ITEM NO. 5

The implementation of Basel III guidelines has necessitated the need for banks in India to augment their capital base. This becomes important as Basel III capital requirements call for increase in quantity and quality of capital, besides providing for capital buffer during economic downturn. The Basel III capital regulations were implemented in India with effect from April 1, 2013. Banks have to comply with the regulatory limits and minima as prescribed under Basel III capital regulations, on an ongoing basis. Basel III capital regulations would be fully implemented by March 31, 2019. In order to ensure smooth migration without any near stress, appropriate transitional arrangements for capital ratios have been made which commenced as on 01.04.2013. Capital ratios will be implemented fully on 31.03.2019 and accordingly the phase-in arrangements for Scheduled Commercial Banks operating in India is as under:

Transitional Arrangements -Scheduled Commercial Banks-				Capital as % of RWAs			
Minimum Capital Ratios	April 1, 2013	March 31, 2014	March 31, 2015	March 31, 2016	March 31, 2017	March 31, 2018	March 31, 2019
Minimum Common Equity Tier I (CET I)	4.5	5	5.5	5.5	5.5	5.5	5.5
Capital Conservation Buffer (CCB)	-	-	-	0.625	1.25	1.875	2.5
Minimum CET I + CCB	4.5	5	5.5	6.125	6.75	7.375	8
Minimum Tier I Capital	6	6.5	7	7	7	7	7
Minimum Total Capital	9	9	9	9	9	9	9
Minimum Total Capital + CCB	9	9	9	9.625	10.25	10.875	11.5

To gauge the capital requirements under Basel III, Capital Planning exercise is carried out by Bank under Internal Capital Adequacy Assessment Process (ICAAP). The exercise is reviewed on regular basis (quarterly) in light of economic and business environment within India. Besides, the downward pressures in the financial sector, increase in NPA, slow growth in overall business variables, relative increase in risk weighted assets compared to the incremental capital growth, the capital buffer maintained by the bank historically over and above the regulatory minimum are also factored in while arriving at the capital position of the Bank in near to medium term. Based on the above factors in the capital planning exercise carried out, the Bank needs to augment its capital base in phases up to March 31, 2019 till the time Basel III gets fully implemented. Bank shall augment its capital base by raising of common equity (CET1), issue of Additional Tier 1 bonds (AT1) or issue of Tier 2 bonds and through internal

profit accruals. The current issue of raising capital is part of Tier II capital raising exercise. The Basel III requirements envisage maintaining of adequate capital that is in line with regulatory requirements. The need for more capital is also in line with the future business growth that the Bank has projected over near to medium term. Further, Tier II will supplement tier I capital of the Bank and will also have tier II buffer in place so that draw down of earlier raised tier II capital as per BASEL III guidelines is replenished by fresh tier II capital.

No Director, Key Managerial Personnel of the Bank or their relatives is in anyway concerned or interested in the Resolution.

The Board of Directors of the Bank believes that the proposed issue is in the interest of the Bank and hence, recommends the resolution for the approval of the Shareholders by way of Special Resolution.

Chairman Speaks

Over the past year and a half, we focused on cleanup and consolidation of our Balance Sheet and I am happy to share that we completed so despite a difficult environment.

Esteemed Shareholders,

It is my honour and pleasure to present the 80th Annual Report for FY 2017-18. Over the past year and a half, we focused on cleanup and consolidation of our Balance sheet and I am happy to share that we completed so despite a difficult environment.

The year 2017-18 witnessed a cautious optimism in banking industry amid uncertainty. The banking industry took some key structural initiatives to build strength across macro-economic parameters for sustainable growth in future. Global growth for 2017-18 is estimated at 3.7 percent; 0.1 percentage point higher than projected.

The good news from the banking industry over the past year is that the pace of down gradation of assets has been stemmed, pipeline of fresh NPAs reduced,

credit off take is seen improving and settlement of NPAs enforced. However, the persistence of bad asset quality in the banking industry, the multi-billion fraud at one of the major PSBs, the looming Prompt Corrective Action (PCA) and Mergers and Acquisitions (M&A) were major challenges faced and are expected to transform the banking landscape in the country. New competitors and shifting economics are fuelling the transformation further.

Technology, on the other hand, is rapidly morphing from an expensive challenge into a potent enabler of both customer experience & effective operations and have moved the products offered by banks away from conventional banking. The launch of "Digital India Campaign" coupled with increasing Internet connectivity paved way for technological reforms

in India. Non-traditional players are challenging the established order primarily through customer-centric innovations. In 2018, we expect the digital transformation to further redefine the Banking Industry offering a very different form of retail banking than what we see today.

For us at J&K Bank, FY 2017-18 brought a challenging last quarter due to revised guidelines of RBI on NPA treatment besides quashing the restructuring schemes leading to some major slippages across the industry. Nevertheless, JK Bank has shown resilience during these overall turbulent times and has registered a profit of Rs 202.72 crore, CASA ratio of 50.89%, NIIM of 3.65%, NPA coverage ratio of 65.83%, Net NPA of 4.90% and digital transaction percentage of 48% for FY ended March, 2018.

I am thankful to our promoters, the state government who supported us well during the tough preceding year in the management of rehabilitated portfolio of J&K state with Chief Minister's business interest relief scheme and Reserve Bank of India for allowing us the staggered provisioning for interest capitalized in rehabilitated accounts. The concerted efforts of the staff of your Bank in this challenging environment have resulted in smooth execution of the multi-pronged strategy devised to tide over the difficult times in the bank.

As part of the transformation journey undertaken by your Bank in the year 2017 in consultation with globally reputed Consultants, the organizational structure across full spectrum of activities is being realigned to ensure lucidity of roles and responsibilities, accelerated Retail and SME focus, enhanced customer experience, efficiency by reducing TATs, improved compliance structure, well-defined career path for employees, competence building and specialization etc. This transformation process is expected to catalyze internal synergies and help scale up the business over the next 3-5 years. Our endeavor through this transformation is to be future ready into a modern, efficient, customer focused, digitally driven profitable institution. In addition, your Bank has completed succession planning exercise to successfully steer towards transformation and higher levels of excellence.

In the FY 2018-19, our focus will still be on conservation and augmentation of capital, NPA recovery, containing the slippages especially in the restructured portfolio and strengthening our compliance framework in the Bank. In terms of business expansion, we shall be targeting a decent balance sheet growth driving upon robust credit growth in J&K state where we see huge untapped opportunity in retail credit. The Bank is focusing on customization and offering new customized products in the state, sourcing new retail loans to digital channels by targeting strategic tie up with Government Departments and Institutional customers. For your Bank, 2018 will be a pivotal year in redefining itself into a strategically growing, technologically modern and operationally agile institution. We are determined to maintain market leadership in a rapidly evolving ecosystem.

