NOTES:

1. The Ministry of Corporate Affairs ("MCA") inter-alia vide its General Circular dated April 8, 2020 and April 13, 2020, followed by General Circular dated May 5, 2020, and subsequent circulars issued in this regard, the latest being dated September 25, 2023 (collectively referred to as "MCA Circulars") has permitted the holding of the Annual general meeting through Video Conferencing ("VC") or through other audio-visual means ("OAVM"), without the physical presence of the Members at a common venue.

In compliance with the provisions of the Companies Act, 2013 ("the Act"), SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and MCA Circulars, the 33rd Annual General Meeting ("Meeting" or "AGM") of the Company is being held through VC / OAVM on Tuesday, September 30, 2025, at 11:30 a.m. (IST). The proceedings of the AGM deemed to be conducted at the Registered Office of the Company situated at Survey no. 777, Umarsadi Desaiwad Road, at Village Umarsadi, Taluka Pardi, District Valsad, Gujarat - 396175.

In accordance with the provisions of the Act, read with the Rules made thereunder and General Circular dated December 28, 2022, other Circulars issued by the Ministry of Corporate Affairs ("MCA") from time to time, and Circular dated October 7, 2023 issued by SEBI ("the Circulars"), companies are allowed to hold AGM through video conference/other audio visual means ("VC/OAVM") upto September 30, 2024, without the physical presence of members.

2. Generally, a member entitled to attend and vote at the meeting is entitled to appoint a Proxy to attend and vote on a poll only instead of himself/ herself and such a proxy need not be a member. Since this AGM is held through VC/ OAVM pursuant to the MCA Circulars, Physical attendance of members has been dispensed with. Accordingly, the facility for appointment of proxies by the members will not be available for the AGM and hence proxy form and attendance slip are not annexed hereto.
3. Since the AGM will be held through VC/OAVM, the route map of the venue of the meeting is not annexed hereto.
4. The attendance of the Members attending the AGM through VC/ OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.

5. The Register of Members and Share Transfer Register will remain closed from September 23, 2025 to September 30, 2025 (Both days inclusive).
6. The explanatory statement pursuant to Section 102 of the Companies Act, 2013 ("Act") in respect of the business under Item No. 3 of the Notice, is annexed hereto. The relevant details as required under Regulations 36(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India in respect of Directors or Auditors seeking appointment/re-appointment at this Annual General Meeting ("AGM") are also annexed.
7. Members seeking any information with respect to financials or any other information are requested to write to the company at the earliest so as to enable the company to provide appropriate reply.
8. The Securities Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form may submit the PAN copy to their depository participants, in the case of physical form the PAN copy be submitted to the Company / RTA.
9. Members holding shares in single name and in physical form are advised to make nomination in respect of their shareholding in the Company by submitting Form No. SH-14.

As per the provisions of Section 72 of the Act, the facility for making a nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nominations are requested to register the same by submitting Form No. SH- 13. If a Member desires to cancel the earlier nomination and record a fresh nomination, he may submit the same in Form No. SH-14. Members who are either not desiring to register for Nomination or would want to opt-out, are requested to fill out and submit Form No. ISR 3. The said forms can be downloaded from the RTA's website. Members are requested to submit the said form to their DP in case the shares are held in electronic form and to the RTA in case the shares are held in physical form.

10. Members holding shares in physical form are requested to intimate the Company regarding any change in their addresses/bank mandates to enable the Company to address future communications to their correct addresses. Members holding shares in electronic/ dematerialized form are requested to inform the Depository Participant (DP) with whom they hold their Demat account about changes in their address / bank details for necessary update.
11. To prevent fraudulent transactions, members are advised to exercise due diligence and notify the Company of any change in address or demise of any member as soon as possible. Members are also advised not to leave their Demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified.
12. Members may also note that the Notice of the 33rd Annual General Meeting and the Annual Report for the year 2024-2025 will also be available on the Company's website www.nhcgroup.com for their download and the Notice of AGM shall also be available on the website of NSDL viz. www.evoting.nsdl.com.
13. The additional details of Director in respect of Item No. 2 pursuant to Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015 are annexed thereto.
14. In terms of provisions of Section 107 of the Companies Act, 2013, since the Company is providing the facility of remote e-voting to the shareholders, there shall be no voting by show of hands at the AGM.
15. Members of the Company holding shares either in physical form or in electronic form as on **the cut-off date of Tuesday, September 23, 2025** (cut-off date not earlier than 7 days before the AGM), may cast their vote by remote e-Voting. **The remote e-voting period commences on Saturday, September 27, 2025, at 9:00 a.m. (IST) and ends on Monday, September 29, 2025, at 5:00 p.m. (IST).** The remote e-voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the Member, the Member shall not be allowed to change it subsequently. The voting rights of the Members (for voting through remote e-Voting before the AGM and e-Voting during the AGM) shall be in proportion to their share of the paid-up equity share capital of the Company as of the cut-off date of **Tuesday, September 23, 2025**. Subject to receipt of the requisite number of votes, the Resolutions passed by remote e-voting are deemed to have been passed as if they have been passed at the AGM i.e., Tuesday, September 30, 2025. The Notice of the AGM indicating the instructions for the remote e-voting process can be downloaded from the NSDL's website www.evoting.nsdl.com or the Company's website www.nhcgroup.com.

16. DISPATCH OF ANNUAL REPORT THROUGH ELECTRONIC MODE:

In terms of the MCA Circulars and relevant circulars issued by the Securities and Exchange Board of India, the Notice of AGM along with Annual Report 2025 is being sent only through electronic mode to those members whose email addresses are registered with the company/depositories. Members may note that Notice and Annual Report will also be available on company's website www.nhcgroupp.com, website of Stock Exchange i.e. BSE Limited and on the website company's Registrar and Transfer Agent Skyline Financial Services Private Limited.

TRANSFER TO RESERVES:

Your directors do not propose to transfer any amount to the general reserve and entire amount of profit for the year forms part of the 'Retained Earnings'.

DIVIDEND:

In order to conserve the resources for the future expansion plan of the Company under implementation, your directors do not recommend any dividend for the year under the review.

TRANSFER OF UNCLAIMED DIVIDEND TO INVESTOR EDUCATION AND PROTECTION FUND:

Since there was no Dividend declared and paid last year, the provisions of Section 125 of the Companies Act, 2013 does not apply.

CORPORATE GOVERNANCE:

A Report on Corporate Governance, in terms of Regulation 34(3) read with Para C of Schedule V of the Listing Regulations, along with a Certificate from Practising Company Secretary, certifying compliance of conditions of Corporate Governance enumerated in the Listing Regulations, is presented in a separate section forming part of this Annual Report.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

Management Discussion and Analysis as stipulated under Listing Regulations is presented in a separate section forming part of this Annual Report. It speaks about overall industry structure, global and domestic economic scenarios, developments in business operations, internal controls and their adequacy, risk management systems, and other material developments.

ALTERATION OF MAIN OBJECT OF MOA:

To enhance the comprehensiveness of the Main Object Clause of the Memorandum of Association ("MOA") and to align it with the activities that the Company may undertake from time to time. The inclusion of "Healthcare and Nutrition Products" is driven by the rapid expansion of the Indian health and wellness market, fueled by increasing consumer awareness of preventive healthcare, rising purchasing power, and the growing prevalence of lifestyle-related diseases such as obesity, hypertension, diabetes, and malnutrition.

