Service Tax on Guarantee Fee Paid to Government under Reverse Charge basis for the period April 2016 to June 2017 raising a demand of ₹ 20.73 crores towards Tax, ₹ 20.73 crores towards penalty and applicable interest thereon. While the Company had filed an appeal against the same before the Hon'ble CESTAT, Mumbai on 24 June 2022, it has made requisite provision towards

Notes to Standalone Financial Statements

For the year ended March 31, 2025

the Tax and interest thereon amounting to ₹ 69.36 crores (previous year : ₹ 63.10 crores) and penalty amount of ₹ 20.73 crores (previous year ₹ 20.73 crores) has been disclosed as contingent liability.

The Company has received order dated 31 January 2024 from the office of Commissioner of Central Tax Appeals -1, Delhi, vide which the appeal filed by the Company against recovery of GST on Guarantee Fee Paid to Government under Reverse Charge basis for the period 01 July 2017 to 26 July 2018 has been rejected. While the Company is in the process of filing appeal with the GST Appellate Tribunal, it has paid Tax amount of ₹ 13.28 crores under protest and made requisite provision towards Tax and interest thereon amounting to ₹ 28.96 crores (previous year : ₹ 28.96 crores). The penalty amount of ₹ 15.26 crores (previous period: ₹ 15.26 crores) has been disclosed as contingent liability.

³Others

Includes penalty for ₹ 0.03 crores (previous period: ₹ 0.03 crores) imposed by Ministry of Corporate Affairs (MCA) w.r.t. non-appointment of Woman Director. The Company being a government company has no control over appointment of directors and hence the same has not been considered for provision. The Company has filed appeal before the Regional Director (NR) MCA. The matter is still pending for adjudication. Also includes an amount of ₹ 4.62 crores (previous period: ₹ 3.78 crores) pertaining to cases pending before Hon'ble High Court of Delhi in the form of Writ Petition against the order of disciplinary authority for dismissal of staff from service of the Company. There is no interim order in this matter. Also includes ₹ 0.35 crores (previous period: ₹ 0.35 crores) pertaining to withheld PRP of ex-Functional Directors of the Company pending clarification.

Apart from above, the Company has also furnished Bank Guarantee of ₹ 9.90 crores to NSE to act as a designated stock exchange for the purpose of Initial Public Offer of the Company. Also, the above does not include amount pertaining to the arbitration proceedings initiated by M/s Jackson Engineers Ltd against IREDA & Anr on 15 August 2024, in the matter pertaining to deduction of Liquidated damages amounting to Rs. 13.46 crores by IREDA under contract agreements for Supply, erection work, civil & allied works as well as for the delay in commissioning of project named 50 MW (AC) Solar PV Plant at Kasargod Solar Park, District - Kasargod, Kerala. The Claimant (Jackson Engineers Ltd) has filed claim of approx. 156.55 crores and IREDA has filed statement of defense on 30 October 2024 with a counter claim of Rs 47.34 crores. It is unlikely that the IREDA may get any adverse order as M/s Jackson Engineers Ltd (the Claimant) was appointed by SECI, not by IREDA. However, if any adverse order is passed by the tribunal, the same can be challenged under Section 34 of the Arbitration and Conciliation Act, 1996. In view of this, probable outflow is remote hence the same has not been provided or disclosed as a contingent liability.

19. Disclosure as per Indian Accounting Standard (Ind AS) 107 - "Financial Instruments: Disclosures"

The Company has established a comprehensive policy framework to effectively manage credit risk, market risk, liquidity risk, and operational risk. The Risk Management Policy has been developed under the guidance of the Risk Management Committee (RMC) and approved by the Board of Directors. The Risk Management Committee is a Board level Committee and the Board has overall responsibility for the Risk Management Committee which is supplemented by Management level and corporate level committees namely Asset Liability Committee, Credit Risk Management Committee and Operational Risk Management Committee. The Risk Management Policy is periodically reviewed. The Risk Management Committee, headed by an Independent Director, ensures independent risk oversight and full transparency in the risk management process. The prudent Risk Management policies are ratified by the Board of Directors to ensure compliance with RBI guidelines and SEBI (LODR) Regulations, 2015, which form the governing framework for the company's business activities. This includes, but is not limited to, the roles and responsibilities of Independent Directors (ID), as outlined in Schedule IV of the Companies Act 2013, Section 177(4)(vi), Regulation 6.12 of the DPE Guidelines 2011, and SEBI LODR Regulation 4. These roles and responsibilities are clearly defined for sub-Board committee members. The company also has a designated Chief Risk Officer (CRO) in an advisory capacity, in line with the RBI notification.

A Foreign Exchange and Derivatives Risk Management Policy, and a Foreign Exchange and Derivative Management Committee (FMC) is in place in the Company and hedging instruments such as forward contracts, swaps etc. are used to lower/mitigate the currency and interest rate risks on the foreign currency borrowings. Hedging instruments are used exclusively for hedging purpose and not as a trading or speculative instrument.

The key risks which the Company faces during its business operations are Credit Risk, Market Risk, Liquidity Risk, and Operational Risk. These risks are carefully identified, assessed, and managed through the implemented risk management policies and procedures. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

A. Credit risk

Credit risk is the inherent risk in the lending operation and arises from lowering of the credit quality of the borrowers and the risk of default in repayments by the borrowers. A robust credit appraisal system is in place for the appraisal of the projects in order to assess the credit risk. The process involves appraisal of the projects, rating by external agencies and assessment of credit risk, appropriate structuring to mitigate the risk along with other credit risk mitigation measures. The Company splits its exposures into smaller homogenous portfolio based on shared credit risk characteristic, as described below in the following order:-

- Secured/ Unsecured i.e., based on whether the loans are secured.
- Nature of security i.e., nature of security if the loans are determined to be secured.
- Nature of loan i.e., RE Sector to which the loan has been extended.

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial instrument. In determining whether the risk of default has increased significantly since initial recognition, the Company considers more than 30 days overdue as a parameter. Additionally, the Company considers any other observable input indicating a significant increase in credit risk.

The Company defines a financial instrument as in default when it has objective evidence of impairment at the reporting date. It has evaluated these loans under Stage III on case-to-case basis based on the defaulted time, performance/operation of the project. The Company recognizes impairment on financial instruments based on ECL Model in line with Ind AS 109.

Collaterals and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk. The main type of collaterals are FDR/BGs, Charge on immovable property belonging to the promoters and corporate guarantees on case-to-case basis.

- (a) The company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for industry concentrations, and by monitoring exposures in relation to such limits.

i. Provision for expected credit losses

Stage	Category	Description of category	Basis for recognition of expected credit loss provision
			Loans
Stage 1	Standard Assets	Assets where counter party has strong capacity to meet the obligations and where risk of default is negligible or nil / regularly paying assets	12-month ECL
Stage 2	Loans with increased credit risk	Assets where there has been a significant increase in credit risk since initial recognition.	Lifetime expected credit losses
Stage 3	Loans-Impaired	Assets where there is high probability of default and written off assets where there is low expectation of recovery	Lifetime expected credit losses

B. Liquidity Risk

Liquidity risk refers to the risk that a company may not be able to meet its financial obligations due to a lack of sufficient cash and marketable securities or the availability of funding. Prudent liquidity risk management involves maintaining an appropriate level of cash, marketable securities, and committed credit facilities to meet obligations when they become due. The management of the Company closely monitors the forecast of the liquidity position and the availability of cash and cash equivalents based on expected cash flows, including interest income and expense.

The Comprehensive Asset Liability Management Framework also outlines the framework for liquidity risk management. The Company is also complying with the Liquidity Coverage Ratios requirement and maintaining High-Quality Liquid Assets, in line with the requirements of the RBI guidelines.

C. Market Risk

Market risk is the possibility of loss mainly due to fluctuation in the interest rates and foreign currency exchange rates. To mitigate the lending interest rate risk, the Company has a committee which periodically reviews its lending rates based on market conditions, ongoing interest rates of the peers and incremental cost of borrowings.

The Company's borrowings comprise of both floating rate and fixed rate borrowings linked to benchmark rates as applicable. For the foreign currency borrowings, the Company mitigates the risk due to floating interest rate by taking hedging arrangements and periodically monitoring the floating rate-linked portfolio.

The foreign exchange borrowings from overseas lending agencies expose the company to foreign currency exchange rate movement risk. As per the Board approved policy, company mitigates the foreign currency exchange rate risk by undertaking various derivative instruments to hedge the risk such as Principal only swap, Currency and Interest Rate Swaps (derivatives transactions), forward contracts etc. These derivative contracts, carried at fair value, have varying maturities depending upon the underlying contract requirement and risk management strategy of the Company.

I. Foreign currency risk: -

The Company has foreign exchange exposure in the form of borrowings from overseas lending agencies as part of its resources raising strategy. Large cross border flows together with the volatility may render company's Balance Sheet vulnerable to exchange rate movements. As per its Board approved policy, company mitigates the foreign exchange risk through Principal Only Swap (POS), Cross Currency & Interest Rate Swap (CCIRS), Forwards, Interest Rate Swaps (IRS), Cross, Currency and Cross Currency Options, structured / cost reduction products etc. (derivatives transactions). These foreign exchange contracts, carried at fair value, have varying maturities depending upon the underlying contract requirement and risk management strategy of the Company.

(a) Foreign currency risk exposure:

The Company's exposure to foreign currency risk at the end of the year expressed in INR, are as follows: -

II. Cash flow and fair value interest rate risk: -

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates to the long-term foreign currency loans with floating interest rates and floating interest rate term loan from banks. The Company manages its foreign currency interest rate risk according to its Board approved Foreign Currency and Derivatives Risk Management policy.

The Company's fixed rate rupee borrowings are carried at amortized cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(a) Interest rate risk exposure

The exposure of the Company's borrowings to interest rate changes at the end of the year are as follows:

(₹ in Crores)

Particulars	As on 31.03.2025	As on 31.03.2024

(c) Impact of Hedging activities

Derivative financial instruments and Hedge Accounting

The Company has a Board approved policy for undertaking derivative financial instruments, such as Principal Only Swap (POS), Cross Currency & Interest Rate Swap (CCIRS), Forwards, Interest Rate Swaps (IRS), Cross, Currency and Cross Currency Options, structured / cost reduction products etc. to hedge and mitigate its foreign currency risks and interest rate risks.

Hedge ineffectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument.

The Company applies the following effectiveness testing strategies:

- For cross currency swaps, option structures and interest rate swaps that exactly match the terms of the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method. For option structures, the Company also analyses the relationship between changes in the value of the hedging instrument and the hedged item using regression analysis.
- The Company has established a hedge ratio of 1:1 for hedging relationships as the underlying risk and notional amount of the hedging instruments are identical to the hedged items.

Effects of hedge accounting on statement of Profit and loss and other comprehensive income: -

The Company uses derivative instruments in pursuance of managing its foreign currency risk and interest rate risk associated on borrowings. For hedging foreign currency and interest rate risk, the Company uses foreign currency forward contracts, cross currency swaps, principal only swaps and interest rate swaps. To the extent the derivative contracts designated under the hedge accounting are effective hedges, the change in fair value of the hedging instrument is recognized in 'Effective Portion of Cash Flow Hedges'. Amounts recognized in such reserve are reclassified to the Statement of Profit and Loss when the hedged item affects the Statement of Profit and Loss.

- The Company has closed one credit line with AFD, which had a balance tenor of 60 months by prepaying the entire outstanding amount of EUR 50 million basis review of its borrowing portfolio. Consequent, to the full & final settlement of the subject credit line, the accumulated balance on account of Foreign Exchange fluctuations (to be amortized over the tenor of the loan) in Foreign Currency Monetary item translation reserve [FCMITR] and Other Comprehensive Income [OCI] was transferred to P&L account. This entailed unwinding of associated hedge deals (loan was hedged to the extent of 91.41%) which resulted in net gain of ₹ 7.80 crores. The overall impact of the pre closure of the loan has been taken as a loss of ₹ 45.41 crores in Q1 FY 2024-25.
- The Company has signed a facility agreement to raise External Commercial Borrowing (ECB) from SBI, Tokyo Branch for JPY 26 Billion, including a Green Shoe Option of JPY 10 Billion. This five-year unsecured facility, with bullet payment at maturity, is set to strengthen the Company's global market presence.

