CHAIRMAN'S MESSAGE TO STAKEHOLDERS

Dear Shareholders,

It is my great privilege to present this 15th Integrated Annual Report of your Company for the financial year 2024-25.

As reflected in financial year 2024- 25, on all parameters, your company has done extremely well and achieved many new highs and records. Escalating geo-political tensions, volatile commodity prices, inflationary pressures and high interest rates marked the operating environment during the year 2024-25.

India is projected to remain the fastest-growing large economy for FY 2025-26 and FY 2026-27, reaffirming its dominance in the global economic landscape. The country's economy is expected to expand by 6.2 per cent in 2025 and 6.3 per cent in 2026. We strongly believe that the volume in all product categories will grow in coming years.

Your Company is committed to further strengthening its growth trajectory and market leadership through several strategic initiatives. Due to prompt strategic move, your Company has recorded total Standalone Revenue of Rs. 2113 crore from the operations during the FY. 2024-25 as compared to Rs. 1680 Crore in FY 2023-24 which shows sharp increase of 26% YoY. The Net Profit stood at Rs. 21.74 Crore for FY 2024-25 as

Mangalam Global Enterprise Limited

compared to Rs. 18.90. Crore in FY 2023-24, an increase of 15% YoY. These results are a testament to our operational strength, agile execution, and relentless focus on value creation. The Company constantly strives for product innovations to elevate customer experience and promote customer delight.

During the year our Company's Equity Shares were successfully listed on the main board of Bombay Stock Exchange Limited (BSE). Now the Equity shares of the Company are listed on National Stock Exchange of India (NSE) as well as Bombay Stock Exchange Limited (BSE). Further, to increase the liquidity in Equity Shares of the Company, the face value of Equity Share of ₹ 2/- (Rupees Two only) each was split into 2 Equity Share of face value of ₹ 1 (Rupee One only) each.

Your Company has taken a bold and strategic leap by entering the high-growth Business-to-Consumer (B2C) segment with the launch of our new wellness brand — Neat Everyday. This move marks a decisive shift in our long-term growth strategy, aimed at tapping into the rapidly expanding global demand for natural health wellness & personal care products.

With Neat Everyday, we are bringing to market a dynamic portfolio of 100% vegetarian nutraceutical and personal care products, made from natural ingredients and grounded in Ayurvedic principles backed by scientific validation. The products are available in various category such as Cold-Pressed Oils like Castor Oil, Yellow Mustard Oil, Extra Virgin Coconut Oil, Black Sesame Oil, Pistachio Oil, Almond Oil, Walnut Oil that cater to both nutritional and personal care uses of consumers. Company has also introduced Softgel Capsules like Vegan Omega 3 6 9 Capsules, Evening Primrose Oil Soft Vegan Capsules, Castor Oil Soft Vegan Capsules, Garlic Oil Soft Vegan Capsules & Immunity Booster Soft Vegan Capsule targeting everyday health and wellness needs.

We are pleased to inform that Company is planning to launch products like Pushkar Rose Water and Aloe Vera Gel which will further expand our footprint into the natural skincare and beauty segment.

To rapidly scale, we are adopting an omnichannel strategy — selling through leading online marketplaces, our own digital platform www.neateveryday.com, and select offline retail outlets. In addition to this we have launched our product on various e-commerce websites such as Amazon, Flipkart, Meesho, JioMart, Blinkit. Simultaneously, we are actively pursuing export opportunities in high-potential international markets, positioning Neat Everyday as a globally relevant wellness brand.

We believe this segment will increase our revenue & also unlock significant value by connecting directly with end consumers. This is just the beginning with strong brand fundamentals and a clear vision to capture a meaningful share in the booming global nutraceutical wellness & personal care market.”

I am confident that these initiatives will position your Company for continued success in the coming years. I would like to thank all the team members for their continuing interest, commitment and support towards the Company. In closing statement, I express my sincere appreciation to all colleagues, customers, investors, bankers, business partners & stakeholders. Looking ahead, we remain committed to sustainable growth, maximising our business potential, and create enduring value for all.

Thanking You,

With Best Regards,

Vipin Prakash Mangal

6. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Companies Act, 2013.
7. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and the relevant Circulars issued by the Ministry of Corporate Affairs, the Company is providing facility of remote e-Voting to its Members in respect of the business to be transacted at the AGM. For this purpose, the Company has made necessary arrangement with MUFG Intime India Private Limited (Formerly known as Link Intime India Private Limited) (RTA) for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-Voting system as well as voting on the day of AGM will be provided by MUFG Intime India Private Limited.
8. In line with the MCA Circular and SEBI Circular, the Notice for calling the AGM has been uploaded on the website of the Company at **www.groupmangalam.com**. The Notice can also be accessed from the website of the Stock Exchanges i.e. National Stock Exchange of India Limited at **www.nseindia.com** & **Bombay Stock Exchange Ltd.** at **www.bseindia.com** and the AGM Notice is also available on the website of MUFG Intime India Private Limited (agency for providing the remote e-voting facility) i.e. **www.in.mpms.mufg.com**.
9. AGM is to be convened through VC/ OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular and SEBI Circular.
10. There being no physical shareholders in the Company, the Register of members and share transfer books of the Company will not be closed. Members whose names are recorded in the Register of Members or in the Register of Beneficial Owners

maintained by the Depositories as on the Cut-off date i.e. Thursday, July 24, 2025, shall be entitled to avail the facility of remote e-voting as well as e-voting system on the date of the AGM. Any recipient of the Notice, who has no voting rights as on the Cut-off date, shall treat this Notice as intimation only.

11. In case of joint holders attending the AGM through VC/OAVM, only such joint holders who are higher in the order of their names as per the Register of Members of the Company, as of the cut-off date i.e., **Thursday, July 24, 2025**, will be entitled to vote at the Meeting.
12. In accordance with, the MCA Circular and SEBI Circular, physical copies of the financial statements (including Report of Board of Directors, Auditor's report or other documents required to be attached therewith), such statements including the Notice of AGM are being sent in electronic mode to Members whose e-mail address is registered with the Company or the Depository Participant(s).
13. Members holding shares in dematerialised mode are requested to register/update their e-mail addresses with the relevant Depository Participants. In case of any queries/difficulties in registering the e-mail address, Members may write to **rnt.helpdesk@in.mpms.mufg.com**.
14. The Company has appointed SCS AND CO. LLP (Firm Registration Number: - L2020GJ008700), to act as the Scrutinizer for conducting the remote e-voting process as well as the e-voting system on the date of the AGM, in a fair and transparent manner.
15. The members who have cast their vote by remote e-voting prior to AGM may also attend the AGM but shall not be entitled to cast their vote again.
16. SEBI has mandated the submission of PAN, KYC details and nomination by holders of physical securities and linking PAN with Aadhaar. Shareholders are requested to submit their PAN, KYC and nomination details to the Company's RTA, MUFG Intime India Private Limited, at its Branch/ Correspondence Address 506 to 508, Amarnath Business Centre- 1 (ABC-1), beside Gala Business Centre, Nr. St. Xavier's College Corner, Off Chimanlal Girdharlal Road, Ellisbridge, Ahmedabad- 380 006.
17. Members holding shares in electronic form are, therefore, requested to submit their PAN to their DP. In case a holder of physical securities fails to furnish PAN and KYC details or link their PAN with Aadhaar, in accordance with the SEBI circular dated March 16, 2023, RTA is obligated to freeze such folios. The securities in the frozen folios shall be eligible to receive payments (including dividend) and lodge grievances only after furnishing the complete documents. If the securities continue to remain frozen as on December 31, 2025, the RTA / the Company shall refer such securities to the administering authority under the Benami Transactions (Prohibitions) Act, 1988, and / or the Prevention of Money Laundering Act, 2002.
18. As per Section 72 of the Act, the facility for submitting nomination is available for members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form SH-13. Members are requested to submit these details to their DP in case the shares are held by them in electronic form, and to the RTA, in case the shares are held in physical form.
19. SEBI vide Circular Nos. SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/131 dated July 31, 2023, and SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/135 dated August 04, 2023, read with Master Circular No. SEBI/HO/OIAE/OIAE_IAD-1/P/ CIR/2023/145 dated July 31, 2023 SEBI/HO/OIAE/OIAE-IAD-3/P/CIR/2023/195 (updated as on December 28, 2023), has established a common Online Dispute Resolution Portal ("ODR Portal") for resolution of disputes arising in the Indian Securities Market. Pursuant to above-mentioned circulars, post exhausting the option to resolve their grievances with the RTA/ Company directly and through existing SCORES platform, the investors can initiate dispute resolution through the ODR Portal (<https://smartodr.in/login>) and the same can also be accessed through the Company's website <https://groupmangalam.com/smartodrportal/>
20. Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxy(ies) by the Members will not be available for the AGM and hence the Proxy Form, Attendance Slip and route map of AGM are not annexed to this Notice
21. Members who wish to raise query at the AGM may register themselves as 'Speaker' by sending request to the said effect from their registered e-mail address, to e-mail ID: **cs@groupmangalam.com** quoting their name, DP Id. and Client Id./Folio number, on or before Thursday, July 24, 2025.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and accordingly, investment decisions should not be based on such information.

❖ ECONOMIC OUTLOOK

• Global Economic Outlook

As per the International Monetary Fund ("IMF") World Economic Outlook growth projections released in April 2025, the global economic growth for 2025 projected to grow at 2.8%, down from 3.1% in 2024 due to series of new tariff measures by the United States and countermeasures by its trading partners. The unpredictability with which these measures have been unfolding also has a negative impact on economic activity and the outlook and, at the same time, makes it more difficult than usual to make assumptions that would constitute a basis for an internally consistent and timely set of projections.

The swift escalation of trade tensions and extremely high levels of policy uncertainty are expected to have a significant impact on global economic activity. Under the reference forecast that incorporates information as of April 4, global growth is projected to drop to 2.8 percent in 2025 and 3 percent in 2026—down from 3.3 percent for both years in the January 2025 WEO Update, corresponding to a cumulative downgrade of 0.8 percentage point, and much below the historical (2000–19) average of 3.7 percent. In emerging market and developing economies, growth is expected to slow down to 3.7 percent in 2025 and 3.9 percent in 2026, with significant downgrades for countries affected most by recent trade measures.

❖ INDIAN ECONOMIC OUTLOOK

• GDP growth and Outlook:

India is projected to remain the fastest-growing large economy for 2025 and 2026, reaffirming its dominance in the global economic landscape. The country's economy is expected to expand by 6.2 per cent in 2025 and 6.3 per cent in 2026,

outpacing many of its global counterparts. In contrast, the IMF projects global economic growth to be much lower, at 2.8 per cent in 2025 and 3.0 per cent in 2026, highlighting India's exceptional outperformance.

The IMF has also revised its growth estimates for other major global economies. China's GDP growth forecast for 2025 has been downgraded to 4.0 per cent, down from 4.6 per cent in the January 2025 edition of the World Economic Outlook. Similarly, the United States is expected to see a slowdown, with its growth revised downward by 90 basis points to 1.8 per cent. Despite these revisions, India's robust growth trajectory continues to set it apart on the global stage.

Source: IMF World Economic Outlook, April 2025

**GDP growth rates for India are on a fiscal year (FY) basis, 2025 refers to 2025/26*

India's economic outlook for 2025 and 2026 remains one of the brightest among major global economies, as highlighted by the IMF. Despite global uncertainties and downward revisions in growth forecasts for other large economies, India is set to maintain its leadership in global economic growth. Supported by strong fundamentals and strategic government initiatives, the country is well-positioned to navigate the challenges ahead. With reforms in infrastructure, innovation, and financial inclusion, India continues to enhance its role as a key driver of global economic activity. The IMF's projections reaffirm India's resilience, further solidifying its importance in shaping the global economic future.

RBI's GDP Growth Outlook (Year-on-year, in percentage)

The Reserve Bank of India has projected real GDP growth at 6.5 per cent for 2025–26, maintaining the same rate as estimated for 2024–25, following a strong expansion of 9.2 per cent in the preceding year. The quarterly projections stand at 6.5 per cent in Q1, 6.7 per cent in Q2, 6.6 per cent in Q3, and 6.3 per cent in Q4. This marks a downward revision of 20 basis points from the February estimate, reflecting heightened global volatility. Agriculture remains on a positive footing, supported by healthy reservoir levels and robust crop production, which is expected to sustain rural demand. Manufacturing is showing early signs of revival amid improved business sentiment, and the services sector continues to demonstrate resilience.

On the investment side, activity is gaining pace on the back of higher capacity utilisation, continued government focus on infrastructure, and strong balance sheets of banks and corporates. Easing financial conditions have also aided this recovery. While services exports are likely to remain steady, merchandise exports could face headwinds from global uncertainties and trade disruptions. Looking ahead, the RBI has projected real GDP growth at 6.7 per cent for 2026–27, suggesting continued recovery momentum.

Headline inflation eased during January and February 2025, driven by a sharp decline in food prices. With uncertainties around the rabi crop largely resolved, and second advance estimates indicating record wheat output and higher pulse production than last year, food inflation is expected to soften further. This favourable trend is supported by robust kharif arrivals and a sharp fall in inflation expectations over the next three and twelve months, as reflected in recent surveys. The decline in crude oil prices has further strengthened the disinflationary outlook. Accordingly, Consumer Price Index (CPI) inflation for 2025–26 is projected at 4.0 per cent, with quarterly estimates at 3.6 per cent in Q1, 3.9 per cent in Q2, 3.8 per cent in Q3, and 4.4 per cent in Q4.

While the inflation outlook appears stable, global uncertainties and the possibility of weather-related supply shocks continue to pose upside risks to the inflation path. The Reserve Bank of India has assumed a normal monsoon in framing its projections, and it considers the risks to be evenly balanced at this stage.

❖ **INDUSTRY OVERVIEW OF THE PRODUCTS, WE DEAL IN:**

▶ **CASTOR OIL:**

Castor is one of the oldest cultivated crops; however, it contributes to only 0.15% of the vegetable oil produced in the world. Castor oil is widely used in the manufacture of various products, including soaps, cosmetics, lubricants, and biofuels. Castor oil is widely used in commercial segments, including the manufacturing of paints, cosmetics, resins, fluids and lubricating greases, among others. Castor oil & its derivatives have the ability to replace synthetic feedstock with bio-based products.

The oil which is extracted from the different plant and castor seeds identify as the castor oil. Castor oil is colorless to pale yellow liquid with mild or no taste. Castor oil is used in various industries includes Biopolymers, Personal care, Food, Lubricants, Plastic & Rubber, Paper, pharmaceuticals, paint, inks, and additives. Owing to the various usages of castor oil in different industries and pharmaceutical applications, the market demand for this unique chemical structure is escalated in past few years. All chemical derivatives of castor oil provide numerous use in industrial applications, and their sustainability domains are increasing rapidly. Castor oil key derivatives comprise of hydrogenated, dehydrated, ethylated, sulfonated, heptaldehyde, sebacic acid, polyols, undecylenic acid, zinc ricinoleate, methyl ricinoleate, zinc undecylenate, calcium undecylenate, and commercial grade castor oil.

The global castor oil market size reached 103.1 Kilo Tons in 2024. Looking forward, IMARC Group expects the market to reach 109 Kilo Tons by 2033, exhibiting a growth rate (CAGR) of 1.1% during 2024-2032. The market is experiencing stable growth driven by growing demand for sustainable and natural products, expanding industrial applications, rising demand in the cosmetic and personal care industry, increasing health benefits and pharmaceutical applications, and biofuel production and renewable energy initiatives.