Similarly, the addition of "Solar-Powered or Related Products" is aimed at leveraging the benefits of solar energy, which is sustainable, renewable, and widely available. Solar-powered solutions can offer significant advantages, particularly for farmers, by reducing costs, promoting sustainability, and lowering carbon emissions. Additionally, various government subsidies and tax incentives further encourage the adoption of renewable energy.

Accordingly, the Board of Directors at its meeting held on February 12, 2025 has approved alteration of the MOA of the Company. Subsequently, the members of the Company have approved the same at their meeting held on March 12, 2025, as follows:

Clause III (A) (1A) be altered by addition of the words, "Healthcare and Nutrition Products, Solar Powered or Related Products" after the word "Agarbatties" and before the words "and so on and so forth..... or ordered by customers."

The said modifications do not alter the fundamental nature of the Company's existing business operations.

BOARD MEETINGS:

14 meetings of the Board of Directors were held during the financial year. The details of the meetings of the Board of Directors of the Company conveyed during the financial year 2024-2025 are given in the Corporate Governance Report which forms part of Annual Report. The details of attendance of the Directors in the Board Meetings and its Committees during the year under review are stated in the Corporate Governance Report.

COMPOSITION OF AUDIT COMMITTEE:

The Board has constituted the Audit Committee and all the recommendations given by Audit Committee during Financial Year 2024-2025 were accepted by the Board. Further details on the Audit Committee and other Committees of the Board are given in the Corporate Governance Report, which forms a part of this Annual Report.

The Board of Directors had appointed CS Dinesh Kumar Deora, Practising Company Secretary (Membership No. F5683 and Certificate of Practice No.4119), as the scrutiniser for carrying out the postal ballot process in a fair and transparent manner.

PROCEDURE FOR POSTAL BALLOT

Pursuant to the provisions of Section 110 of the Act read with Rule 22 of Companies (Management and Administration) Rules, 2014 (Management Rules), as amended, the Company had issued Postal Ballot Notice dated November 18, 2023 to the Members, seeking their consent with respect to the above mentioned Resolution.

In compliance with provisions of Sections 108, 110 and other applicable provisions of the Act read with the Rules made thereunder and SEBI Listing Regulations, the Company provided electronic voting (e-voting) facility to all its members. The Company engaged the services of National Securities Depository Limited (NSDL) for the purpose of providing remote e-voting facility to all its members. The Postal Ballot Notice was sent only through electronic mode to those members whose e-mail address was registered with the Company or the Depository Participant(s). In terms of the aforesaid MCA Circulars, physical copy of Postal Ballot Notice along with Postal Ballot Forms and pre-paid business reply envelope was not sent to the members. The Company also published a notice in the newspapers declaring the details of completion of dispatch and other requirements under the Secretarial Standards issued by Institute of Company Secretaries of India, the Act and the Rules thereunder.

Voting rights were reckoned on the paid up value of shares of the Company registered in the names of the shareholders as on the cut – off date. Members desiring to exercise their votes by electronic mode were requested to vote through remote e-voting only before the close of business hours on the last date of e-voting.

The Scrutiniser submitted his report to the Company Secretary / Chairman, authorised by the Board, after the completion of scrutiny and the results of the voting by postal ballot were then announced by the Company Secretary of the Company. The results were displayed on the website of the Company i.e. www.nhcgroupp.com, besides being communicated to the Stock Exchanges and e-voting website of NSDL.

MARKET EXPANSION:

We successfully expanded our market presence by entering new geographical regions. Our efforts to tap into emerging markets and strengthen our position in existing markets yielded positive results. We collaborated with local partners to understand the unique preferences and demands of each market, allowing us to tailor our product offerings accordingly.

1. INDIAN MARKET OVERVIEW:

The spices industry in India has witnessed steady growth over the past year. India is one of the largest producers and exporters of spices globally, catering to both domestic and international markets. The industry plays a crucial role in the country's agricultural sector, contributing to economic growth and providing employment opportunities.

The India spices market is mainly driven by the increasing product usage to manufacture ready-to-cook (RTC) and ready-to-eat (RTE) food products. Furthermore, the inflating consumer expenditure power has fuelled the demand for authentic cuisines, innovative flavours, and ethnic tastes in food, which is creating a positive outlook for the market in the country. Moreover, the increasing consumer consciousness regarding the adverse health impact of synthetic additives in spices has prompted the Government of India (GoI) to inhibit the adulteration of spices to produce organic product variants, which, in turn, is propelling the market growth. Apart from this, the rapid growth of the food and beverage (F&B) industry and changing consumer consumption patterns are fuelling the market growth. Other factors, such as the extensive expansion of the hotels, restaurants, and catering (HoReCa) sector and changing consumer consumption patterns, are providing a considerable thrust to the market growth.

India is one of the major players in the agriculture sector worldwide and it is the primary source of livelihood for ~55% of India's population. India has the world's largest cattle herd (buffaloes), the largest area planted for wheat, rice, and cotton, and is the largest producer of milk, pulses, and spices in the world. It is the second-largest producer of fruit, vegetables, tea, farmed fish, cotton, sugarcane, wheat, rice, cotton, and sugar. The agriculture sector in India holds the record for second-largest agricultural land in the world generating employment for about half of the country's population. Thus, farmers become an integral part of the sector to provide us with a means of sustenance.

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year due to its immense potential for value addition, particularly within the food processing industry. The Indian food processing industry accounts for 32% of the country's total food market, one of the largest industries in India and is ranked fifth in terms of production, consumption, export and expected growth.

According to the Second Advance Estimates the Kharif foodgrain production is estimated at 1,663.91 LMT, and Rabi foodgrain production is estimated at 1,645.27 LMT. Kharif Rice production is estimated at 1,206.79 LMT as compared to 1,132.59 LMT in 2023-24, showing an increase of 74.20 LMT.

In 2024-25 (as per the first advance estimate), India's horticulture output is expected to have hit a record 362.08 million tonnes (MT), a increase of about 9.85 million tonnes (2.80%) as compared to the year 2023-24.

Market Size:

- According to the Ministry of Agriculture's Second Advance Estimate for 2024-25, rice production is projected to reach a record 157.58 LMT during rabi season.
- As on February 4, 2025, the area sown under Rabi crops is 661.03 lakh hectare as compared to 651.42 lakh hectare during the corresponding period of last year.
- India's wheat stocks highest in three years. The Food Corporation of India aims to purchase 31 million tons of wheat in 2025. Rice reserves are also high, potentially boosting exports.

The Agriculture and Allied industry sector witnessed some major developments, investments, and support from the Government in the recent past. Between April 2000-December 2024, FDI in agriculture services stood at Rs. 26,534 crore (US\$ 3.11 billion).

According to the Department for Promotion of Industry and Internal Trade (DPIIT), the Indian food processing industry has cumulatively attracted a Foreign Direct Investment (FDI) equity inflow of about Rs. 1,10,975.3 crore (US\$ 13.01 billion) between April 2000-December 2024. This accounts for 1.85% of total FDI inflows received across industries.

During FY25, processed vegetables accounted for Rs. 5,945.4 crore (US\$ 697 million), miscellaneous processed items accounted for Rs. 13,102.1 crore (US\$ 1,536 million) and processed fruits & juices accounted for Rs. 7,898.8 crore (US\$ 926 million).

India's exports of agricultural and processed food products rose by 15% YoY to Rs. 18,169 crore (US\$ 2.13 billion) in April 2025, driven by strong rice, meat, and fruit shipments.