II. Fair value hierarchy

This section explains the judgement and estimates made in determining the fair values of financial instruments that are

- Recognized and measured at fair value and
- Measured at amortized cost and for which fair values are disclosed in financial statements. To provide an indication about reliability of the inputs used in determining fair value the company has classified its financial instruments into three levels prescribed under accounting standard. An explanation on each level follows underneath the table.
- Considering the materiality, we have ignored discounting of employee loan and security deposits.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as on the reporting date. The mutual funds are valued using the closing NAV.

Level 2: Financial instruments that are not traded in active market (for example, traded bonds,) is determined using other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Technique which uses inputs that have a significant effect on the recorded fair value that are not based on observable market data like unlisted equity securities.

IV. Valuation Processes

For MTM valuation of hedge deals, the Company has obtained valuation from a registered independent IBBI valuer as defined under rule 2 of Companies (Registered Valuers and valuation) Rules, 2017, who has provided such valuation after considering movement in market position, movement in exchange rate, interest rate etc.

V. Fair value of financial assets and liabilities measured at amortized cost

(₹ in Crores)

Particulars	As on 31.03.2025		As on 31.03.2024	
Financial Assets	Carrying amount	Transaction value	Carrying amount	Transaction value
Financial assets at amortized cost:				
Loans to customers	75,216.10	75,432.98	58,692.01	58,865.86
Total financial assets	75,216.10	75,432.98	58,692.01	58,865.86

31. SOLAR POWER PROJECT

The company entered into an MOU with Solar Energy Corporation of India (SECI) in the FY 2014-15 for implementation of 50 MW Solar Project of the Company situated at Ambalathara Solar Park, Kasaragod District, in the state of Kerala. The plant was commissioned in phase manner and fully commissioned during FY 2017-18, executed by Jakson Engineers limited as EPC Contractor. It has been capitalized in the books and the present capitalized cost is ₹ 319.36 crores, shown under property, plant and equipment. Refer Note 12 to Financial Statements.

The PPA was signed between the Company and Kerala State Electricity Board Limited (KSEBL) on 31 March 2017 @ ₹ 4.95 /KWH or rate as approved by Kerala State Electricity Regulatory Commission (KSERC), whichever is lower. Accordingly, the Company filed a petition for approval of the Power Purchase Agreement with KSERC, which in its interim order dated 14 February 2018 had approved an interim tariff of ₹ 3.90 per unit. Further to the same, KSERC, in its order dated 06 February 2019 had approved of the levelized tariff @ ₹ 3.83 per unit. It has also further ordered as under:

- KSEB Ltd shall reimburse any tax paid on the Return on Equity (RoE), limited to the amount of equity specified in this Order. For claiming the tax, developer shall furnish the proof of payment of such tax to KSEB Ltd.
- KSEB Ltd shall reimburse the land lease paid by the Company / RPCKL, less amount received as subsidy, if any, in addition to the above.

The said Order was challenged before Hon'ble APTEL by way of filling the appeal on 27 August 2019 for allowance of certain costs towards expenditure incurred by the Company and paid to RPCKL to determine the tariff. On rejection of said appeal, the Company filed a Review Petition with Appellate Tribunal (APTEL) on 05 April 2022. The matter is now listed for final hearing.

The Company also filed Second Appeal no. 4634 of 2022 in the Hon'ble Supreme Court of India during the pendency of the Review Petition before the Appellate Tribunal, only to save the Appeal from being barred by limitation before the Hon'ble Court. The Hon'ble Supreme Court of India vide order dated 18 July 2022 had given liberty to the Company to mention the matter for listing as and when the Review Petition is disposed of. Notwithstanding, the generation income is being accounted for @ ₹ 3.83 per unit.

The Solar Project has been set up on Leasehold land for which lease charges are payable to Renewable Power Corporation of Kerala Limited (RPCKL) from 07 October 2020 to 06 October 2043 (exemption upto 06 October 2020). As per KSERC Tariff order dated 06 February 2019, the Company is eligible to avail reimbursement of such land lease charges paid to RPCKL.

However, the annual payment of land lease charges of ₹ 0.39 crores (as fixed by State Government from time to time) and its recovery are under settlement in view of which no corresponding amounts are being recognized as assets/liability. Other recoveries for Return on Equity (ROE), being uncertain will be accounted on final resolution in the matter.

40. Disclosure - for (AP & Others) cases involving Power Purchase Agreement (PPA) issue- Accounts with over dues beyond 90 days but not treated as credit impaired

Seven borrowers have obtained interim orders from Hon'ble High Court of Andhra Pradesh / Telangana and Hon'ble High Court of Delhi to not classify the account as Non-Performing Asset. Accordingly, the loan outstanding of such borrowers have not been classified as Stage III Asset, even though the over dues are more than 90 days old. However, the Company has created an adequate provision of ₹ 631.13 crores on Loan outstanding of ₹ 1,202.21 crores in the books of accounts as per Expected Credit Loss (ECL) as on 31 March 2025 (previous year: provision of ₹ 521.31 crores on Loan outstanding of ₹ 873.67 crores) after considering the financial and operational parameters of the projects. Though the accounts are not declared as NPA, the income is booked into this account on cash /realization basis (i.e. any 'interest due and not received' is reversed and not been taken as interest income).

42. MNRE / UNDP - IREDA Scheme Funds

The Company besides its own activities implements Programme on behalf of Ministry for New and Renewable Energy on the basis of Memorandum of Understanding entered into with the said Ministry. In terms of stipulations of each of the MOUs, MNRE has placed an agreed sum in respect of each Programme with the company for Programme implementation. Interest on MNRE funds is accounted as and when received. As the income generated by the MNRE Programme loans is not the income of the company and also the loan assets belong to MNRE, the same is not considered for asset classification and provisioning purposes. On closure of the respective Programme, the company is required to transfer the amount standing to the credit of MNRE (inclusive of interest accrued thereon) to MNRE after deducting the service charges, irrecoverable defaults, and other dues as stipulated in the MoU.

- a) **Generation Based Incentives (GBI) / Capital Subsidy Scheme etc.:** The Company is the Program Administrator on behalf of Ministry of New & Renewable Energy (MNRE) for implementation of Generation Based Incentive Scheme and Capital Subsidy for Wind and Solar Power Projects registered under the Scheme. Under these schemes, fund is provided by MNRE to the company for the purpose of disbursement of the same towards energy generation to the GBI claimants i.e., the Project Developers/ DISCOM as per the scheme. Therefore, essentially, the activity is receipt and utilization of funds. For release of GBI fund by MNRE, the company is required to submit the Utilization Certificate along with Audited Statement of Expenditure duly certified by a Chartered Accountant, for the previous tranche of fund released by MNRE. The said requirement is fully complied with by the company, and nothing further has been required by MNRE so far. The statutory auditors have not audited the accounts of the scheme.

The amount due to MNRE on account of the above at the close of the year, along with interest on unutilized funds kept in separate bank accounts as savings banks / short-term deposits etc. shown as Bank balances other than included in Cash and Cash Equivalents (Refer Note 3 to Financial Statements) and the corresponding liability is shown under the head Other Financial Liabilities (Refer Note 22 to Financial Statements) in the Balance Sheet.

- b) **GEF -MNRE -United Nations Industrial Development Organization (UNIDO) Project:** Ministry of New and Renewable Energy (MNRE) and UNIDO have jointly implemented a GEF-5 funded project on using biogas/bio-methane technology for waste to energy conversion, targeting innovations and sustainable energy generation from industrial organic wastes. Under the said project UNIDO will provide funds for subsidizing the interest rate by 5% for the project developers and the company is the fund handler. During the year ended 31 March 2025, Nil claims (previous year : NIL Claims) have been made to UNIDO. Funds amounting to ₹ 2.55 crores have been received by the company towards the 1st tranche of USD 340000 in FY 2021-22. The Fund balance as on 31 March 2025 is Rs. 2.90 crores.

The funds so received have been kept in separate bank account as savings banks / short-term deposits etc. shown as Bank balances other than included in Cash and Cash Equivalents (Refer Note 3 to Financial Statements) and the corresponding liability is shown under the head Other Financial Liabilities (Refer Note 22 to Financial Statements) in the Balance Sheet.

- c) **Other MNRE Schemes where IREDA is fund handling Agency on behalf of MNRE:** There are other MNRE Schemes where IREDA is the fund handling agency on behalf of MNRE and the fund balances are as under: -

43. MNRE GOI Fully Serviced Bonds

In terms of O.M. No. F.15 (4)-B (CDN)/2015 dated 03 October 2016 issued by Department of Economic Affairs, Ministry of Finance, Government of India, the company was asked to raise an amount of ₹ 4,000.00 crores through GOI fully serviced bonds for utilization of the proceeds for MNRE Schemes / Programs relating to Grid Interactive Renewable Power, off-Grid/Distributed & Decentralized Renewable Power and Investment in Corporations & Autonomous Bodies. A MoU between MNRE and the company has also been signed on 25 January, 2017 defining the role and responsibilities of both. Para No I of General Clauses at page 5 of the MoU specifically defines that the borrowings of MNRE bonds shall not be considered as assets/liability for any financial calculation by the Company. This implies that the amount raised by way of MNRE bonds while shall be reflected in the borrowing as well as assets however, there will be no impact of the same on company's borrowings/ Assets or Income / Expenses.

The Company had raised ₹ 1,640.00 crores GOI Fully Serviced Bonds on behalf of MNRE during the year 2016-17 and the same has been shown under Note 24 – Other Non-Financial liabilities. Against this an amount of ₹ 1,638.79 crores has been disbursed up to 31 March 2025 (previous year: ₹ 1,638.79 crores) as per the instructions of the MNRE for various plans/schemes. The said amount has been shown under Note No. 17 – Other Non-Financial Assets – as amount recoverable from MNRE. The amount was kept in MIBOR Linked deposit on which the accrued interest of ₹ 13.12 crores as on 31 March 2025 (previous year: ₹ 12.28 crores) has been shown under Note No. 24 – Other Non-Financial liabilities. The balance cumulative amount (inclusive of interest accrued / earned) as on 31 March 2025 is ₹ 14.31 crores (previous year: ₹ 9.96 crores) which is kept in MIBOR Linked Term Deposit and remaining in Current Account amounting to ₹ 0.03 crores as on 31 March 2025 (previous year: ₹ 3.53 crores) which are shown under Note No. 3 – Bank balances other than included in Cash and Cash Equivalents in respective sub heads.

a. Capital to Risk-weighted Assets Ratio (CRAR)

The Company is complying with the Capital Adequacy requirements as per the master directions/ circulars/ guidelines prescribed by the RBI, amended from time to time. Being an NBFC and Infrastructure Finance Company (NBFC-IFC), the Company is required to maintain a Capital Adequacy Ratio or Capital to Risk Weighted Assets Ratio (CRAR) of 15% (with a minimum Tier I Capital of 10%), computed by dividing the company's Tier-I and Tier-II capital by Risk Weighted Assets

(₹ in Crores)

Sl.	Particulars	As on 31.03.2025	As on 31.03.2024*
1	CRAR (%)	17.77 %	15.51%
2	CRAR – Tier I Capital (%)	15.15 %	13.94%
3	CRAR – Tier II Capital (%)	2.62 %	1.57%

The amount of Perpetual Debt Instrument of the Tier-I capital as on 31 March 2025 is 11.11 % (previous year: Nil %)

*As of 31 March 2024, the reported CRAR of the Company was 20.11%, comprising Tier I Capital of 18.08% and Tier II Capital of 2.03%. This calculation was based on a 50% risk weight assigned to commissioned renewable energy infrastructure project assets financed by the Company that had reached their commercial operations date (COD) and had been operational for over a year. However, effective 31 March 2025, the company has applied a 100% risk weight to these assets. Accordingly, CRAR of corresponding period as at 31 March 2024 has been restated.

vi) Institutional set-up for liquidity risk management

The Board of Directors of the Company has constituted the Asset Liability Management Committee, Risk Management Committee and Investment Committee. The Asset Liability Management Committee, inter alia, reviews the asset liability profile, risk monitoring system, liquidity risk management, funding and capital planning, profit planning and growth projections, forecasting and analyzing different scenarios and preparation of contingency plans.