The versatility of castor oil is a key factor driving its market growth. It is not limited to a single industry but finds applications in diverse sectors. One of the significant drivers is its use in industrial applications, particularly as a feedstock for the production of high-performance chemicals and materials. Castor oil is a source of 12-hydroxystearic acid (12-HSA), which is a crucial raw material in the manufacturing of specialty chemicals, plastics, and polymers. These chemicals are used in various industries, including automotive, aviation, and electronics, where high-performance materials are essential. Additionally, the low pour point and viscosity of castor oil make it an ideal candidate for manufacturing bio-based lubricants. The lubricant industry has been transitioning toward sustainable alternatives to reduce environmental impact, and castor oil fits this requirement perfectly.

China plays a prominent role in the global castor oil market, both as a producer and consumer. The country has seen significant growth in castor oil production in recent years. Chinese castor oil producers have capitalized on the adaptability of the plant to various climatic conditions, leading to increased cultivation and higher yields. In addition to domestic consumption, China exports a substantial portion of its castor oil to international markets. Chinese castor oil is known for its competitive pricing, making it a preferred choice for industries looking for cost-effective alternatives.

India holds a dominant position in the global castor oil market, being the largest producer and exporter of castor seeds and castor oil. The tropical climate of the region is ideal for castor cultivation, and the rich agricultural heritage of India has contributed to the growth of this industry. Castor oil production in India is driven by domestic demand and also by exports to various international markets. In India, castor oil finds applications in a wide range of industries, including pharmaceuticals, cosmetics, lubricants, and biodiesel. Its use in traditional medicine further strengthens its presence in the domestic market. Indian castor oil is known for its high quality and purity, making it a preferred choice for industries demanding premium-grade castor oil.

Castor Oil Market Trends:

- Growing Demand for Sustainable and Natural Products
- Expanding Industrial Applications
- Rising Product Demand in the Cosmetic and Personal Care Industry
- Health Benefits and Pharmaceutical Applications
- Biofuel Production and Renewable Energy Initiatives

KEY MARKET DRIVERS AND CONSTRAINTS OF CASTOR:

Castor oil is becoming an essential bio-based raw material which makes it ideal for various industrial applications. As a result, its demand is rising as a potential alternative to petroleum-based chemicals.

On account of its distinctive chemical structure, castor oil acts as a major raw material which is used in the production of various end products such as biodiesel, polyurethane adhesives, machining oils, refrigeration lubricants, etc. This versatile nature of castor oil has been contributing towards the propelling growth of the market. As compared to other

vegetable oils, castor oil is a healthier and less expensive alternative. Owing to this, food grade castor oil has gained a momentum in the food industry in the form of flavourings, mould inhibitor, food additives and packaging.

The castor oil market is being hindered by the unstable prices of castor beans which is the result of their fluctuating supply. This supply highly depends upon the weather conditions of the region and a long harvesting process of castor beans.

► **COTTON:**

The Cotton Market size is estimated at USD 45.15 billion in 2025, and is expected to reach USD 51.58 billion by 2030, at a CAGR of 2.7% during the forecast period (2025-2030). Source: <https://www.mordorintelligence.com/industry-reports/cotton-market>. Cotton grows in nearly all tropical and subtropical regions worldwide and primarily supports the global textile mills and apparel manufacturing markets. The highly competitive prices of cotton fibers in the global market, coupled with the increasing export demand for cotton yarn and textile products, are expected to increase the global demand for cotton.

For instance, according to the Reserve Bank of India, in the fiscal year 2022, the value of cotton and cotton products exported from India was over INR 1140 billion (USD 13.94 billion). This increased by almost INR 586 billion (USD 5.1 billion) compared to the previous financial year, which accounted for INR 726 billion (USD 8.8 billion). Also, a greater crop yield in Brazil, Australia, and Pakistan is predicted to increase global cotton production and consumption during the forecast period.

The increasing applications and usage of cotton in various industries, including apparel manufacturing, home furnishings, and manufacturing of industrial products, are driving the market's growth. Medical gauze, cotton swabs and rounds, and traditional diapers are all made using cotton. In addition, cottonseed oil is derived from cotton plants and can be used for cooking, soap making, or cosmetics.

The United States plays a vital role in the global cotton market, acting as a key producer and exporter of fiber. The United States textile mills presently consume approximately 7.6 million bales of cotton annually. Eventually, about 57% of it is converted into apparel, more than a third into home furnishings, and the remainder into industrial products.

Source: <https://www.mordorintelligence.com/industry-reports/cotton-market>

Cotton is one of the most important fiber and cash crop of India and plays a dominant role in the industrial and agricultural economy of the country. It provides the basic raw material (cotton fibre) to cotton textile industry. Cotton comprises of 40% fibre and 60% seed by weight. Cotton in India provides direct livelihood to 6 million farmers and about 40 -50 million people are employed in cotton trade and its processing. Among all the countries in the world, India has the largest area i.e. 37% of the world's total area under cotton cultivation. Gujarat is the largest producer of cotton in India. In India, there are ten major cotton growing states which are divided into three zones, viz. north zone, central zone and south zone. North zone consists of Punjab, Haryana, and Rajasthan. Central zone includes Madhya Pradesh, Maharashtra and Gujarat. South zone comprises Andhra Pradesh, Telangana, Karnataka and Tamil Nadu.

KEY MARKET DRIVERS AND CONSTRAINTS OF COTTON:

The emerging textile markets worldwide rely on the cotton processing market for raw materials, which is driving the market, globally. The increasing awareness about the benefits associated with cotton will enhance the market's growth rate. The rising usage of cotton across the medical sector is the primary factor driving the growth of the market. Cotton can be an important food source for humans and animal. Cottonseed is obtained from cotton which is rich in oil and high protein and is also a common ingredient in various food items. The rising regulations regarding the use of pesticides on cotton have increased the sales and demands for the organic cotton which have boosted the growth of the market.

The lowered export rates of cotton across the globe, majorly U.S. is the major factor obstructing the growth of the market over the forecasted period. Further, the high costs of investments and manufacturing plants along with the equipment related to the infrastructures will act as market restraint and further challenge the market growth rate.

► **RICE:**

The Rice Market size is estimated to reach \$356 billion by 2030, growing at a CAGR of 2.6% during the forecast period 2023-2030. Rice is a staple food with around 800 million metric tons produced annually at the global level. There are different types of rice available, including brown rice, Indica rice, black rice, red rice, bomba rice, arborio rice, parboiled rice, sushi rice, glutinous rice and others. Indica rice includes basmati rice and jasmine rice. Currently, vegan diets are becoming increasingly recognized due to ethical reasons. The potential of rice to provide solutions for malnutrition and chronic ailments has been examined.

The rising intake of basmati rice owing to its superior taste and aroma is set to drive the Rice Market growth. Basmati rice is the most recognized speciality rice in the UK, contributing special flavor and delicacy to curries, pilafs and kedgerees. Almost three-quarters of the global basmati is made in India with the UK purchasing 3% of it. Improved production

capacities of rice in India and the provision of non-basmati rice from India to the Middle East and Africa are the major rice market trends. This represents the Rice Industry Outlook.

Source: <https://www.industryarc.com/Research/Rice-Market-Research-509581>

Rice is the most common staple food in many Asian countries including India. Rice is India's most significant food crop. India the second-largest rice producer in the world after China. The leading states of India producing rice are West Bengal, Uttar Pradesh, Andhra Pradesh, Punjab, Tamil Nadu, Bihar, Chhattisgarh, and Odisha. Rice production in the country has increased by 3.5 times in the last 60 years. India is the world's largest rice exporter, followed by Thailand and Vietnam. India had the highest export volume of rice worldwide. More than half of the population of India consume rice.

KEY MARKET DRIVERS AND CONSTRAINTS OF RICE:

The growing utilization of rice in the food and beverage (F&B) industry to prepare various cuisines is driving the global market. The increasing shift of consumers towards healthy eating habits is propelling the growth of the rice market.

Numerous major companies are focusing on introducing new varieties and developing innovative packaging solutions that provide flexibility and convenience to consumers, which are acting as other growth-inducing factors.

Lack of technical knowledge of crop cultivation, scarcity of Labour, insufficient funds to purchase inputs, unavailability of sufficient farm machineries and low yield of the crop causes constraints in the rice market.

Climate change poses a serious risk to rice production. Uneven weather cycles, droughts, and floods can result in lower yields of crops or total crop failure – and these issues present a real challenge for the entire rice market. Rice market research indicates that the rice industry faces difficult decisions concerning the limited availability of water and land, as cultivating rice requires vast amounts of water. It is paramount that sustainable management practices are adopted to surmount these issues and guarantee long-term success for this sector.

WHEAT:

Global Wheat Market Outlook:

The global wheat market size reached a consumption value of around USD 161.32 billion in 2024. The consumption is expected to grow at a CAGR of 5.3% in the forecast period of 2025-2034.

Wheat is an essential type of cereal cultivated in temperate regions, the grain of which is crushed to produce flour for making products like bread, pasta, and pastry, among others. Wheat is cultivated in a larger area when compared to other crops and is also a major source of carbohydrates. In addition, it is rich in major nutrients like protein, dietary fibre, manganese, phosphorus, and vitamin B.

Wheat belongs to the genus *Triticum* and includes several species, the most commonly cultivated being common wheat (*Triticum aestivum*). It is an annual plant, typically harvested in the temperate regions of the world. Wheat has been cultivated for over 10,000 years and was one of the first crops to be domesticated in the Near East's Fertile Crescent. It played a key role in the development of ancient civilisations.

Wheat is rich in carbohydrates, making it an important energy source. It also contains protein, dietary fibre, and various vitamins and minerals like B vitamins, iron, and magnesium. As a major food crop, wheat is crucial to the global food supply. It is traded internationally and has a significant impact on the world's economy. The price and availability of wheat can affect food prices and security worldwide.

China, India, and Russia are Leading the Market in Terms of Wheat Production:

The major wheat-producing regions include the European Union, China, India, Russia, and the United States, with the European Union accounting for a fifth of the total global wheat output. Russia, along with the European Union, the United States, Canada, and Australia exports large volumes of the crop to other regions. Russia is the leading exporter of the crop, accounting for nearly 18.5% of the total global exports of the crop. The output level especially in Russia and the European Union is rising owing to consumption growth and low harvest in the United States. The growing end-use sectors in Southeast Asia and potential export growth in Russia are providing a push to production growth and boosting the supply share globally.

The major consuming regions for wheat include the European Union, accounting for nearly 45% of the global consumption. Other major consumers of wheat include China, India, Russia, and the United States. The European Union also imports wheat to meet the regional wheat demand. Egypt, Indonesia, Brazil, and Algeria are among the major importing regions.

The Global Wheat Market size is estimated at USD 52.52 billion in 2025, and is expected to reach USD 65.76 billion by 2030, at a CAGR of 4.6% during the forecast period (2025-2030).

Source: The starch market is likely to witness steady growth in the coming years, which is expected to further propel the demand for wheat. The major wheat starch-producing regions are France, the United States, the Netherlands, the United Kingdom, Australia, Belgium, Canada, China, and Japan.

Global Wheat Market Segmentation:

The market for wheat, based on type, is divided into:

- Whole/Raw
- Flour
- Others

Flour occupies a substantial portion of the wheat market share. As the global population increases, the demand for basic food items like wheat flour typically rises. This is because wheat flour is a staple ingredient in many diets around the world. Changes in dietary trends can significantly impact wheat flour demand. For instance, a rise in the popularity of baking or an increased preference for wheat-based products can drive up demand.

The supply of wheat is heavily dependent on agricultural conditions, such as weather patterns, climate change, and farming practices. A good harvest can lead to increased supply and potentially lower prices, boosting demand. Government decisions regarding agriculture can also increase the overall wheat flour demand.

Global Wheat Market Analysis:

The wheat market is a critical segment of the global agricultural economy, influenced by a range of factors. Wheat is one of the world's most produced cereals, alongside rice and maize. The top wheat-producing countries typically include China, India, Russia, the United States, and France. These countries' production levels significantly influence global supply.

Wheat is a staple food for over a third of the world's population, making its consumption patterns crucial to global food security. It is primarily used for human consumption, in forms like bread, pasta, noodles, and other processed foods. A smaller proportion is used for animal feed and industrial purposes.

Major exporters of wheat typically include Russia, the United States, Canada, France, and Ukraine. Many countries, especially in the Middle East and Africa, rely heavily on wheat imports to meet their consumption needs.

Source: <https://www.expertmarketresearch.com/>

The global wheat market is being driven by the demand from the food sector, which is proliferating with increasing disposable income of the population across all regions, especially in developing countries such as India and China. Due to globalization, the prevalence of processed food has increased rapidly, and thus the demand for wheat has increased.

In other Asian countries, especially India, the crop is the main food crop in many areas. The increasing import and export of wheat are accelerating the market's growth. Also, the market is expanding due to government initiatives to boost wheat production to make the country self-reliant and improve food security. Efforts to provide new and improved crop production technologies and distribution of high-yielding varieties/hybrid seeds are expected to drive market growth over the forecast period.

MUSTARD:

Mustard oil refers to a type of vegetable oil that is naturally extracted from the seeds of black, brown, and white mustard. In India, it is widely available in different forms, including refined mustard oil, Grade I (Kachchi Ghani) mustard oil, and Grade II (non-edible) mustard oil. Some of the key factors driving the demand of mustard oil in India include rising disposable incomes, health benefits, strong demand from both urban and rural regions and diversified applications in both food and non-food applications.

India is among the biggest consumers of mustard oil based on its high consumption in various culinary practices, such as cooking, frying, poaching, dressing, etc. Additionally, the expanding agriculture sector contributes to the increasing availability of high yielding mustard seeds, thereby catalyzing the mustard oil production. Furthermore, the Indian government has launched several initiatives for enhancing the production of oilseeds in the country to reduce imports and achieve self-sufficiency in edible oil production. Moreover, the wide presence of brick-and-mortar retail centers, including convenience stores, grocery stores, supermarkets, hypermarkets, etc., is also propelling the demand for mustard oil in the country. In line with this, the increasing sales of mustard oil over e-commerce platforms supported by several discounted offers, cashback, doorstep delivery options, etc., are also catalyzing the market for mustard oil in India. Moreover, the market is further driven by the growing demand for mustard oil in the personal care sector in India.

The India mustard oil market size is expected to exhibit a growth rate (CAGR) of 4.2% during 2025-2033.

Mustard oil Market Segment Analysis – By Application:

Based on Application, Mustard Oil Market is segmented in to food, personal care, pharmaceuticals, aromatherapy, and other. Food segment is accounted for the largest revenue market share in 2020. When compared to sunflower and other oils, mustard oil, which is high in alpha-linolenic acid (an important fatty acid that has been demonstrated to decrease cholesterol levels and reduce the risk of heart disease), was associated to a two-fold decreased risk. Moreover, monounsaturated fatty acids, that is found in foods like nuts, seeds, and plant-based oils, are plentiful in mustard oil. Monounsaturated fatty acids have been related to a number of health advantages, including heart health. In fact, research suggests that they may help decrease triglyceride, blood pressure, and blood sugar levels, all of which are heart disease risk factors.. This is majorly attributed to the Mustard oil is used in both cooking and personal care. It is high in Linolic Acid or omega-3 and Alpha Linolenic Acid or omega-6 fatty acids, as well as low in saturated fats. Although the use of pure mustard oil as a vegetable oil is prohibited in the United States, Canada, and Europe, it is frequently used topically as a massage oil, skin serum, and hair treatment. Pure mustard oil is frequently used topically to improve the health of hair and skin. It's also often used to provide oil massages on babies in places like Bangladesh, which is supposed to strengthen the skin barrier.