Opportunities:

Rapid population expansion in India is the main factor driving the industry. The rising income levels in rural and urban areas, which have contributed to an increase in the demand for agricultural products across the nation, provide additional support for this. In accordance with this, the market is being stimulated by the growing adoption of cutting-edge techniques including blockchain, artificial intelligence (AI), geographic information systems (GIS), drones, and remote sensing technologies, as well as the release of various e-farming applications.

India's exports of agricultural and processed food products rose by 15% YoY to Rs. 18,169 crore (US\$ 2.13 billion) in April 2025, driven by strong rice, meat, and fruit shipments.

The exports for principal commodities in FY25 were the following:

- **Basmati and Non-Basmati Rice: US\$ 11.29 billion**
- **Spices: US\$ 3.79 billion**
- **Sugar: US\$ 1.86 billion**

Challenges:

Price Volatility: The spices industry faced challenges related to price volatility, primarily driven by fluctuations in raw material costs, global market dynamics, and currency exchange rates. Managing price risks and maintaining profitability remained critical for industry participants.

Quality Control: Maintaining consistent quality standards across the supply chain continued to be a challenge. Adhering to stringent quality regulations, implementing proper hygiene practices, and ensuring traceability were areas of focus for the industry.

Increasing Health Consciousness: The rising awareness among consumers about the health benefits of spices has opened new opportunities for the industry. Spices are known for their medicinal properties and nutritional value. Capitalizing on this trend, the industry can develop and promote value-added products catering to the health-conscious consumer segment.

Technological Advancements: Embracing technology and innovation can significantly enhance productivity, quality control, and supply chain efficiency. Automation, data analytics, and adoption of smart farming techniques can drive operational excellence and cost optimization.

2. Global Spice Industry:

The global spice industry plays a significant role in the culinary world, adding flavour, aroma, and diversity to food products. Spices are widely used in various cuisines and have gained popularity due to their unique tastes and health benefits. The industry encompasses a wide range of spices, including pepper, turmeric, cinnamon, ginger, cloves, and many more.

Key Trends and Drivers:

Increasing Demand: The demand for spices has been steadily increasing due to the growth of the global population, changing dietary preferences, and the popularity of international cuisines. Spices are also being recognized for their medicinal properties, further driving their demand.

Health and Wellness: Consumers are becoming more health-conscious and are seeking natural and organic food products. Spices are considered to be natural flavour enhancers and are often associated with various health benefits, such as antioxidant and anti-inflammatory properties.

Ethnic and Fusion Cuisines: The rise in multiculturalism and globalization has led to the popularity of ethnic and fusion cuisines. Spices play a crucial role in these culinary styles, contributing to unique and diverse flavour profiles.

E-commerce and Online Retail: The growth of e-commerce platforms and online retail has provided convenience to consumers, allowing them to access a wide range of spices from different parts of the world. Online platforms have also enabled small-scale spice producers to reach a global customer base.

Food Processing Industry: The spice industry is closely linked to the food processing sector. The increasing demand for processed and convenience foods has created opportunities for spice manufacturers and suppliers to cater to this segment.

Future Outlook:

The global spice industry is expected to continue its growth trajectory in the coming years. Key factors that will shape the industry's future include:

Rising Consumer Awareness: Consumers are becoming more knowledgeable about different spices, their origin, and their health benefits. This trend is expected to drive demand for high-quality, authentic spices and encourage companies to provide transparent and traceable supply chains.

Technological Advancements: Innovations in cultivation techniques, processing methods, and packaging technologies are likely to enhance efficiency, product quality, and shelf life. Automation and digitalization in the industry will streamline operations and improve traceability.

Sustainable Practices: The industry is expected to witness an increased focus on sustainable sourcing, organic cultivation, and fair trade practices. Consumers are likely to prefer spices that are produced in an environmentally and socially responsible manner.

Market Expansion: Emerging markets, especially in Asia.

3. GOVERNMENT INITIATIVES:

Export Development and Promotion of Spices:

This initiative by the Spices Board of India aims to support the exporter to adopt high-tech processing technologies and upgrade the existing level of technology for the development of industry and to meet the changing food safety standards of the importing countries. The initiative provides benefits of infrastructure development, promoting Indian spice brands abroad, setting up infrastructure in the major spice growing centres, promoting organic spices and special programmes for north-eastern entrepreneurs.

Setting up and maintenance of infrastructure for common processing (Spices Parks)

Spices Board has launched eight crop-specific Spices Parks in key production/market centres intending to facilitate the farmers to get an improved price realization and wider reach for their produce. The purpose of the park is to have an integrated operation for cultivation, post-harvesting, processing, value-addition, packaging and storage of spices and spice products. The common processing facilities for cleaning, grading, packing, and steam sterilization will help the farmers to enhance the quality of the produce, resulting in better price realization.

Some of the recent major Government initiatives in the sector are as follows:

- In the Union Budget 2024-25, a provision of Rs. 1.52 lakh crore (US\$ 18.26 billion) has been made for agriculture and allied sector.
- In January 2024, The Ministry of Food Processing Industries has approved the following under the corresponding component schemes of PMKSY: 41 Mega Food Parks, 399 Cold Chain projects, 76 Agro-processing Clusters, 588 Food Processing Units, 61 Creation of Backward & Forward Linkages Projects, and 52 Operation Green projects.
- In the Union Budget 2023-24:
- Rs. 1.24 lakh crore (US\$ 15.9 billion) has been allocated to the Department of Agriculture, Cooperation and Farmers' Welfare.

- Rs. 8,514 crore (US\$ 1.1 billion) has been allocated to the Department of Agricultural Research and Education.
- Under Pradhan Mantri Formalisation of Micro Food Processing Enterprises (PM FME), an outlay of Rs. 10,000 crore (US\$ 1.27 billion) over a period of 5 years from FY21 to FY25 has been sanctioned.

4. ECONOMY OVERVIEW AND ROAD AHEAD:

The spice industry plays a significant role in the global economy, with spices being traded internationally and used in various culinary and medicinal applications. Spices are valued for their unique flavours, aromas, and health benefits, making them an essential ingredient in the food and beverage industry.

Global Market Size: The global spice market has been experiencing steady growth over the years. According to reports, the global spice market was valued at around USD 15 billion in 2020 and is expected to reach USD 20 billion by 2026. This growth is primarily driven by increasing consumer demand for ethnic and exotic flavours.

Major Spice Producing Countries: Several countries are major players in spice production. Some of the prominent spice-producing countries include India, China, Vietnam, Indonesia, Sri Lanka, and Bangladesh. These countries have favourable climatic conditions and agricultural practices that support the cultivation of various spices.

Trade and Export: The spice industry heavily relies on international trade. India is the largest exporter of spices, accounting for a significant share of the global spice trade. Other major spice-exporting countries include China, Vietnam, the Netherlands, and the United States. The demand for spices in both developed and emerging markets drives the export activities.

Spice Varieties: The spice industry encompasses a wide range of products, including popular spices like pepper, cinnamon, turmeric, cloves, ginger, nutmeg, and cardamom, among others. Each spice has its own market dynamics, supply chain, and demand drivers.

Value Chain and Processing: The spice industry involves various stages in its value chain, starting from cultivation and harvesting to processing, packaging, and distribution. Value addition through processing and packaging enhances the marketability and economic value of spices. Many countries have developed specialized infrastructure and technologies to improve the quality and safety standards of spices.

Emerging Trends: In recent years, there has been a growing demand for organic and sustainably sourced spices due to increasing health consciousness and ethical consumer preferences. Additionally, there is a rising interest in spice blends and exotic flavours in the food and beverage industry, leading to product innovation and market expansion.