Further, the Risk Management Committee, inter alia, monitors and measures the risk profile of the Company and oversees the integrated risk management system of the Company. The Company manages liquidity risk by maintaining sufficient cash/treasury surpluses. Management regularly monitors the position of cash and cash equivalents. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of balance sheet liquidity is considered while reviewing the liquidity position.

N. Disclosure on Liquidity Coverage Ratio: -

RBI vide its Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended from time to time issued the guidelines covering liquidity risk management for NBFCs wherein RBI introduced Liquidity Coverage Ratio (LCR) applicable on all non-deposit taking NBFCs with asset size of more than ₹5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that the NBFCs have sufficient High Quality Liquid Assets (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guidelines, LCR is represented by Stock of HQLA divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLA are defined by RBI as the liquid assets that can be readily sold or are immediately convertible into cash at little/no loss of value or can be used as collateral to obtain funds in stress situations.

The Company has complied with LCR requirement w.e.f. 01 December 2020 against stipulated requirement of minimum LCR of 50%, progressively increasing up to the required level of 100% by 01 December 2024. The Company is maintaining LCR in INR only; hence there is no currency mismatch.

Independent Auditor's Report

To the Members of

Indian Renewable Energy Development Agency Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **Indian Renewable Energy Development Agency Limited** (hereinafter referred to as "Holding Company"), which includes its Subsidiary (Holding Company and its subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31st March, 2025 and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flow and the Consolidated Statement of Changes in Equity for the year ended on that date, and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as Consolidated Financial Statements")

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate Financial Statements and on the other financial information of the subsidiaries, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, and their consolidated profit including their consolidated total comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act ("SAs"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors of the Subsidiary is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Emphasis of Matter

We draw your attention to the following matters:

1. As described in Note 38 (41) to the Consolidated Financial Statements, the holding company has classified certain Loans given aggregating to ₹ 1,202.21 crore required to be classified as stage III /Non-Performing Assets (NPA) as stage II / Standard in terms of interim order of Hon'ble High Court of Andhra Pradesh. The statutory disclosures have been made accordingly. However, as a matter of prudence, interest income on such accounts becoming NPA in terms of prudential norms of RBI has been recognized on collection basis and allowance for impairment loss has been made in accounts accordingly.
2. As described in Note 49 (B)(a) to the Consolidated Financial Statements, As of 31 March 2024, the reported CRAR of the Holding Company was 20.11% .This calculation was based on a 50% risk weight assigned to commissioned renewable energy infrastructure project assets financed by the holding Company that had reached their commercial operations date (COD) and had been operational for over a year. However as per 31 March 2025, the company has applied a 100% risk weight to these assets. Accordingly, CRAR of corresponding period as at 31 March 2024 has been restated to 15.51%.

Our opinion is not modified in respect of the above matters.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements for the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have considered the matters described below to be the Key Audit Matters for incorporation in our Report.

Sr. No.	Key Audit Matters	Auditor's Response
1.	Impairment of Loan Assets – Expected Credit loss Financing is principal business of the Holding Company and disclosure of Loan assets at fair value after considering the provision for loss due to impairment is most significant. The respective person's in the boards follows a Board approved methodology wherein assessment for allowance is carried out by an external agency for impairment based on certain criterion / framework classifying the assets into various stages depending upon credit risk and level of evidence of impairment. The measurement of an expected credit loss allowance (ECL) for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., likelihood of customers defaulting and resulting losses) to estimate the Probabilities of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD). These models and assumptions are key driver to measure Impairment loss. The management of holding company makes significant judgments while assessing ECL and the assumptions underlying the ECL are monitored and reviewed on periodically basis. The proper application of such assumptions is material for statement of the Loan Assets. In view of the materiality of the amount of loan assets in the Consolidated Financial Statements, the loss due to impairment of loan assets has been considered as Key Audit Matter in our audit. Refer Note no.38 (20) (A) (ii) (a) to the Consolidated Financial Statements read with accounting policy No.3(xxi)– 'Financial Instruments')	Our Audit procedures based on which we arrived at the conclusion regarding reasonableness of the disclosures and accounting for Impairment of Loan Assets -Expected Credit loss includes the following: We have obtained an understanding of the guidelines as specified in Ind AS 109 "Financial Instruments", various regulatory updates, guidance of ICAI and internal instructions and procedures of the Company in respect of the ECL and adopted the following audit procedures: Evaluation and testing of the key internal control mechanisms with respect to the loan assets monitoring, assessment of the loan impairment including testing of relevant data quality, and review of the real data entered. Recoveries in the loan assets are verified to ascertain level of stress thereon and impact on impairment allowance in Consolidated financial statements. Verification / review of the documentation, operations / performance, valuation of available securities and monitoring of the loan assets, especially large and stressed loan assets, to ascertain any overdue, unsatisfactory conduct or weakness in any loan asset account. The holding company avails services of third party for evaluation of ECL Components. The calculations in the study for impairment allowance carried out by third party are relied upon by us and test checks are carried out for the same. The data shared with the third party is verified by us for correctness of material components being submitted. Our audit procedure in the same are limited in view of not sharing software access used for study of such data considering the confidentiality by such third party. We also compared ECL with the provisioning as required by the applicable directions of the Reserve Bank of India and ensured adequacy of impairment allowance accordingly.

Sr. No.	Key Audit Matters	Auditor's Response
2	Fair valuation of Derivative Financial Instruments To mitigate the holding company's exposure to foreign currency risk and interest rate, non-Rupee cash flows are monitored and derivative contracts are entered for hedging purpose. The derivatives are measured at fair value as per Ind AS 109. To qualify for hedge accounting, the hedging relationship must meet certain specified requirements as per Ind AS. Hedge accounting results in significant impact on Consolidated financial statements together with complexity of its accounting/assumptions and numerous parameters therein for establishing hedge relationship. Gain/Loss on these derivatives is recognised in other comprehensive income or profit and loss as provided by Ind AS. The magnitude of such transactions is significant as per the operations of the holding company. In view of facts of the matter we have identified it as a key audit matter. (Refer Note No. 38 (30) to the Consolidated Financial Statement read with accounting policy No. 3(xxiii)- 'Financial Instruments')	Our Audit procedures based on which we arrived at conclusion regarding reasonableness of the disclosures and accounting for derivatives include the following: -Discussing and understanding management's perception and studying policy of the holding company for risk management. -Verification of fair value of derivative in terms of Ind AS 109, testing the accuracy and completeness of derivative transactions. -Evaluation of management's key internal controls over classification, valuation, and valuation models of derivative instruments. -Obtained details of various financial derivatives contracts as outstanding/pending for settlement as on 31st March, 2025. -Verification of Mark To Market valuation report for outstanding derivatives deal as on 31st March 2025 obtained by the holding company from external valuer. -Verification of underlying assumptions in estimating the fair valuation arrived at for those financial derivative contracts. -Appropriateness of the valuation methodologies applied and testing the same on sample basis for the derivative instruments. Additionally, we verified the accounting of gain/loss on derivatives in the other comprehensive income or Profit & Loss Account. Reviewed the appropriateness and adequacy of disclosures by the management as required in terms of Ind AS 109.
3	Liability for Taxation The Holding Company has material uncertain tax demands in respect of matters under dispute which involves significant judgement to determine the possible outcome of these disputes. Service Tax and Goods & Service Tax (GST) Authorities have raised certain issues and raised demands for several past periods, which are being contested by holding company at various forums. Hon'ble High Court of Delhi decided the Writ Petitions relating to income tax cases for Financial Year (FY) 1997-1998 to FY 2008-2009. For FY 2009-10, 2011-12 to 2017-18 (except FY 2013-14) appeals orders were passed by the CIT(Appeals). Order effect of these matters is pending.	Our Audit procedures based on which we arrived at conclusion regarding reasonableness of the disclosures and accounting for Liability for Taxation include the following: Our audit procedure includes review of various orders passed by Hon'ble High Court and CIT (Appeals) / Assessing Officer on the subject matter in dispute with Department of Income Tax. We undertook procedure to evaluate management position on these uncertain tax positions. For other tax matters, the facts and the legal pronouncements were analyzed and reviewed. We reviewed the appropriateness and adequacy of disclosures by the management as required in terms of Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets"

Sr. No.	Key Audit Matters	Auditor's Response
	Income Tax cases for FY 2013-14 and FY 2019-20 are pending before the CIT (Appeals). Appropriate provision and disclosure of consequential liabilities is material to the presentation of Consolidated financial statements. The possible outcome of these demands is substantial. In view of this we have identified it as a key audit matter. Refer note 38 (17) (a) of the Consolidated Financial Statements.	

Information Other than the Ind AS Consolidated Financial Statements and Auditor's Report thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report including Annexures to Directors' Report, Management Discussion and Analysis Report, but does not include the Consolidated Financial Statements and our auditors' report thereon. The other information as stated above is expected to be made available to us after the date of this auditors' report.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above when it becomes available, and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information as stated above and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe necessary actions required as per applicable laws and regulations. Other information so far as it relates to the subsidiary, is traced from their financial statements / financial information audited by the other auditors.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the state of affairs (financial position), Consolidated Profit or Loss (financial performance including Consolidated other comprehensive income), Consolidated changes in equity and cash flows of the group in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated Financial statements, the Board of Directors of the respective Management and Board of Directors of the companies included in the Group is responsible for assessing the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so. The respective Board of Directors of the companies included in Group is responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system with reference to Consolidated financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management of the respective companies of the group.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, make it probable that economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company and such other entity included in the Consolidated Financial Statements regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- We did not audit the financial statements of the subsidiary, whose standalone financial statements reflect total assets of ₹ 27.76 crore as at 31st March, 2025, total revenues of ₹ NIL, total net loss ₹ 0.28 crores, total comprehensive income ₹ 0.64 crores and net cash inflows amounting to ₹ 27.45 crores for the year ended on that date, as considered in the Consolidated Financial Statements.

- ii. As per past practice, in respect of loan assets, the holding company has provided expected credit loss (ECL) as required under Ind AS 109 based on the ECL report submitted by an independent expert appointed by the holding company, which inter alia includes assumptions based on technical parameters / certain aspects.

Reports on other legal and regulatory requirements

1. As required in terms of sub-section [5] of section 143 of the Act, we give in the **“Annexure-A”** information in respect of the directions issued by Comptroller and Auditor-General of India in respect of the company.

 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - b) In our opinion, proper books of account as required by law maintained by the Group including relevant records relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors, except in relation to compliance with the requirements of audit trail.
 - c) The Consolidated Balance sheet, the Consolidated Statement of Profit & Loss including Other Comprehensive Income, Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid Consolidated financial statements comply with the accounting standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;
 - e) In terms of Notification no. G.S.R. 463 (E) dated 05th June 2015 issued by the Ministry of Corporate Affairs, provisions of Section 164(2) of the Act regarding disqualifications of the Directors, are not applicable as it is a Government Company;
 - f) As per notification number G.S.R. 463 (E) dated 5th June, 2015 issued by Ministry of Corporate Affairs, section 197 of the Act as regards the managerial remuneration is not applicable to the Company, since it is a Government Company.
 - g) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements of the Group and the operating effectiveness of such controls, refer to our separate report in **“Annexure-B”**.
 - h) With respect to the other matters to be included in the Auditor’s report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (‘Audit Rules’) , in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Consolidated Financial Statements disclose the impact of pending litigations on the financial position in its Consolidated financial statements - Refer Note 38 (17) to Consolidated Financial Statements.
 - ii. The provision has been made in the Consolidated Financial Statements as required under the applicable law or Indian Accounting Standards, for material foreseeable losses, if any, on long term contracts including derivatives contracts: - Refer note 38(20)(C) (III) (c) to the Consolidated financial statements.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Group.
 - iv. (a) The respective Managements of the holding company and its subsidiary whose financial statements have been audited under the Act has represented to us and to the other auditors of such subsidiary (Refer note 38(28)) that to the best of its knowledge and belief , no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the holding company and its subsidiary to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the holding company and its subsidiary (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The respective Managements of the holding company and its subsidiary whose financial statements have been audited under the Act has represented to us and to the other auditors of such subsidiary (Refer note 38(28)) that to the best of its knowledge and belief , no funds have

been received by the Group from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the holding company and its subsidiary shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on audit procedure performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub clause (a) and (b) contain any material misstatement.