Mustard oil Market Segment Analysis – By Product Type:

Based on Product Type, Mustard Oil Market is segmented into, White Mustard, Black Mustard and Brown Mustard. Black Mustard Oil segment is accounted for the largest revenue market share in 2020. This is mainly attributed to the rising client demand for the product and its health advantages on the market. As Mustard oil also contains alpha-linolenic acid (ALA), an omega-3 fatty acid that may aid in the reduction of inflammation and discomfort associated with rheumatoid arthritis. Colds, aching knees, muscular (rheumatism), and arthritis are all treated with black mustard oil. White mustard seed is used to season traditional American yellow mustard, but it is also used to treat stomach congestion, joint discomfort, sore throat, and other ailments. Rapeseed oil and Canola oils are frequently mistaken with mustard seed oil (low erucic acid rapeseed oil). Those oils come from the same plant (Brassica napus), however they are not the same. Rapeseed oil is not utilized in cooking oil until Canola Oil was developed.

Mustard oil Market Segment Analysis-Drivers:

Rising Demand for Mustard Oil in Cooking

Owing to the growing consumption of food in Asia-Pacific countries such as India, Thailand, and China, consumer demand for mustard oil is increasing. Mustard oil has long been used as a cooking oil and as a substitute for other seed oils that have better skin advantages. The majority of mustard oil is used for frying, with the remainder being used for pickling and directly on the fruit as raw oil. In rural locations, food is cooked at low temperatures to preserve oil sourness, however in urban areas, pungency is less desirable and food is cooked at higher degrees. The amount of vitamin A produced depends on the length and temperature of the cooking process; lower temperatures and one or n minutes of cooking time produce more vitamin A. Mustard oil is abundant in monounsaturated fatty acids and is therefore highly recommended. Our bodies require oil in a 3:1 ratio, with three parts polyunsaturated and one part saturated fatty acids. Polyunsaturated fatty acids (PUFA) include monounsaturated fatty acids (MUFA). Mustard oil is high in MUFAs, which are important for human health. Because it is high in MUFA, it decreases bad cholesterol in the body, lowering blood fat levels and improving circulation. The usage of mustard oil, which is high in alpha-linolenic acid, was linked to a decreased incidence of IHD (Ischemic Heart Disease) than sunflower oil.

KEY MARKET DRIVERS AND CONSTRAINTS OF MUSTARD:

Owing to the growing consumption of food in Asia-Pacific countries such as India, Thailand, and China, consumer demand for mustard oil is increasing. Mustard oil has long been used as a cooking oil and as a substitute for other seed oils that have better skin advantages. In line with this, the increasing sales of mustard oil over e-commerce platforms supported by several discounted offers, cashback, doorstep delivery options, etc., are also catalyzing the market for mustard oil in India. Mustard oil and organic mustard seeds are the current trends that further boost the global mustard market. In addition, having therapeutic benefits, mustard herb & oil has been in rising demand.

However, complying with stringent regulations and varying standards around the world, growing competition, inflation estimated to remain above the upper band during the short term in key nations, and fluctuating raw material prices are some of the Mustard Oil market restraints over the forecast period. Mustard oil is prohibited for human consumption in the European Union, the United States, and Canada, owing to its high erucic acid level.

▶ SOYABEAN:

The global soybean oil market size was valued at 62.29 Million Tons in 2024. Looking forward, IMARC Group estimates the market to reach 72.3 Million Tons by 2033, exhibiting a CAGR of 1.7% during 2025-2033. China currently dominates

the market, holding a significant market share of over 32.0% in 2024. The increasing preference for plant-based and trans-fat-free oils, rising health consciousness and awareness among the masses and growing product utilization in various industrial applications are strengthening soybean oil market share in the global edible oil industry.

An expansive yet growing Indian populace, a burgeoning middle class, and rising consumption of processed foods have created a demand for soybean oil both home and abroad. According to an industrial report, by August 2023, India had brought in 357,890 tonnes of crude soybean oil, which represented 48 percent of the country's overall vegetable oil imports. Thus, soybean oil remains the most imported edible oil in India, with Brazil and Argentina as the major suppliers. The demand for soybean oil comes primarily from cooking and food processing and packaged foods. The government supports local oilseed production to lessen import dependence, alongside policies to control oil prices. Healthy oil consumption awareness leads to pressure on the market for new opportunities and innovation.

Key players in the industry are investing in research and development (R&D) activities to improve production processes, develop new product formulations, and enhance the quality and functionality of soybean oil. They are also exploring new extraction techniques, optimizing refining processes, and developing specialty variants of soybean oil to cater to specific customer needs. In line with this, major manufacturers are offering organic or non-genetically modified organism (GMO) variants of soybean oil, introducing specialty blends, and diversifying into value-added products, such as flavored or infused soybean oils. Apart from this, companies are opening soybean oil production facilities across the globe, which is positively influencing the market.

Driving Factors:

- Increasing Utilization in Production of Biofuel to Drive Market Growth
- Expanding Application Scope in Food Sector to Fuel Market Growth

RESTRAINING FACTORS:

The market is highly affected by the availability of various other oilseeds that can be used as an alternative or a substitute for soy oil. Palm oil, olive oil, rapeseed oil, sunflower oil, and canola oil are major competitors of this oil. Palm oil is the only vegetable oil in the world that is regularly priced at a discounted price, which significantly hampers the growth of the market. Palm oil has higher saturated fat content than soybean, rapeseed, sunflower, and other oils and tends to be solid at room temperature. Palm oil is preferred for making baked goods with a flaky texture, such as biscuits and pies. Furthermore, the growing awareness regarding nutritional and healthy oils such as olive oil among consumers has considerably affected the utilization of this oil across retail aisles.

Indian Market:

The India soybean oil market is expected to exhibit a growth rate (CAGR) of 5.6% during 2023-2028.

Soybean oil refers to a yellowish vegetable oil that is naturally extracted from the seeds of soybean. Soybean oil currently represents the second most consumed edible in India after palm oil. Some of the key factors driving the demand of soybean oil in India includes its large population, rising disposable incomes, growth of the food services sector and increasing demand in non-food applications.

In India, the changing consumer dietary habits are primarily augmenting the demand for soybean oil based on its neutral taste, high smoke point, and low saturated fat content. Moreover, rising consumer health concerns have led to the introduction of healthy product variants for managing heart health and lowering blood cholesterol levels. Additionally, the high penetration of international food trends in India has led to the increasing utilization of soybean oil in preparing condiments, dressings, mayonnaise, non-dairy creamers, margarine, shortenings, whipped toppings, etc. Besides this, the rising consumer sedentary lifestyles and their hectic work schedules are also augmenting the demand for soybean oil in processed food items. Moreover, soybean oil also finds several applications in the personal care industry based on its high content of vitamin E that prevents skin inflammation and helps in retaining skin moisture. Western and Central India currently represent the biggest markets for soybean oil in the country as they also represent the key regions where the domestic soybean crop is grown. Additionally, there is also a strong household demand for soybean oil in Western and Central India.

KEY MARKET DRIVERS AND CONSTRAINTS OF SOYABEAN:

Soyabeans contain hormone-like substances called phytoestrogens which are associated with beneficial health effects. Eating soybean-based food items reduce the risk of health problems, including cardiovascular disease, stroke, coronary heart disease (CHD) and cancer and improves bone health. The rising awareness about all these advantages is encouraging consumers to opt for low-fat, low-cholesterol soybean feeds. In emerging economies like China and India, the government is introducing initiatives to promote soy-based protein consumption among consumers and its importance for healthy body growth.

The important problem faced by soyabean production was severe drought condition or long dry spell during crop season, high cost of chemical fertilizers and plant protection, shattering of pods after maturity, non-availability of credit facility in time, infestation of pests, high labour wages, poor availability of quality seed materials. In soyabean marketing the major constraint was commission agents or merchants take unauthorized deduction in produce, high transportation rate, instability in prices.

BUSINESS MODEL OF THE COMPANY

The Company is mainly engaged into:

Manufacturing, trading and import of Edible Oil/ Non-edible oil and Agricultural Products i.e. Soya Oil, Soya Meal, Soya De Oiled Cake, Mustard Oil, Mustard Meal, Mustard De Oiled Cake, Refined Soyabean Oil, Refined Vegetable Oil, Pungent Mustard Oil, Refined Castor Oil First Special Grade (FSG), Castor De- Oiled Cake and High Protein Castor De-Oiled Cake, Cotton Bales, Cotton Cake Cattle Feed, Cotton Wash Oil, processing of wheat and rice. Also, the Company is engaged in Trading including domestic and export of Agricultural Products i.e. Wheat, Rice etc.

The soya & mustard products manufactured by the Company have a wide application in confectionery, baking, pharmaceuticals and cattle feed, poultry, fisheries etc.

The Company has entered into B2C domestic market by launching new products in Edible Oil i.e. Refined Soyabean Oil, Refined Vegetable Oil and Pungent Mustard Oil under the Brand Name “LAGNAM”.

For last several years, MGEL has been involved in manufacturing of Edible Oil, Non-Edible Oil and agricultural products such as Soya Oil, Soya Meal, Soya High Protein De Oiled Cake, Mustard Oil, Mustard refined oil, Mustard Meal, Mustard De-Oiled Cake, Refined Soya bean Oil, Pungent Mustard Oil, Refined Castor Oil First Special Grade (FSG), Castor Oil low grade, Castor Oil low moisture grade, Castor De-oiled Cake and High Protein Castor De-Oiled Cake, Cotton Bales, Cotton Cake Cattle Feed, Cotton Wash Oil and processing of wheat and rice.

Company Purchased Plant & Machinery and Buildings from Shree Gurukrupa Oil and Foods (“Partnership Firm”) and lands admeasuring 19833 square yards bearing Survey Nos. 186, 188 & 189 (collectively known as “Assets”) from the individual land owners at Taluka: Jotana, Mehasana, Gujarat. By Purchasing these Assets viz. land, plant & machinery and building, Company can produce Edible Oil Refinery & Packing Unit with capacity of approx. 200 metric tonne per day and Oil Seed crushing plant with a capacity of 20 metric tonne per day.

Company also operates three plants located at: (i) Unit Bavla, Sanand- Gujarat – Wheat & Rice Processing; (ii) Unit Kapadvanj, Kheda- Gujarat - Castor oil; and (iii) Unit Kapadvanj, Kheda- Gujarat- Cotton Unit.

Company has launched the two new products namely 1) Ayurvedic Classical Medicine has started sales/Marketing & distribution with effect from October 12, 2024 under the Product name “TEJPRAKASH CASTOR OIL”. 2) Company has entered into Business to Consumer (B to C) segment with launching of 100 ml. Neat Castor Oil Bottles packing for personal care under the name “NEAT CASTOR OIL”.

Company has launched 31 Stock Keeping Units (SKU) in addition to the existing Stock Keeping Units in business to Consumer (B to C) segment which will help improve the sales & revenue in future.

The Cold-pressed pharma grade Castor oil will be available to both business-to-business (B2B) and business-to-consumer (B2C) segments. Execution of activities related to project plan are started.

RISK & Its MITIGATION FRAMEWORK

Compliance to growing regulatory norms is a continuing requirement which can lead to delays in obtaining necessary approvals. Changes in guidelines or policies in various geographies may also lead to sudden disruption of business in specified products. Many Agricultural Industries have foreign exchange exposure either in the form of forex loans or exports and imports. For Companies which operate largely in the domestic arena, any major forex movement may affect profitability due to fluctuating import costs.

While on the one side input cost could increase, on the other side weak monsoon could reduce pricing flexibility, thereby affecting margins. To minimize the risk, a comprehensive and integrated risk management framework is followed by the Company.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company maintains an adequate and effective Internal Control System, equivalent with its size and complexity. It believes that these systems provide, among other things, a reasonable assurance that transactions are executed with management authorization. It also ensures that they are recorded in all material respects to permit preparation of financial statements in conformity with established accounting principles, along with the assets of the Company being adequately safeguarded against significant misuse or loss. This is supplemented through an internal audit programme and periodic review by the management and the Audit Committee. In terms of corporate governance, there are various Board

and Committees in place, comprising majority of Independent Directors, for monitoring and governance over efficiency and effective internal controls. Details of these Committees are given in the Corporate Governance Report, which forms part of this Annual Report.

ENVIRONMENT SAFETY, HEALTH AND ENERGY CONSERVATION

Safety at work places is of paramount importance to the Company. The aim is to maintain the higher standards of safety across factories and workplaces; and ensure the latest best practices are implemented across the business to bring operational efficiencies and save energy. The Company emphasis on placing safety as a pre-requisite across all its operations.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The Company's financial performance for the year ended March 31, 2024 is summarized below: (₹ in Lakhs)

PARTICULARS	STANDALONE-YEAR ENDED		CONSOLIDATED-YEAR ENDED

Reason for Variance

- (i) Debt Equity Ratio is improved due to increase in share holders' funds.
- (ii) Return on Investment Ratio has declined due to no any income generated from investment fund during the year.

The Key Financial Ratios has not witnessed a significant change i.e. a change of 25% or more as compared to Financial Year 2024- 25 except Debt Service Coverage Ratio and Return on Investment.

Explanations related to change of 25% or more as compared to Financial Year 2024-25, in Key Financial Ratios are given as under:

Return on Investment Ratio: The Ratio was declined due to no income generated from investment fund.

Explanations related to change in Return on Networkth as compared to Financial Year 2024-25:

Due to swift decision making and utilizing available opportunities in the market, Return on Networkth has increased despite capital infusion in the Company by way of Rights Issue. Achieving higher topline and better fund management has helped us to provide better Return on Networkth.

The Corporate Governance Report prepared by **Mangalam Global Enterprise Limited ("MGEL")** (CIN L24224GJ2010PLC062434) ("the Company"), contains details as stipulated in regulations 17 to 27, clauses (b) to (i) of regulation 46(2) and para C and D of Schedule V of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("the Listing Regulations") ('applicable criteria') with respect to Corporate Governance for the year ended March 31, 2025. This report is required by the Company for annual submission to the Stock exchange and to be sent to the Shareholders of the Company.

Management's Responsibility

The preparation of the Corporate Governance Report is the responsibility of the Management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility also includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the Corporate Governance Report. The Management along with the Board of Directors are also responsible for ensuring that the Company complies with the conditions of Corporate Governance as stipulated in the Listing Regulations, issued by the Securities and Exchange Board of India.

Secretarial Auditor's Responsibility

Our responsibility is to provide a reasonable assurance in the form of an opinion whether the Company has complied with the condition of Corporate Governance, as stipulated in the Listing Regulations.

The procedures selected depend on the auditor's judgement, including the assessment of the risks associated in compliance of the Corporate Governance Report with the applicable criteria. The procedures include but not limited to verification of secretarial records and financial information of the Company and obtained necessary representations and declarations from directors including independent directors of the Company.

The procedures also include examining evidence supporting the particulars in the Corporate Governance Report on a test basis. Further, our scope of work under this report did not involve me performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole.

Opinion

Based on the procedures performed by me as referred above and according to the information and explanations given to me, we are of the opinion that the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations, as applicable for the applicable period i.e. April 01, 2024 to March 31, 2025, referred above.

Other Matters and Restriction on use

This report is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

This report is addressed to and provided to the members of the Company solely for the purpose of enabling it to comply with its obligations under the Listing Regulations and should not be used by any other person or for any other purpose.