The agriculture sector in India is expected to generate better momentum in the next few years due to increased investment in agricultural infrastructure such as irrigation facilities, warehousing, and cold storage. Furthermore, the growing use of genetically modified crops will likely improve the yield for Indian farmers. India is expected to be self-sufficient in pulses in the coming few years due to the concerted effort of scientists to get early maturing varieties of pulses and the increase in minimum support price.

In the next 5 years, the central government will aim US\$ 9 billion in investments in the fisheries sector under PM Matsya Sampada Yojana. The government is targeting to raise fish production to 220 lakh tonnes by 2024-25. Going forward, the adoption of food safety and quality assurance mechanisms such as Total Quality Management (TQM) including ISO 9000, ISO 22000, Hazard Analysis and Critical Control Points (HACCP), Good Manufacturing Practices (GMP), and Good Hygienic Practices (GHP) by the food processing industry will offer several benefits.

Through the Ministry of Food Processing Industries (MoFPI), the Government of India is taking all necessary steps to boost investments in the food processing industry in India. Government of India has continued the umbrella PMKSY scheme with an allocation of Rs. 4,600 crore (US\$ 559.4 million) till March 2026.

5. RISKS AND CONCERNS:

The Company continuously works towards de-risking its business by adopting preventive measures. However, there are certain potential risks being more industry oriented and the management strongly feels the same could be mitigated by having systematic decisions and measures. These Industry Oriented risks are as listed below:

Procurement Risk: Adequate availability of key raw materials at the right prices is crucial for the Company. The major raw material being agro based, availability of same depends on the vagaries of nature. Therefore, any disruption in the supply due to a natural or other calamity or violent changes in the cost structure could adversely affect the Company's ability to reach its consumers with the right value proposition. However, the Company is adopting best possible measures to ensure constant supply at right prices.

Intense competition from unorganized sector: One of the characteristics of this industry is the presence of unorganized sector offering products in loose unbranded form which intensifies competition. However, Our Company is adopting best possible measures and has invested significantly in building strong brands which helps differentiate its products and also we are continuously focusing on brand building process to attain our objectives.

Exchange Rate Fluctuation: The Company being engaged in exports, derives approximately 70-75% of its revenue from export sales. An appreciation of the Indian Rupee can adversely impact the Company's exports. The Company manages this financial risk through booking of forward contracts in the range of approximately 70% of our projected sales. Also currently NHC has benefited from the depreciated rupee.

6. INFRASTRUCTURE:

We have with us, dependable and sophisticated infrastructure that helps us in quality processing and packaging of our range of Indian Spices. This well-equipped infrastructure is spread across a wide area and has separate hulling unit and cleaning unit, which are ISO 22000:2005 certified. Apart from this unit, we have also developed a packaging unit, which enables us to offer flexible packaging as per the requirements of the clients.

7. LOGISTICS:

Central location of Plant ideal for smooth flow of raw-material to or from any place in India and convenient to distribute the consignment across the globe, in accordance with timely delivery.

QUALITY EVALUATION:

In house laboratory facility to carry out day to day quality evaluation with highly qualified technical staff to work under clean and safe work environment.

8. INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company's well defined organization structure, documented policy guidelines, predefined authority levels, and an extensive system of internal controls ensure optimal utilisation and protection of resources, accurate reporting of financial transactions and compliance with applicable laws and regulations. The Company's internal auditors review business processes and controls. The Audit Committee of the Board then discusses significant findings and corrective measures initiated.

STANDALONE FINANCIAL STATEMENT

INDEPENDENT AUDITOR'S REPORT

To,
The Members
NHC Foods Limited

Opinion

We have audited the accompanying Ind AS standalone financial statements of **NHC FOODS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March 2025, the statement of Profit and Loss (Including Other Comprehensive Income), the Statement of Change in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Ind AS financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Standalone Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statement as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

1.	Accuracy and completeness of disclosure of related party transaction and compliance with the provision of companies act 2013 and SEBI (Listing Obligations and Disclosure requirements) Regulations, 2015 as amended ('SEBI (LODR) 2015')	Principle Audit Procedures:
	We identified the accuracy and completeness of disclosure of related party transactions as set out in respective notes to the Ind AS standalone financial statements as a key audit matter due to: • The significance of transactions with related parties during the year ended March 31, 2025 • Related party transactions are subject to the compliance requirement under the Companies act 2013 and SEBI (LODR) 2015.	Our audit procedure in relation to the disclosure of related party transactions included the following: • We obtained an understanding, evaluated the design and tested operating effectiveness of the controls related to capturing of related party transactions and management's process of ensuring all transactions and balances with related parties have been disclosed in the Ind AS Standalone Financial statements. • We obtained an understanding of the Companies policies and procedures in respect of evaluating arms-length pricing and approval process by the audit committee and the board of directors.

		• We agreed the amounts disclosed with underlying documentation and read relevant agreements, evaluation of arms-length by management, on a sample basis, as part of our evaluation of the disclosure. • We assessed management evaluation of compliance with the provision of section 177 and section 188 of Companies act 2013 and SEBI (LODR) 2015. • We evaluated the disclosures through reading of statutory information books and records and other documents obtained during the course of our audit.
2.	Claims and exposures relating to taxation and litigation The company has disclosed in Note 31(b) Para B of the Ind AS financial statements contingent liabilities of Rs. 28.92 lakhs. In respect of disputed claims/levies under tax and legal matters. Taxation and litigation exposures have been identified as a key audit matter due to: • Significance of these amounts and large number of disputed matters with various authorities. • Significant judgement and assumptions required by management in assessing the exposure of each case to evaluate whether there is a need to set up a provision and measurement of exposures as well as the disclosure of contingent liabilities. We focus on this matter because of the potential financial impact on the Ind AS financial statements. Additionally, the treatment of taxation and litigation cases require significant judgement due to the complexity of the cases, timescales for resolution and involvement of various authorities.	Principle Audit Procedures: Our audit procedures included the following: • We obtained understanding, evaluated the design, and tested the operating effectiveness of the controls related to the identification, recognition and measurement of provisions for disputes, potential claims and litigation, and contingent liabilities. • We obtained details of legal and tax disputed matters and evaluation made by the management and assessed management's position through discussions on both the probability of success in significant cases, and the magnitude of any potential loss. • We read external legal opinions (where considered necessary) and other evidence to corroborate management's assessment of risk profile in respect of legal claims. • We assessed the relevant disclosures made in the Ind AS financial statements for compliance in accordance with the requirements of Ind AS 37.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Corporate Governance Report and Shareholder Information, but does not include the standalone financial statements and our auditor's report thereon.

The Board's Report, Annexures to Board's Report, Corporate Governance Report and Shareholder Information is expected to be made available to us after the date of this auditor's report. Our opinion on the Ind AS Standalone Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon. In connection with our audit of the Ind AS Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Board's Report, Report on Corporate governance and Business Responsibility report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe actions applicable in the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Ind AS Standalone Financial Statements:

The Company's board of directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS **Standalone** Financial Statements that give a true and fair view of the financial position,

financial performance, including other comprehensive Income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identifying and assess the risks of material misstatements of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtaining an understanding of internal financial control relevant to the audit in order design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B to the Independent Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of NHC FOODS LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (f) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **NHC FOODS LIMITED** (the "Company") as of 31st March, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to Ind AS Standalone Financial Statement and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to Ind AS Standalone Financial Statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting with reference to Ind AS Standalone Financial Statement.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of the management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Ind AS Financial Statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Standalone Notes to Financial Statements for the year ended March 31, 2025

1. Corporate Information

NHC Foods Limited (NHC) ("the Company") (CIN: L15122GJ1992PLC076277) is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India.