- v. No dividend has been declared or paid during the year.
 - vi. Based on our examination which included test checks and based on the other auditor's reports of its subsidiary have used an accounting software for maintaining its books of account for the financial year ended 31st March 2025, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the management has represented that the audit trail feature cannot be disabled. Holding company and subsidiary has preserved the Audit trail as per the statutory requirements for records retention.
3. With respect to the matters specified in paragraphs 3(xxi) and 4 of the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government in terms of sub-section (11) of section 143 of the Companies Act, 2013, to be included in the Auditor's report, on the basis on examination of the available CARO report of one subsidiary included in the Consolidated Financial Statements, the auditor has not given any adverse remarks.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6) (b) READ WITH SECTION 129 (4) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF INDIAN RENEWABLE ENERGY DEVELOPMENT AGENCY FOR THE YEAR ENDED 31 MARCH 2025.

The preparation of consolidated financial statements of Indian Renewable Energy Development Agency for the year ended 31 March 2025 in accordance with the financial reporting framework prescribed under the Companies Act, 2013(Act) is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139 (5) read with section 129 (4) of the Act is responsible for expressing opinion on the financial statements under section 143 read with section 129 (4) of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their **Audit Report dated 15th April 2025.**

I, on behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the consolidated financial statements of Indian Renewable Energy Development Agency for the year ended 31 March 2025 under section 143(6)(a) read with section 129(4) of the Act. We conducted a supplementary audit of the financial statements of **Indian Renewable Energy Development Agency and Indian Renewable Energy Development Agency Global Green Energy Finance IFSC Limited.** This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

The Company is a Public Limited Company, domiciled in India and is limited by shares having its registered office and principal place of business at 1st Floor, India Habitat Centre, East Court, Core- 4A, Lodhi Road, New Delhi - 110003. In addition to the registered office of the Company, the Company also has branch offices and also owns a 50 MW Solar project situated at Kasargod in the state of Kerala.

The Company is a Government of India [Navratna] enterprise under the administrative control of Ministry of New and Renewable Energy (MNRE) and is engaged in promoting, developing and extending financial assistance for setting up projects relating to new and renewable sources of energy, energy efficiency & conservation with the motto: "ENERGY FOR EVER".

The Company is a systemically important non-deposit taking non-banking financing Company (NBFC- NDSI) / NBFC Middle Layer (ML) registered as an Infrastructure Finance Company (IFC) with the Reserve Bank of India. Being a NBFC, the Company is regulated by the Reserve Bank of India.

Equity shares and debt securities of the Company are listed on National Stock Exchange of India Limited (NSE) and BSE Ltd.

The Company has a wholly owned subsidiary Company named as "IREDA Global Green Energy Finance IFSC Ltd" ("IGEFIL" or the "Subsidiary") in IFSC (International Financial Services Centre)-GIFT City (Gujarat International Finance Tec-City) incorporated on 07.05.2024. The subsidiary has received the Certificate of Registration dated 18.02.2025 from IFSCA to undertake the activities as a Finance Company.

These Consolidated Financial Statements comprise the Financial Statements of IREDA and its wholly owned subsidiary (referred to collectively as the 'Group'). The Group is primarily engaged in promoting, developing and extending financial assistance for setting up projects relating to new and renewable sources of energy, energy efficiency & conservation.

2) Basis of Preparation

(i) Statement of Compliance with Ind AS

The Consolidated Financial Statements of the Group have been prepared in accordance with the Sec. 133 of the Companies Act 2013 and in compliance with the Indian Accounting Standards (Ind AS) issued by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 and as further amended.

The Consolidated Financial Statements are prepared on a going concern basis and on accrual basis of accounting. The Group has adopted historical cost convention except for certain items which have been measured on a different basis and such basis is disclosed in the relevant accounting policy.

The Consolidated Balance Sheet, Statement of Profit and Loss and Statement of Changes in Equity are prepared and presented as per the requirement of Division III of Schedule III to the Companies Act, 2013 applicable for Non-Banking Financial Companies (NBFC). The Consolidated Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 'Statement of Cash Flows'.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Use of estimates

The preparation of the Group's Consolidated Financial Statements require management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities,

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

and the related disclosures. Management believes that the estimates used in the preparation of Consolidated Financial Statement are prudent and reasonable. Future result could differ from these estimates. Any revision to accounting estimate is recognized prospectively in current and future period.

Significant management judgment in applying accounting policies and estimation of uncertainty

(A) Significant management judgments

Recognition of deferred tax assets/liability – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized. Further, the Group Management has no intention to make withdrawal from the Special Reserve created and maintained under section 36(1)(viii) of the Income tax Act, 1961 and thus, the special reserve created and maintained is not capable of being reversed. Hence, the Group does not create any deferred tax liability on the said reserve.

Evaluation of indicators for impairment of assets – The evaluation of the applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of the recoverable amount of the assets.

Non recognition of Interest Income on Credit Impaired Loans - Interest income on credit-impaired loan assets is not being recognized as a matter of prudence, pending the outcome of resolutions of stressed assets.

Materiality of Prior Period item

Prior period items which are not material are not corrected retrospectively through restatement of comparative amounts and are accounted for in current year.

Omissions or misstatements of items are material if they could, individually or collectively, influence the economic decisions that users make on the basis of the Consolidated Financial Statements. Materiality depends on the size and nature of the omission or misstatement judged in the surrounding circumstances. The combination of size and nature of the items are the determining factor.

(B) Significant estimates

Useful lives of depreciable/amortizable assets – Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.

Defined benefit obligation (DBO) – Management's estimate of the DBO is based on a number of underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. In estimating the fair value of an asset or a liability, the Group uses market observable data to the extent it is available. In case of non-availability of market-observable data, Level 2 & Level 3 hierarchy is used for fair valuation.

Income Taxes – Significant estimates are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions and in respect of expected future profitability to assess deferred tax asset.

Expected Credit Loss ('ECL') – The measurement of an expected credit loss allowance for financial assets measured at amortized cost requires the use of complex models and significant assumptions about future economic conditions and credit behavior (e.g., likelihood of customers defaulting and resulting losses). The Group makes significant judgments about the following while assessing expected credit loss to estimate ECL:

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

- Determining criteria for a significant increase in credit risk;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL;
- Establishing groups of similar financial assets to measure ECL; and
- Estimating the probability of default and loss given default (estimates of recoverable amounts in case of default).

Provisions: The timing of recognition and quantification of the liability (including litigations) requires the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

(iii) Functional and Presentation currency

The Consolidated Financial Statements are presented in Indian Rupee ('INR') which is the functional currency of Group.

3) GROUP'S MATERIAL ACCOUNTING POLICIES

(i) Basis of Consolidation

The Consolidated Financial Statements incorporates the Financial Statements of Company and its wholly owned subsidiary. The Financial Statements of the Subsidiary is drawn upto the same reporting date as of the Company for the purpose of Consolidation.

(ii) Subsidiary

A subsidiary is an entity over which the Company has control. The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which the Company obtains the control.

The Company combines the financial statements of its subsidiary on a line-by-line basis, adding together like items of assets, liabilities, equity, income and expenses. The carrying amount of the Company's investment in subsidiary and the Company's portion of equity of subsidiary are eliminated. InterCompany transactions, balances, unrealized gains on transactions between the Company and subsidiary are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

The Consolidated Financial Statements are prepared using uniform accounting policies consistently for like transactions and other events in similar circumstances and are presented to the extent possible, in the same manner as the Company's Standalone Financial Statements except as otherwise stated. When necessary, adjustments are made to the financial statements to bring their accounting policies in line with the Group's material Accounting Policies. If the Company loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary and any related Non-Controlling Interest (NCI) and other components of equity. Any interest retained in the former subsidiary is measured at fair value at the date the control is lost. Any resulting gain or loss is recognized in Consolidated Statement of Profit and Loss.

Property, Plant and Equipment (PPE)

(iii) Tangible Assets (PPE)

The PPE (Tangible assets) is initially recognized at cost.

The cost of an item of Property, Plant and Equipment comprises of its purchase price, including import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use. Stores and spares which meet the recognition criteria of Property, Plant and Equipment are capitalized and added in the carrying amount of the underlying asset.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

The Group has adopted the cost model of subsequent recognition to measure the Property, Plant and Equipment. Consequently, all Property, Plant and Equipment are carried at its cost less accumulated depreciation and accumulated impairment losses, if any.

De-recognition

An item of PPE is derecognized on disposal, or when no future economic benefits are expected from use. Gains or losses arising from de-recognition of a PPE measured as the difference between the net disposal proceeds and the Carrying amount of the asset are recognized in the Consolidated Statement of Profit and Loss when the asset is derecognized.

Capital Work-in-Progress

The cost of PPE under construction at the reporting date is disclosed as 'Capital work-in-progress.' The cost comprises purchase price, import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use. Advances paid for the acquisition/ construction of PPE which are outstanding at the Consolidated Balance Sheet date are classified under 'Capital Advances.'

(iv) Intangible Assets and Amortization

Intangible assets are initially measured at cost. The cost comprises purchase price, import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the condition necessary for it to be ready for its intended use. Such assets are recognized where it is probable that the future economic benefits attributable to the assets will flow to the Group.

All intangible assets with finite useful life are subsequently recognized at cost model. These intangible assets are carried subsequently at its cost less accumulated amortization and accumulated impairment loss if any.

Intangible Assets under Development

Expenditure incurred which are eligible for capitalization under intangible assets is carried as 'Intangible assets under development' till they are ready for their intended use.

Derecognition

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Consolidated Statement of Profit and Loss when the asset is derecognized.

(v) Depreciation and Amortization

Depreciation on Tangible PPE is provided in accordance with the manner and useful life as specified in Schedule -II of the Companies Act 2013, on Written Down Basis (WDV) except for the assets mentioned as below:

- Depreciation on Library books is provided @ 100% in the year of purchase.
- Depreciation on PPE of Solar Power Project is provided on Straight Line Method at rates/methodology prescribed under the relevant Central Electricity Regulatory Commission (CERC) and relevant state Commission Tariff Orders.
- Depreciation is provided @100% in the financial year of purchase in respect of assets of ₹ 5,000/- or less.
- Amortization of intangible assets is being provided on straight line basis.
- Useful lives for all PPE & Intangible assets are reviewed at each reporting date. Changes, if any, are accounted for as changes in accounting estimates.
- Useful life of assets as per Schedule II:

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

Asset Description	Estimated Useful Life	Residual Value as a %age of original cost
Building	60 years	5%
Computers and Data Processing Units		
-Laptops / Computers	3 years	5%
-Servers	6 years	5%
Office Equipment's	5 years	5%
Furniture and Fixtures	10 years	5%
Vehicles	8 years	5%
Intangible Assets	5 years	0%

- Useful life of assets as per CERC order

Asset Description	Estimated Useful Life	Residual Value as a %age of original cost
Solar Plant	25 years	10%

(vi) Government and Other Grants / Assistance

The Group may receive government grants that require compliance with certain conditions related to the Groups' operating activities or are provided to the Group by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognized when there is reasonable assurance that the grant will be received, and the Group will be able to comply with the conditions attached to them. These grants are classified as grants relating to assets and revenue based on the nature of the grant.

Government grants with a condition to purchase, construct or otherwise acquire long term assets are initially recognized as deferred income. Once recognized as deferred income, such grants are recognized in the Consolidated Statement of Profit and Loss on a systematic basis over the useful life of the asset. Changes in estimates are recognized prospectively over the remaining life of the asset.

Grant related to subsidy are deferred and recognized in the Consolidated Statement of Profit and Loss over the period that the related costs, for which it is intended to compensate, are expensed.

Grant-in-aid for financing projects in specified sectors of New and Renewable Sources of Energy (NRSE) is treated and accounted as deferred income.

The expenditure incurred under Technical Assistance Programme (TAP) is accounted for as recoverable and shown under the head 'Other Financial Assets'. The assistance reimbursed from Multilateral/Bilateral Agencies is credited to the said account.

(vii) Leases

As a lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- The contract involves the use of an identified asset;
- The Group has substantially all of the economic benefits from use of the asset through the period of the lease, and
- The Group has the right to direct the use of the asset.

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the estimated useful life of the assets.

ii) Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. The incremental borrowing rate is the SBI MCLR rate for the period of the loan if the loan is up to 3 years. For a period, greater than 3 years, SBI MCLR rate for 3 years may be taken.

iii) Short-term leases and leases of low-value assets

Lease payments on short-term leases (which has a lease term of up to 12 months) and leases of low value assets (asset value up to ₹ 10,00,000/-) are recognized as expense over the lease term. Lease term is determined by taking non-cancellable period of a lease, together with both:

- a) Periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and
- b) Periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option.