Accordingly, we do not accept or assume any liability or any duty of care or for any other purpose or to any other party to whom it is shown or into whose hands it may come without our prior consent in writing. We have no responsibility to update this report for events and circumstances occurring after the date of this report.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF MANGALAM GLOBAL ENTERPRISE LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Mangalam Global Enterprise Limited** ("the Company"), which comprise the balance sheet as at 31st March, '25, and the statement of Profit and Loss (including other comprehensive income), and statement of change in equity and statement of cash flows for the year ended 31st March, '25, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the:

- Balance Sheet as at 31st March, '25,
- Statement of Profit and Loss Account (including other comprehensive income),
- Statement of change in equity
- Statement of Cash flows for the year ended 31st March, '25.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended 31st March, '25. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the following matters to be the key audit matters to be communicated in our report:

The key audit matter	How the matter was address in our audit
Revenue recognition from sale of goods (as described in Note 2.11 and 32 of the standalone financial statements)	
Revenue of the Company mainly comprises of sale of goods to its customers. Revenue from sale of goods is recognized when control is transferred to the customer and there is no other unfulfilled obligation. This requires detailed analysis of each contract/ customer purchase order regarding timing of revenue recognition. Inappropriate assessment could lead to a risk of revenue being recognized on sale of goods before the control in the goods is transferred to the customer. Accordingly, timing of recognition of revenue is a key audit matter.	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: • Assessed the Company's revenue recognition policy and its compliance with Ind AS 115; • Evaluated the design and tested the operating effectiveness of key controls related to timing of revenue recognition; • Performed testing on selected samples of customer contracts/ customer purchase orders. Checked terms and conditions related to acceptance of goods, acknowledged delivery receipts and tested the transit time to deliver the goods and its revenue recognition. • Our tests of details focused on cut-off samples to verify only revenue pertaining to current year is recognized based on delivery documents along with terms and conditions set out in customer contracts/ customer purchase orders.

The key audit matter	How the matter was address in our audit
Inventory (as described in Note 2.8 and 12 of the standalone financial statements)	
The carrying value of inventory as at 31st March, '25 is Rs. 10,473.97 lakhs. The inventory is valued at lower of cost or net realisable value after providing for obsolescence if any. We considered the value of inventory as a key audit matter given the relative size of its balance in the financial statements and significant judgment involved in the consideration of factors in determination of selling prices such as fluctuation of raw materials prices in the market and in determination of net realizable value.	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: - We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory. - Assessing the appropriateness of Company's accounting policy for valuation of stock-in-trade and compliance of the policy with the requirements of the prevailing Indian accounting standards. - We considered various factors including the actual selling price prevailing around and subsequent to the year-end. - Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value. Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.
Tax litigations and contingencies (as described in Note 2.23 and 45 of the standalone financial statements)	
The Company has litigations in respect of certain matters at various authority levels, in respect of which, the company has disclosed contingent liabilities as at 31st March, '25. The management's assessment with regard to the tax matters is supported by advice from independent consultants. We considered this as a key audit matter, as evaluation of these matters requires significant management judgement and estimation, interpretation of laws and regulations and application of relevant judicial precedents to determine the probability of outflow of economic resources for recognising provisions and making related disclosures in the financial statements. The application of accounting principles as given under Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets, in order to determine the amount to be recognised as a provision, or to be disclosed as a contingent Liability, needs careful evaluation and judgement to be applied by the management.	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: - We evaluated and assessed and tested the design and operating effectiveness of key controls surrounding assessment of litigations; - Obtaining a complete list of litigation matters and reading the underlying orders and other communications received from tax authorities and management's responses thereto, to assess the status of the litigations; - Evaluating the independence, objectivity and competence of management's experts involved; - Reading the management's experts advice, as applicable; - Evaluating the management's assessment on the probability of outcome and the magnitude of potential outflow of economic resources in respect of tax matters including involvement of our tax experts for assessing complex tax matters, based on recent rulings and latest developments in case laws; - Evaluating appropriateness of the Company's disclosures in the financial statements. Based on the above procedures, the assessment made by management in respect of disclosures made in 'contingent liabilities' relating to these matters in the standalone financial statements was considered to be appropriate.
Carrying value of trade receivables and advances	
The collectability of the Company's trade receivables and advances (including trade advances), the valuation of allowance for impairment of trade receivables and provision for bad and doubtful debt require significant	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: Assessing the Company's policies for recognizing loss allowance for trade receivable and advances to determine the carrying value of trade receivables and advances.

The key audit matter	How the matter was address in our audit
Carrying value of trade receivables and advances	
management judgement. As per the current assessment of the situation based on the internal and external information available up to the date of approval of these financial statements by the Board of Directors, the Company believes that there is no indication of any material impact on the carrying value. The management considers such information to determine whether a provision for impairment or for bad debt is required either for a specific transaction or for a customer's balance overall. Accordingly, it has been determined as a key audit matter.	- Assessing trade receivables and advances on sample basis, based on its ageing along with historical trend/ pattern of collections received from the customers including the same received subsequent to year end, up to the date of completion of audit procedures. - Evaluating management's assessment of recoverability of outstanding receivables through inquiry with the management regarding disputes between the parties involved, attempts by the management to recover the amounts outstanding and on the credit status of significant counterparties wherever available. - Assessing the appropriateness of the loss allowance for trade receivables and advances made by the Company. - Assessing the disclosures made by the Company in this regard in the standalone financial statements.

Information Other than the financial statements and Auditor's report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the year ended 31st March, '25 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements:

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the '**Annexure A**' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no loan or advance in the nature of loan granted falling due during the year, which has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to same parties.
- f) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.

iv. Loans to directors & Investment by the Company:

In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it, as applicable.

v. Deposits

The Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of Sections 73 to 76 of the Companies Act, 2013 and the Rules framed there under to the extent notified. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

vi. Cost records:

Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Companies Act, 2013 in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

vii. Statutory Dues:

- a. According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of provident fund, employees' state insurance, income tax, goods and services tax and labour welfare fund, though there were no delay in depositing undisputed statutory dues, including sales tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, with the appropriate authorities.
- b. Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on 31st March, '25, on account of disputes are given below:

Name of the Statute	Nature of Dues	Amount involved (Rs. in lakhs)	Amount paid/ Adjusted	Period to which the	Forum where dispute is pending
The Income Tax Act, 1961	Income Tax	12,060.31	-	AY 2019-20	Gujarat High Court

1. A Demand notice under section 156 of the Income Tax Act, 1961 to the tune of Rs. 25,047.53 Lakhs for the assessment year 2018-19 is received on 4th April, 2025 from Income tax department by the company in the name of HMIPL, which is also challenged before Hon'ble NCLT Ahmedabad. Management is of the view that the action of the income tax authorities is not in accordance with the law.
2. A Show cause notice is issued by GST Department with respect to GST audit under section 65 of CGST Act, 2017 for the period 01.04.2020 to 31.03.2023 against which reply has been submitted by the company. However, no order has yet been passed confirming any liability. Management is of the view that the action of the tax authorities is not in accordance with the law.

viii. Unrecorded income

According to the information and explanations given to us and the records of the Company examined by us, there are no transactions in the books of account that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

ix. Repayment of Loans:

- a. According to the records of the Company examined by us and the information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender during the year.
- b. According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared Willful Defaulter by any bank or financial institution or government or any government authority.
- c. In our opinion, and according to the information and explanations given to us, the company has not obtained any term loans during the year. Accordingly, clause 3(ix) (C) of the order is not applicable.
- d. According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that the Company has not used funds raised on short-term basis for the long-term purposes.
- e. According to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- f. According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

x. Utilization of IPO & FPO and Private Placement and Preferential issues:

- a. In our opinion, money raised by way of rights issue of equity shares during the year have been applied by the Company for the purposes for which they were raised. The Company has not raised moneys by way of initial public offer/ further public offer through debt instruments during the year.
- b. The Company has not made any preferential allotment or private placement of shares / fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.

xi. Reporting of Fraud:

- a. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.
- b. To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT- 4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c. As represented to us by the Management, there were no whistle blower complaints
- d. Received by the Company during the year and up to the date of this report.

xii. NIDHI Company:

As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

xiii. Related Party Transaction:

The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone financial statements as required under IND AS "Related Party Disclosures" specified under Section 133 of the Act.

xiv. Internal Audit

- a) In our opinion and according to the information and explanation given to us, the Company has an internal audit system commensurate with the size and nature of its business.
- b) The reports of the Internal Auditor for the period under audit have been considered by us.

xv. Non-Cash Transaction:

The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Act under Clause 3(xv) of the Order is not applicable to the Company.

xvi. Register under RBI Act, 1934:

The company is not carrying any activities which require registration under section 45-IA of the Reserve Bank of India Act, 1934 and hence the provisions para 3(xvi) (a) to (d) of the Order referred to in Companies (Auditor's Report) Order, 2020 issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act does not apply to the company.

xvii. Cash Losses

The Company has not incurred any cash losses in the current financial year and in the immediately preceding financial year.

xviii. Auditor's resignation

There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

xix. Financial Position

According to the information and explanations given to us and on the basis of the financial ratios disclosed in note 57 to the standalone financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

xx. Corporate Social Responsibility

The Company has fully spent the required amount towards Corporate Social Responsibility (CSR) and there is no unspent CSR amount for the year requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.

In respect of ongoing projects, the company does not have any unspent corporate social responsibility (CSR) amount as at the end of the previous financial year and also at the end of the current financial year. Hence, reporting under this clause is not applicable for the year.

“Annexure B” to the Independent Auditor’s Report of even date to the members of Mangalam Global Enterprise Limited on the Standalone Financial Statements for the year ended 31st March, ‘25

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the standalone financial statements of **Mangalam Global Enterprise Limited** (‘the Company’) as at and for the year ended 31st March, ‘25, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material

respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, '25, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Notes to the Standalone Financial Statements for the period ended on 31st March, 2025

Note 1: Corporate Information:

Mangalam Global Enterprise Limited ('the Company') is a listed public limited company domiciled and incorporated in India. The registered office of the Company is located at 101, Mangalam Corporate House, 42, Shrimali Society, Netaji Marg, Mithakhali, Navrangpura, Ahmedabad – 380009, Gujarat, India. Its Equity Shares are listed on the main board of National Stock Exchange of India Limited (NSE).

The Company is engaged in activity of manufacturing/ dealing/ trading of Edible/ Non-edible Oil/ Seeds and its derivatives, Cotton/ Cotton Ginning, Rice, Wheat and other Agro commodities, other merchandise and agency service activity.

General Information & Statement of Compliance with Ind AS:

These financial statements are the standalone financial statements prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended.

Note 2 : Material Accounting Policies:

2.1 Basis of Preparation and Presentation:

The Financial Statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount:

- (a) Certain Financial Assets and Liabilities (including derivative instruments), and
- (b) Defined Benefit Plans – Plan Assets

The Company's Financial Statements are presented in Indian Rupees, which is also its functional currency and all values are rounded to the nearest Lakhs, except when otherwise indicated.

2.2 Fair Value Measurement:

Some of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.3 Current and Non-Current Classification:

The Company presents assets and liabilities in the Balance Sheet based on Current / Non- Current classification.

An asset is treated as Current when it is –

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or

- Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred Tax Assets and Liabilities are classified as Non-Current Assets and Liabilities.

2.4 Property, Plant and Equipment:

(a) Tangible Assets:

Property, Plant and Equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Other Indirect Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in-Progress.

Depreciation:

Free hold land is not depreciated. Leasehold land and the improvement costs are amortized over the period of the lease. Depreciation on Property, Plant and Equipment is provided using Straight Line Method (SLM). Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II:

Name of Property, Plants and Equipment	Useful Life*
Factory Building	30-40 Years
Building (Other than Factory Building)	60 Years
Plant and Machineries (Including Continuous Process Plant)	8-30 Years
Furniture and Fixtures	10 Years
Office Equipment	5 Years
Computer and Other Data Processing units	3 Years
Motor Vehicles	8 Years
Electrical Installation and Other Equipment	5-10 Years

* The Company, based on internal technical assessments, management estimates, valuation and useful life certificate from Chartered Engineer (wherever deemed required), depreciates certain items of property, plant & equipment acquired through merger, demerger, acquisition and amalgamation over the estimated useful lives and considering residual value which are different from the one prescribed in Schedule II of the Companies Act, 2013. The management believes that these estimated useful lives and residual values are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

Gains or losses arising from derecognition of a Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

(b) Capital Work-in-Progress and Capital Advances:

Cost of Property, Plant and Equipment not ready for intended use, as on the balance sheet date, is shown as a "Capital Work-in-Progress". The Capital Work-in-Progress is stated at cost. Any expenditure in relation to survey and investigation of the properties is carried as Capital Work-in-Progress. Such expenditure is either capitalized as cost of the projects on completion of construction project or the same is expensed in the period in which it is decided to abandon such project. Any advance given towards acquisition of Property, Plants and Equipment outstanding at each balance sheet date is disclosed as "Other Non-Current Assets".

(c) Intangible Assets:

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortisation/depletion and impairment losses, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the Intangible Assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Amortization:

The amortization expenses on Intangible assets with the finite lives are recognized in the Statement of Profit and Loss. The Company's intangible assets comprises assets with finite useful life which are amortised on a straight-line basis over the period of their expected useful life as tabulated below:

Particulars	Useful Life*
Accounting, antivirus and other misc. softwares	3 Years
Other firewall and operating software	6 Years

The amortization period and the amortization method for an intangible asset with finite useful life is reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

Gains or losses arising from derecognition of an Intangible Asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

2.5 Impairment of Non-Financial Assets – Property, Plant and Equipment and Intangible Assets:

The Company assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of Assets, called Cash Generating Units (CGU) may be impaired. If any such indication exists, the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.6 Lease:**(a) The Company as a Lessee:**

The Company, as a lessee, recognises a right- of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any, and adjusted for any remeasurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

(b) The Company as a Lessor:

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

2.7 Investment Properties:

Items of investment properties are measured at cost less accumulated depreciation/ amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Investment properties are depreciated on straight line method on pro-rata basis at the rates specified therein. Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

2.8 Inventories:

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any, except in case of by-products which are valued at net realisable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition.

Cost of raw materials, chemicals, stores and spares, components, consumables, packing materials, trading and other products are determined at Cost, while the valuation of finished goods and work-in-progress are determined on weighted average basis.

Net realizable value is estimated selling price in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale.

2.9 Borrowing Costs:

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

2.10 Employee Benefits:

(a) Short-Term Employee Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

(b) Post-Employment Benefits:

(i) Defined Contribution Plans:

The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service

received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.

(ii) Defined Benefit Plans:

(a) Gratuity Scheme:

Company at the time of resignation/superannuation. The gratuity is paid @ 15 days basic salary for every completed year of service as per the Payment of Gratuity Act, 1972. The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Remeasurement gains and losses arising from adjustments and changes in actuarial assumptions are recognised in the period in which they occur in Other Comprehensive Income.

(iii) Other Long - Term Employee Benefits:

Entitlement to annual leave is recognized when they accrue to employees.

2.11 Revenue Recognition:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

The Company is generally the principal as it typically controls the goods or services before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped. Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Revenue is measured at the amount of consideration received or receivable, stated net of discounts, returns and indirect taxes which the Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognised when it becomes unconditional.

Gain/loss on contracts settlements of raw materials purchases with suppliers are accounted in the statement of profit and loss.

Export Incentives:

Export incentive revenues are recognized when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection.

Interest Income:

Interest Income from a Financial Assets is recognised using effective interest rate method.

Dividend Income:

Dividend Income is recognised when the Company's right to receive the amount has been established.

Surplus / (Loss) on disposal of Property, Plants and Equipment / Investments:

Surplus or loss on disposal of property, plants and equipment or investment is recorded on transfers of title from the Company, and is determined as the difference between the sales price and carrying value of the property, plants and equipment or investments and other incidental expenses.

Rental Income:

Rental income arising from operating lease on investments properties is accounted for on a straight - line basis over the lease term except the case where the incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

Insurance Claim:

Claim receivable on account of insurance is accounted for to the extent the Company is reasonably certain of their ultimate collections.

Other Income:

Revenue from other income is recognized when the payment of that related income is received or credited.

Contract Balances:

(a) Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

(b) Contract Liabilities

has received consideration from the customer. Advance from customer is recognised as revenue when the Company performs under the contract.

2.12 Foreign Currency Transactions and Translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets which are capitalised as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income or Statement of Profit and Loss are also recognised in Other Comprehensive Income or Statement of Profit and Loss, respectively).