The Company is engaged in the business Whole & Ground Spices, Lentils, Pulses, Grains, Oil Seeds and various other Agri - products and Assorted Food Products. Currently NHC Foods Limited is Exporting the above-mentioned Commodities to more than 60 Countries World-wide.

The financial statements were authorised for issue by the board of directors on May 29, 2025.

2. Significant Accounting Policies

2.1 Basis of preparation of financial statements

- (a) These financial statements have been prepared in accordance with Indian Accounting Standard (Ind AS) as notified under section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standard) Rules 2015 and relevant amendment rules issued thereafter.

The financial statements have been prepared on a historical cost convention on the accrual basis of accounting except for certain financial assets and liabilities (including derivative instruments) which are measured at fair values at end of each reporting period, as stated in Summary of significant accounting policies below.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy as mentioned in note (b) below.

(b) Application of New Accounting pronouncements

Pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules, 2019 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2019, Ind AS 116 – "Leases" (Ind AS 116) supersedes Ind AS 17 – "Leases". The Company has adopted Ind AS 116 using the modified retrospective approach with effect from 1st April, 2019.

2.2 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 2.4. Accounting estimates could change from period to period.

2.3 Summary of significant accounting policies

(a) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the entity are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(b) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of Property, plant and equipment are disclosed as “Capital advances” under Other Non Current Assets and the cost of assets not ready to be put to use as at the balance sheet date are disclosed as ‘Capital work-in-progress’.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

(c) Depreciation methods, estimated useful lives and residual value

Depreciation is calculated on straight line basis using the useful lives estimated by the management, which are equal to those prescribed under Schedule II to the Companies Act, 2013.

The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(d) Intangible assets

Intangible Assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Amortisation methods and periods

Intangible assets comprising of goodwill is amortized on a straight line basis over the useful life of twenty years which is estimated by the management.

(e) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(f) Leases
(i) As a lessee

The Company, as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset.

Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to the lease contract existing on April 1, 2019 using the modified retrospective approach. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted. The standard permits a choice on initial adoption, on a lease-by-lease basis, to measure the right-of-use (ROU) asset at either its carrying amount as if Ind AS 116 had been applied since the commencement of the lease, or an amount equal to the lease liability adjusted for accruals or prepayments. The Company has elected to measure the right-of-use asset equal to the lease liability, with the result of no net impact on retained earnings and no restatement of prior period comparatives.

The company recognizes a right of use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost which comprise the initial amount of lease liability adjusted for any lease payments made before the commencement date. The right of use asset is subsequently depreciated using the straight-line method of the balance lease term. In addition, the right of use asset is periodically reduced by impairment loss, if any and adjusted for certain Remeasurements of lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the amounts expected to be payable over the period of lease. The lease liability is measured at amortized cost using effective interest rate method. It is remeasured when there is a change in future lease payments arising from change in the index or rate

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments (including interest) have been classified as financing cash flows.

Short-term leases and leases of low-value assets

The Company has elected not to recognize right-to-use assets and lease liabilities for short term lease that have a lease term of 12 months or less and leases of low-value assets. The Company recognize the lease payments associated with these leases as an expenses on a straight-line basis over the lease term.

(ii) As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance

lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term. Contingent rents are recognised as revenue in the period in which they are earned.

The accounting policies applicable to the Company as a lessor in the comparative period were not different from Ind AS 116.

(g) Inventories

Raw materials, Stores and spares and packing materials are valued at lower of cost and net realizable value.

However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Work-in-progress, finished goods and stock-in-trade are valued at lower of cost and net realizable value. Finished goods and Work-in-progress include costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories is calculated on FIFO basis.

(h) Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties including taxes. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The effect on adoption of Ind AS 115 was insignificant.

The following are the specific revenue recognition criteria:

- a) Revenue from sale of goods is recognized when all the significant risk and rewards of ownership of the goods have been passed to the buyer.
- b) Revenue from services are recognised as they are rendered based on agreements/ arrangements with the concerned parties.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due)

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Assets and liabilities arising from rights of return

Right of return assets

Right of return asset represents the Company's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods,

including any potential decreases in the value of the returned goods. The Company updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products. This is disclosed along with inventories.

Refund liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The Company collects taxes such as sales tax/value added tax, service tax, etc on behalf of the Government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from the aforesaid revenue/ income.

c) Interest income

Interest income, including income arising from other financial instruments measured at amortized cost, is recognized using the effective interest rate method.

d) Dividend income

Revenue is recognised when the company's right to receive the payment is established, which is generally when shareholders approve the dividend.

e) Commission income is recognised as and when the terms of the contract are fulfilled.

f) Other items of income are accounted as and when the right to receive arises.

(i) Taxes

(i) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred income tax is recognized using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) Minimum Alternate Tax

Minimum Alternate Tax ('MAT') payable for a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available in the statement of profit and loss as deferred tax with a corresponding asset only to the extent that there is probable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The said asset is shown as 'MAT Credit Entitlement' under Deferred Tax. The Company reviews the same at each reporting date and writes down the asset to the extent the Company does not have the probable certainty that it will pay normal tax during the specified period.

(j) Financial Instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments which give rise to a financial asset of one entity and financial liability or equity of another entity.

Initial Recognition

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

(i) Amortised Cost

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- " the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- " the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Fair Value through other comprehensive income

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- " the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- " the contractual terms of the financial asset give rise on specified dates to cash flows that
- " are solely payments of principal and interest on the principal amount outstanding.

(iii) Fair Value through Profit or Loss

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

i. Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL. Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

ii. Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Equity investment in subsidiaries, joint ventures and associates

The Company has Investment of Rs. 591.90 Lakhs in Dubai Subsidiary (M/s Intra Metal Trading LLC, located in Free Trade Zone at UAE) and same has been disclosed in to Financial "Non-Trade Investments". Due to this, Consolidated Financial Statement for the period ended March 31st 2025, prepared.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(k) Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

(l) Convertible financial instrument

Convertible instruments are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible instruments, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not remeasured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible instrument based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

(m) Employee benefits**(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The company operates the following post-employment schemes:

- (a) defined benefit plans viz. gratuity,
- (b) defined contribution plans viz. provident fund.

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iv) Termination benefits

Termination benefits are payable when employment is terminated by the company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits.

(n) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non -occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

(o) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

(p) Segment Reporting - Identification of Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by geographic segments.

(q) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- “ the profit attributable to owners of the company
- “ by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- “ the after income tax effect of interest and other financing costs associated with dilutive potential equity
- “ the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(r) Current/non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Š Expected to be realised or intended to be sold or consumed in normal operating cycle
- Š Held primarily for the purpose of trading
- Š Expected to be realised within twelve months after the reporting period, or
- “ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- “ It is expected to be settled in normal operating cycle
- “ It is held primarily for the purpose of trading
- “ It is due to be settled within twelve months after the reporting period, or
- “ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

(s) Cash and cash equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at bank and in hand and short-term deposits with banks having original maturity of three months or less which are subject to insignificant risk of changes in value.

(t) Cash Flow Statement

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

(u) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(v) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh with two decimal as per the requirement of Schedule III, unless otherwise stated.

(w) Events after Reporting date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

2.4 Key Significant accounting judgements, estimates and assumptions

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of impairment of non current assets, useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities and fair value measurement etc. are as under:

(i) Impairment of non - financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to disclosure of fair value of investment property recorded by the Company.