Notwithstanding the above, I am optimistic that your Bank shall not have to face any untoward environment in the years to come and we will continue to focus on repairing the downgraded asset portfolio and reducing the pipeline of NPAs.

The organizational structure across full spectrum of activities is being realigned to ensure lucidity of roles and responsibilities, accelerated Retail and SME focus, enhanced customer experience, efficiency by reducing TATs, improved compliance structure, well-defined career path for employees, competence building and specialization etc.

Dear Shareholders,

Looking ahead, I view your Bank's future with continued optimism and am confident that the Bank will regain and rather surpass its past glory in terms of business numbers. Your support & trust is our prime strength and we hope to receive these along with your encouragement in the future as well.

Overview of activities

Key initiatives undertaken during the reporting year were:

Community Development Initiative (Handcarts to street vendors)

In a unique and first of its kind CSR initiative, J&K Bank reached out to marginal section of society engaged in small businesses. In this section, the bank focussed on street vendors like hawkers, cloth merchants & fruit sellers. They were provided with branded and designed handcarts to carve out a better financial standing by increasing their sales in an organized manner. Precisely, the aim was to change their lives for better. It was a pilot project as the bank wanted to have the impact of this intervention so that it could be replicated further, involving more and more people having low income and belonging to marginal sections of society. The intervention for, what is known as "People's Sector" comprising a huge chunk of people of the informal economy was carried out with the rationale that a small businessman like a vegetable vendor, street hawker rise above the circumstances and become financially better. Under the initiative, Bank distributed as many as fifty (50) Handcarts fitted with state-of-the-art solar lighting system among the poorest of the poor. While monitoring and evaluating the impact of the initiative, the result has been found quite encouraging.

Promotion of Education

Bank realizes that Education is one of the key building blocks of a nation and as such, it needs to be given top priority through CSR programmes. Valuing its importance, Bank took some initiatives for its excellence so that children of marginalized sections of society are benefitted through direct & indirect intervention of the Bank. Continuing its innovative CSR initiative of Remote Child Sponsorship Programme (RCSP), the Bank brought socially and financially weak children (mostly orphans) and under-privileged children under its ambit for the sake of seeking primary education through leading concerned non-governmental organization (NGO) CHINAR KASHMIR. For the year, 2017-18, The Bank adopted 50 children for the programme.

The Bank also donated two (02) Eco-friendly battery driven vehicles to the University of Kashmir to make the movement of differently-abled students within the campus hassle free. In addition to this, the Bank parked a substantial amount as donation into the STUDENTS' WELFARE FUND of the university meant for poor children who find it difficult to get the admission despite being meritorious.

Project Muskaan for differently abled

The Bank believes in empowering the marginalized sections of society, hence its concern for such neglected segments comprises of differently abled, orphans and under-privileged children. Since the inception of the mandated law, the Bank has been working for the cause of such children through the length and breadth of the state. Under Project "MUSKAAN" Bank has adopted around 200 differently abled children through registered NGOs like Voluntary Medicare Society, Chotey Taarey Foundation & Bijbehara helpline. The funding to the NGOs is exclusively meant for the adopted children against special education expenses like toilet training, meal time, behavior modification etc. The objective of this 'MUSKAAN' initiative vouches the Bank's concern for such children and it's step towards elimination of discrimination and empowerment of such sections of society.

Healthcare

Taking holistic approach towards the collective health of people across the state, the Bank unfailingly implements its robust endowment programme. During the year, a good number of patients suffering from Hemophilia & Hepatitis C were provided with life saving drugs under Preventive Healthcare programme of the bank. This Preventive Healthcare step remained the focus of Bank's proactive support especially towards the deprived sections of society through a mix of means.

Sanitation

In line with the mission to end open defecation in India by 2019, The Swachh Bharat Mission has also sought active participation from the corporate sector to tackle the issue. Companies have responded to this call to action with enthusiasm, many leveraging Section 135 of the Companies Act 2013, which introduced mandatory CSR to contribute to the campaign.

During the year under report, the Bank carried out a massive sanitation programme under "Swachhta Hi Seva" where cleanliness drives were carried out in hospitals, public places, schools and district headquarters to impress upon the people how important it is to keep their surroundings neat & clean. At the same time, important machinery like mopping machines were supplied to hospitals & courts to keep such important public places free of dirt.

Upgradation of Old Age Homes/Orphanages

Extending its CSR reach to the remotest part of the Ladakh region, the Bank contributed a substantial amount to an International Old Age Home "Mahabodhi" housing more than 600 people which include elderly citizens, visually impaired children, monks, nuns, volunteers & children from under-privileged families. The contribution was made so that old age people and other distressed lot being rehabilitated at the HOME are benefitted in more than one way. Similarly, two other organizations in Jammu region namely Association for Social Health in India (ASHI) J&K Branch & Samaj Kalyan Kendra, working for the cause of orphans, particularly girls were provided financial assistance to carry on their welfare programmes for the perpetual benefit of such children.

Responsibility Statement of the CSR Committee

J&K Bank is committed to the mandated Corporate Social Responsibility (CSR) and takes it as a mission. Understanding Jammu and Kashmir's society, culture and geography, the Bank goes beyond philanthropic symbolism and envisions its CSR Policy from the broader perspective of socio-economic empowerment and of late in the light of new legislation on CSR since 1st April 2014.

The target groups of the bank's entire CSR Programme comprise of the weaker sections of the society like, women, children, differently abled and others. All these CSR programmes were implemented by the bank in the foregone year either directly or through implementing agencies like NGOs etc.

Major CSR initiatives during the year 2017-18 revolved around, health, education, ecology & community welfare at large:

Being a responsible corporate citizen of the state, J&K Bank has taken a lead in reaching out to the marginalized people many a times. In one of the unique and first of its kind initiative, The Bank distributed Fifty (50) Handcarts to the street vendors belonging to low income groups like fruit sellers, vegetable vendors, cloth hawkers etc. The Bank brought these vendors under the ambit of CSR so that these poor and unorganized vendors, who form an important part of business community & informal economy, may enhance their living standard & earnings by having better designed carts, with the psychologically feel good factor. Moreover, The Handcarts distributed could add to the aesthetic value of the city, beleaguered with all sorts of unhygienic and obnoxious surroundings. Pertinently, these Handcarts were also loaded with all the facilities of digital payment options as well like PoS, mPoS, mPay etc. as digital India is being touted throughout the country.