2.13 Government Grants and Subsidies:

Grants in the nature of subsidies which are non-refundable are recognized as income where there is reasonable assurance that the Company will comply with all the necessary conditions attached to them. Income from grants is recognized on a systematic basis over periods in which the related costs that are intended to be compensated by such grants are recognized.

Refundable government grants are accounted in accordance with the recognition and measurement principle of Ind AS 109, "Financial Instruments". It is recognized as income when there is a reasonable assurance that the Company will comply with all necessary conditions attached to the grants. Income from such benefit is recognized on a systematic basis over the period of the grants during which the Company recognizes interest expense corresponding to such grants.

2.14 Financial Instruments - Financial Assets:

(a) Initial Recognition and Measurement:

All Financial Assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets, which are not at Fair Value Through Profit or Loss, are adjusted to the fair value on initial recognition. Purchase and sale of Financial Assets are recognised using trade date accounting.

(b) Subsequent Measurement:

(i) Financial Assets measured at Amortised Cost (AC):

A Financial Asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise to cash flows on specified dates that represent solely payments of principal and interest on the principal amount outstanding.

(ii) Financial Assets measured at Fair Value through Other Comprehensive Income (FVTOCI):

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding.

Further, the Company, through an irrevocable election at initial recognition, has measured certain investments in equity instruments at FVTOCI. The Company has made such election on an instrument-

by-instrument basis. These equity instruments are neither held for trading nor are contingent consideration recognized under a business combination. Pursuant to such irrevocable election, subsequent changes in the fair value of such equity instruments are recognized in OCI. However, the Company recognizes dividend income from such instruments in the Statement of Profit and Loss.

(iii) Financial Assets measured at Fair Value through Profit or Loss (FVTPL):

A Financial Asset which is not classified in any of the above categories is measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Company changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 - Financial Instruments.

(c) Investments:

Investments are classified in to Current or Non-Current Investments. Investments that are readily realizable and intended to be held for not more than a year from the date of acquisition are classified as Current Investments. All other Investments are classified as Non - Current Investments. However, that part of Non - Current Investments which are expected to be realized within twelve months from the Balance Sheet date is also presented under "Current Investments" under "Current portion of Non-Current Investments" in consonance with Current/Non-Current classification of Schedule - III of the Act.

All the equity investment which covered under the scope of Ind AS 109, "Financial Instruments" is measured at the fair value. Investment in Mutual Fund is measured at fair value through profit and loss (FVTPL). Trading Instruments are measured at fair value through profit and loss (FVTPL).

(d) Investment in Subsidiaries, Associates and Joint Ventures:

The Company has accounted for its investments in Subsidiaries, associates and joint venture at cost less impairment loss (if any).

(e) Impairment of Financial Assets:

In accordance with Ind AS 109, the Company uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

2.15 Financial Instruments - Financial Liabilities:

(a) Initial Recognition and Measurement:

All Financial Liabilities are recognised at fair value and in case of borrowings, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

(b) Subsequent Measurement:

Financial Liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.16 Derivative Financial Instruments and Hedge Accounting:

The Company enters into derivative contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial assets measured at amortised cost.

The Company formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognised financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Company's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a cash flow hedge under Ind AS 109, 'Financial Instruments'.

Recognition and measurement of cash flow hedge:

The Company strictly uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. As per Ind AS 109 - Financial Instruments, foreign currency forward contracts are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in hedge reserve (under reserves and surplus) through other comprehensive income and the ineffective portion is recognised immediately in the statement of profit and loss.

The accumulated gains / losses on the derivatives accounted in hedge reserve are transferred to the statement of profit and loss in the same period in which gains / losses on the underlying item hedged are recognised in the statement of profit and loss.

Derecognition:

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. When hedge accounting is discontinued for a cash flow hedge, the net gain or loss will remain in hedge reserve and be reclassified to the statement of profit and loss in the same period or periods during which the formerly hedged transaction is reported in the statement of profit and loss. If a hedged transaction is no longer expected to occur, the net cumulative gains / losses recognised in hedge reserve is transferred to the statement of profit and loss.

Fair Value Hedge:

The Company designates derivative contracts or non-derivative Financial Assets/Liabilities as hedging instruments to mitigate the risk of change in fair value of hedged item due to movement in interest rates, foreign exchange rates and commodity prices.

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to Statement of Profit and Loss over the period of maturity.

2.17 Derecognition of Financial Instruments:

The Company derecognises a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for derecognition under Ind AS 109. A Financial liability (or a part of a financial liability) is derecognised from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.18 Financial Instruments - Offsetting:

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Company has a legally enforceable right to set off the amount and it intends, either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.19 Taxes on Income:

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

(a) Current Tax:

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted at the Balance sheet date.

(b) Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

Presentation:

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

2.20 Segment Reporting:

Segments are identified having regard to the dominant source and nature of risks and returns and the internal organization and management structure. The Company has considered Business Segments as Primary Segments.

Segments Accounting Policies:

The Company prepares its Segment Information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

Inter - Segment Transfer:

The Company generally accounts the Inter - Segment transfers at an agreed value of the transactions.

Allocation of Common Costs:

Common allocable costs are allocated to each segment reporting according to the relative contribution of each segment to the total of common costs.

Unallocated Items:

Unallocated Items include the General Corporate Income and Expense items which are not allocated to any of the Business Segments.

2.21 Research and Development:

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss as and when incurred.

Development costs are capitalised as an intangible asset if it can be demonstrated that the project is expected to generate future economic benefits, it is probable that those future economic benefits will flow to the entity and the costs of the asset can be measured reliably, else it is charged to the Statement of Profit and Loss.

2.22 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year adjusted for bonus element in equity share. Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as at the beginning of the period unless issued at a later date.

2.23 Provisions, Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of amount cannot be made.

2.24 Events after Reporting Date:

Where events occurring after the Balance Sheet date provide evidence of condition that existed at the end of reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

2.25 Non – Current Assets Held For Sales:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable.

A sale is considered as highly probable when decision has been made to sell, assets are available for immediate sale in its present condition, assets are being actively marketed and sale has been agreed or is expected to be concluded within 12 months of the date of classification.

Non-current assets held for sale are neither depreciated nor amortised.

Assets and liabilities classified as held for sale are measured at the lower of their carrying amount and fair value less cost of sale and are presented separately in the Balance Sheet.

2.26 Cash Flows Statement:

Cash Flows Statements are reported using the method set out in the Ind AS - 7, "Cash Flow Statements", whereby the Net Profit / (Loss) before tax is adjusted for the effects of the transactions of a Non-Cash nature, any deferrals or accrual of past or future operating cash receipts or payments and item of income or expenses associated with

investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

2.27 Cash and Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an immaterial risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposit held at call with financial institutions, other short - term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an immaterial risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.28 Business Combination:

Business combinations arising from transfers or interests in entities that are under the control of the shareholders that controls the Company are accounted for using the 'pooling of interests method', as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose, comparatives are revised, if required. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the standalone financial statements of the Company in the same form in which they appeared in the standalone financial statements of the acquired entity. The difference, if any, between the net assets acquired and cancellation of share capital of the acquired entity is transferred to other equity.

2.29 Recent Pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

Note 3 : Critical Accounting Judgments and Key Sources of Estimation Uncertainty:

These financial statements are the standalone financial statements prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended

3.1 Income Tax:

The Company's tax jurisdiction is in India. Significant judgments are involved in estimating budgeted profits for the purpose of paying advance tax, determining the income tax provisions, including the amount expected to be paid / recovered for uncertain.

3.2 Property Plant and Equipment / Intangible Assets:

Estimates are involved in determining the cost attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management. Property, Plant and Equipment/Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value. Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful life and residual values are based on the Company's historical experience with similar assets and take into account anticipated technological changes. The depreciation/amortisation for future periods is revised if there are significant changes from previous estimates.

3.3 Defined Benefits Obligations:

The costs of providing Gratuity and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS - 19, "Employee Benefits" over the period during which benefit is derived from the employees' services. It is determined by using the Actuarial Valuation and assessed on the basis of assumptions selected by the management. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. Due to complexities involved in the valuation and its long term in nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are reviewed at each balance sheet date.

3.4 Fair value measurements of Financial Instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured

based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

3.5 Recoverability of Trade Receivables:

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

3.6 Provisions:

The timing of recognition and quantification of the liability (including litigations) requires the application of judgment to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

3.7 Impairment of Financial and Non - Financial Assets:

The impairment provisions for Financial Assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period.

In case of non-financial assets company estimates asset's recoverable amount, which is higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

3.8 Recognition of Deferred Tax Assets and Liabilities:

Deferred tax assets and liabilities are recognised for deductible temporary differences and unused tax losses for which there is probability of utilisation against the future taxable profit. The Company uses judgment to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits and business developments.

3.9 Supplier Financing Arrangements:

Company participate in various supply chain finance programs under which participating suppliers may voluntarily elect to sell some or all of their Company receivables to third-party financial institutions. Supplier participation in the programs is solely up to the supplier and participating suppliers enter their arrangements directly with the financial institutions. The Company derecognise financial liability when the obligation under the liability is discharged or canceled or expires. A significant amount of management judgment is involved in such arrangements to determine when an existing financial liability is replaced by another on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. (Further information are set out in Note 29.1).

30.1 The Company participates in various supply chain finance programs under which participating suppliers may voluntarily elect to sell some or all of their Company receivables to third-party financial institutions. Supplier participation in the programs is solely up to the supplier, and participating suppliers enter their arrangements directly with the financial institutions. The Company and its suppliers agree on the contractual terms for the goods and services it procure, including prices, quantities and payment terms, regardless of whether the supplier elects to participate in these programs. The suppliers' voluntary inclusion of invoices in these programs has no bearing on our payment terms. Further, the company has no economic interest in a supplier's decision to participate in these programs. As at 31-Mar-2025 and 31-Mar-2024, confirmed supplier invoices that are outstanding and subject to the third-party programs included in accounts payable on the balance sheets were Rs. 6,883.40 Lakhs and Rs. 5,118.82 Lakhs, respectively. The Company do not believe that future changes in the availability of supply chain financing will have a significant impact on the Company's liquidity.

Notes to the Standalone Financial Statements for the period ended on 31st March, 2025
Note - 44 - Employee Benefits: (Contd.....)

The Company has the following post-employment benefit plans:

B. Defined Contribution Plans :
Gratuity (Unfunded) :

(iii) Risks associated to the defined benefit plan of Gratuity:

(a) Investment / Interest Risk:

The present value of defined benefit plan liability is calculated using discount rate determined with reference to market yield on government bonds denominated in Indian rupees. A decrease in the bond interest rate will increase the plan liability.

(b) Longevity Risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of the plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

(c) Salary Risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of the plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

(d) Legislative Risk:

Risks of increase in the plan liabilities or reduction in plan assets due to change in legislation.

Subsequent to the approval of the Resolution Plan, the Income tax department has initiated reassessment proceedings for Assessment Year 2019-20 under section 147/ 148 of the Income Tax Act, 1961 in the name of HMIPL. The company has challenged the action of the income tax department by way of special civil application before the Hon'ble Gujarat High Court seeking to quash the said action and has also requested for an ad interim relief to stay the proceedings till the disposal of the company's petition. The company has been advised that the action of the income tax authorities is not in accordance with the law.

@ The Company has received notice from Advantage Oil Private Limited related to on account of compensation for early termination of bundi plant lease demanding of Rs. 458.27 Lakhs as a due as on 19-10-2023, which are not payable as per opinion of the management of the company.

A Show cause notice is issued by GST Department with respect to GST audit under section 65 of CGST Act, 2017 for the period 01.04.2020 to 31.03.2023 against which reply has been submitted by the company. However, no order has yet been passed confirming any liability. Management is of the view that the action of the tax authorities is not in accordance with the law.

A Demand notice under section 156 of the Income Tax Act, 1961 to the tune of Rs. 25,047.53 Lakhs for the assessment year 2018-19 is received on 4th April, 2025 from Income tax department by the company in the name of HMIPL, which is also challenged before Hon'ble NCLT Ahmedabad. Management is of the view that the action of the income tax authorities is not in accordance with the law.

It is not practicable for the Company to estimate the timings of cash outflows, if any, in respect of the above pending resolution of the respective proceedings as it is determinable only on the receipt of the judgements/decisions pending with various forums/authorities.

The Company does not expect any reimbursements in respect of the above contingent liabilities.

The Company has evaluated the impact of Supreme Court ("SC") judgement dated February 28, 2019 in the case of Regional Provident Fund Commissioner (II) West Bengal v/s Vivekananda Vidyamandir and Others, in relation to exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to Provident Fund ("PF") under the Employees' Provident Fund & Miscellaneous Provisions Act, 1952. There are interpretation issues relating to the said SC judgement. Based on such evaluation, management has concluded that effect of the aforesaid judgement on the Company is not material and accordingly, no provision has been made in the financial statements.

* Investment in subsidiaries are measured at cost as per Ind AS 27, "Separate financial statements", and hence not presented here.

@ Fair value of financial assets and liabilities measured at amortized cost approximates their respective carrying values as the management has assessed that there is no significant movement in factor such as discount rates, interest rates, credit risk. The fair values are assessed by the management using Level 3 inputs.

The financial instruments measured at FVTPL represents current investments and derivative assets having been valued using level 2 valuation hierarchy.

Fair Value Hierarchy

The fair value of financial instruments as referred to in note below has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

The Categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Note – 52 – Financial Instruments: (Contd...)

B. Market Risk

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of Risk: "Interest Rate Risk, Currency Risk and Other Price Risk". Financial instrument affected by the Market Risk includes loans and borrowings in foreign as well as domestic currency, retention money related to capital expenditures, trade and other payables.

(a) Interest Rate Risk

Interest Rate Risk is the risk that fair value or future cash outflows of a financial instrument will fluctuate because of changes in market interest rates. An upward movement in the interest rate would adversely affect the borrowing cost of the Company. The Company is exposed to long term and short - term borrowings. The Company manages interest rate risk by monitoring its mix of fixed and floating rate instruments and taking actions as necessary to maintain an appropriate balance. The Company has not used any interest rate derivatives.

C. Credit Risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and other financial assets measured at amortized cost. The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

The Company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets. (i) Low credit risk, (ii) Moderate credit risk, (iii) High credit risk.

Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Financial assets (other than trade receivables) that expose the entity to credit risk are managed and categorized as follows:

Basis of Categorisation	Asset Class Exposed to Credit Risk	Provision for Expected Credit Loss
Low Credit Risk	Cash and Cash Equivalents, other bank balances, loans and other financial assets	12 month expected credit loss.
Moderate Credit Risk	Other Financial Assets	12 month expected credit loss, unless Fcredit risk has increased significantly since initial recognition, in which case allowance is measured at life time expected credit loss
High Credit Risk	Other Financial Assets	Life time expected credit loss (when there is significant deterioration) or specific provision whichever is higher

Financial assets (other than trade receivables) that expose the entity to credit risk are managed and categorized as follows:
(₹ in Lakhs)

Particulars	As at 31st March, 2025	As at 31st March, 2024
Low Credit Risk		
Cash and Cash Equivalents	13.14	22.36

Other Receivable	82.60	82.60
Total	1,546.20	1,470.04

- Cash and Cash Equivalent and Bank Balance:**

Credit Risk related to cash and cash equivalents and bank balance is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

- Loans and Other Financial Assets measured at Amortized Cost:**

Other financial assets measured at amortized cost includes export benefits receivables, bank deposits with maturity of more than 12 months and other receivables. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

Notes to the Standalone Financial Statements for the period ended on 31st March, 2025

Note – 52 – Financial Instruments: (Contd...)