(ii) Useful lives of property, plant and equipment

The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

This reassessment may result in change in depreciation expense in future periods.

(iii) Income taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/ recovered for uncertain tax positions.

(iv) Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under Note (i) above.

(v) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(vi) Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

(vii) Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

2.5 Recent accounting pronouncements**Standards are issued but not yet effective**

As on the date of release of these financial statements, MCA has not issued any standards/ amendments to accounting standards which are effective from 1st April 2025.

The management assessed that the fair value of cash and cash equivalent, other balances with bank, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

ii. Fair Value Measurement

Level 1 - Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 - If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

iii. Valuation technique used to determine fair value

Specific Valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

iv. Valuation processes

The accounts and finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the chief financial officer (CFO) and the audit committee. Discussions of valuation processes and results are held between the CFO, AC and the valuation team regularly in line with the company's reporting requirements.

40. FINANCIAL RISK MANAGEMENT

The company's activity expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts, foreign currency option contracts are entered to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

(A) Credit risk**i. Credit risk management**

The company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed on a group basis for each class of financial instruments with different characteristics.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected cash flows. In addition, the company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(i) Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

The amounts disclosed in the table are the contractual undiscounted cash flows. Balance due within 12 months equal their carrying balances as the impact of discounting is not significant.

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk such as equity price risk and commodity risk.

(i) Foreign currency risk

The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The company's risk management policy is to hedge around 80% to 90% of forecasted foreign currency sales for the subsequent 1 month. As per the risk management policy, foreign exchange forward contracts are taken to hedge around 40% to 50% of the forecasted sales.

The company while dealing with imports transactions which are denominated in foreign currency which exposes it to foreign currency risk. To minimise the risk of imports, the company may use forward contract to minimise the risk appetite due to foreign currency.

The company uses a combination of foreign currency forward contracts to hedge its exposure in foreign currency risk. The company designates the spot element of forward contracts and the intrinsic value of foreign currency forward contracts as the hedging instrument. The changes in the forward element that relate to the hedged item ('aligned forward element') and the changes in time value that relate to the hedged item ('aligned time value') are deferred in the costs of hedging reserve and recognised against the related hedged transaction when it occurs. The forward element and the time value relate to the respective hedged item if the critical terms of the forward or the option are aligned with hedged item. Any residual time value and forward points (the non-aligned portion) are recognised in the statement of profit and loss.

The forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points.

The intrinsic value of foreign exchange forward contracts is determined with reference to the relevant spot market exchange rate. The differential between the contracted strike rate and the spot market exchange rate is defined as the intrinsic value. Time value of the option is the difference between fair value of the option and the intrinsic value.

	1% Increase	1% Decrease	1% Increase	1% Decrease
Decrease				
Net Increase/(Decrease) in profit or loss	49.71	(49.71)	(3.45)	(3.45)

(ii) Interest rate risk

Interest rate can be either fair value interest risk or cash flow interest risk. Fair value interest rate risk is the risk of change in fair values of fixed interest rate bearing instruments because of interest rate fluctuation in interest rate. Cash flow interest rate risk is the risk that the future cash flow of floating interest bearing instruments will fluctuate because of fluctuation risk.

However, During the year presented in these financial statement, the company had primarily borrowed funds under fixed interest rate arrangements with banks and financial institution and therefore the company is not exposed to interest rate risk.

(iii) Price risk
(a) Exposure

Commodity price risk - The company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchase and manufacture of spices and therefore require a continuous supply of commodities. Due to the significantly increased volatility of the price of the commodities, the company also entered into various purchase contracts for various commodities for which there is an active market.

Equity price risk - The company is not exposed to other Equity price risk during the year presented in these financials statement.

42. CAPITAL MANAGEMENT

For the purpose of the company's capital management, capital includes issued equity capital, convertible preference shares, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The company's policy is to keep the gearing ratio between 20% to 40%. The company includes within debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, other balances with bank excluding discontinued operations.

CONSOLIDATED FINANCIAL STATEMENT

INDEPENDENT AUDITORS' REPORT

To

The Members of NHC Foods Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of NHC Foods Limited ("the Parent") and its subsidiary, (the Parent and its subsidiary together referred to as "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2025, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31 2025, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Information Other than the consolidated financial statements and Auditor's Report Thereon

The Parent's Board of Directors is responsible for the other information. The other information comprises the Board's Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiary, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to subsidiary, is traced from their financial statements audited by us. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the Basis for Qualified Opinion section in the auditor's report of the Parent, we were unable to determine whether any adjustments are necessary to the carrying amount of the Parent's investment in a subsidiary, loans (including interest accrued) and receivables outstanding from the subsidiary as at March 31, 2025. Accordingly, we are unable to conclude whether or not the other information is materially misstated with respect to this matter.

Responsibilities of Management and Those Charged with Governance for the Ind AS Consolidated financial statements:

The Parent Company board of directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS Consolidated financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive Income, changes in equity and cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for

preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated financial statements, management is responsible for assessing the Group ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate are also responsible for overseeing the financial reporting process of the Group and of its associate.

Auditor's Responsibility for the Audit of the Ind AS Consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identifying and assess the risks of material misstatements of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtaining an understanding of internal financial control relevant to the audit in order design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of such entities or business activities of parent company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of parent company included in the consolidated financial statements of which we are the independent auditors. For the other foreign subsidiary included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports on the separate financial statements of the subsidiary referred to in the Other Matters section above we report, to the extent applicable that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b. In our opinion, proper books of account as required by law have been kept by the Parent Company so far as it appears from our examination of those books;
 - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
 - d. In our opinion, the aforesaid Ind AS Consolidated financial statements comply with the Ind AS specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e. On the basis of the written representations received from the directors as on 31st March 2025 taken on records by the Board Directors, none of the disqualified as on 31st March 2025 from being appointed as a director in terms of Section 164 (2) of the Act;
 - f. With respect to the adequacy of the Internal Financial Controls over financial reporting of the Parent company with reference to these Consolidated financial statements and the operating effectiveness of such controls, refer to our separate report in "**Annexure A**"; Our report expresses an unmodified opinion on adequacy and operative effectiveness of the Parent Company's internal financial controls over financial reporting;
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, "In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the Parent Company to its directors during the year is in accordance with the provisions of section 197 read with Schedule V of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group - Refer Note 29 to the consolidated financial statements.
 - ii. The Parent Company did not have any long-term contracts including derivative contracts; as such the question of commenting on any material foreseeable losses thereon does not arise.
 - iii. There were no amounts, which, were required to be transferred, to the Investor Education and Protection Fund by the Parent Company.
 - iv. (a) The management of the parent company has represented that, to the best of its knowledge and belief, as disclosed in Notes to the Consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Parent Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Parent Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The management of the parent company has represented that, to the best of its knowledge and belief, as disclosed in Notes the Consolidated financial statement, no funds have been received by the Group from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - (c) Based on such audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
 - v. The Parent Company and its subsidiary, which are companies incorporated in India, whose financial statements have been audited under the Act, have not declared or paid any dividend during the year and have not proposed final dividend for the year.
 - vi. Based on our examination, which included test checks, the Parent and its subsidiary, the Companies have used accounting software for maintaining its books of account for the financial year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.
2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us of the companies included in the consolidated financial statements we report that there are no qualifications or adverse remarks in the CARO reports of the said companies included in the consolidated financial statements.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of NHC Foods Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Act

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to consolidated financial statements of NHC Foods Limited (hereinafter referred to as the “Parent”) and its foreign subsidiary company, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013

Auditor’s Responsibility

Our responsibility is to express an opinion on the Parent Company’s internal financial controls over financial reporting based on our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to Ind AS Financial Statement and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to Ind AS Financial Statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Parent Company’s internal financial controls system over financial reporting with reference to Ind AS Financial Statement.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the parent company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the parent company are being made only in accordance with authorisations of the management and directors of the parent company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the parent assets that could have a material effect on the Consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Ind AS Financial Statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Parent Company incorporated in India has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2025, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Consolidated Notes to Financial Statements for the year ended March 31, 2025

1. Corporate Information

NHC Foods Limited (NHC) ("the Company") (CIN: L15122GJ1992PLC076277) is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India.