Taking holistic approach towards the collective health of people across the state, the Bank unfailingly implements its robust endowment programme. During the year 2017-18, a good number of patients suffering from Hemophilia & Hepatitis C were provided with life saving drugs under Preventive Healthcare programme of the bank. This Preventive Healthcare step remained the focus of Bank's proactive support especially towards the deprived sections of society through a mix of means.

Education, as means to socio-economic empowerment, receives a substantial part of the Bank's CSR funds and a number of initiatives were taken in this direction. Continuing its novel CSR initiative of Remote Child Sponsorship Programme, the Bank continued to sponsor all the educational needs of 50 under-privileged children (mostly orphans) registered with an NGO named CHINAR KASHMIR. In another initiative, Bank donated two Eco-friendly battery operated cars to the University of Kashmir to be used by differently abled children within the campus. Sensing that such type of special children find it difficult to reach various locations within the university campus affecting their routine classes, the bank reached out to them through the donation of Battery driven Vehicles, bringing huge relief to them in terms of movement within the campus.

For the past many years, the Bank remained focused towards the inclusive education of the Differently abled children. Carrying out that mission under the Project "MUSKAAN" the Bank, during the year under report, reached out to such type of children through registered NGOs like Voluntary Medicare Society, Chotey Taarey Foundation, & Bijbehara helpline. The financial assistance to these NGOs/Trusts was provided for the children so that they could be provided with special education like toilet training, meal time, behavior modification etc. The Bank's intervention through CSR mode for such children is a step towards elimination of discrimination and also empowerment of such sections of society.

Over the last few years, the Bank, as a conscious Corporate, has been proactive and very sensitive to preserve and promote pollution free environment in the state for the larger welfare of the society. So far under the "Environmental Excellence Programme" the Bank has been maintaining thirteen (13) Parks/walkways at various locations of the state, indirectly helping the cause of environmental protection, besides wellbeing of the people. All these programmes/initiatives are aimed at making our surroundings and environment not only hygienic but also reflect the bank's commitment for GREEN surroundings for the larger welfare of the community. Besides, Bank, after 2014 deluge continued to revamp the world famous and the second oldest

Golf Course known as Kashmir Golf Course (KGC) so that 'Multi-Purposes' could be achieved i.e. Environmental, Heritage & Sports promotion. As such, Bank took the step to redevelop and restore the lost glory of this more than 100 years old heritage Golf Course.

CSR Committee confirms that the implementation and monitoring of CSR Policy, is in compliance with CSR objectives and policy of the company:

5. List of activities in which expenditure in 4 above has been incurred:

The above expenditure (in 4 above) has been undertaken primarily in promotion of health, education, ecology & community welfare at large.

Being a responsible corporate citizen of the state, J&K Bank has taken a lead in reaching out to the marginalized people many a times. In one of the unique and first of its kind initiative, The Bank distributed Fifty (50) Handcarts to the street vendors belonging to low income groups like fruit sellers, vegetable vendors, cloth hawkers etc. The Bank brought these vendors under the ambit of CSR so that these poor and unorganized vendors, who form an important part of business community & informal economy, may enhance their living standard & earnings by having better designed carts, with the psychologically feel good factor. Moreover, The Handcarts distributed could add to the aesthetic value of the city, beleaguered with all sorts of unhygienic and obnoxious surroundings. Pertinently, these Handcarts were also loaded with all the facilities of digital payment options like PoS, mPoS, mPay etc. as digital India is being touted throughout the country.

Taking holistic approach towards the collective health of people across the state, the Bank unfailingly implements its robust endowment programme. During the year 2017-18, a good number of patients suffering from Hemophilia & Hepatitis C were provided with life saving drugs under Preventive Healthcare programme of the bank. This Preventive Healthcare step remained the focus of Bank's proactive support especially towards the deprived sections of society through a mix of means.

Education, as means to socio-economic empowerment, receives a substantial part of the Bank's CSR funds and a number of initiatives were taken in this direction. Continuing its novel CSR initiative of Remote Child Sponsorship Programme, the Bank continued to sponsor all the educational needs of 50 under-privileged children (mostly orphans) registered with an NGO named CHINAR KASHMIR. In another initiative, Bank donated two Eco-friendly battery operated cars to the University of Kashmir to be used by differently abled children within the campus. Sensing that such type of special children find it difficult to reach various locations within the university campus affecting their routine classes, the bank reached out to them through the donation of Battery driven Vehicles, bringing huge relief to them in terms of movement within the campus.

For the past many years, the Bank remained focused towards the inclusive education of the Differently abled children. Carrying out that mission under the Project "MUSKAAN" the Bank, during the year under report, reached out to such type of children through registered NGOs like Voluntary Medicare Society, Chotey Taarey Foundation, & Bijbehara helpline. The financial assistance to these NGOs/Trusts was provided for the children so that they could be provided with special education like toilet training, meal time, behavior modification etc. The Bank's intervention through CSR mode for such children is a step towards elimination of discrimination and also empowerment of such sections of society.

Over the last few years, the Bank, as a conscious Corporate, has been proactive and very sensitive to preserve and promote pollution free environment in the state for the larger welfare of the society. So far under the "Environmental Excellence Programme" the Bank has been maintaining thirteen (13) Parks/walkways at various locations of the state, indirectly helping the cause of environmental protection, besides wellbeing of the people. All these programmes/initiatives are aimed at making our surroundings and environment not only hygienic but also reflect the bank's commitment for GREEN surroundings for the larger welfare of the community. Besides, Bank, after 2014 deluge continued to revamp the world famous and the second oldest Golf Course known as Kashmir Golf Course (KGC) so that 'Multi-Purposes' could be achieved i.e. Environmental, Heritage & Sports promotion. As such, Bank took the step to redevelop and restore the lost glory of this more than 100 years old heritage Golf Course.

Principle 2

The motto of the bank has been an all-inclusive growth of the state of Jammu and Kashmir. The bank has stood firm on its motto and as a result it has laid an extensive network of its Business Units and allied services across all landscapes and

strata of the state. The broader aim of the bank to have a national presence is envisaged by the fact that we are there at all the prime locations of major cities of India and have been catering in a professional and dedicated manner to all sectors across India from Retail to Corporate.

It is worth mentioning that the KCC/Apple Scheme of the bank has helped in changing the micro economics of the state with respect to the rural scenario. The schemes have uplifted the weaker agrarian groups, decreased their dependence on other social classes and made them self-sufficient, bolder and confident. This not only effected the economy of the state in a positive manner but also changed the mindset of the economically backward agricultural sector. Today the said strata is not only living a secure life but is also dreaming of a better one.