- **Trade Receivables:**

Life time expected credit loss is provided for trade receivables. Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions. Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the Company. The Company continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

- **Expected Credit Losses:**

Expected Credit Loss for Trade Receivables and Other Receivables under simplified approach:

The Company recognizes lifetime expected credit losses on trade receivables & other receivables using a simplified approach, wherein Company has defined percentage of provision by analyzing historical trend of default based on the criteria defined below and such provision percentage determined have been considered to recognize life time expected credit losses on trade receivables/other receivables (other than those where default criteria are met in which case the full expected loss against the amount recoverable is provided for). Further, the Company has evaluated recovery of receivables on a case to case basis. No provision on account of expected credit loss model has been considered for related party balances. The Company computes credit loss allowance based on provision matrix. The provision matrix is prepared on historically observed default rate over the expected life of trade receivable and is adjusted for forward - looking estimate.

D. Liquidity Risk

Liquidity Risk is the risk that the Company will encounter difficulty in raising the funds to meet the commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates.

Mangalam Worldwide Limited	2,151.25	Nil	Steel Division
Mangalam Global Enterprise Limited	1,100.00	Nil	Remaining including Agro Product Division
Total	3,251.25	Nil	

(c) On approval of the resolution plan, the suspended board of directors of HMIPL was replaced by MGEL nominees to the effect that HMIPL became an entity under common control.

(d) The resolution plan inter-alia provides for a composite scheme of arrangement (scheme of arrangement) in the nature of demerger and amalgamation. As per the said scheme of arrangement, Steel Division of HMIPL is demerged and vested into MWL whereas remainder of HMIPL is amalgamated into MGEL.

The Order dated 20 September 2022 of Hon'ble the NCLT Ahmedabad (the adjudicating authority) provides -

- That the approved Resolution Plan shall become effective from the date of passing of the order (20/09/2022).
- That the order of moratorium dated 07/06/2019 passed by the Adjudicating Authority under section 14 of the IBC, 2016 shall cease to have effect from the date of the order.
- That Hon'ble the NCLT has made following observation:

Note – 55– Corporate Insolvency Resolution Process (Resolution Plan): (Contd...)

H M Industrial Private Limited (HMIPL) (FY 2022-23)

18. As far as reliefs and concessions claimed by the Resolution Applicant, the law has been well settled by the Hon'ble Supreme Court in the case of *Ghanshyam Mishra and Sons Private limited Vs Edelweiss Asset Reconstruction Company Limited and Ors. Reported in Manu/SC/0273/2021* in the following words:
- I. The legislative intent behind this is, to freeze all the claims so that the resolution applicant starts on a clean slate and is not flung with any surprise claims. If that is permitted, the very calculations on the basis of which the resolution applicant submits its plan, would go haywire and the plan would be unworkable.
 - II. We have no hesitation to say, that the word "other stakeholders" would squarely cover the central government, any state government or any local authorities. The legislature, noticing that on account of obvious omission, certain tax authorities were not abiding by the mandate of I&B Code and continuing with the proceedings, has brought out the 2019 amendments so as to cure the said mischief..."
19. In view of the above we hold that the Resolution Applicant cannot be saddled with any previous claims against the corporate debtors prior to initiation of its CIRP. For the permits, licenses, leases or any other statutory rights vested in the Corporate Debtors shall remain with the Corporate Debtors and for the continuation of such statutory rights, the resolution applicant has to approach the concerned statutory authorities under relevant laws."
- (iv) In view of (iii) above, the Company is not liable for any liability / demand / claim except those specifically admitted as payable as described here-in-before as regards the all kind of previous claims against HMIPL.

Note – 56 - Amalgamation of H M Industrial Private Limited (HMIPL) (FY 2022-23):

Vide order dated 20 September 2022, Hon'ble NCLT Ahmedabad (the adjudicating authority) has allowed, u/s 30(6) of the Insolvency and Bankruptcy Code, 2016 ("IBC, 2016"), the resolution plan submitted by Mangalam Global Enterprise Limited (MGEL) in respect of corporate debtor M/s H. M. Industrial Private Limited (HMIPL) (under Corporate Insolvency Resolution Process (CIRP)).

Upon the approved scheme coming into effect, the MGEL has accounted for the amalgamation of the remaining business of Transferor Company (HMIPL) in accordance with "Pooling of Interest Method" of accounting as prescribed in the scheme of arrangement and as laid down in Appendix C of Ind AS-103 (Business combination of entities under common control) as per details given below:

- (a) MGEL has recorded assets and liabilities of the acquired business of HMIPL vested in it pursuant to the scheme, at the carrying value in the same form as appearing in the books of HMIPL.
- (b) The identity of the reserves of the HMIPL has been preserved and has been recorded in the same form and at the same carrying amount.
- (c) Inter corporate deposit / loans and advances / intercompany balances outstanding between MGEL and HMIPL has been cancelled.
- (d) Necessary adjustments/ adjusting entries has been passed to ensure that the merged financial statement reflects the financial position based on consistent accounting policies followed by MGEL.
- (e) The surplus (between the net assets acquired and cancellation of share capital of the acquired entity (in this case - Nil) has been credited to other equity (Amalgamation Reserve).
- (f) The financial information in the financial statements in respect of prior periods is not restated since the HMIPL has become 'entity under common control' during the financial year.
- (g) The amalgamation has taken place with effect from the appointed date and in accordance with the provisions of section 2(1B) of the Income tax act 1961.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF MANGALAM GLOBAL ENTERPRISE LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **Mangalam Global Enterprise Limited** (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprises of the Consolidated Balance sheet as at 31st March, '25, the Consolidated statement of Profit and Loss (including other comprehensive income), the consolidated statement of changes in equity and Consolidated Statement of Cash flows for the year ended, and Notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our knowledge and according to the explanations given to us, the aforesaid Consolidated Financial Statements gives the information required by the Companies Act, 2013, in the manner so required, and gives true and fair view in conformity with the accounting principles generally accepted in India, of the

- Consolidated balance sheet of the Group as at 31st March, '25,
- Consolidated Profit and Loss account (including other comprehensive income),
- Consolidated statement of changes in equity
- Consolidated Statement of Cash flows for the year ended 31st March, '25.

Basis for Opinion

We have conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India, the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended 31st March, '25. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon and we do not provide a separate opinion on these matters for each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the following matters to be the key audit matters to be communicated in our report:

The key audit matter	How the matter was address in our audit
Revenue recognition from sale of goods (as described in Note 2.12 and 32 of the consolidated financial statements)	
Revenue of the Company mainly comprises of sale of goods to its customers. Revenue from sale of goods is recognized when control is transferred to the customer and there is no other unfulfilled obligation. This requires detailed analysis of each contract/ customer purchase order regarding timing of revenue recognition. Inappropriate assessment could lead to a risk of revenue being recognized on sale of goods before the control in the goods is transferred to the customer. Accordingly, timing of recognition of revenue is a key audit matter.	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: • Assessed the Company's revenue recognition policy and its compliance with Ind AS 115; • Evaluated the design and tested the operating effectiveness of key controls related to timing of revenue recognition; • Performed testing on selected samples of customer contracts/ customer purchase orders. Checked terms and conditions related to acceptance of goods, acknowledged delivery receipts and tested the transit time to deliver the goods and its revenue recognition. • Our tests of details focused on cut-off samples to verify only revenue pertaining to current year is recognized based on delivery documents along with terms and conditions set out in customer contracts/ customer purchase orders.

The key audit matter	How the matter was address in our audit
Inventory (as described in Note 2.9 and 13 of the Consolidated financial statements)	
The carrying value of inventory as at 31st March, '25 is Rs. 10,473.97 lakhs. The inventory is valued at lower of cost or net realisable value after providing for obsolescence if any. We considered the value of inventory as a key audit matter given the relative size of its balance in the financial statements and significant judgment involved in the consideration of factors in determination of selling prices such as fluctuation of raw materials prices in the market and in determination of net realizable value.	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: • We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory. • Assessing the appropriateness of Company's accounting policy for valuation of stock-in-trade and compliance of the policy with the requirements of the prevailing Indian accounting standards. • We considered various factors including the actual selling price prevailing around and subsequent to the year-end. • Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value. Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.
Tax litigations and contingencies (as described in Note 2.24 and 45 of the consolidated financial statements)	
The Company has litigations in respect of certain matters at various authority levels, in respect of which, the company has disclosed contingent liabilities as at 31st March, '25. The management's assessment with regard to the tax matters is supported by advice from independent consultants. We considered this as a key audit matter, as evaluation of these matters requires significant management judgement and estimation, interpretation of laws and regulations and application of relevant judicial precedents to determine the probability of outflow of economic resources for recognising provisions and making related disclosures in the financial statements. The application of accounting principles as given under Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets, in order to determine the amount to be recognised as a provision, or to be disclosed as a contingent Liability, needs careful evaluation and judgement to be applied by the management.	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: • We evaluated and assessed and tested the design and operating effectiveness of key controls surrounding assessment of litigations; • Obtaining a complete list of litigation matters and reading the underlying orders and other communications received from tax authorities and management's responses thereto, to assess the status of the litigations; • Evaluating the independence, objectivity and competence of management's experts involved; • Reading the management's experts advice, as applicable; • Evaluating the management's assessment on the probability of outcome and the magnitude of potential outflow of economic resources in respect of tax matters including involvement of our tax experts for assessing complex tax matters, based on recent rulings and latest developments in case laws; • Evaluating appropriateness of the Company's disclosures in the financial statements. Based on the above procedures, the assessment made by management in respect of disclosures made in 'contingent liabilities' relating to these matters in the Consolidated financial statements was considered to be appropriate.
Carrying value of trade receivables and advances	
The collectability of the Company's trade receivables and advances (including trade advances), the valuation of allowance for impairment of trade receivables and provision for bad and doubtful debt require significant management judgement. As per the current assessment of the situation based on the internal and external information available up to the date	We applied the following audit procedures in this area, among others to obtain sufficient appropriate audit evidence: • Assessing the Company's policies for recognizing loss allowance for trade receivable and advances to determine the carrying value of trade receivables and advances. • Assessing trade receivables and advances on sample basis, based on its ageing along with historical trend/ pattern of collections received

The key audit matter	How the matter was address in our audit
Carrying value of trade receivables and advances	
of approval of these financial statements by the Board of Directors, the Company believes that there is no indication of any material impact on the carrying value. The management considers such information to determine whether a provision for impairment or for bad debt is required either for a specific transaction or for a customer's balance overall. Accordingly, it has been determined as a key audit matter.	from the customers including the same received subsequent to year end, up to the date of completion of audit procedures. - Evaluating management's assessment of recoverability of outstanding receivables through inquiry with the management regarding disputes between the parties involved, attempts by the management to recover the amounts outstanding and on the credit status of significant counterparties wherever available. - Assessing the appropriateness of the loss allowance for trade receivables and advances made by the Company. - Assessing the disclosures made by the Company in this regard in the consolidated financial statements.

Information Other than the financial statements and Auditor's report thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 that give a true and fair view of the Consolidated financial position and Consolidated financial performance including other comprehensive income, consolidated cash flows and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the Company included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statement, that gives a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the Companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objective is to obtain reasonable assurance about whether the consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect

a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are Independent Auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended 31st March, '25 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

“Annexure B” to the Independent Auditor’s Report of even date to the members of Mangalam Global Enterprise Limited on the Consolidated Financial Statements for the year ended 31st March, ‘25

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the Consolidated Financial Statements of Mangalam Global Enterprise Limited as of and for the year ended 31st March, ‘25, we have audited the internal financial controls over financial reporting of Mangalam Global Enterprise Limited (hereinafter referred to as the “Holding Company”) and its subsidiary, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiaries, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company, its subsidiaries, which are companies incorporated in India, internal financial controls over financial reporting with reference to these Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both, issued by ICAI, and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements.

Meaning of Internal Financial Controls with Reference to these Consolidated Financial Statements

A Company’s internal financial control over financial reporting with reference to these Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting with reference to these Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Financial Statements to future year are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in Other Matters paragraph below, the Holding Company, its subsidiary, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these Consolidated Financial Statements were operating effectively as at 31st March, '25, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

General Information & Statement of Compliance with Ind AS:

These financial statements are the consolidated financial statements prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended.

Note 2 : Material Accounting Policies:

2.1 Basis of Preparation and Presentation:

The Financial Statements have been prepared on the historical cost basis except for following assets and liabilities which have been measured at fair value amount:

- Certain Financial Assets and Liabilities (including derivative instruments), and
- Defined Benefit Plans – Plan Assets

The Group's Financial Statements are presented in Indian Rupees, which is also its functional currency and all values are rounded to the nearest Lakhs, except when otherwise indicated.

2.2 Principles of Consolidation

The consolidated financial statements have comprised financial statements of the Holding Company and its subsidiaries. Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. The Group can have power over the investee even if it owns less than majority voting rights i.e. rights arising from other contractual arrangements. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. Statement of profit and loss (including other comprehensive income ('OCI')) of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

The Group combines the financial statements of the Holding Company and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost.

- Derecognises the cumulative translation differences recorded in equity.
- Recognises the fair value of the consideration received.
- Recognises the fair value of any investment retained.
- Recognises any surplus or deficit in profit or loss.
- Recognise that distribution of shares of subsidiary to Group in Group's capacity as owners.
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or transferred directly to retained earnings, if required by other Ind ASs as would be required if the Group had directly disposed of the related assets or liabilities.

2.3 Fair Value Measurement:

Some of the group company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The group company has an established control framework with respect to the measurement of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the group company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The group company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Current and Non-Current Classification:

The group company presents assets and liabilities in the Balance Sheet based on Current / Non- Current classification.

An asset is treated as Current when it is –

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or Cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as Non-Current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The group company classifies all other liabilities as Non-Current.

Deferred Tax Assets and Liabilities are classified as Non-Current Assets and Liabilities.

2.5 Property, Plant and Equipment:

(a) Tangible Assets:

Property, Plant and Equipment are stated at cost, net of recoverable taxes, trade discount and rebates less accumulated depreciation and impairment losses, if any. Such cost includes purchase price, borrowing cost and any cost directly attributable to bringing the assets to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Other Indirect Expenses incurred relating to project, net of income earned during the project development stage prior to its intended use, are considered as pre-operative expenses and disclosed under Capital Work-in-Progress.

Depreciation:

Free hold land is not depreciated. Leasehold land and the improvement costs are amortized over the period of the lease. Depreciation on Property, Plant and Equipment is provided using SLM. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II:

Name of Property, Plants and Equipment	Useful Life*
Factory Building	30-40 Years
Building (Other than Factory Building)	60 Years
Plant and Machineries (Including Continuous Process Plant)	8-30 Years
Furniture and Fixtures	10 Years
Office Equipment	5 Years
Computer and Other Data Processing units	3 Years
Motor Vehicles	8 Years
Electrical Installation and Other Equipment	5-10 Years

* The Group, based on internal technical assessments, management estimates, valuation and useful life certificate from Chartered Engineer (wherever deemed required), depreciates certain items of property, plant & equipment acquired through merger, demerger, acquisition and amalgamation over the estimated useful lives and considering residual value which are different from the one prescribed in Schedule II of the Companies Act, 2013. The management believes that these estimated useful lives and residual values are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

Gains or losses arising from derecognition of a Property, Plant and Equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

(b) Capital Work-in-Progress and Capital Advances:

Cost of Property, Plant and Equipment not ready for intended use, as on the balance sheet date, is shown as a "Capital Work-in-Progress". The Capital Work-in-Progress is stated at cost. Any expenditure in relation to survey and investigation of the properties is carried as Capital Work-in-Progress. Such expenditure is either capitalized as cost of the projects on completion of construction project or the same is expensed in the period in which it is decided to abandon such project. Any advance given towards acquisition of Property, Plants and Equipment outstanding at each balance sheet date is disclosed as "Other Non-Current Assets".