• As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all the risk and rewards incidental to the ownership of the underlying asset. If this is the case, then the lease is a finance lease, if not, then it is an operating lease. As part of the assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset. If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 "Revenue from contract with customers" to allocate the consideration in the contract. The Group recognizes lease payments received under operating lease as income on a straight-line basis over the lease term as part of "Revenue from operations".

(viii) Impairment of Non-Financial Asset

The Group assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating units (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

(ix) Cash and cash equivalents

Cash comprises of cash in hand, cash at bank including debit balance in bank overdraft, if any, demand deposits with banks, commercial papers and foreign currency deposits. Cash equivalents are short term deposits (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

(x) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalized up-to the date when the asset is ready for its intended use after netting off any income earned on temporary investment of such funds.

To the extent that the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset.

borrowing costs are expensed in the period in which they are incurred.

(xi) Foreign currency transactions

Transactions in currencies other than the functional currency are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Foreign exchange gains and losses resulting from the settlement of such transactions and the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in the Consolidated Statement of Profit and Loss.

Foreign Currency Monetary Item Translation Reserve Account (FCMITR) represents unamortized foreign exchange gain/loss on Long-term Foreign Currency Borrowings that are amortized over the tenure of the respective borrowings. The Group had adopted exemption of para D13AA of Ind AS 101, according to which it may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognized in the Consolidated Financial Statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP. Accordingly, all transactions in foreign currency are recorded at the exchange rate prevailing at the date of the transaction. The exchange differences arising on reporting of long-term foreign currency monetary items outstanding as on March 31, 2018, at rate prevailing at the end of each reporting period, different from those at which they were initially recorded during the period, or reported in previous Consolidated financial statements, are accumulated in FCMITR Account, and amortized over the balance period of such long-term monetary item, by recognition as income or expense in each of such period. Long-term foreign currency monetary items are those which have a term of twelve months or more at the date of origination.

Short-term foreign currency monetary items (having a term of less than twelve months at the date of origination) are translated at rate prevailing at the end of each reporting period. The resultant exchange fluctuation is recognized as income or expense in each of such periods.

As per Para 27 of Ind AS 21, exchange difference on monetary items that qualify as hedging instruments in cash flow hedge are recognized in other comprehensive income to the extent hedge is effective. Accordingly, Group recognize the exchange difference due to translation of foreign currency loans at the exchange rate prevailing on reporting date in cash flow hedge reserve.

(xii) Earnings per Share

The basic earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

Diluted earnings per share is computed by dividing adjusted net profit after tax by the aggregate of weighted average number of equity shares and dilutive potential equity shares outstanding during the year. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

(xiii) Provisions

A provision is recognized when the Group has a present obligation (Legal or Constructive) as a result of past event, and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made.

(xiv) Contingent liabilities

Contingent liabilities are not recognized but disclosed in Notes when the Group has possible obligation due to past events and existence of the obligation depends upon occurrence or non- occurrence of future events not wholly within the control of the Group and Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent liabilities are assessed continuously to determine whether outflow of Economic resources have become probable. If the outflow becomes probable, then relative provision is recognized in the Consolidated Financial Statements.

(xv) Contingent Assets

Contingent Assets are not recognized but disclosed in Notes which usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits.

Contingent assets are assessed continuously to determine whether inflow of economic benefits becomes virtually certain, then such assets and the relative income will be recognized in the Consolidated Financial Statements.

(xvi) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Chairman and Managing Director (CMD) of the Company has been identified as the Chief Operating Decision Maker (CODM).

(xvii) Material prior period errors

Material prior period errors are corrected retrospectively by restating the comparative amounts for the prior periods presented in which the error occurred. If the error occurred before the earliest period presented, the opening balances of assets, liabilities and equity for the earliest period presented, are restated unless it is impracticable, in which case, the comparative information is adjusted to apply the accounting policy prospectively from the earliest date practicable.

(xviii) Taxation

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Consolidated Statement of Profit and Loss /other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax is recognized in the Consolidated Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current tax is also recognized in other comprehensive income or directly in equity respectively. Where current tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities in the Consolidated Financial Statements and the corresponding amounts used for taxation purpose.

Deferred tax liabilities are generally recognized for all taxable temporary differences.

Deferred tax assets are generally recognized only to the extent that it is probable that future taxable profits will be available against which the assets can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Current and deferred tax are recognized in the Consolidated Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

(xix) Deferred Tax Liability/ deferred tax asset in respect of undistributed profit/losses of Subsidiary

Judgement is required in accounting for deferred tax liability / deferred tax asset in respect of Group's investments in respect of undistributed profits/ losses of subsidiary. In respect of undistributed profits/ losses of subsidiary, the Company is able to control the timing of the reversal of the temporary differences and the temporary differences will not be reversed in the foreseeable future. Accordingly, the Group does not recognize a deferred tax liability for all taxable temporary differences associated with investments in subsidiary.

(xx) Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including import duties, non-refundable taxes, after deducting trade discounts & rebates, borrowing cost if capitalization criteria are met and any cost directly attributable in bringing the asset to the location and condition necessary for it to be ready for its intended use.

After initial recognition, the Group measures investment property by using cost model.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss in the period in which the property is derecognized.

Investment properties are depreciated in accordance to the class of asset that it belongs and the life of the asset shall be as conceived for the same class of asset at the Group.

Though investment property is measured using cost model, the fair value of investment property is disclosed in the notes.

(xxi) Employee Benefits

a) Short-term employee benefits

Short-term employee benefits including salaries, short term compensated absences (such as a paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non-monetary benefits for current employees are estimated and measured on an undiscounted basis.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

b) Post-employment benefit plans are classified into defined benefits plans and defined contribution plans as under:

(i) Defined contribution plan

A defined contribution plan is a plan under which the Group pays fixed contributions in respect of the employees into a separate fund. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The contributions made by the Group towards defined contribution plans are charged to the Consolidated Statement of Profit and Loss in the period to which the contributions relate.

(ii) Defined benefit plan

The Group has an obligation towards gratuity, Post-Retirement Medical Benefit (PRMB) and Other Defined Retirement Benefit (ODRB) which are being considered as defined benefit plans covering eligible employees. Under the defined benefit plans, the amount that an employee will receive on retirement is defined by reference to the employee's length of service, final salary, and other defined parameters. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside.

The Group's obligation towards defined benefit plans is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. The liability recognized in the statement of financial position for defined benefit plans is the present value of the Defined Benefit Obligation (DBO) at the reporting date less the fair value of plan assets. Management estimates the DBO annually with the assistance of independent actuaries.

Actuarial gains/losses resulting from re-measurements of the liability/asset are included in Other Comprehensive Income.

The liability for retirement benefits of employees in respect of provident fund, benevolent fund, superannuation fund and Gratuity is funded with separate trusts.

The Group's contribution to Provident Fund / Superannuation Fund is remitted to separate trusts established for this purpose based on a fixed percentage of the eligible employee's salary and debited to Consolidated Statement of Profit and Loss.

c) Other long-term employee benefits:

Liability in respect of compensated absences becoming due or expected to be availed more than one- year after the Consolidated Balance Sheet date is estimated on the basis of actuarial valuation performed by an independent actuary using the projected unit credit method.

Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to Consolidated Statement of Profit and Loss in the period in which such gains or losses are determined.

(xxii) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transactions costs, except for those carried at fair value through profit or loss. Subsequent measurement of financial assets and financial liabilities is described below.

Classification and subsequent measurement of financial assets

For the purpose of subsequent measurement, financial assets are classified into the following categories upon initial recognition:

- Amortized cost
- Financial assets at fair value through profit or loss (FVTPL)

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

- Financial assets at fair value through other comprehensive income (FVOCI)

All financial assets except for those at FVTPL or equity instruments at FVOCI are subject to review for impairment at least at each reporting date to identify whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied to each category of financial assets, which are described below.

❖ Loan at Amortized Cost

Loans (financial asset) are measured at amortized cost using Effective Interest Rate (EIR) if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold financial assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A loss allowance for expected credit losses is recognized on financial assets carried at amortized cost.

❖ Financial assets at Fair Value through Profit or Loss (FVTPL)

Financial assets at FVTPL include all derivative financial instruments except for those designated and effective as hedging instruments, for which the hedge accounting requirements are being applied. Assets in this category are measured at fair value with gains or losses recognized in the Consolidated Statement of Profit and Loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

❖ Financial assets at Fair Value through Other Comprehensive Income (FVOCI)

Financial assets at FVOCI comprise of equity instruments measured at fair value. An equity investment classified as FVOCI is initially measured at fair value plus transaction costs. Gains and losses are recognized in other comprehensive income and reported within the FVOCI reserve within equity, except for dividend income, which is recognized in profit or loss. There is no recycling of such gains and losses from OCI to Consolidated Statement of Profit & Loss, even on the derecognition of the investment. However, the Group may transfer the same within equity.

De-recognition of financial assets

Financial assets (or where applicable, a part of financial asset or part of a group of similar financial assets) are derecognized (i.e., removed from the Group's balance sheet) when the contractual rights to receive the cash flows from the financial asset have expired, or when the financial asset and substantially all the risks and rewards are transferred. The Group also derecognizes the financial asset if it has both transferred the financial asset and the transfer qualifies for de-recognition.

Classification and subsequent measurement of financial liabilities

Financial liabilities are measured subsequently at amortized cost using the effective interest method, except for derivative financial liabilities which are carried at FVTPL, subsequently at fair value with gains or losses recognized in the Consolidated Statement of Profit and Loss. (FVTPL). All host contracts which are in nature of a financial liability and separated from embedded derivative are measured at amortized cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Consolidated Statement of Profit and Loss.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

Derivative financial instruments

The Group is exposed to foreign currency fluctuations on foreign currency assets and liabilities. The Group limits the effect of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives.

The Group use Derivative instrument includes principal swap, Cross Currency & Interest Rate Swap (CCIRS), forwards, interest rate swaps, currency and cross currency options, structured product, etc. to hedge foreign currency assets and liabilities.

Derivatives are recognized and measured at fair value (MTM). Attributable transaction costs are recognized in Consolidated Statement of Profit and Loss as cost.

De-recognition of Financial asset:

Financial assets are derecognized when the contractual right to receive cash flows from the financial assets expires or transfers the contractual rights to receive the cash flows from the asset.

Hedge Accounting

Derivative financial instruments are accounted for at fair value through profit and loss (FVTPL) except for derivatives designated as hedging instruments in cash flow hedge relationships, which require a specific accounting treatment. To qualify for hedge accounting, the hedging relationship must meet all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument
- the effect of credit risk does not dominate the value changes that result from that economic relationship
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the entity actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

The Group has designated mostly derivative contracts as hedging instruments in cash flow hedge relationships. These arrangements have been entered into to mitigate foreign currency exchange risk and interest rate risk arising against which debt instruments denominated in foreign currency.

- Cash Flow hedging is done to protect cash flow positions of the Group from changes in exchange rate fluctuations and to bring variability in cash flow to fixed ones.
- The Group enters into hedging instruments in accordance with policies as approved by the Board of Directors; provide written principles which are consistent with the risk management strategy/policies of the Group.
- All derivative financial instruments used for hedge accounting are recognized initially at fair value and reported subsequently at fair value in the Consolidated Balance Sheet.

The hedge instruments are designated and documented as hedges at the inception of the contract. The effectiveness of hedge instruments is assessed and measured at inception and on an on-going basis. The effective portion of change in the fair value as assessed based on MTM valuation provided by respective banks/third party valuation of the designated hedging instrument is recognized in the "Other Comprehensive Income" as "Cash Flow Hedge Reserve". The ineffective portion is recognized immediately in the Consolidated Statement of Profit and Loss as and when occurs.

At the time the hedged item affects profit or loss, any gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income.

If the hedging relationship no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in Cash Flow Hedge Reserve remains in Cash Flow Hedge Reserve till the period the hedge was effective. The cumulative gain or loss previously recognized in the Cash Flow Hedge Reserve is transferred to the Consolidated Statement of Profit and Loss upon the occurrence of the underlying transaction.