Bank under its initiative of Corporate Social Responsibility has been trying to help the people of all strata irrespective of the economic class they belong to. It has been trying to give the citizens of Jammu and Kashmir a quality and world class life style, the proof of which is creation and maintenance of world class civic amenities like parks, providing ambulances to various hospitals/ NGO's and various other events of social and economic importance.

The bank in the area where it has been assigned the role of Lead Bank ensures the equitable growth by means of enforcing the regulatory guidelines of compulsory lending in priority sector and in various Government sponsored schemes by all the member banks, hence maintaining a regulatory vigil and in turn helping transmit the benefit of various schemes to the desiring and deserving people.

Management Discussion and Analysis

Global Growth Forecast to Rise Further in 2018 and 2019

At the global front, year 2017 was marked by a number of key structural initiatives to build strength across macro-economic parameters for sustainable growth in the future. The growth in the first half of the year suffered despite global tailwinds. However, the weakness seen at the beginning of 2017, bottomed out as 2018 set in. The economy seems to be on the path to recovery, with indicators of industrial production, stock market index, auto sales and exports having shown some uptick. Global growth for 2017-18 is now estimated at 3.9 percent (higher than projected). Upside growth surprises were particularly pronounced in Europe and Asia but broad based, with outturns for both the advanced and the emerging market and developing economy groups exceeding the forecasts by 0.1 percentage point. The stronger momentum experienced in 2017 is expected to carry into 2018 and 2019, with global growth revised upwards for both years. For the two-year forecast horizon, the upward revisions to the global outlook result mainly from advanced economies, where growth is now expected to exceed 2 percent in 2018 and 2019. This forecast reflects the expectation that favorable global financial conditions and strong sentiment will help maintain the recent acceleration in demand, especially in investment, with a noticeable impact on growth in economies with large exports.

One of the major positives over the past few years has been the declining inflation levels. Consumer price inflation has in fact, fallen to multi year lows during the last fiscal. This has been possible on account of falling or stable global commodity prices and better management of supply shortages in the agrarian economy. That said, reversal of inflationary pressures during the latter part of 2017 as crude oil prices have started moving up and favourable base effects have waned. Prior to this period, some increase in food prices along with one-time modifications on account of pay revisions in the public sector and housing rent allowance being revised upwards had led to rising inflation. The latest reading for Feb'2018 saw larger than expected easing that came on the back of a slowdown in the more volatile food price inflation. Also, only marginal uptick in core inflation was recorded possibly on the back of lower base effect and a likely pass-through of input costs.

As per IMF, the growth forecast for the United States has been revised up given stronger than expected activity in 2017-18, higher projected external demand, and the expected macroeconomic impact of the tax reform, in particular the reduction in corporate tax rates and the temporary allowance

for full expensing of investment. Growth rates for many of the euro area economies have been marked up, especially for Germany, Italy, and the Netherlands, reflecting the stronger momentum in domestic demand and higher external demand. Growth in Spain, which has been well above potential, has been marked down slightly for 2018, reflecting the effects of increased political uncertainty on confidence and demand. While stronger oil prices are helping a recovery in domestic demand in oil exporters, the fiscal adjustment that is still needed is projected to weigh on growth prospects. Growth this year and next is projected to remain above 2 percent in the Commonwealth of Independent States, supported by a slight upward revision to growth prospects for Russia in 2018.

The main challenges for the FY 2018-19 are likely to come due to rising crude oil prices on account of global oil output cuts. The expected global macroeconomic effects account for around one-half of the cumulative upward revision to the global growth forecast for 2018 and 2019, with a range of uncertainty around this baseline projection.

Outlook for Asia

Asia is expected to continue to lead the world in economic growth with exports enjoying increased demand as a result of stronger global economic growth, which will support higher output in South Asia and the Association of Southeast Asian Nations (ASEAN). The aggregate growth forecast for the emerging markets and developing economies for 2018-19 is unchanged, with marked differences in the outlook across regions. Emerging and developing Asia is expected to grow at around 6.5 percent over 2018-19, broadly the same pace as in 2017. The region continues to account for over half of world growth and this growth is expected to moderate gradually in China, pick up in India, and remain broadly stable in the ASEAN-5 region. China's One Belt One Road initiative to expand infrastructure links will likely continue to improve efficiencies and connectivity in the pan-Asian economy, promoting economic expansion in the medium term. India and China are expected to do very well, with projected average annual economic growth rates. This robust growth is a result of relatively competitive business environments compared with other emerging markets, favorable demographics in most of these countries, and strong integration in the global value chain.

India's Outlook 2018-19

India's economic performance remained promising for FY 2017-18, however, there was a setback to the sentiment in February 2018 on account of fraud of around ₹ 14000 Crore involving multiple banks particularly PNB. This prompted RBI to take several preventive measures like, directing banks to discontinue the practice of issuance of LoUs/LoCs for Trade

Credits for import into India by AD-Category banks with immediate effect. Banking Industry as a whole took a jolt due to this incident and the repercussions thereof on several banks.

Despite this, the economic outlook is expected to strengthen further in FY 2018-19 on the back of political stability. The biggest challenges for FY 2018-19 are as to how the economy can maintain its recovery in the face of increasing inflationary pressures, coupled with a higher fiscal deficit as well as an increasing debt burden. The key to this conundrum lies in the revival of consumer demand and private investment.

Reserve Bank of India (RBI) is optimistic that the economy would outpace China to become the world's fastest growing major market this year and help lure investors seeking opportunities. RBI recently increased the repo and reverse repo rates by 25 basis points for the first time since January 2014, because of rising inflation. The central bank has now projected inflation for the FY 2018-19 at 4.8-4.9% in the first half and 4.7% in the second half of the year. Further, RBI undertook corrective measures directing banks to strengthen the inspection and audit systems, investigate bad loans above 50 crores and reconcile their Swift Messaging Procedure by integrating Swift Operations with core banking solutions to impart visibility to swift transactions. This shall catalyze investments and demand which were hit by demonetization in third quarter of FY 2016-17, implementation of the Goods and Services Tax (GST) last year and the trust deficit arising out of the multi-billion fraud in PNB at the beginning of year 2018. It will boost the general market sentiments and bond markets in particular. Moreover, slowing inflation, accelerating growth and an economy that relies on domestic consumption may help cushion India from the escalating trade war between the U.S. and China. The Reserve Bank has forecast the \$2.3 trillion Indian economy will expand 7.4 % in the financial year 2018-19.