The Company is engaged in the business Whole & Ground Spices, Lentils, Pulses, Grains, Oil Seeds and various other Agri - products and Assorted Food Products. Currently NHC Foods Limited is Exporting the above-mentioned Commodities to more than 60 Countries World-wide.

The financial statements were authorised for issue by the board of directors on May 29, 2025.

2. Significant Accounting Policies

2.1 Basis of preparation of financial statements

- (a) These financial statements have been prepared in accordance with Indian Accounting Standard (Ind AS) as notified under section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standard) Rules 2015 and relevant amendment rules issued thereafter.

The financial statements have been prepared on a historical cost convention on the accrual basis of accounting except for certain financial assets and liabilities (including derivative instruments) which are measured at fair values at end of each reporting period, as stated in Summary of significant accounting policies below.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy as mentioned in note (b) below.

(b) Application of New Accounting pronouncements

Pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules, 2019 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2019, Ind AS 116 – "Leases" (Ind AS 116) supersedes Ind AS 17 – "Leases". The Company has adopted Ind AS 116 using the modified retrospective approach with effect from 1st April, 2019.

2.2 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in Note 2.4. Accounting estimates could change from period to period.

2.3 Summary of significant accounting policies

(a) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the entity are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is entity's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(b) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of Property, plant and equipment are disclosed as “Capital advances” under Other Non Current Assets and the cost of assets not ready to be put to use as at the balance sheet date are disclosed as ‘Capital work-in-progress’.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

Expenditure directly relating to construction activity is capitalized. Indirect expenditure incurred during construction period is capitalized to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the statement of profit and loss.

(c) Depreciation methods, estimated useful lives and residual value

Depreciation is calculated on straight line basis using the useful lives estimated by the management, which are equal to those prescribed under Schedule II to the Companies Act, 2013.

The residual values are not more than 5% of the original cost of the asset.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

(d) Intangible assets

Intangible Assets are stated at acquisition cost, net of accumulated amortisation and accumulated impairment losses, if any. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Amortisation methods and periods

Intangible assets comprising of goodwill is amortized on a straight line basis over the useful life of twenty years which is estimated by the management.

(e) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

(f) Leases
(i) As a lessee

The Company, as a lessee, recognizes a right-of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset. The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset.

Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to the lease contract existing on April 1, 2019 using the modified retrospective approach. Accordingly, comparatives for the year ended March 31, 2019 have not been retrospectively adjusted. The standard permits a choice on initial adoption, on a lease-by-lease basis, to measure the right-of-use (ROU) asset at either its carrying amount as if Ind AS 116 had been applied since the commencement of the lease, or an amount equal to the lease liability adjusted for accruals or prepayments. The Company has elected to measure the right-of-use asset equal to the lease liability, with the result of no net impact on retained earnings and no restatement of prior period comparatives.

The company recognizes a right of use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost which comprise the initial amount of lease liability adjusted for any lease payments made before the commencement date. The right of use asset is subsequently depreciated using the straight-line method of the balance lease term. In addition, the right of use asset is periodically reduced by impairment loss, if any and adjusted for certain Remeasurements of lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the amounts expected to be payable over the period of lease. The lease liability is measured at amortized cost using effective interest rate method. It is remeasured when there is a change in future lease payments arising from change in the index or rate

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments (including interest) have been classified as financing cash flows.

Short-term leases and leases of low-value assets

The Company has elected not to recognize right-to-use assets and lease liabilities for short term lease that have a lease term of 12 months or less and leases of low-value assets. The Company recognize the lease payments associated with these leases as an expenses on a straight-line basis over the lease term.

(ii) As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance

lease; if not, then it is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term. Contingent rents are recognised as revenue in the period in which they are earned.

The accounting policies applicable to the Company as a lessor in the comparative period were not different from Ind AS 116.

(g) Inventories

Raw materials, Stores and spares and packing materials are valued at lower of cost and net realizable value.

However, these items are considered to be realizable at cost if the finished products, in which they will be used, are expected to be sold at or above cost.

Work-in-progress, finished goods and stock-in-trade are valued at lower of cost and net realizable value. Finished goods and Work-in-progress include costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost of inventories is calculated on FIFO basis.

(h) Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties including taxes. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The effect on adoption of Ind AS 115 was insignificant.

The following are the specific revenue recognition criteria:

- a) Revenue from sale of goods is recognized when all the significant risk and rewards of ownership of the goods have been passed to the buyer.
- b) Revenue from services are recognised as they are rendered based on agreements/ arrangements with the concerned parties.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due)

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Assets and liabilities arising from rights of return

Right of return assets

Right of return asset represents the Company's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods,

including any potential decreases in the value of the returned goods. The Company updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products. This is disclosed along with inventories.

Refund liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The Company collects taxes such as sales tax/value added tax, service tax, etc on behalf of the Government and, therefore, these are not economic benefits flowing to the Company. Hence, they are excluded from the aforesaid revenue/ income.

c) Interest income

Interest income, including income arising from other financial instruments measured at amortized cost, is recognized using the effective interest rate method.

d) Dividend income

Revenue is recognised when the company's right to receive the payment is established, which is generally when shareholders approve the dividend.

e) Commission income is recognised as and when the terms of the contract are fulfilled.

f) Other items of income are accounted as and when the right to receive arises.

(i) Taxes

(i) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred tax

Deferred income tax is recognized using the balance sheet approach, deferred tax is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) Minimum Alternate Tax

Minimum Alternate Tax ('MAT') payable for a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available in the statement of profit and loss as deferred tax with a corresponding asset only to the extent that there is probable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. The said asset is shown as 'MAT Credit Entitlement' under Deferred Tax. The Company reviews the same at each reporting date and writes down the asset to the extent the Company does not have the probable certainty that it will pay normal tax during the specified period.

(j) Financial Instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments which give rise to a financial asset of one entity and financial liability or equity of another entity.

Initial Recognition

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets and
- the contractual cash flow characteristics of the financial asset.

(i) Amortised Cost

A financial asset shall be classified and measured at amortised cost if both of the following conditions are met:

- " the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- " the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Fair Value through other comprehensive income

A financial asset shall be classified and measured at fair value through OCI if both of the following conditions are met:

- " the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- " the contractual terms of the financial asset give rise on specified dates to cash flows that
- " are solely payments of principal and interest on the principal amount outstanding.

(iii) Fair Value through Profit or Loss

A financial asset shall be classified and measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through OCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification and Subsequent Measurement: Financial liabilities

Financial liabilities are classified as either financial liabilities at FVTPL or 'other financial liabilities'.

i. Financial Liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL. Gains or Losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

ii. Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. The Company recognises a loss allowance for expected credit losses on financial asset. In case of trade receivables, the Company follows the simplified approach permitted by Ind AS 109 – Financial Instruments for recognition of impairment loss allowance. The application of simplified approach does not require the Company to track changes in credit risk. The Company calculates the expected credit losses on trade receivables using a provision matrix on the basis of its historical credit loss experience.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Equity investment in subsidiaries, joint ventures and associates

The Company has Investment of Rs. 591.90 Lakhs in Dubai Subsidiary (M/s Intra Metal Trading LLC, located in Free Trade Zone at UAE) and same has been disclosed in to Financial "Non-Trade Investments". Due to this, Consolidated Financial Statement for the period ended March 31st 2025, prepared.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(k) Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received.