(c) Intangible Assets:

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortisation/depletion and impairment losses, if any. Such cost includes purchase price, borrowing

costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the Intangible Assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Amortization:

The amortization expenses on Intangible assets with the finite lives are recognized in the Statement of Profit and Loss. The group company's intangible assets comprises assets with finite useful life which are amortised on a straight-line basis over the period of their expected useful life as tabulated below:

Particulars	Useful Life
Accounting, antivirus and other misc. softwares	3 Years
Other firewall and operating software	6 Years

The amortization period and the amortization method for an intangible asset with finite useful life is reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

Gains or losses arising from derecognition of an Intangible Asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

2.6 Impairment of Non-Financial Assets – Property, Plant and Equipment and Intangible Assets:

The Entity assesses at each reporting date as to whether there is any indication that any Property, Plant and Equipment and Intangible Assets or group of Assets, called Cash Generating Units (CGU) may be impaired. If any such indication exists, the recoverable amount of an asset or CGU is estimated to determine the extent of impairment, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Entity estimates the recoverable amount of the CGU to which the asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.7 Lease:

(a) The Group as a Lessee:

The Entity, as a lessee, recognises a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the group company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any, and adjusted for any remeasurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Entity measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Entity uses incremental borrowing rate.

(b) The Group as a Lessor:

Leases for which the Entity is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight-line basis over the term of the relevant lease.

2.8 Investment Properties:

Items of investment properties are measured at cost less accumulated depreciation/ amortization and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. Investment properties are depreciated on straight line method on pro-rata basis at the rates specified therein. Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Entity and the cost of the item can be measured reliably.

2.9 Inventories:

Items of inventories are measured at lower of cost and net realisable value after providing for obsolescence, if any, except in case of by-products which are valued at net realisable value. Cost of inventories comprises of cost of purchase, cost of conversion and other costs including manufacturing overheads net of recoverable taxes incurred in bringing them to their respective present location and condition.

Cost of raw materials, chemicals, stores and spares, components, consumables, packing materials, trading and other products are determined at Cost, while the valuation of finished goods and work-in-progress are determined on weighted average basis.

Net realizable value is estimated selling price in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale.

2.10 Borrowing Costs:

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

2.11 Employee Benefits:

(a) Short-Term Employee Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

(b) Post-Employment Benefits:

(i) Defined Contribution Plans:

The Entity recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.

(ii) Defined Benefit Plans:

(a) Gratuity Scheme:

The Entity at the time of resignation/superannuation. The gratuity is paid @ 15 days basic salary for every completed year of service as per the Payment of Gratuity Act, 1972. The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the period during which the benefit is expected to be derived from employees' services.

Remeasurement gains and losses arising from adjustments and changes in actuarial assumptions are recognised in the period in which they occur in Other Comprehensive Income.

(iii) Other Long - Term Employee Benefits:

Entitlement to annual leave is recognized when they accrue to employees.

2.12 Revenue Recognition:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services.

The Entity is generally the principal as it typically controls the goods or services before transferring them to the customer.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Entity has not retained any significant risks of ownership or future obligations with respect to the goods shipped. Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

Revenue is measured at the amount of consideration received or receivable, stated net of discounts, returns and indirect taxes which the Group Company expects to be entitled to in exchange for transferring distinct goods or services to a customer as specified in the contract, excluding amounts collected on behalf of third parties (for example taxes and duties collected on behalf of the government). Consideration is generally due upon satisfaction of performance obligations and a receivable is recognised when it becomes unconditional.

Gain/loss on contracts settlements of raw materials purchases with suppliers are accounted in the statement of profit and loss.

Export Incentives:

Export incentive revenues are recognized when the right to receive the credit is established and there is no significant uncertainty regarding the ultimate collection.

Interest Income:

Interest Income from a Financial Assets is recognised using effective interest rate method.

Dividend Income:

Dividend Income is recognised when the Entity's right to receive the amount has been established.

Surplus / (Loss) on disposal of Property, Plants and Equipment / Investments:

Surplus or loss on disposal of property, plants and equipment or investment is recorded on transfers of title from the Entity, and is determined as the difference between the sales price and carrying value of the property, plants and equipment or investments and other incidental expenses.

Rental Income:

Rental income arising from operating lease on investments properties is accounted for on a straight - line basis over the lease term except the case where the incremental lease reflects inflationary effect and rental income is accounted in such case by actual rent for the period.

Insurance Claim:

Claim receivable on account of insurance is accounted for to the extent the Group Company is reasonably certain of their ultimate collections.

Other Income:

Revenue from other income is recognized when the payment of that related income is received or credited.

Contract Balances:

(a) Trade Receivables

A receivable represents the Group Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

(b) Contract Liabilities

Advance from customer is the obligation to transfer goods or services to a customer for which the Group Company has received consideration from the customer. Advance from customer is recognised as revenue when the Group Company performs under the contract.

2.13 Foreign Currency Transactions and Translation:

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets which are capitalised as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the

exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in Other Comprehensive Income or Statement of Profit and Loss are also recognised in Other Comprehensive Income or Statement of Profit and Loss, respectively).

2.14 Government Grants and Subsidies:

Grants in the nature of subsidies which are non-refundable are recognized as income where there is reasonable assurance that the Entity will comply with all the necessary conditions attached to them. Income from grants is recognized on a systematic basis over periods in which the related costs that are intended to be compensated by such grants are recognized.

Refundable government grants are accounted in accordance with the recognition and measurement principle of Ind AS 109, "Financial Instruments". It is recognized as income when there is a reasonable assurance that the Entity will comply with all necessary conditions attached to the grants. Income from such benefit is recognized on a systematic basis over the period of the grants during which the Entity recognizes interest expense corresponding to such grants.

2.15 Financial Instruments - Financial Assets:

(a) Initial Recognition and Measurement:

All Financial Assets are initially recognised at fair value. Transaction costs that are directly attributable to the acquisition or issue of Financial Assets, which are not at Fair Value Through Profit or Loss, are adjusted to the fair value on initial recognition. Purchase and sale of Financial Assets are recognised using trade date accounting.

(b) Subsequent Measurement:

(i) Financial Assets measured at Amortised Cost (AC):

A Financial Asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the Financial Asset give rise to cash flows on specified dates that represent solely payments of principal and interest on the principal amount outstanding.

(ii) Financial Assets measured at Fair Value through Other Comprehensive Income (FVTOCI):

A Financial Asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling Financial Assets and the contractual terms of the Financial Asset give rise on specified dates to cash flows that represents solely payments of principal and interest on the principal amount outstanding.

Further, the Entity, through an irrevocable election at initial recognition, has measured certain investments in equity instruments at FVTOCI. The Entity has made such election on an instrument-by-instrument basis. These equity instruments are neither held for trading nor are contingent consideration recognized under a business combination. Pursuant to such irrevocable election, subsequent changes in the fair value of such equity instruments are recognized in OCI. However, the Entity recognizes dividend income from such instruments in the Statement of Profit and Loss.

(iii) Financial Assets measured at Fair Value through Profit or Loss (FVTPL):

A Financial Asset which is not classified in any of the above categories is measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Group Company changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 - Financial Instruments.

(c) Investments:

Investments are classified in to Current or Non-Current Investments. Investments that are readily realizable and intended to be held for not more than a year from the date of acquisition are classified as Current Investments. All other Investments are classified as Non - Current Investments. However, that part of Non - Current Investments which are expected to be realized within twelve months from the Balance Sheet date is also presented under "Current Investments" under "Current portion of Non-Current Investments" in consonance with Current/Non-Current classification of Schedule - III of the Act.

All the equity investment which covered under the scope of Ind AS 109, "Financial Instruments" is measured at the fair value. Investment in Mutual Fund is measured at fair value through profit and loss (FVTPL). Trading Instruments are measured at fair value through profit and loss (FVTPL).

(d) Investment in Subsidiaries, Associates and Joint Ventures:

The Entity has accounted for its investments in Subsidiaries, associates and joint venture at cost less impairment loss (if any).

(e) Impairment of Financial Assets:

In accordance with Ind AS 109, the Entity uses 'Expected Credit Loss' (ECL) model, for evaluating impairment of Financial Assets other than those measured at Fair Value Through Profit and Loss (FVTPL).

2.16 Financial Instruments - Financial Liabilities:**(a) Initial Recognition and Measurement:**

All Financial Liabilities are recognised at fair value and in case of borrowings, net of directly attributable cost. Fees of recurring nature are directly recognised in the Statement of Profit and Loss as finance cost.

(b) Subsequent Measurement:

Financial Liabilities are carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.17 Derivative Financial Instruments and Hedge Accounting:

The Entity enters into derivative contracts in the nature of forward currency contracts with external parties to hedge its foreign currency risks relating to foreign currency denominated financial assets measured at amortised cost.

The Entity formally establishes a hedge relationship between such forward currency contracts ('hedging instrument') and recognised financial assets ('hedged item') through a formal documentation at the inception of the hedge relationship in line with the Entity's Risk Management objective and strategy.

The hedge relationship so designated is accounted for in accordance with the accounting principles prescribed for a cash flow hedge under Ind AS 109, 'Financial Instruments'.

Recognition and measurement of cash flow hedge:

The Entity strictly uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. As per Ind AS 109 - Financial Instruments, foreign currency forward contracts are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in hedge reserve (under reserves and surplus) through other comprehensive income and the ineffective portion is recognised immediately in the statement of profit and loss.

The accumulated gains / losses on the derivatives accounted in hedge reserve are transferred to the statement of profit and loss in the same period in which gains / losses on the underlying item hedged are recognised in the statement of profit and loss.

Derecognition:

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. When hedge accounting is discontinued for a cash flow hedge, the net gain or loss will remain in hedge reserve and be reclassified to the statement of profit and loss in the same period or periods during which the formerly hedged transaction is reported in the statement of profit and loss. If a hedged transaction is no longer expected to occur, the net cumulative gains / losses recognised in hedge reserve is transferred to the statement of profit and loss.

Fair Value Hedge:

The Entity designates derivative contracts or non-derivative Financial Assets/Liabilities as hedging instruments to mitigate the risk of change in fair value of hedged item due to movement in interest rates, foreign exchange rates and commodity prices.

Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to Statement of Profit and Loss over the period of maturity.

2.18 Derecognition of Financial Instruments:

The Entity derecognises a Financial Asset when the contractual rights to the cash flows from the Financial Asset expire or it transfers the Financial Asset and the transfer qualifies for derecognition under Ind AS 109. A Financial liability (or a part of a financial liability) is derecognised from the Entity's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.19 Financial Instruments - Offsetting:

Financial Assets and Financial Liabilities are offset and the net amount is presented in the balance sheet when, and only when, the Entity has a legally enforceable right to set off the amount and it intends, either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.20 Taxes on Income:

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the Other Comprehensive Income. In which case, the tax is also recognised in Other Comprehensive Income.

(a) Current Tax:

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the Income Tax authorities, based on tax rates and laws that are enacted at the Balance sheet date.

(b) Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

Presentation

The Entity offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Group Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Group Company.

2.21 Segment Reporting:

Segments are identified having regard to the dominant source and nature of risks and returns and the internal organization and management structure. The group company has considered Business Segments as Primary Segments.

Segments Accounting Policies:

The group company prepares its Segment Information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the group company as a whole.

Inter - Segment Transfer:

The group company generally accounts the Inter - Segment transfers at an agreed value of the transactions.

Allocation of Common Costs:

Common allocable costs are allocated to each segment reporting according to the relative contribution of each segment to the total of common costs.

Unallocated Items:

Unallocated Items include the General Corporate Income and Expense items which are not allocated to any of the Business Segments.

2.22 Research and Development:

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss as and when incurred.

Development costs are capitalised as an intangible asset if it can be demonstrated that the project is expected to generate future economic benefits, it is probable that those future economic benefits will flow to the Entity and the costs of the asset can be measured reliably, else it is charged to the Statement of Profit and Loss.

2.23 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit after tax by the weighted average number of equity shares outstanding during the year adjusted for bonus element in equity share. Diluted earnings per share adjusts the figures used in determination of basic earnings per share to take into account the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as at the beginning of the period unless issued at a later date.

2.24 Provisions, Contingent Liabilities:

Provisions are recognised when the Entity has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Entity or a present obligation that arises from past events where it is either not probable that an outflow of resources embodying economic benefits will be required to settle or a reliable estimate of amount cannot be made.

2.25 Events after Reporting Date:

Where events occurring after the Balance Sheet date provide evidence of condition that existed at the end of reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

2.26 Non – Current Assets Held For Sales:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable.

A sale is considered as highly probable when decision has been made to sell, assets are available for immediate sale in its present condition, assets are being actively marketed and sale has been agreed or is expected to be concluded within 12 months of the date of classification.

Non-current assets held for sale are neither depreciated nor amortised.

Assets and liabilities classified as held for sale are measured at the lower of their carrying amount and fair value less cost of sale and are presented separately in the Balance Sheet

2.27 Cash Flows Statement:

Cash Flows Statements are reported using the method set out in the Ind AS - 7, "Cash Flow Statements", whereby the Net Profit / (Loss) before tax is adjusted for the effects of the transactions of a Non-Cash nature, any deferrals or accrual of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the group company are segregated.

2.28 Cash and Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an immaterial risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposit held at call with financial institutions, other short - term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an immaterial risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

2.29 Business Combination:

Business combinations arising from transfers or interests in entities that are under the control of the shareholders that controls the Group Companies are accounted for using the 'pooling of interests method', as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose, comparatives are revised, if required. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Group in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the net assets acquired and cancellation of share capital of the acquired entity is transferred to other equity.

2.30 Recent Pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. MCA has notified Ind AS – 117 Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its financial statements.

Note 3 : Critical Accounting Judgments and Key Sources of Estimation Uncertainty:

These financial statements are the consolidated financial statements prepared in accordance with Indian Accounting Standard ("Ind AS") notified under the Companies Act, 2013 ("the Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended

3.1 Income Tax:

The Holding Company's tax jurisdiction is in India. Significant judgments are involved in estimating budgeted profits for

the purpose of paying advance tax, determining the income tax provisions, including the amount expected to be paid / recovered for uncertain.

3.2 Property Plant and Equipment / Intangible Assets:

Estimates are involved in determining the cost attributable to bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by the management. Property, Plant and Equipment/Intangible Assets are depreciated/amortised over their estimated useful life, after taking into account estimated residual value. Management reviews the estimated useful life and residual values of the assets annually in order to determine the amount of depreciation/ amortisation to be recorded during any reporting period. The useful life and residual values are based on the Entity's historical experience with similar assets and take into account anticipated technological changes. The depreciation/amortisation for future periods is revised if there are significant changes from previous estimates.

3.3 Defined Benefits Obligations:

The costs of providing Gratuity and other post-employment benefits are charged to the Statement of Profit and Loss in accordance with Ind AS - 19, "Employee Benefits" over the period during which benefit is derived from the employees' services. It is determined by using the Actuarial Valuation and assessed on the basis of assumptions selected by the management. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. Due to complexities involved in the valuation and its long term in nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are reviewed at each balance sheet date.

3.4 Fair value measurements of Financial Instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgments and assumptions.

3.5 Recoverability of Trade Receivables:

Judgments are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty, the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

3.6 Provisions:

The timing of recognition and quantification of the liability (including litigations) requires the application of judgment to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

3.7 Impairment of Financial and Non - Financial Assets:

The impairment provisions for Financial Assets are based on assumptions about risk of default and expected cash loss rates. The Entity uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Entity's past history, existing market conditions as well as forward-looking estimates at the end of each reporting period.

In case of non-financial assets entity estimates asset's recoverable amount, which is higher of an asset's or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if no such transactions can be identified, an appropriate valuation model is used.