- During the Financial Year 2017-18, India's economic performance was quite a subject of interest. While the first quarter of the year saw the impact of demonetisation settling down, in the next quarter, introduction of the landmark Goods and Services Tax (GST) brought in some uncertainties as businesses adjusted to the new regime. This did not take long, and from the third quarter onwards, signs of growth returning were evident.
- For the FY2018-19 as global economic activity continues to strengthen, global growth is forecast to grow by 3.9% during 2018 as per the International Monetary Fund's (IMF) January 2018 World Economic Outlook. The IMF expects India to grow at 7.4% during 2018 which could increase further to 7.8% during 2019 in contrast to 6.7% during 2017. The Economic Survey for 2017-18 pegs the figure at 7-7.5% for the financial year ahead.

- As per the second advance estimates of national income released by the Central Statistics Office in February 2018, real Gross Domestic Product (GDP) at constant prices is estimated to grow at 6.6% for 2017-18. The Indian economy achieved an impressive growth rate of 7.2%, a five-quarter high during the third quarter (Oct-Dec) of FY18 as opposed to 6.5% in the second quarter. However, in view of change in RBI's recent monetary policy, GDP in India is expected to grow at 7.5% to 7.6% in the first half and 7.3% to 7.4% in the second half of FY 2018-19.

J&K Economy Survey

The Gross State Domestic Product (GSDP) of J&K State at constant (2011-12) prices for the year 2017-18 is estimated at ₹ 109136.52 crore, as against the estimate of Rs 100597.57 crore for 2016- 17, indicating growth of 8.49 per cent during 2017-18. At current prices, GSDP for 2017-18 is estimated to be Rs 140886.76 crore as against the estimate of ₹ 126230.91 crore for 2016- 17, showing an increase of 11.61 per cent during the year. The projected estimates for the year 2018-19 at constant (2011-12) prices and current prices of GSDP is Rs 116637.44 crore and Rs 157383.77 crore.

The projected growth for the year 2018-19 is roughly estimated at 6.87%. The share of product taxes in total Gross State Value Added (GSVA) at basic price for the year 2016-17 and 2017-18 is 10.50% and 11.02% respectively. The share of product subsidies in total Gross State Value Added (GSVA) at basic price for the year 2016-17 and 2017-18 is 2.10% and 1.95% respectively.

The Central GST Act 2016 was passed by the Parliament in the present form and was notified by Government of India on 12th April 2017 which was applicable to whole of India except state of Jammu and Kashmir, as the powers to tax in J&K State are enshrined under Section 5 of J&K state constitution. Presidential orders were passed on 08-07-2017 where under CGST and IGST were made applicable to J&K State w.e.f. 08-07-2017. With the implementation of GST, Banking industry was faced with both challenges as well as opportunities. The challenge of compliance with the painstaking one-time process of registrations, training of human resources & increased rates for availing banking services and the opportunity to augment the loan portfolio and indirect collection of taxes on behalf of customers.

Total expenditure for 2018-19 is estimated to be Rs 80,313 crore, a 15.2% increase over the revised estimates of 2017-18. In 2017-18, there was a decrease of Rs 9,744 crore (12.3%) of expenditure in the revised estimates over the budget estimates. Total receipts (excluding borrowings) for 2018-19 are estimated to be Rs 71,180 crore, an increase of 14.4% as compared to the revised estimates of 2017-18. In 2017-18, total receipts fell short of the budgeted estimate by Rs 3,553 crore. Revenue surplus for the next financial year is targeted at

Rs 13,084 crore, or 8.3% of the state Gross Domestic Product (GDP). Fiscal deficit is targeted at Rs 9,673 crore (6.1% of state GDP). Primary deficit is targeted at Rs 4,948 crore (3.1% of state GDP). The departments of Power, Home, Education, Health and Medical Education saw the highest increase in allocations creating another opportunity for Banks.

Banking system overall in the state has exhibited remarkable operational as well as institutional growth over last two decades. The institutional structure of banking system in J&K consists of multiple market players viz. Commercial Banks, Regional Rural Banks and Co-operative Banks. The settlement of large amounts of pending NPA accounts is more likely now and the amount of NPAs is also expected to improve during the current financial year.

J&K Bank - Performance and Prospects

The Jammu and Kashmir Bank posted an operating profit of ₹1381.87 Cr for FY 2017-18. The bank ended the year with a net profit of ₹ 202.72 Cr. Net NPA ratio of the bank stood at 4.90 pc as against 4.87 pc a year ago. Net Interest Margin improved to 3.65 pc from 3.38 pc reported in last FY ended March 31, 2017. The total business of the bank reached Rs 1.37 lakh Cr registering an increase of ₹14640 Cr over the business a year ago. In line with the Bank's focus about consolidation and strengthening of the Bank's Balance Sheet, the emphasis during the last financial year was on arresting the slippage of advances, recovery of NPAs and consolidating the NPA coverage ratio. The NPA problem in J&K Bank is being contained now and the situation is coming under control.

The strategy of instilling transparency and faith in the system adopted by the new regime continued in the current year. Given the deployment of funds towards provisions in FY 2017-18, the requirement of provisions for incremental NPAs recognized during the year would be substantially less than what the Bank actually provided for during the year. The Provision Coverage Ratio of the Bank has been maintained at 65.83 pc from 66.88 pc as on March 31, 2017. The Standard Loan Book and Investment Book of the Bank now is mostly high rated and the woes of asset quality issues in this portfolio are assumed to be passé. The Bank recorded deposit growth of 10% and gross advances growth of 10% during the year.

Continuing with proper liability management and management's decision of non-rollover of high-cost bulk deposits kept the CASA ratio of the Bank at 50.89 pc as on March 2018 from 51.70 pc a year ago. The Bank is operating with a better than industry-average NIM of 3.65 pc which is bound to improve further going forward. A YoY credit growth of 14.25 pc is indicative of growth momentum setting in. Efforts of Impaired Assets Portfolio Management vertical too has brought about a substantial improvement in reduction/recovery of bad loans to the tune of ₹ 3098 Cr during FY 2018. Bank's superior franchise in its home state as evidenced by its dominant market share of over 60 pc in loans and deposits continues and is expected to be reinforced further with adoption of a plan based strategy of outgrowing the market. The state contributes more than half of the loan portfolio, 86 pc of overall deposits and 93 pc of CASA deposits of the Bank.