Impairment

Impairment of financial assets

❖ **Loan assets**

The Group follows a 'three-stage' model for impairment of loan asset carried at amortized cost based on changes in credit quality since initial recognition as summarized below:

- Stage 1 includes loan assets that have not had a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date.
- Stage 2 includes loan assets that have had a significant increase in credit risk since initial recognition but that do not have objective evidence of impairment.
- Stage 3 includes loan assets that have objective evidence of impairment at the reporting date.

The Expected Credit Loss (ECL) is measured at 12-month ECL for Stage 1 loan assets and lifetime ECL for Stage 2 and Stage 3 loan assets. ECL is the product of the Probability of Default, Exposure at Default and Loss Given Default, defined as follows:

Probability of Default (PD) - The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12 months PD), or over the remaining lifetime (Lifetime PD) of the obligation.

Loss Given Default (LGD) - LGD represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type, and preference of claim and availability of collateral or other credit support.

Exposure at Default (EAD) - EAD is based on the amount of outstanding exposure as on the assessment date on which ECL is computed.

Forward-looking economic information is included in determining the 12-month and lifetime PD, EAD and LGD. The assumptions underlying the expected credit loss are monitored and reviewed on an on-going basis.

❖ **Financial Instruments other than Loans consist of :-**

- Financial assets include cash and cash equivalents, trade receivables, unbilled revenues, finance lease receivables, employee and other advances.
- Financial liabilities include borrowings, bank overdrafts, trade payables.

Non derivative financial instruments other than loans are recognized initially at fair value including any directly attributable transaction costs. Financial assets are derecognized when substantial risks and rewards of ownership of the financial asset have been transferred. In cases where substantial risks and rewards of ownership of the financial assets are neither transferred nor retained, financial assets are derecognized only when the Group has not retained control over the financial asset.

Subsequent to initial recognition, they are measured as prescribed below:

a) Cash and cash equivalents

For the purposes of the Consolidated Statement of Cash Flows, cash and cash equivalents include cash in hand, at bank, demand deposits with banks, cash credit, fixed deposits and foreign currency deposits, net of outstanding bank overdrafts that are repayable on demand and are considered part of the Group's cash management system. In the statement of financial position, bank overdrafts are presented under borrowings.

b) Trade Receivable

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group determines impairment loss allowance based on individual assessment of receivables, historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

c) Other payables

Other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short-term maturity of these instruments.

(xxiii) Dividend

Proposed dividends and interim dividends payable to the shareholders are recognized as changes in equity in the period in which they are approved by the Board of Directors and in the shareholders' meeting respectively.

(xxiv) Fair Value Measurement & Disclosure

The Group measures financial instruments, such as derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated Financial Statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the Consolidated Financial Statements regularly, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(xxv) Revenue Recognition

• Interest Income

Interest income is accounted on all financial assets (except Group is not recognizing interest income on credit impaired financial assets) measured at amortized cost. Interest income is recognized using the Effective Interest Rate (EIR) method in line with Ind AS 109, Financial Instruments. The Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to that asset's net carrying amount on initial recognition. The EIR is calculated by taking into account transactions costs and fees that are an integral part of the EIR in line with Ind AS 109. Interest income on credit impaired assets is recognized on receipt basis.

Rebate on account of timely payment of interest by borrowers is recognized on receipt of the entire interest amount due in time, in accordance with the terms of the respective contract and is netted against the corresponding interest income.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

Unless otherwise specified, the recoveries from the borrowers are appropriated in the order of (i) incidental charges (ii) penal interest (iii) overdue interest and (iv) repayment of principal; the oldest being adjusted first. The recovery under One Time Settlement (OTS)/ Insolvency and Bankruptcy Code (IBC) proceedings is appropriated first towards the principal outstanding and remaining recovery thereafter, towards interest and other charges, if any.

❖ Other Revenue

- Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) are recognized as per Ind AS 115 - Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers. The Group recognizes revenue from contracts with customers based on the principle laid down in Ind AS 115 - Revenue from contracts with customers.
- Revenue from contract with customers is recognized to the extent it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably. Revenue is measured at the transaction price agreed under the Contract. Transaction Price excludes amounts collected on behalf of third parties (e.g., taxes collected on behalf of government) and includes/adjusted for variable consideration like rebates, discounts, only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

❖ Revenue from solar plant

Income from solar plant is recognized when the performance obligations are satisfied over time. Rebate given is disclosed as a deduction from the amount of gross revenue.

❖ Revenue from Fees and Commission

- Revenue from Fee & Commission

Fees and commission are recognized on a point in time basis when probability of collecting such fees is established.

- Revenue from Implementation of Government Schemes & Projects

The Group besides its own activities also acts as implementing agency on behalf of various Government / Non-Government Organizations on the basis of Memorandum of Understanding (MoU) entered into between the Group and such organization. The details of such activities are disclosed by the way of Consolidated Notes to the Financial Statements.

Wherever any funds are received under trust on the basis of such MoUs entered, the same is not included in Cash and Cash Equivalents and any income including interest income generated out of such funds belonging to such organizations is not accounted as revenue of the Group.

Service charges earned from such schemes implemented by the Group are recognized at a point in time basis when certainty of collecting such service charges is established.

(xxvi) Expense

Expenses are accounted for on accrual basis. Prepaid expenses upto ₹ 5,00,000/- per item are charged to Consolidated Statement of Profit & Loss as and when incurred/adjusted/received.

(xxvii) Expenditure on issue of shares

Expenditure on issue of shares, if any, is charged to the securities premium account.

- i) Foreign currency borrowings from various multilateral / bilateral agencies viz. ADB, World Bank , KfW, AFD, JICA and EIB have been converted into rupee and hedging of the same is done by undertaking plain vanilla swap transaction /currency interest rate swap / principal only swap/forward contracts etc. with various banks with whom Company has signed International Swaps and Derivative Association (ISDA) Master Agreement. These derivative transactions have been entered into with the participating bank for a maturity period which may be shorter than the maturity period of the loan. The hedging of the foreign currency loan has been carried out at various intervals and in multiple Tranches based on the drawl under the lines of credit and also rollover. In addition to the interest cost and other financial charges, due to hedging of foreign currency loans, these loans carry hedging/ derivative cost, which is Tranche wise as per the drawl under the line of credit, thus the applicable rate of interest on these lines of credit has not been disclosed above.
- ii) Rupee Borrowing as on 31-03-2025 mentioned in Note No. 20 were raised at respective Banks/Financial Institutions benchmark rate plus spread ranging from 0 bps to 155 bps.

1 Nature and purpose of Reserves

1.1 Special Reserve:

Special reserve has been created to avail income tax deduction under section 36(1)(viii) of Income-Tax Act, 1961 @ 20% of the profit before tax arrived from the business of providing long term finance. Accordingly, a sum of ₹ 362.00 Crores has been provided for the year ended 31.03.2025 (previous year: ₹ 264.00 Crores).

1.2 Debenture Redemption Reserve:

In terms of Rule 18 (7)(b)(ii) of the Companies Act 2013, the Company is required to create a Debenture Redemption Reserve (DRR) upto 25% of the bonds issued through public issue. The Company has made a provision for DRR, so as to achieve the required amount over the respective tenure of the Tax-Free Bonds. Accordingly, a sum of ₹ 41.26 Crores has been provided for the year ended 31.03.2025 (previous year : ₹ 45.03 Crores).

1.3 General Reserve:

General Reserve is used from time to time to transfer profits from retained earnings for appropriation purposes, as the same is created by transfer from one component of equity to another.

1.4 Foreign Currency Monetary Item Translation Reserve:

Foreign Currency Monetary Item Translation Difference Account represents unamortized foreign exchange gain/loss on Long-term Foreign Currency Borrowings that are amortized over the tenure of the respective borrowings. The company has adopted exemption of para D13AA of Ind AS 101, according to which a first-time adopter may continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognized in the financial statements for the year ending immediately before the beginning of the first Ind AS financial year as per the previous GAAP. Accordingly, all transactions in foreign currency are recorded at the exchange rate prevailing at the date of the transaction. The exchange differences arising on reporting of long-term foreign currency monetary items outstanding as on March 31, 2018, at rate prevailing at the end of each year, different from those at which they were initially recorded during the year, or reported in previous financial statements, are accumulated in a "Foreign Currency Monetary Item Translation Reserve Account" and amortized over the balance year of such long term monetary item, by recognition as income or expense in each of such years. Long-term foreign currency monetary items are those which have a term of twelve months or more at the date of origination. Movement of FCMITR has been shown in the table above.

1.5 NBFC Reserve:

5. Disclosure in respect of Indian Accounting Standard (Ind AS)-16 "Property, Plant and Equipment"

Decommissioning liabilities included in the cost of property, plant and equipment

As per Ind AS 16 Property, Plant and Equipment, Appendix A "Changes in Existing Decommissioning, Restoration and Similar Liabilities", specified changes in decommissioning, restoration or similar liability needs to be added to or deducted from the cost of the asset to which it relates; the adjusted depreciable amount of the asset is then depreciated prospectively over its remaining useful life.

As per para 55 of Ind AS 16, the depreciable amount of an asset is determined after deducting its residual value. The amount of decommissioning liability and residual value related to solar plant is not reliably ascertainable. Hence, decommissioning liability related to the solar plant and the residual value have not been considered. Further, the management is of the opinion that the decommissioning cost (net of residual value of the solar plant), shall not be material.

16. Disclosure in respect of Indian Accounting Standard (Ind AS)-36 "Impairment of Assets"

The Companies in the Group at each balance sheet date, assess whether there is any indication of impairment of any asset and/or cash generating unit. If such indication exists, assets are impaired by comparing carrying amount of each asset and/or cash generating unit to the recoverable amount being higher of the net selling price or value in use. Value in use is determined from the present value of the estimated future cash flows from the continuing use of the assets. The Companies in the Group have no impairment loss during the current and previous year.

¹Income Tax

This pertains to Income Tax cases for AY 2014-15 and AY 2020-21 which are pending before the CIT(Appeals), while case for AY 2022-23 has been moved for rectification under Section 154 of the Income Tax Act. The Company is hopeful of a favourable outcome in respect of the various issues covered under the appeal and thus except for the issues decided against the Company in other years, for which reasonable provision has been made, no further provision has been considered as necessary.

For the Income Tax Cases of AY 2010-11 and AY 2012-13 to AY 2018-19 (except AY 2014-15, which is pending before CIT(A)), the order for appeal effect of CIT(A) is still awaited. However, during FY 2023-24 the Company has provided ₹ 14.80 crores for matters not allowed in the favour of the Company and the tax impact on the remaining matters, although not finally determined, is not considered as a contingent liability as no outflow is considered probable for the items allowed. Any adjustment shall be accounted for upon receipt of the respective orders. Further, the Company has filed appeal with the ITAT for matters not allowed.

For the Income Tax Cases of earlier years (AY 1998-99 – AY 2009-10), the Hon'ble High Court of Delhi decided the WRIT petition in favour of the Company vide order dated 08 December 2023 and pronounced that the assessment proceedings concerning from AY 1998-99 to AY 2009-10, pursuant to the orders of the Tribunal dated 21 November 2014 and 29 May 2015, have become time-barred and thus directed the A.O. to accept the returned income and pass the consequential orders. Such consequential orders are awaited, and any adjustments shall be accounted for upon receipt of the respective orders.

²Service Tax and Goods & Service Tax (GST) cases

The Company had received a Notice of Demand/Order from the Commissioner, Adjudication, Central Tax, GST Delhi East dated 15 March 2022 creating demands on the Company amounting to ₹ 117.09 crores (excluding applicable interest) for financial year 2012-13 to 2015-16. Although the Company contends that entire demand is barred by limitation, it has provided for ₹ 13.22 crores (previous year: ₹ 12.48 crores) including interest on conservative basis. Based on law and facts in the matter, Service Tax demand (including interest) of ₹ 244.94 crores (previous year : ₹ 229.95 crores) has been disclosed as contingent liability. Further, since the Company is a government enterprise, no mala fide intention can be attributed to it and thus, extended period of limitation ought not to be invoked based on certain decisions of Hon'ble Supreme Court in such cases and hence the penalty has not been considered for disclosure as a contingent liability. The Company has filed an appeal with CESTAT, New Delhi on 15 June 2022 in the matter and the same is pending.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

The Company had received order dated 25 March 2022 from the office of Additional Director General (Adjudication) on recovery of Service Tax on Guarantee Fee Paid to Government under Reverse Charge basis for the period April 2016 to June 2017 raising a demand of ₹ 20.73 crores towards Tax, ₹ 20.73 crores towards penalty and applicable interest thereon. While the Company had filed an appeal against the same before the Hon'ble CESTAT, Mumbai on 24 June 2022, it has made requisite provision towards the Tax and interest thereon amounting to ₹ 69.36 crores (previous year : ₹ 63.10 crores) and penalty amount of ₹ 20.73 crores (previous year ₹ 20.73 crores) has been disclosed as contingent liability.