(l) Convertible financial instrument

Convertible instruments are separated into liability and equity components based on the terms of the contract.

On issuance of the convertible instruments, the fair value of the liability component is determined using a market rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs) until it is extinguished on conversion or redemption.

The remainder of the proceeds is allocated to the conversion option that is recognised and included in equity since conversion option meets Ind AS 32 criteria for fixed to fixed classification. Transaction costs are deducted from equity, net of associated income tax. The carrying amount of the conversion option is not remeasured in subsequent years.

Transaction costs are apportioned between the liability and equity components of the convertible instrument based on the allocation of proceeds to the liability and equity components when the instruments are initially recognised.

(m) Employee benefits**(i) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The company operates the following post-employment schemes:

- (a) defined benefit plans viz. gratuity,
- (b) defined contribution plans viz. provident fund.

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The company pays provident fund contributions to publicly administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iv) Termination benefits

Termination benefits are payable when employment is terminated by the company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits.

(n) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non -occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

(o) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

(p) Segment Reporting - Identification of Segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by geographic segments.

(q) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- “ the profit attributable to owners of the company
- “ by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- “ the after income tax effect of interest and other financing costs associated with dilutive potential equity
- “ the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(r) Current/non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- § Expected to be realised or intended to be sold or consumed in normal operating cycle
- § Held primarily for the purpose of trading
- § Expected to be realised within twelve months after the reporting period, or
- “ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- “ It is expected to be settled in normal operating cycle
- “ It is held primarily for the purpose of trading
- “ It is due to be settled within twelve months after the reporting period, or
- “ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

(s) Cash and cash equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at bank and in hand and short-term deposits with banks having original maturity of three months or less which are subject to insignificant risk of changes in value.

(t) Cash Flow Statement

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

(u) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(v) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh with two decimal as per the requirement of Schedule III, unless otherwise stated.

(w) Events after Reporting date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

2.4 Key Significant accounting judgements, estimates and assumptions

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of impairment of non current assets, useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities and fair value measurement etc. are as under:

(i) Impairment of non - financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to disclosure of fair value of investment property recorded by the Company.

(ii) Useful lives of property, plant and equipment

The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

This reassessment may result in change in depreciation expense in future periods.

(iii) Income taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

(iv) Valuation of deferred tax assets

The Company reviews the carrying amount of deferred tax assets at the end of each reporting period. The policy for the same has been explained under Note (i) above.

(v) Defined benefit plans

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual

developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(vi) Provisions

Provisions and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. Since the cash outflows can take place many years in the future, the carrying amounts of provisions and liabilities are reviewed regularly and adjusted to take account of changing facts and circumstances.

(vii) Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

2.5 Recent accounting pronouncements**Standards are issued but not yet effective**

As on the date of release of these financial statements, MCA has not issued any standards/ amendments to accounting standards which are effective from 1st April 2025.

Note: # Not applicable

The management assessed that the fair value of cash and cash equivalent, other balances with bank, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

ii. Fair Value Measurement

Level 1 - Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3 - If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

iii. Valuation technique used to determine fair value

Specific Valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis

iv. Valuation processes

The accounts and finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the chief financial officer (CFO) and the audit committee. Discussions of valuation processes and results are held between the CFO, AC and the valuation team regularly in line with the company's reporting requirements.

38. FINANCIAL RISK MANAGEMENT

The company's activity expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts, foreign currency option contracts are entered to hedge certain foreign currency risk exposures and interest rate swaps to hedge variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

Credit risk
Credit risk management

The company assesses and manages credit risk based on internal credit rating system. Internal credit rating is performed on a group basis for each class of financial instruments with different characteristics.

The company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information.

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

39. FINANCIAL RISK MANAGEMENT

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company maintains flexibility in funding by maintaining availability under committed credit lines. Management monitors rolling forecasts of the company's liquidity position (comprising the undrawn borrowing facilities) and cash and cash equivalents on the basis of expected cash flows. In addition, the company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

(i) Maturities of financial liabilities

The tables below analyse the company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

The amounts disclosed in the table are the contractual undiscounted cash flows. Balance due within 12 months equal their carrying balances as the impact of discounting is not significant.

(C) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and other price risk such as equity price risk and commodity risk.

(i) Foreign currency risk

The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The company's risk management policy is to hedge around 80% to 90% of forecasted foreign currency sales for the subsequent 1 month. As per the risk management policy, foreign exchange forward contracts are taken to hedge around 40% to 50% of the forecasted sales.

The company while dealing with imports transactions which are denominated in foreign currency which exposes it to foreign currency risk. To minimise the risk of imports, the company may use forward contract to minimise the risk appetite due to foreign currency.

The company uses a combination of foreign currency forward contracts to hedge its exposure in foreign currency risk. The company designates the spot element of forward contracts and the intrinsic value of foreign currency forward contracts as the hedging instrument. The changes in the forward element that relate to the hedged item ('aligned forward element') and the changes in time value that relate to the hedged item ('aligned time value') are deferred in the costs of hedging reserve and recognised against the related hedged transaction when it occurs. The forward element and the time value relate to the respective hedged item if the critical terms of the forward or the option are aligned with hedged item. Any residual time value and forward points (the non-aligned portion) are recognised in the statement of profit and loss.

The forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points.

The intrinsic value of foreign exchange forward contracts is determined with reference to the relevant spot market exchange rate. The differential between the contracted strike rate and the spot market exchange rate is defined as the intrinsic value. Time value of the option is the difference between fair value of the option and the intrinsic value.

(a) Foreign currency risk exposure
(Amount in Lakhs)

Trade Receivables	58,16,989	4,970.93
Bill Discounting	–	0
Advance from Customer	–	0
PCFC	–	0
Net exposure to foreign currency risk	58.,16,989	4,970.93

(b) Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will have the following impact on profit before tax:

	2024-25
Net Increase/(Decrease) in profit or loss	49.71

(ii) Interest rate risk

Interest rate can be either fair value interest risk or cash flow interest risk. Fair value interest rate risk is the risk of change in fair values of fixed interest rate bearing instruments because of interest rate fluctuation in interest rate. Cash flow interest rate risk is the risk that the future cash flow of floating interest bearing instruments will fluctuate because of fluctuation risk.

However, During the year presented in these financial statement, the company had primarily borrowed funds under fixed interest rate arrangements with banks and financial institution and therefore the company is not exposed to interest rate risk.

(iii) Price risk
(a) Exposure

Commodity price risk - The company is affected by the price volatility of certain commodities. Its operating activities require the ongoing purchase and manufacture of spices and therefore require a continuous supply of commodities. Due to the significantly increased volatility of the price of the commodities, the company also entered into various purchase contracts for various commodities for which there is an active market.

Equity price risk - The company is not exposed to other Equity price risk during the year presented in these financials statement.

40. CAPITAL MANAGEMENT

For the purpose of the company's capital management, capital includes issued equity capital, convertible preference shares, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The company's policy is to keep the gearing ratio between 20% to 40%. The company includes within debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents, other balances with bank excluding discontinued operations.