The State government being the promoter and major stake holder is committed to support the envisaged business growth of the Bank by augmenting the capital base of the Bank. Jammu and Kashmir Government infused capital of ₹ 532 Cr in the FY 2016-17 and 2017-18, which further strengthened the capital position of the Bank. Prior to capital infusion, Government had a share holding of 53.17% in the Bank and post infusion, share holding of Government has gone to 59.23%. Board/Shareholders have already conveyed their approvals for raising proportionate amount of capital from public/institutions through QIP route. In addition, Board has already approved raising of Basel III compliant ATI capital of ₹ 1000 Cr and Basel III compliant Tier II capital of ₹ 1000 Cr in FY 2018-19. The capital augmentation through such infusion and envisaged retained earnings over the ensuing periods shall help in complying with the regulatory capital adequacy requirement and support envisioned credit growth.

The Bank has roped in professional consultants for drawing a medium-term business plan with strategy for achieving the targeted goals, suggesting re-engineering of business processes focusing on improving efficiency and cutting wastages, ensuring high level of regulatory compliances and realigning HR policies to support the business plan achievement. All these initiatives are expected to yield rich dividends and fructify into financial performance worth showcasing.

Credit Risk Management

The credit risk management policy provides framework for credit risk management system in the Bank and embodies in itself the areas of risk identification, risk measurement, risk grading techniques adopted by the Bank, documentation practice and the system adopted for management of problem loans. The credit risk policy deals with short term implementation as well as long term approach to credit risk management to achieve desired business goals. Segment-wise and borrower category-wise exposure limits are fixed and monitored by the bank to address the risk of concentration.

The Bank's credit risk management structure with Integrated Risk Management Committee (IRMC) of Board at the apex

level and Credit Risk Management Committee (CRMC) at the executive level is responsible for overall credit risk management in the Bank. The committees periodically review the credit risk profile, evaluate the overall risk faced by the Bank and develop policies and strategies for identifying and managing credit risk at individual exposure level as well as portfolio level in sync with the bank's credit risk policy designed in accordance with regulatory guidelines.

To measure credit risk in Bank's credit portfolio, Bank has put in place an internal credit rating system that forms core of the credit risk management process and serves as an indicator of diverse risk factors of counterparty and also for taking credit decisions in a consistent manner.

Pillar II Risks

The Bank has a comprehensive Internal Capital Adequacy Assessment Process (ICAAP). Under ICAAP bank assess capital position vis-a-vis identified risks and also the future capital requirement of the Bank. ICAAP is to ensure that a bank is aware of its risk profile and has systems in place to assess, quantify and monitor risks. One of the objectives is to determine the economic capital required to cover all risks faced. While Regulatory Capital is the capital that the regulator requires a bank to maintain, Economic Capital is the capital that a bank needs to maintain and is, in general, estimated using internal assessment of all the risks including residual risks. The ICAAP document addresses the following issues:

Identification and assessment of all types of material risks, capital requirement thereof and capital position under stress scenarios.

Capital Planning and Management considering the various risks faced by the Bank and capital requirement as per the growth strategies formulated by the Bank.

The Bank has a well-defined stress testing policy in place to measure impact of adverse stress scenarios on the adequacy of capital. Periodic stress testing is undertaken on various portfolios to gauge the impact of stress situations on the health of portfolio, profitability and capital adequacy. The stress scenarios are idiosyncratic, market wide and a combination of both. Stress testing enables a Bank in forward looking assessment of risks, which overcomes the limitations of statistical risk measures or models based mainly on historical data and assumptions. It also facilitates internal and external communication and helps senior management understand the condition of the Bank in the stressed time. Stress testing forms an integral part of the Internal Capital Adequacy Assessment Process (ICAAP), which requires banks to undertake rigorous, forward-looking stress testing that identifies severe events or changes in market conditions that could adversely impact the Bank.

The details of village allocation and other FIP related information is mentioned hereunder:

- SLBC has allocated to J&K Bank 536 above 2000 population villages and 3271 below 2000 population villages for providing ICT based financial services by the end of March 2016. Bank has already brought the 536 villages (>2000 Population) under the ambit of financial inclusion by opening of Business units and providing BC coverage in all the villages.
- Bank has provided the BC coverage to all the 3271 villages at the end of August 2015 for extending ICT based financial services in the identified unbanked villages.
- Bank has also identified 334 unbanked villages under self-set target and rolled out to BCs under financial inclusion.
- Out of 334 Villages, 9 Villages were repeated in 3271 below 2000 population villages and hence discarded from Bank's self-set target villages. Therefore, the total number of villages rolled out under financial inclusion plan 2013-2016 stands at 4132.
- In addition to 4132 villages, J&K SLBC allocated 1332 new villages/wards to our Bank under PMJDY in two phases which were covered during the three-year period of 2013-16. Also 4 villages outside the state of J&K were allocated by the RBI. Therefore, a net total of 5468 unbanked

villages/wards were covered in the three-year period of 2013-16 under the Financial Inclusion Plan of the Bank including 4 villages outside the State of J&K allocated by the RBI.

- After the introduction of PMJDY, the Department of Financial Services introduced the concept of Sub Service Areas (SSAs). Under SSA, all the 6 Lakh villages across India have been mapped according to the service area of each bank branch in order to have at least one fixed point banking outlet catering to 1000 to 1500 households called as SSA.
- Each SSA needs to be catered by either a BC or by a Business Unit (Bank Branch), depending upon the volume of business and transactions at the location.
- Simultaneously, after the launch of PMJDY, 1173 Sub Service Areas (SSAs) and 754 Urban Wards carved out of the 5468 villages/wards, were also allocated to the Bank for carrying out exhaustive survey of all households with the target to open at least one account per household. PMJDY focuses on coverage of households against the earlier plans which focused on coverage of villages. The survey and collection of the account-opening forms was successfully completed.

Annexure-B to Independent Auditor's report of even date on the standalone financial statements of Jammu and Kashmir Bank Limited.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

1. We have audited the internal financial controls over financial reporting of **Jammu and Kashmir Bank Limited** ('the Bank') as at 31st March, 2018 in conjunction with our audit of the standalone financial statements of the Bank for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Bank's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the "Assessment of Adequacy of Internal Financial Controls Over Financial Reporting" in line with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') and the Standards on Auditing ('the Standards'), issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of

internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A Bank's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Bank's internal financial control over financial reporting includes those policies and procedures that:
 - (a) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Bank;
 - (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Bank are being made only in accordance with authorizations of management and directors of the bank; and
 - (c) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Bank's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Bank has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial

reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

14.3 Disclosures on Risk exposures in derivatives

a) Qualitative Disclosures

The only derivatives traded by the Bank in the foreign exchange market are forward contracts. Forward contracts are being used to hedge /cover the exposure in foreign exchange arising out of Merchant transactions and trading positions.