3.8 Recognition of Deferred Tax Assets and Liabilities:

Deferred tax assets and liabilities are recognised for deductible temporary differences and unused tax losses for which there is probability of utilisation against the future taxable profit. The Entity uses judgment to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits and business developments.

3.9 Supplier Financing Arrangements:

Group participate in various supply chain finance programs under which participating suppliers may voluntarily elect to sell some or all of their Group receivables to third-party financial institutions. Supplier participation in the programs is solely up to the supplier, and participating suppliers enter their arrangements directly with the financial institutions. The Group derecognise financial liability when the obligation under the liability is discharged or cancelled or expires. A significant amount of management judgment is involved in such arrangements to determine when an existing financial liability is replaced by another on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. 29.1 The Holding Company participates in various supply chain finance programs under which participating suppliers may voluntarily elect to sell some or all of their Company receivables to third-party financial institutions. Supplier participation in the programs is solely up to the supplier, and participating suppliers enter their arrangements directly with the financial institutions. The Company and its suppliers agree on the contractual terms for the goods and services it procure, including prices, quantities and payment terms, regardless of whether the supplier elects to participate in these programs. The suppliers' voluntary inclusion of invoices in these programs has no bearing on our payment terms. Further, the company has no economic interest in a supplier's decision to participate in these programs. As at 31-Mar-2025 and 31-Mar-2024, confirmed supplier invoices that are outstanding and subject to the third-party programs included in accounts payable on the balance sheets were Rs. 6,883.40 Lakhs and Rs. 5,118.82 Lakhs, respectively. The Company do not believe that future changes in the availability of supply chain financing will have a significant impact on the Company's liquidity.

(₹ in Lakhs)

Particulars	As at 31st March, 2025	As at 31st March, 2024
Employer's Contribution to Provident Fund	17.49	16.75

B. Defined Benefit Plans :

Gratuity (Unfunded) :

- The Group administers its employees gratuity scheme unfunded liability. The present value of the liability for the defined benefit plan of gratuity obligation is determined based on actuarial valuation by an independent actuary at the period end, which is calculated using the projected unit credit method, which recognises each year of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.
- Gratuity benefits in India are governed by the payment of Gratuity Act, 1972. the Key Features are as under:
 - Benefits Offered : 15 / 26 X Salary X Duration of Service
 - Salary Definition : Basic Salary Including Dearness Allowance (If Any)
 - Benefit Ceiling : Benefit Ceiling of Rs. 20 Lakhs (Not Applied)
 - Vesting Conditions: 5 Years of Continuous Service (Not Applicable In Case Of Death/ Disability)
 - Benefit Eligibility : Upon Death or Resignation or Withdrawal or Retirement
 - Retirement Age : 58, 60, 62 Or 65 Years

Note - 44 - Employee Benefits: (Contd...)
B. Defined Contribution Plans :
Gratuity (Unfunded) :

(iii) Risks associated to the defined benefit plan of Gratuity:

- (a) **Investment / Interest Risk:** The present value of defined benefit plan liability is calculated using discount rate determined with reference to market yield on government bonds denominated in Indian rupees. A decrease in the bond interest rate will increase the plan liability.
- (b) **Longevity Risk:** The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of the plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
- (c) **Salary Risk:** The present value of the defined benefit plan liability is calculated by reference to the future salaries of the plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.
- (d) **Legislative Risk:** Risks of increase in the plan liabilities or reduction in plan assets due to change in legislation.

Subsequent to the approval of the Resolution Plan vide order dated 20th September, 2022, wherein Mangalam Global Enterprise Limited (MGEL) has successfully acquired H.M. Industrial Pvt Ltd (HMIPL), the Income tax department has initiated reassessment proceedings for Assessment Year 2019-20 under section 147/ 148 of the Income Tax Act, 1961 in the name of HMIPL. The company has challenged the action of the income tax department by way of special civil application before the Hon'ble Gujarat High Court seeking to quash the said action and has also requested for an ad interim relief to stay the proceedings till the disposal of the company's petition. Management is of the view that the action of the income tax authorities is not in accordance with the law.

@ The holding Company has received notice from Advantage Oil Private Limited related to on account of compensation for early termination of bundi plant lease demanding of Rs. 458.27 Lakhs as a due as on 19-10-2023, which are not payable as per opinion of the management of the company.

The GST Department has issued a show cause notice concerning a GST audit conducted under section 65 of the CGST Act, 2017, covering the period from 1st April 2020 to 31st March 2023. In response to the notice, the company has already submitted a reply. However, no official order has been issued to confirm any financial liability. The management believes that the actions taken by the income tax authorities may not comply with law.

Following the approval of the Resolution Plan through the order dated 20th September 2022, Mangalam Global Enterprise Limited (MGEL) successfully acquired H.M. Industrial Pvt Ltd (HMIPL). On 4th April 2025, the company received a demand notice under Section 156 of the Income Tax Act, 1961, amounting to Rs. 25,047.53 Lakhs for the assessment year 2018-19, issued by the Income Tax Department to HMIPL. This demand is currently being contested before the Hon'ble National Company Law Tribunal (NCLT) in Ahmedabad. The management holds the position that the actions taken by the income tax authorities do not in accordance with the law.

It is not practicable for the group to estimate the timings of cash outflows, if any, in respect of the above pending resolution of the respective proceedings as it is determinable only on the receipt of the judgements/decisions pending with various forums/authorities.

The Group does not expect any reimbursements in respect of the above contingent liabilities.

The Holding Company has evaluated the impact of Supreme Court ("SC") judgement dated February 28, 2019 in the case of Regional Provident Fund Commissioner (II) West Bengal v/s Vivekananda Vidyamandir and Others, in relation to exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to Provident Fund ("PF") under the Employees' Provident Fund & Miscellaneous Provisions Act, 1952. There are interpretation issues relating to the said SC judgement. Based on such evaluation, management has concluded that effect of the aforesaid judgement on the Company is not material and accordingly, no provision has been made in the financial statements.

Note - 46 - Operating Segment Information:

Note – 52 – Financial Instruments:

Financial Risk Management – Objectives and Policies:

The Group financial liabilities mainly comprise the loans and borrowings in foreign as well as domestic currency, money related to capital expenditures, lease liabilities, trade and other payables. The main purpose of these financial liabilities is to finance the Group operations. The Group financial assets comprise mainly of investments, security deposits, cash and cash equivalents, other balances with banks, trade and other receivables that derive directly from its business operations.

The Group Companies are exposed to the Market Risk, Credit Risk and Liquidity Risk from its financial instruments.

The Management of the Group has implemented a risk management system which is monitored by the Board of Directors of the Group. The general conditions for compliance with the requirements for proper and future-oriented risk management within the Group Companies are set out in the risk management principles. These principles aim at encouraging all members of staff to responsibly deal with risks as well as supporting a sustained process to improve risk awareness. The guidelines on risk management specify risk management processes, compulsory limitations, and the application of financial instruments. The risk management system aims to identify, assess, mitigate the risks in order to minimize the potential adverse effect on the Group Companies financial performance.

The following disclosures summarize the Group exposure to the financial risks and the information regarding use of derivatives employed to manage the exposures to such risks. Quantitative Sensitivity Analysis has been provided to reflect the impact of reasonably possible changes in market rate on financial results, cash flows and financial positions of the Group.

* Investment in subsidiaries are measured at cost as per Ind AS 27, "Separate financial statements", and hence not presented here.

@ Fair value of financial assets and liabilities measured at amortized cost approximates their respective carrying values as the management has assessed that there is no significant movement in factor such as discount rates, interest rates, credit risk. The fair values are assessed by the management using Level 3 inputs.

The financial instruments measured at FVTPL represents current investments and derivative assets having been valued using level 2 valuation hierarchy.

Fair Value Hierarchy

The fair value of financial instruments as referred to in note below has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities [Level 1 measurements] and lowest priority to unobservable inputs [Level 3 measurements].

Notes to the Consolidated Financial Statements for the period ended on 31st March, 2025

Note – 52 – Financial Instruments: (Contd...)

The categories used are as follows:

Level 1: Quoted prices for identical instruments in an active market

Level 2: Directly (i.e. as prices) or indirectly (i.e. derived from prices) observable market inputs, other than Level 1 inputs; and

Level 3: Inputs which are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a net asset value or valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data

B. Market Risk:

Market Risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of Risk: "Interest Rate Risk, Currency Risk and Other Price Risk". Financial instrument affected by the Market Risk includes loans and borrowings in foreign as well as domestic currency, retention money related to capital expenditures, trade and other payables.

(a) Interest Rate Risk:

Interest Rate Risk is the risk that fair value or future cash outflows of a financial instrument will fluctuate because of changes in market interest rates. An upward movement in the interest rate would adversely affect the borrowing cost of the Group. The Group is exposed to long term and short - term borrowings. The Group manages interest rate risk by monitoring its mix of fixed and floating rate instruments and taking actions as necessary to maintain an appropriate balance. The Group has not used any interest rate derivatives.

C. Credit Risk:

Credit risk is the risk that a counterparty fails to discharge its obligation to the Group. The Group Company's exposure to credit risk is influenced mainly by cash and cash equivalents, trade receivables and other financial assets measured at amortized cost. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

The Group assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets. (i) Low credit risk, (ii) Moderate credit risk, (iii) High credit risk.

Based on business environment in which the group operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Financial assets (other than trade receivables) that expose the entity to credit risk are managed and categorized as follows:

Basis of categorisation	Asset class exposed to credit risk	Provision for expected credit loss
Low credit risk	Cash and cash equivalents, other bank balances, loans and other financial assets	12 month expected credit loss.
Moderate credit risk	Other financial assets	12 month expected credit loss, unless credit risk has increased significantly since initial recognition, in which case allowance is measured at life time expected credit loss
High credit risk	Other financial assets	Life time expected credit loss (when there is significant deterioration) or specific provision whichever is higher

Notes to the Consolidated Financial Statements for the period ended on 31st March, 2025

Note – 52 – Financial Instruments: (Contd...)

Financial Assets (other than Trade Receivables) that expose the entity to Credit Risk (Gross Exposure): (₹ in Lakhs)

Particulars	As at 31st March, 2025	As at 31st March, 2024
Low Credit Risk		
Cash and Cash Equivalents	79.53	161.37
Bank Balances other than above	1,384.67	1,248.47

Moderate/ High Credit Risk		
Other Receivable	82.60	82.60
Total	2,448.92	2,438.86

- Cash and Cash Equivalent and Bank Balance:**

Credit Risk related to cash and cash equivalents and bank balance is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

- Loans and Other Financial Assets Measured at Amortized Cost:**

Other financial assets measured at amortized cost includes export benefits receivables, bank deposits with maturity of more than 12 months and other receivables. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

- Trade receivables:**

Life time expected credit loss is provided for trade receivables. Based on business environment in which the group operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions. Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or a litigation decided against the group. The Group continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognized in statement of profit and loss.

- Expected Credit Loss:**

Expected Credit Loss for Trade Receivables and Other Receivables under simplified approach:

The Group recognizes lifetime expected credit losses on trade receivables & other receivables using a simplified approach, wherein group has defined percentage of provision by analyzing historical trend of default based on the criteria defined below and such provision percentage determined have been considered to recognize life time expected credit losses on trade receivables/other receivables (other than those where default criteria are met in which case the full expected loss against the amount recoverable is provided for). Further, the group has evaluated recovery of receivables on a case to case basis. No provision on account of expected credit loss model has been considered for related party balances. The group computes credit loss allowance based on provision matrix. The provision matrix is prepared on historically observed default rate over the expected life of trade receivable and is adjusted for forward - looking estimate.

Notes to the Consolidated Financial Statements for the period ended on 31st March, 2025

Note – 55 - Corporate Insolvency Resolution Process (Resolution Plan): H M Industrial Private Limited (HMIPL) (FY 2022-23): (Contd...)

- (c) On approval of the resolution plan, the suspended board of directors of HMIPL was replaced by MGEL nominees to the effect that HMIPL became an entity under common control.
- (d) The resolution plan inter-alia provides for a composite scheme of arrangement (scheme of arrangement) in the nature of demerger and amalgamation. As per the said scheme of arrangement, Steel Division of HMIPL is demerged and vested into MWL whereas remainder of HMIPL is amalgamated into MGEL.

The Order dated 20 September 2022 of Hon'ble the NCLT Ahmedabad (the adjudicating authority) provides -

- (i) That the approved Resolution Plan shall become effective from the date of passing of the order (20/09/2022).
- (ii) That the order of moratorium dated 07/06/2019 passed by the Adjudicating Authority under section 14 of the IBC, 2016 shall cease to have effect from the date of the order.
- (iii) That Hon'ble the NCLT has made following observation:

18. *As far as reliefs and concessions claimed by the Resolution Applicant, the law has been well settled by the Hon'ble Supreme Court in the case of Ghanshyam Mishra and Sons Private limited Vs Edelweiss Asset Reconstruction Company Limited and Ors. Reported in Manu/SC/0273/2021 in the following words:*

- I. *The legislative intent behind this is, to freeze all the claims so that the resolution applicant starts on a clean slate and is not flung with any surprise claims. If that is permitted, the very calculations on the basis of which the resolution applicant submits its plan, would go haywire and the plan would be unworkable.*
- II. *We have no hesitation to say, that the word "other stakeholders" would squarely cover the central government, any state government or any local authorities. The legislature, noticing that on account of obvious omission, certain tax authorities were not abiding by the mandate of I&B Code and continuing with the proceedings, has brought out the 2019 amendments so as to cure the said mischief.."*

19. *In view of the above we hold that the Resolution Applicant cannot be saddled with any previous claims against the corporate debtors prior to initiation of its CIRP. For the permits, licenses, leases or any other statutory rights vested in the Corporate Debtors shall remain with the Corporate Debtors and for the continuation of such statutory rights, the resolution applicant has to approach the concerned statutory authorities under relevant laws."*

- (iv) In view of (iii) above, the Company is not liable for any liability / demand / claim except those specifically admitted as payable as described here-in-before as regards the all kind of previous claims against HMIPL.

Note – 56 - Amalgamation of H M Industrial Private Limited (HMIPL) (FY 2022-23):

Vide order dated 20 September 2022, Hon'ble NCLT Ahmedabad (the adjudicating authority) has allowed, u/s 30(6) of the Insolvency and Bankruptcy Code, 2016 ("IBC, 2016"), the resolution plan submitted by Mangalam Global Enterprise Limited (MGEL) in respect of corporate debtor M/s H. M. Industrial Private Limited (HMIPL) (under Corporate Insolvency Resolution Process (CIRP)).

Upon the approved scheme coming into effect, the MGEL has accounted for the amalgamation of the remaining business of Transferor Company (HMIPL) in accordance with "Pooling of Interest Method" of accounting as prescribed in the scheme of arrangement and as laid down in Appendix C of Ind AS-103 (Business combination of entities under common control) as per details given below:

- (a) MGEL has recorded assets and liabilities of the acquired business of HMIPL vested in it pursuant to the scheme, at the carrying value in the same form as appearing in the books of HMIPL.
- (b) The identity of the reserves of the HMIPL has been preserved and has been recorded in the same form and at the same carrying amount.
- (c) Inter corporate deposit / loans and advances / intercompany balances outstanding between MGEL and HMIPL has been cancelled.
- (d) Necessary adjustments/ adjusting entries has been passed to ensure that the merged financial statement reflects the financial position based on consistent accounting policies followed by MGEL.
- (e) The surplus (between the net assets acquired and cancellation of share capital of the acquired entity (in this case - Nil) has been credited to other equity (Amalgamation Reserve).
- (f) The financial information in the financial statements in respect of prior periods is not restated since the HMIPL has become 'entity under common control' during the financial year.
- (g) The amalgamation has taken place with effect from the appointed date and in accordance with the provisions of section 2(1B) of the Income tax act 1961.