The Company has received order dated 31 January 2024 from the office of Commissioner of Central Tax Appeals -1, Delhi, vide which the appeal filed by the Company against recovery of GST on Guarantee Fee Paid to Government under Reverse Charge basis for the period 01 July 2017 to 26 July 2018 has been rejected. While the Company is in the process of filing appeal with the GST Appellate Tribunal, it has paid Tax amount of ₹ 13.28 crores under protest and made requisite provision towards Tax and interest thereon amounting to ₹ 28.96 crores (previous year : ₹ 28.96 crores). The penalty amount of ₹ 15.26 crores (previous period: ₹ 15.26 crores) has been disclosed as contingent liability.

³Others

Includes penalty for ₹ 0.03 crores (previous period: ₹ 0.03 crores) imposed by Ministry of Corporate Affairs (MCA) w.r.t. non-appointment of Woman Director. The Company being a government company has no control over appointment of directors and hence the same has not been considered for provision. The Company has filed appeal before the Regional Director (NR) MCA. The matter is still pending for adjudication. Also includes an amount of ₹ 4.62 crores (previous period: ₹ 3.78 crores) pertaining to cases pending before Hon'ble High Court of Delhi in the form of Writ Petition against the order of disciplinary authority for dismissal of staff from service of the Company. There is no interim order in this matter. Also includes ₹ 0.35 crores (previous period: ₹ 0.35 crores) pertaining to withheld PRP of ex-Functional Directors of the Company pending clarification.

Apart from above, the Company has also furnished Bank Guarantee of ₹ 9.90 crores to NSE to act as a designated stock exchange for the purpose of Initial Public Offer of the Company. Also, the above does not include amount pertaining to the arbitration proceedings initiated by M/s Jackson Engineers Ltd against IREDA & Anr on 15 August 2024, in the matter pertaining to deduction of Liquidated damages amounting to Rs. 13.46 crores by IREDA under contract agreements for Supply, erection work, civil & allied works as well as for the delay in commissioning of project named 50 MW (AC) Solar PV Plant at Kasargod Solar Park, District - Kasargod, Kerala. The Claimant (Jackson Engineers Ltd) has filed claim of approx. 156.55 crores and IREDA has filed statement of defense on 30 October 2024 with a counter claim of Rs 47.34 crores. It is unlikely that the IREDA may get any adverse order as M/s Jackson Engineers Ltd (the Claimant) was appointed by SECI, not by IREDA. However, if any adverse order is passed by the tribunal, the same can be challenged under Section 34 of the Arbitration and Conciliation Act, 1996. In view of this, probable outflow is remote hence the same has not been provided or disclosed as a contingent liability.

20. Disclosure as per Indian Accounting Standard (Ind AS) 107 - “Financial Instruments: Disclosures”

The Company has established a comprehensive policy framework to effectively manage credit risk, market risk, liquidity risk, and operational risk. The Risk Management Policy has been developed under the guidance of the Risk Management Committee (RMC) and approved by the Board of Directors. The Risk Management Committee is a Board level Committee and the Board has overall responsibility for the Risk Management Committee which is supplemented by Management level and corporate level committees namely Asset Liability Committee, Credit Risk Management Committee and Operational Risk Management Committee. The Risk Management Policy is periodically reviewed. The Risk Management Committee, headed by an Independent Director, ensures independent risk oversight and full transparency in the risk management process. The prudent Risk Management policies are ratified by the Board of Directors to ensure compliance with RBI guidelines and SEBI (LODR) Regulations, 2015, which form the governing framework for the company's business activities. This includes, but is not limited to, the roles and responsibilities of Independent Directors (ID), as outlined in Schedule IV of the Companies Act 2013, Section 177(4)(vi), Regulation 6.12 of the DPE Guidelines 2011, and SEBI LODR Regulation 4. These roles and responsibilities are clearly defined for sub-Board committee members. The company also has a designated Chief Risk Officer (CRO) in an advisory capacity, in line with the RBI notification.

A Foreign Exchange and Derivatives Risk Management Policy, and a Foreign Exchange and Derivative Management Committee (FMC) is in place in the Company and hedging instruments such as forward contracts, swaps etc. are used to lower/mitigate the currency and interest rate risks on the foreign currency borrowings. Hedging instruments are used exclusively for hedging purpose and not as a trading or speculative instrument.

The key risks which the Company faces during its business operations are Credit Risk, Market Risk, Liquidity Risk, and Operational Risk. These risks are carefully identified, assessed, and managed through the implemented risk management policies and procedures. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

A. Credit risk

Credit risk is the inherent risk in the lending operation and arises from lowering of the credit quality of the borrowers and the risk of default in repayments by the borrowers. A robust credit appraisal system is in place for the appraisal of the projects in order to assess the credit risk. The process involves appraisal of the projects, rating by external agencies and assessment of credit risk, appropriate structuring to mitigate the risk along with other credit risk mitigation measures. The Company splits its exposures into smaller homogenous portfolio based on shared credit risk characteristic, as described below in the following order:-

- Secured/ Unsecured i.e., based on whether the loans are secured.
- Nature of security i.e., nature of security if the loans are determined to be secured.
- Nature of loan i.e., RE Sector to which the loan has been extended.

An assessment of whether credit risk has increased significantly since initial recognition is performed at each reporting date by considering the change in the risk of default occurring over the remaining life of the financial instrument. In determining whether the risk of default has increased significantly since initial recognition, the Company considers more than 30 days overdue as a parameter. Additionally, the Company considers any other observable input indicating a significant increase in credit risk.

The Company defines a financial instrument as in default when it has objective evidence of impairment at the reporting date. It has evaluated these loans under Stage III on case-to-case basis based on the defaulted time, performance/operation of the project. The Company recognizes impairment on financial instruments based on ECL Model in line with Ind AS 109.

Collaterals and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk. The main type of collaterals are FDR/BGs, Charge on immovable property belonging to the promoters and corporate guarantees on case-to-case basis.

- (a) The company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for industry concentrations, and by monitoring exposures in relation to such limits.

B. Liquidity Risk

Liquidity risk refers to the risk that a company may not be able to meet its financial obligations due to a lack of sufficient cash and marketable securities or the availability of funding. Prudent liquidity risk management involves maintaining an appropriate level of cash, marketable securities, and committed credit facilities to meet obligations when they become due. The management of the Company closely monitors the forecast of the liquidity position and the availability of cash and cash equivalents based on expected cash flows, including interest income and expense.

The Comprehensive Asset Liability Management Framework also outlines the framework for liquidity risk management. The Company is also complying with the Liquidity Coverage Ratios requirement and maintaining High-Quality Liquid Assets, in line with the requirements of the RBI guidelines.

C. Market Risk

Market risk is the possibility of loss mainly due to fluctuation in the interest rates and foreign currency exchange rates. To mitigate the lending interest rate risk, the Company has a committee which periodically reviews its lending rates based on market conditions, ongoing interest rates of the peers and incremental cost of borrowings.

The Company's borrowings comprise of both floating rate and fixed rate borrowings linked to benchmark rates as applicable. For the foreign currency borrowings, the Company mitigates the risk due to floating interest rate by taking hedging arrangements and periodically monitoring the floating rate-linked portfolio.

The foreign exchange borrowings from overseas lending agencies expose the company to foreign currency exchange rate movement risk. As per the Board approved policy, company mitigates the foreign currency exchange rate risk by undertaking various derivative instruments to hedge the risk such as Principal only swap, Currency and Interest Rate Swaps (derivatives transactions), forward contracts etc. These derivative contracts, carried at fair value, have varying maturities depending upon the underlying contract requirement and risk management strategy of the Company.

I. Foreign currency risk: -

The Company has foreign exchange exposure in the form of borrowings from overseas lending agencies as part of its resources raising strategy. Large cross border flows together with the volatility may render company's Balance Sheet vulnerable to exchange rate movements. As per its Board approved policy,

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

company mitigates the foreign exchange risk through Principal Only Swap (POS), Cross Currency & Interest Rate Swap (CCIRS), Forwards, Interest Rate Swaps (IRS), Cross, Currency and Cross Currency Options, structured / cost reduction products etc. (derivatives transactions). These foreign exchange contracts, carried at fair value, have varying maturities depending upon the underlying contract requirement and risk management strategy of the Company. The Subsidiary of the Company has foreign Exchange exposure in the form of bank balances in foreign currency.

II. Cash flow and fair value interest rate risk: -

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates to the long-term foreign currency loans with floating interest rates and floating interest rate term loan from banks. The Company manages its foreign currency interest rate risk according to its Board approved Foreign Currency and Derivatives Risk Management policy.

The Company's fixed rate rupee borrowings are carried at amortized cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

a) Interest rate risk exposure

The exposure of the Company's borrowings to interest rate changes at the end of the year are as follows:

(c) Impact of Hedging activities

Derivative financial instruments and Hedge Accounting

The Company has a Board approved policy for undertaking derivative financial instruments, such as Principal Only Swap (POS), Cross Currency & Interest Rate Swap (CCIRS), Forwards, Interest Rate Swaps (IRS), Cross, Currency and Cross Currency Options, structured / cost reduction products etc. to hedge and mitigate its foreign currency risks and interest rate risks.

Hedge ineffectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument.

The Company applies the following effectiveness testing strategies:

- For cross currency swaps, option structures and interest rate swaps that exactly match the terms of the terms of the hedged item, the economic relationship and hedge effectiveness are based on the qualitative factors using critical terms match method. For option structures, the Company also analyses the relationship between changes in the value of the hedging instrument and the hedged item using regression analysis.
- The Company has established a hedge ratio of 1:1 for hedging relationships as the underlying risk and notional amount of the hedging instruments are identical to the hedged items.

Effects of hedge accounting on statement of Profit and loss and other comprehensive income: -

The Company uses derivative instruments in pursuance of managing its foreign currency risk and interest rate risk associated on borrowings. For hedging foreign currency and interest rate risk, the Company uses foreign currency forward contracts, cross currency swaps, principal only swaps and interest rate swaps. To the extent the derivative contracts designated under the hedge accounting are effective hedges, the change in fair value of the hedging instrument is recognized in 'Effective Portion of Cash Flow Hedges'. Amounts recognized in such reserve are reclassified to the Statement of Profit and Loss when the hedged item affects the Statement of Profit and Loss.

27.

- i. The Company has closed one credit line with AFD, which had a balance tenor of 60 months by prepaying the entire outstanding amount of EUR 50 million basis review of its borrowing portfolio. Consequent, to the full & final settlement of the subject credit line, the accumulated balance on account of Foreign Exchange fluctuations (to be amortized over the tenor of the loan) in Foreign Currency Monetary item translation reserve [FCMITR] and Other Comprehensive Income [OCI] was transferred to P&L account. This entailed unwinding of associated hedge deals (loan was hedged to the extent of 91.41%) which resulted in net gain of ₹ 7.80 crores. The overall impact of the pre closure of the loan has been taken as a loss of ₹ 45.41 crores in Q1 FY 2024-25.
- ii. The Company has signed a facility agreement to raise External Commercial Borrowing (ECB) from SBI, Tokyo Branch for JPY 26 Billion, including a Green Shoe Option of JPY 10 Billion. This five-year unsecured facility, with bullet payment at maturity, is set to strengthen the Company's global market presence.

The company is of the opinion that the money receivable with respect to the MNRE GOI Fully Serviced Bonds (Refer Note 38(44) to Financial Statements) is not covered under the above disclosure as the same is in accordance with the mandate / MOU of the GOI.