To cover the risks arising out of above derivatives, various limits like AGL, IGL and stop loss have been prescribed in the trading policy of the bank which are monitored through VaR.

Outstanding forward exchange contracts held for trading are revalued at the exchange rates for appropriate maturity rates as announced by FEDAI at the year-end exchange rates and the resultant gain/ loss is taken to revenue.

Comments of C&AG

Comments under section 143(6) of Companies Act, 2013 on the accounts of the Jammu & Kashmir Bank Ltd., for the year ended 31st March, 2018 were not received upto the date and could not be circulated. Comments of the C&AG of India on the Financial Statements of the Bank for the year ended 31st March, 2018.

The Bank on 6th July, 2018 received the following general comments of the C&AG on the accounts of the Bank for the FY 2017-18 which were placed before the Board of Directors of the Bank and clarified as under:

Comments of C&AG of India

Provisions of section 134(1) of the companies Act, 2013 regarding approval of the Financial Statements by the Board of Directors were not complied with, to the extent that audited financial statements were placed before the Board and approved.

The Bank has not been forwarding its annual report on its working and affairs to the state government to enable its placement in the state legislature, as required under provisions of section 395 of the Companies Act, 2013.

Board Response

The comments of the C&AG of India relating to approval to the Annual financial statements by the Board though followed by the Bank shall be recorded properly in future.

Pursuant to section 395 of the Companies Act, 2013, where the state government is a member of a Govt. Company, that state Government shall cause an annual report on the working and affairs of the company to be placed before both the Houses of the State Legislature alongwith Audit Report and Comments of CAG thereon. It is clear from the above that the responsibility to place the annual report on the working and affairs of a Government Company has been casted on the concerned state Government being a member in the Government Company and not on the company itself.

The above comments of the C&AG have no impact on the financials of the Bank and a suitable replay will be forwarded to C&AG to close the observation at their end.

"Annexure-B" to the Independent Auditors Report of even date on the Consolidated Financial Statements of the Jammu & Kashmir Bank Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

1. In conjunction with our audit of consolidated financial statements of the company as of and for the year ended 31st March 2018, we have audited the internal financial controls over financial reporting of Jammu and Kashmir Bank Limited ('hereinafter referred to as "the Holding Company"') and its Subsidiary Company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its Subsidiary Company, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the "Assessment of Adequacy of Internal Financial Controls Over Financial Reporting" in line with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Bank's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditor's Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') and the Standards on Auditing ('the Standards'), issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over

financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:
 - (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
 - (b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
 - (c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Holding Company and its Subsidiary Company, which are Companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matters

9. Our aforesaid reports u/s.143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relate to one subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company.

Structure and Organisation of Risk Management Function

The Bank's risk governance architecture focuses on key risk areas of credit, market (including liquidity) and operational risk. The quantification of these risks, wherever possible, ensures effective and continuous monitoring and control. The risk management system is overseen by Board of Directors of the bank, with Integrated Risk Management Committee (IRMC), a board level sub-committee entrusted with the overall responsibility of ensuring that adequate structures, policies and procedures are in place for risk management in the Bank. The IRMC of Board is supported by separate Executive level Committees viz, Credit Risk Management Committee (CRMC), Asset-Liability Management Committee (ALCO), Market Risk Management Committee and Operational Risk Management Committee (ORMC) to ensure effective management of credit, market and operational risks respectively. The executive level committees are in turn assisted / supported by respective risk management support groups for credit, operational, market and liquidity risks. These support groups provide support functions to the above committees through analysis of risks and reporting of risk positions and making recommendations as to the level and degree of risks to be undertaken.

Credit Monitoring Division (CMD) has been set up for ongoing monitoring of credit quality of borrowers. Department besides online monitoring of special mention accounts and limit monitoring releases caution list of borrows at regular intervals based on the Early Warning Signal framework of the RBI.

In terms of enhanced operational risk management framework Bank has formed Zonal Risk Management Committees (ZRMC) which meets necessarily at least once in a quarter to discuss all the issues related to operational/Credit risk management and implementation of enhanced risk management framework at the gross root level. Zonal Head, designated Zonal Risk managers and identified business unit heads and members from IRMD CHQ participate in the meeting.

Credit Risk

1. Qualitative Disclosures:

1.1 For portfolio under the standardized approach:	
Names of credit rating agencies used, plus reasons for any changes.	The Bank's exposure being mainly domestic, rating agencies like CARE, CRISIL, ICRA, India Ratings, Brickwork Ratings ,SMERA and Infomerics have been identified for rating of exposure as per RBI guidelines. Designated rating agencies are used irrespective of types of corporate exposures.
Type of exposure for which each agency is used.	For exposures with a contractual maturity of less than or equal to one year (except cash credit, overdraft and other revolving credits), short-term ratings given by approved rating agencies are used. For cash credit, sanctioned overdrafts and other revolving credits (irrespective of the period) and for term loan exposures of over one year, long term ratings are used.
A description of the process used to transfer public issues rating onto comparable assets in the banking book.	- Public issue ratings are used for comparable assets of borrower in the banking book as follows: - i) In cases where the borrower has a specific assessment for an issued debt - but the bank's claim is not an investment in this particular debt - the rating applicable to the specific debt (where the rating maps into a risk weight lower than that which applies to an unrated claim) is applied to the bank's unassessed claim if the Bank's exposure ranks pari passu or senior to the specific rated debt in all respects and the maturity of the unrated Bank's claim is not later than the maturity of the rated claim. ii) If either the issuer or single issue has been assigned a low quality assessment which maps into a risk weight equal to or higher than that which applies to unrated claims, an unassessed claim on the same counterparty that ranks pari-passu or is subordinated to the rated exposure is assigned the same risk weight as is applicable to the low quality assessment.

Table- DF -5: Credit risk mitigation:

1. Qualitative disclosure

1.1 The general qualitative disclosure requirements with respect to credit risk mitigation

A Credit Mitigation and Collateral Management Policy, addressing the Bank's approach towards the credit risk mitigants is used for capital calculation. The Bank reduces its exposure to counterparty with the value of eligible financial collateral to take account of risk mitigating effect of the collateral.

1.2 Policies and processes for, and an indication of the extent to which the bank makes use of on and off balance sheet netting

Bank has put in place Board approved policy on Credit Risk Mitigation and Collateral Management, covering credit risk mitigation techniques used by the Bank for both risk management and capital computation purposes. The Bank has a separate collaterals valuation policy that forms the basis for valuation of collaterals.

1.3 Policies and processes for collateral valuation and management

The policy adopts the Comprehensive Approach, which allows full offset of collateral (after appropriate haircuts) against exposures, by effectively reducing the exposure amount by the value ascribed to the collateral. The following issues are addressed in the policy:

- Classification of credit risk mitigants
- Acceptable credit risk mitigants

- c) Documentation and legal process requirements for credit risk mitigants.
- d) Valuation of collateral
- e) Custody of collateral
- f) Insurance
- g) Monitoring of credit risk mitigants

1.4 The description of the main type of collaterals taken by the bank

The main type of collaterals taken by the bank are Cash or cash equivalent, Bank deposits, NSCs, KVIP's, LIC policy, Central / State government Securities etc.

1.5 The main type of guarantor counterparties and their creditworthiness

Bank considers guarantees, which are direct, explicit, irrevocable and unconditional for credit risk mitigation. Use of such guarantees for capital computation is as per RBI guidelines.

Types of guarantor counter party are:

- a. Sovereigns (Central / State Governments)
- b. Sovereign entities like ECGC, CGTSI
- c. Banks and Primary Dealers with a lower risk weight than the counter party
- d. Other entities that are externally rated. This would include guarantee cover provided by parent, subsidiary and affiliate companies when they have lower risk weight than the obligor.

1.6 Information about (market or credit) risk concentration within the mitigation taken

Majority of financial collaterals held by the Bank are by way of bank's own deposits, government securities, life insurance policies and other approved securities like NSCs, KVPs etc. Bank does not envisage market liquidity risk in respect of financial collaterals. Overall, financial collaterals do not have any issue in realization. Concentration on account of collateral is relevant in case of land & building. Except in the case of housing loan to individuals, land and building is considered only as additional security. As land and building is not recognized as eligible collateral under Basel III Standardized Approach, its value is not reduced from the amount of exposure in the process of computation of capital charge, and is used only in the case of housing loan to individuals and non-performing assets to determine the appropriate risk weight. As such, there is no concentration risk on account of nature of collaterals.

Table DF - 9 : Interest rate risk in the banking book (IRRBB)

1. **Qualitative Disclosures:**
 - 1.1 **The general qualitative disclosure requirements, including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of IRRBB measurement.**

Interest Rate Risk in Banking Book (IRRBB) is the risk which impacts assets and liabilities of Bank's non-trading (core) exposures which are contracted for steady income and statutory obligations and are generally held till maturity. Interest rate

risk is measured as the potential volatility in the Bank's core net interest income caused by changes in market interest rates. Difference in pricing parameters of these Assets and Liabilities which may be due to different tenor, asset type, liability type or other parameters exposes the Bank to possible loss.

Bank utilizes the following methods to measure, monitor and control the adverse impact of interest rates on the Bank's financial condition within tolerable limits. This impact is calculated from following perspectives.

Earnings perspective: Indicates the impact on Bank's Net Interest Income (NII) in the short term.

Economic perspective: Indicates the impact on the net-worth of bank due to re-pricing of assets, liabilities and off-balance sheet items.

Measurement and computation of interest rate risk in Banking Book under the above two methods is done on a monthly basis.

2. Quantitative Disclosures

2.1	The increase (decline) in earning and economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method of measuring IRRBB, broken down by currency (where the turnover is more than 5 percent turnover). LEVERAGE RATIO

Leverage ratio is a non-risk based measure of exposure over capital. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. The Basel III leverage ratio is defined as the ratio of capital measure (the numerator) to exposure measure (the denominator), expressed as a percentage.

The capital measure used for the leverage ratio at any particular point in time is the Tier 1 capital measure applying at that time under the risk-based framework. Total exposure measure is the sum of the on-balance sheet exposures, derivative exposures, securities financing transaction (SFT) exposures and off- balance sheet (OBS) items.

Leverage ratio = Capital Measure (Tier 1 Capital)

Report on Corporate Governance 2017-18

J&K Bank has been committed to all the basic tenets of good Corporate Governance well before the Securities and Exchange Board of India and the Stock Exchanges pursuant to Regulation 27(2) (a) of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 mandated these. It is our endeavor to go beyond the letter of Corporate Governance codes and apply it innovatively in a more meaningful manner, thereby making it relevant to the organization that is operating in a specific environment.

In line with its vision, The Bank wants to use Corporate Governance innovatively in a transitional economy like Jammu and Kashmir. The Bank wants to use Corporate Governance as an instrument of economic and social transformation. Given the fact that J&K Bank is seen as a great success of “public-private partnership”, our Bank as a business is expected to play a pivotal role in social transformation of the economy. This lends urgency to implementation of good governance practices which go beyond the Corporate Governance code.

We, as the prime corporation of Jammu and Kashmir, have a focused interest in making the state a safe place for business. Bank has a key role to play in providing public and private services, financial infrastructure and employment. As such, the efficiency and accountability of the corporation is a matter of both private and public interest and governance, therefore, comes at the top of the agenda. Dematerialisation of Shares and Depository Services

Dematerialisation is a process, which entails the conversion of physical securities into electronic form. The securities in physical form are shredded and corresponding entry is done in the Investors Electronic Account. The electronic balances are maintained on highly secure systems at the depository. Depository services are an extension of custodial services. Prior to the introduction of depository system, the custodians used to act as the organisation for safekeeping, register, guarding, care watch, inspection and prevention of securities. But the advent of depository system has brought with itself the advantages of electronics and benefits of the custodial services at the doorsteps of investors. The depository allows the shares to be held in electronic form in the same way as money is held in Bank accounts.

A Depository offers following advantages to the Investor:

- Your shares cannot be lost or stolen or mutilated;
- You never need to doubt the genuineness of your shares i.e. whether they are forged or fake;
- Share transactions like transfer, transmission, etc., can be effected immediately;
- Transaction costs are usually lower than on the physical segment;
- There is no risk of bad delivery;
- Bonus/ rights shares allotted to you will be immediately credited to your account; and
- You will receive the statement of accounts of your transactions/ holdings periodically. According to Depository Act, 1996, investors have the option to hold shares in physical form or in electronic form. However, pursuant to directive issued by the Securities & Exchange Board of India (SEBI) shares of your Bank have been notified in the list of securities, where transactions will take place only in electronic mode for all Investors. Shareholders are thus advised to open a Demat Account with depository participant and dematerialise their securities.