29. Disclosure in respect of Indian Accounting standard (Ind AS) -108 "Operating Segments"

(i) Operating segments

Based on the "management approach" as defined in Ind AS 108, the CMD, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on an analysis of various performance indicators by business segments. The accounting principles used in the preparation of the financial statements are consistently applied to record revenue and expenditure in individual business segment and are as set out in the significant accounting policies.

The Group operates in two segments - Financing activities in the Renewable Energy (RE) & Energy Efficiency (EE) sector and Generation of Power through Solar Plant operations at Kasaragod, Kerala. Major revenue for the company comes from the segment of financing activities in the RE & EE sector. The other operating segment - Generation of power through Solar Plant is not a reportable segment. The company operates in India; hence it is considered to operate only in domestic segment. As such considered as a single business/geographical segment for the purpose of Segment Reporting.

II. Fair value hierarchy

This section explains the judgement and estimates made in determining the fair values of financial instruments that are

- Recognized and measured at fair value and
- Measured at amortized cost and for which fair values are disclosed in financial statements. To provide an indication about reliability of the inputs used in determining fair value the company has classified its financial instruments into three levels prescribed under accounting standard. An explanation on each level follows underneath the table.
- Considering the materiality, we have ignored discounting of employee loan and security deposits.

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as on the reporting date. The mutual funds are valued using the closing NAV.

Level 2: Financial instruments that are not traded in active market (for example, traded bonds,) is determined using other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Technique which uses inputs that have a significant effect on the recorded fair value that are not based on observable market data like unlisted equity securities.

III. Valuation technique used to determine fair value

MTM calculation is based upon the valuation provided by the registered independent IBBI valuer as defined under rule 2 of Companies (Registered Valuers and valuation) Rules, 2017, for outstanding derivative instrument at reporting date.

Fair value measurements using significant unobservable inputs (level 3)

Pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.

The following table presents changes in level 3 Derivative Instruments: -

(₹ in Crores)

Particulars	As on 31.03.2025	As on 31.03.2024
Gains/(losses) recognized in profit and loss under Derivative deals in derivative accounting	13.13	(11.26)
Gains/(losses) recognized in Other Comprehensive Income	165.59	(165.40)
Total	178.72	(176.66)

IV. Valuation Processes

For MTM valuation of hedge deals, the Company has obtained valuation from a registered independent IBBI valuer as defined under rule 2 of Companies (Registered Valuers and valuation) Rules, 2017, who has provided such valuation after considering movement in market position, movement in exchange rate, interest rate etc.

V. Fair value of financial assets and liabilities measured at amortized cost

(₹ in Crores)

Particulars	As on 31.03.2025		As on 31.03.2024	
Financial Assets	Carrying amount	Transaction value	Carrying amount	Transaction value
Financial assets at amortized cost:				
Loans to customers	75,216.10	75,432.98	58,692.01	58,865.86
Total financial assets	75,216.10	75,432.98	58,692.01	58,865.86

(₹ in Crores)

Particulars	As on 31.03.2025		As on 31.03.2024	
Financial liabilities	Carrying amount	Transaction value	Carrying amount	Transaction value
Financial liabilities at amortized cost:				
Debt securities	28,446.24	28,460.74	17,713.61	17,720.74
Borrowings (other than debt securities)	33,489.50	33,489.50	31,323.84	31,323.84
Subordinated liabilities	2,804.57	2,807.37	649.41	650.00
Total financial liabilities	64,740.31	64,728.12	49,686.86	49,694.58

The carrying amount of the trade receivables, trade payables, cash and cash equivalents, other bank balance, other financial assets and liabilities are considered to be same as their fair values, due to their short-term nature.

The fair values for borrowings, loans to companies, debt securities are calculated based on cash flows discounted using current lending rate. They are classified as Level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs, including own credit risk.

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

31. Disclosure in respect of Indian Accounting Standard (Ind AS)-115 “Revenue from Contracts with Customers”

The Company is operating a solar power plant. The Power Purchase Agreement (PPA) has been signed between the company and Kerala State Electricity Board Limited (KSEBL) on 31 March 2017 @ ₹ 4.95 per unit or rate as approved by Kerala State Electricity Regulatory Commission (KSERC), whichever is lower. Accordingly, the company filed a petition for approval of the Power Purchase Agreement with KSERC, which in its interim order dated 14 February 2018 approved an interim tariff of @ ₹ 3.90 per unit till March 2018. During the financial year 2019-20, KSERC passed a tariff order and determined tariff of @ ₹ 3.83 per unit. For details Refer Note 38(32) to Financial Statements.

Accordingly, the Company has recognized the gross revenue for supply of power to KSEBL at the determined tariff of ₹ 3.83 per unit. Further, the Company has also continued to provide its consultancy services during the year.

32. SOLAR POWER PROJECT

The company entered into an MOU with Solar Energy Corporation of India (SECI) in the FY 2014-15 for implementation of 50 MW Solar Project of the Company situated at Ambalathara Solar Park, Kasaragod District, in the state of Kerala. The plant was commissioned in phase manner and fully commissioned during FY 2017-18, executed by Jakson Engineers limited as EPC Contractor. It has been capitalized in the books and the present capitalized cost is ₹ 319.36 crores, shown under property, plant and equipment. Refer Note 12 to Financial Statements.

The PPA was signed between the Company and Kerala State Electricity Board Limited (KSEBL) on 31 March 2017 @ ₹ 4.95 /KWH or rate as approved by Kerala State Electricity Regulatory Commission (KSERC), whichever is lower. Accordingly, the Company filed a petition for approval of the Power Purchase Agreement with KSERC, which in its interim order dated 14 February 2018 had approved an interim tariff of ₹ 3.90 per unit. Further to the same, KSERC, in its order dated 06 February 2019 had approved of the levelized tariff @ ₹ 3.83 per unit. It has also further ordered as under:

- KSEB Ltd shall reimburse any tax paid on the Return on Equity (RoE), limited to the amount of equity specified in this Order. For claiming the tax, developer shall furnish the proof of payment of such tax to KSEB Ltd.
- KSEB Ltd shall reimburse the land lease paid by the Company / RPCKL, less amount received as subsidy, if any, in addition to the above.

The said Order was challenged before Hon'ble APTEL by way of filling the appeal on 27 August 2019 for allowance of certain costs towards expenditure incurred by the Company and paid to RPCKL to determine the tariff. On rejection of said appeal, the Company filed a Review Petition with Appellate Tribunal (APTEL) on 05 April 2022. The matter is now listed for final hearing.

The Company also filed Second Appeal no. 4634 of 2022 in the Hon'ble Supreme Court of India during the pendency of the Review Petition before the Appellate Tribunal, only to save the Appeal from being barred by limitation before the Hon'ble Court. The Hon'ble Supreme Court of India vide order dated 18 July 2022 had given liberty to the Company to mention the matter for listing as and when the Review Petition is disposed of. Notwithstanding, the generation income is being accounted for @ ₹ 3.83 per unit.

The Solar Project has been set up on Leasehold land for which lease charges are payable to Renewable Power Corporation of Kerala Limited (RPCKL) from 07 October 2020 to 06 October 2043 (exemption upto

41. Disclosure - for (AP & Others) cases involving Power Purchase Agreement (PPA) issue- Accounts with over dues beyond 90 days but not treated as credit impaired

Seven borrowers have obtained interim orders from Hon'ble High Court of Andhra Pradesh / Telangana and Hon'ble High Court of Delhi to not classify the account as Non-Performing Asset. Accordingly, the loan outstanding of such borrowers have not been classified as Stage III Asset, even though the over dues are more than 90 days old. However, the Company has created an adequate provision of ₹ 631.13 crores on Loan outstanding of ₹ 1,202.21 crores in the books of accounts as per Expected Credit Loss (ECL) as on 31 March 2025 (previous year: provision of ₹ 521.31 crores on Loan outstanding of ₹ 873.67 crores) after considering the financial and operational parameters of the projects. Though the accounts are not declared as NPA, the income is booked into this account on cash /realization basis (i.e. any 'interest due and not received' is reversed and not been taken as interest income).

Interest on MNRE funds is accounted as and when received. As

Notes to Consolidated Financial Statements

For the year ended March 31, 2025

the income generated by the MNRE Programme loans is not the income of the company and also the loan assets belong to MNRE, the same is not considered for asset classification and provisioning purposes. On closure of the respective Programme, the company is required to transfer the amount standing to the credit of MNRE (inclusive of interest accrued thereon) to MNRE after deducting the service charges, irrecoverable defaults, and other dues as stipulated in the MoU.

- a) Generation Based Incentives (GBI) / Capital Subsidy Scheme etc.:** The Company is the Program Administrator on behalf of Ministry of New & Renewable Energy (MNRE) for implementation of Generation Based Incentive Scheme and Capital Subsidy for Wind and Solar Power Projects registered under the Scheme. Under these schemes, fund is provided by MNRE to the company for the purpose of disbursement of the same towards energy generation to the GBI claimants i.e., the Project Developers/ DISCOM as per the scheme. Therefore, essentially, the activity is receipt and utilization of funds. For release of GBI fund by MNRE, the company is required to submit the Utilization Certificate along with Audited Statement of Expenditure duly certified by a Chartered Accountant, for the previous tranche of fund released by MNRE. The said requirement is fully complied with by the company, and nothing further has been required by MNRE so far. The statutory auditors have not audited the accounts of the scheme.

The amount due to MNRE on account of the above at the close of the year, along with interest on unutilized funds kept in separate bank accounts as savings banks / short-term deposits etc. shown as Bank balances other than included in Cash and Cash Equivalents (Refer Note 3 to Financial Statements) and the corresponding liability is shown under the head Other Financial Liabilities (Refer Note 22 to Financial Statements) in the Balance Sheet.

- b) GEF -MNRE -United Nations Industrial Development Organization (UNIDO) Project:** Ministry of New and Renewable Energy (MNRE) and UNIDO have jointly implemented a GEF-5 funded project on using biogas/bio-methane technology for waste to energy conversion, targeting innovations and sustainable energy generation from industrial organic wastes. Under the said project UNIDO will provide funds for subsidizing the interest rate by 5% for the project developers and the company is the fund handler. During the year ended 31 March 2025, Nil claims (previous year : NIL Claims) have been made to UNIDO. Funds amounting to ₹ 2.55 crores have been received by the company towards the 1st tranche of USD 340000 in FY 2021-22. The Fund balance as on 31 March 2025 is Rs. 2.90 crores.

The funds so received have been kept in separate bank account as savings banks / short-term deposits etc. shown as Bank balances other than included in Cash and Cash Equivalents (Refer Note 3 to Financial Statements) and the corresponding liability is shown under the head Other Financial Liabilities (Refer Note 22 to Financial Statements) in the Balance Sheet.

vi) Institutional set-up for liquidity risk management

The Board of Directors of the Company has constituted the Asset Liability Management Committee, Risk Management Committee and Investment Committee. The Asset Liability Management Committee, inter alia, reviews the asset liability profile, risk monitoring system, liquidity risk management, funding and capital planning, profit planning and growth projections, forecasting and analyzing different scenarios and preparation of contingency plans.

Further, the Risk Management Committee, inter alia, monitors and measures the risk profile of the Company and oversees the integrated risk management system of the Company. The Company manages liquidity risk by maintaining sufficient cash/treasury surpluses. Management regularly monitors the position of cash and cash equivalents. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of balance sheet liquidity is considered while reviewing the liquidity position.

N. Disclosure on Liquidity Coverage Ratio: -

RBI vide its Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended from time to time issued the guidelines covering liquidity risk management for NBFCs wherein RBI introduced Liquidity Coverage Ratio (LCR) applicable on all non-deposit taking NBFCs with asset size of more than ₹5,000 crore. The guidelines aim to maintain a liquidity buffer in terms of LCR by ensuring that the NBFCs have sufficient High Quality Liquid Assets (HQLA) to survive any acute liquidity stress scenario lasting for next 30 days. As per the guidelines, LCR is represented by Stock of HQLA divided by Total Net Cash Outflows (stressed outflow less stressed inflows) over the next 30 calendar days. HQLA are defined by RBI as the liquid assets that can be readily sold or are immediately convertible into cash at little/no loss of value or can be used as collateral to obtain funds in stress situations.

The Company has complied with LCR requirement w.e.f. 01 December 2020 against stipulated requirement of minimum LCR of 50%, progressively increasing up to the required level of 100% by 01 December 2024. The Company is maintaining LCR in INR only; hence there is no currency mismatch.
